# Budget Message

By

GOVERNOR EARL WARREN

1953-1954 Budget

*To the Senate and Assembly of the Legislature of California:*

In conformity with Section 34 of Article IV of the Constitution, I submit to you the Budget for the State of California for the fiscal year ending June 30, 1954, together with my recommendations regarding financing it.

California State Government today is in an excellent financial position. We will finish the present fiscal year with our budget in balance and with our vital reserves intact, but as we look into the future we find difficulties in maintaining such a balance under present tax levels because of expense incurred by direct action of the people. The recent action of the voters in adopting a constitutional amendment substantially increasing state support of public schools added a burden to state finances which were already under the strains of inflation, increasing population, still greater school enrollment growth, shifting of obligations from local government to the State, and public demands for more and better services. This increase in school support is almost \$70,000,000 for the budget year, 1953-54, and will mount as the number of youngsters in our schools continues to grow.

Total expenditure requirements for the 1953-54 Fiscal Year are estimated at \$1,326,851,805. This represents an increase of \$82,787,967, or 6.7 percent, over the current year, most of which is for the increased school payment of almost \$70,000,000. Special funds account for \$492,389,017 of these expenditures; \$834,462,788 must be met from taxes and other revenues available to the General Fund.

Inflation in recent years has swelled our revenues as well as increased our costs. Prudent fiscal policies have left us with a \$66,000,000 surplus and have enabled us to put aside some reserve funds for the purpose of liquidating long-term indebtedness and providing for certain future requirements that should reasonably be anticipated. It can be seen plainly, however, that revenues under present law will be short of financing the expenditures we are called upon to meet, regardless of how economically we plan

our future. As is the case in many situations, there is an easy and a hard way of deciding a difficult issue, but the hard way is usually the right way. It would be easy to use up reserve funds for current expenses without regard for the soundness of these funds and without considering how great the future need for them may be. For a year or so we could consume these reserves, as an improvident farmer would eat up his seed corn, and then face a certain deficit—even a crisis if we should have a slight business depression. The hard way is to face the facts as we see them now and as we reasonably forecast them to be in the future. The following are estimates on the State General Fund for the next three years. The figures are on the assumption that there will be no recession during these years, that inflation will be halted at its present level, that our revenues and state operating expenses will increase only at the rate of growth in state population, and that capital outlays can be held to \$40,000,000 per year as a minimum amount to keep abreast of needs.

**ESTIMATED FINANCIAL OPERATIONS OF THE  
STATE GENERAL FUND**

Fiscal Years 1953 through 1956  
(in millions of dollars)

	1953-54	1954-55	1955-56
General Fund revenue-----	\$801.9	\$825.0	\$850.0
General Fund obligations:			
Current expense -----	\$269.3	\$275.0	\$285.0
Capital outlay -----	53.6	40.0	40.0
Local assistance -----	570.4*	621.0	657.0
Total expenditures -----	\$893.3*	\$936.0	\$982.0
Current operating deficiency-----	\$91.4*	\$111.0	\$132.0
Carry-over surplus July 1, 1953-----	\$66.2	-----	-----
Accumulated deficit June 30th-----	\$25.2*	\$136.2	\$268.2

\* Including 5.5 million dollars for the initial year of Aid to the Needy Permanently Disabled, not included in budget totals since the program has not yet been authorized by law.

Even under these moderately optimistic assumptions revenues are \$91,400,000 short of meeting expenditures for 1953-54, the shortage is \$111,000,000 for 1954-55 and \$132,000,000 for 1955-56. A business slump which would cut our receipts by as much as 10 percent would increase the accumulated deficit at June 30, 1955, to \$218,000,000 and to \$435,000,000 at June 30, 1956, if no new revenue measures are taken. We have prided ourselves for 10 years on a balanced pay-as-you-go budget because a solvent State Government is all-important to the welfare of the people of this State.

The present state tax system was enacted nearly 20 years ago. Except for an adjustment in levies for highway purposes there has been no extension of the tax base and no increase in rates since that time. On the contrary, from 1943 to 1949 we reduced taxes by 15 percent for a total saving to the taxpayers of 561 mil-

lion dollars. At the present time our people are paying 18 cents less per hundred dollars of income for state taxes than in pre-World War II years. Meanwhile the State has taken on additional burdens which amount to many millions of dollars at present cost levels. Most of these added burdens are in the form of greater assistance to local government. The new rate for state support for public schools is \$180 per pupil compared to the \$60 rate for elementary schools, which did not then include kindergarten, and \$90 for high schools and junior colleges in 1942-43. The State's share of aid to the aged is now six-sevenths of state and local contributions and for blind, three-fourths—in contrast with the former fifty-fifty sharing. Moreover, the average amount of aid paid to the aged, the blind, and to needy children has been approximately doubled in the intervening years. The counties and cities now get the entire proceeds from liquor licenses and the share of motor vehicle in lieu tax to the extent of \$20,000,000 formerly state revenue sources. Truck tax proceeds amounting to \$12,635,000, now going to highway use, were also a General Fund tax source. There are now heavier subsidies for local health departments, for aid to crippled children, for child care centers, and for debt service on the school building bonds.

During the last 10 years we have set aside certain moneys in reserve funds and special appropriations as a means either of funding existing obligations or making provision for future exigencies. A review of these reserves, together with their balances as of the beginning of next fiscal year, is enlightening.

Bond Sinking Fund of 1943----- \$8,103,521

This fund was established in 1943 and augmented in 1945 with the amount necessary to meet interest and retirement charges on all outstanding state bonds except those which were self-liquidating or which had special liquidating measures. When this fund was established the State became, in effect, debt free. It remained so until the State lent its credit for the school building bond program. Any diversion from this fund would be a form of deficit financing.

Teachers' Retirement Fund Special Deposit----- \$36,853,000

The amount of \$30,000,000 was transferred to the Teachers' Retirement Fund in 1944 as a partial funding of the accumulated deficit in the Teachers' Retirement System. Interest accrued by next June 30th will be \$6,853,000. Here, again, is a fund which might be diverted for meeting current expenses, but to do so would be to increase this deficit and the need for heavier outlays from current revenues in future years.

Flood Control Fund of 1946----- \$16,020,339

This is the cash balance of the \$25,000,000 set aside in 1946 and 1947 to finance local governments' shares of federal flood control projects extending over a period of years. Unfortunately, this balance is insufficient to meet the projects which have already been authorized by law as the amount originally reserved was not sufficient for increasing requirements and because of the subsequent great increase in costs over the original estimates. Dis-

sipation of this reserve would jeopardize the orderly development of flood control projects which are so vital to the people of our State.

**Postwar Unemployment and Construction Fund---** \$6,907,413

This is the balance of the \$90,000,000 appropriated in 1946 for postwar construction by cities and counties. All but \$580,061 of this balance is allocated to particular counties or cities. The remainder was earmarked in 1951 for water pollution control work vitally needed for the purification of our streams.

**Revenue Deficiency Reserve-----** \$75,000,000

This reserve (the so-called Rainy Day Fund) was established as a cushion against a drop in revenues below budget estimates which a business depression would produce. It was also made available for disaster relief in case of an extreme national emergency such as an atomic attack. To dissipate this fund would not only weaken the financial stability of the State but would trifle with the life of every man, woman and child in our State. If it is ever needed in time of national disaster, it will be all too small.

**Capital Outlay and Savings Fund-----** \$31,785,612

This is a carry-over of funds reserved for capital outlay needs. This budget will require every dollar of this amount to meet absolutely urgent hospital, correctional and educational building needs.

**Civil Defense Outlay-----** \$5,434,752

This represents the remainder of the \$12,000,000 set aside in 1951 for civil defense outlays such as fire fighting equipment, rescue equipment, sirens and warning systems, and medical and first aid stockpiles. It is likely that an expanded civil defense program would require the entire amount as originally reserved and this balance should, therefore, be retained at least until we know what the civil defense program of the new national administration will be.

**School Bond Retirement Fund-----** \$49,200,000

The voters have now authorized a total of \$435,000,000 in state bonds for the purpose of advancing money to school districts to build school buildings in districts where the school population has so far outstripped the rise in assessed value of taxable property that the individual districts cannot finance the buildings without state aid. It is estimated that the school districts will be able to meet approximately two-thirds of the debt service on these bonds, that the remainder will be a net obligation of the State. As a partial funding of this state obligation, \$50,000,000 was placed in this retirement fund. Actually if the State were completely to fund its full share of this obligation approximately \$90,000,000 additional should be placed in this bond retirement fund. As long as the State is obligated to repay a portion of these bonds, this money cannot be considered a surplus and it seems only reasonable that if inflation has been largely responsible for this obligation, revenues obtained during inflationary times should be used to amortize the obligation. Here again is a fund which could be drawn upon to meet the current revenue deficiency, but to do so would mean only adding to future deficits.

In addition to the \$50,000,000 set aside in this fund \$20,000,000 was appropriated this year from the General Fund for school

building construction to be advanced to the school districts in the same manner as the bond funds, with the same repayment requirements by the districts. The \$185,000,000 bond issue approved by the voters last November includes authorization for \$20,000,000 in bonds to repay the General Fund if the repayment is necessary to maintain the General Fund with a surplus of at least \$5,000,000 at June 30, 1953. Since the repayment to the General Fund will not be required, under present law this \$20,000,000 in bonds will not need to be sold. A change in law, however, could make this amount available. Such a change would have the result of increasing the State's long-term debt.

Central Valley Acquisition----- \$9,593,919

This is what will remain of the \$10,000,000 appropriation made in the 1952 Budget for plans and "down payment" for the proposed acquisition of the Central Valley Project from the Federal Government. It is probably unnecessary to reserve the entire \$9,594,000 since any purchase arrangement would call for payment out of revenue bond proceeds. The above balance could be used for related water project plans such as the Feather River Project.

As indicated earlier, General Fund expenditures for the 1953-54 Fiscal Year will exceed the revenues of the year by more than \$91,000,000. (The deficiency would be greater by \$31,800,000 were it not for the unappropriated balance of that sum in the Capital Outlay and Savings Fund which will be used to supplement current funds for this budget's proposed capital outlay expenditures.) Against this deficiency we can apply a carry-over surplus of \$66,200,000, giving us a net deficit of \$25,200,000. We could draw upon one or more of the above reserve funds to meet this deficit. That would be the easy way so far as the immediate year is concerned, but there would be another day of reckoning in 1954. In that year our revenue deficiency would be more than \$111,000,000; the surplus would be gone and the reserves diminished.

I repeat, the above forecast is an optimistic one. If, as some economists predict, a business recession occurs after the peak of defense spending in late 1953 causing our revenues to decline, we would be short many millions more. At the same time, decreases in employment opportunities would multiply our expenditure needs for social welfare. Then there would be the inescapable necessity of drastic tax increases at a time when the State's economy could stand it the least.

The question arises as to whether the budget can be balanced solely by reducing expenditures. I believe no one would seriously contend that state expenditures can be reduced 90 to 120 millions of dollars per year without seriously crippling the services State Government renders to our people.

More than 65 percent of the State's expenditures are in the form of fixed charges under continuing appropriations and formulas established in the Constitution and permanent laws. They are not subject to ordinary budget control. They are mostly for

schools and social welfare. The people have time and time again voted to increase and extend these costs rather than reduce them.

Of the remaining 35 percent, \$58,600,000 represents additional subventions to local communities and \$95,800,000 is for capital outlay, particularly for hospitals, colleges, the university, youth facilities, and correctional institutions. The remainder of \$309,400,000 is for state expenditures which are subject to budgetary control, the greater part of which are in the fields of mental hygiene, corrections, higher education and protection of natural resources. The expenditure requirements in this budget have been carefully reviewed; the recommended amounts are, in my opinion, minimum requirements for effective performance of necessary services. This State can well be proud of its record of efficient, honest and forward-looking State Government. I offer my full cooperation and the assistance of the personnel of our state departments in your consideration of this budget with the objective of further economies if any can be accomplished. I urge, however, that we avoid false economies. It would be false economy, for example, to cut the appropriations for the Department of Mental Hygiene in such amounts that it could not proceed with its program of modern medical and psychiatric treatment which restores so many patients to useful lives. To compel it to go back to a program of mere custody would, in the long run, cost more money and fail miserably to meet the human needs. It would not be sound economy to cut our correctional system to the point where the gains in rehabilitating youthful and adult offenders would be lost. It is not good economy to continue with an understaffed Highway Patrol; a moderate increase which will serve to reduce our motor vehicle accident rate is surely good dollars-and-cents economy as well as economy in human life and limb. It would be wasteful to cut the Forestry Division below amounts needed to maintain its splendid record of low fire losses. It is not sound economy to withhold funds for the construction of needed hospitals, college classrooms, and other buildings where the need cannot be denied. Postponement only adds to future budgets.

The budget document presents a complete and fair picture of our financial situation and full information on the requirements for all state departments and functions. Your attention is invited to the major expenditures under each of the three main sections, State Operations, Capital Outlay, and Local Assistance.

## STATE OPERATIONS

As compared to Local Assistance the amounts required for all of the operating expenses of the many agencies and activities of the State Government account for the smaller part of the total budget and a much smaller part of the total increase in expenditures. Most of the increase which is recommended is for putting

into operation previously authorized and newly built facilities for educational, hospital and correctional use.

The new Deuel Vocational Institution at Tracy with a capacity for 1,200 inmates will be first occupied in July, 1953. This, in addition to general improvements in parole, feeding and medical care, accounts for most of the increase for the Department of Corrections. Provision is made in the *Youth Authority* section of the department for starting the new Reception Center for Northern California which will be ready in March, 1954.

In the Department of Education the new School for Deaf in Riverside will begin its first year of operation. There will be substantial increases in enrollment at the new state colleges at Long Beach and Sacramento, and moderate increases in the other colleges.

The *University of California* will need a considerable increase for the new Medical School in Los Angeles and the new colleges of letters and sciences at Riverside and Davis.

The *Department of Mental Hygiene* requires funds to operate the new hospital for mental defectives at Porterville for the full budget year, the new hospital for maximum security cases at Atascadero for the latter part of the year, and the new receiving and treatment units at Napa and Stockton soon to be completed. Provision is made for some improvement in feeding, occupational therapies, and social service work.

An augmentation of 180 officers is recommended for the *Highway Patrol* as a further step toward meeting the full need for an adequate policing of highway traffic. A still larger force is badly needed. The proposed increase is limited to the number which can be recruited and trained during the year. This agency is, as you know, supported from the Motor Vehicle Fund.

In conformity with the recommendation of the Personnel Board in its annual report there is included a provision for an increase in the *pay of state employees* which would average 5 percent of present rates. As you will see from a reading of the board's report, a survey of pay increases granted by private industry since the last general increase would justify at least half that amount now and there is a strong likelihood that the full 5 percent will be justified by the beginning of the budget year under our long standing policy of maintaining state pay equal to that in private employment and other governmental units. I call your attention to the fact that the Personnel Board has been conservative in granting pay increases and will turn back unspent approximately \$1,977,716 of the amount you appropriated last year.

These items make up the greater part of the increase under State Operations.

## CAPITAL OUTLAY

This section of the budget deals with all of the State's capital outlay needs, including highways. The amount allocated for highway construction and improvements is limited in this document in accordance with the budget provisions of the Streets and Highways Code to estimates of the receipts which existing laws will yield for this purpose. The recent studies of your Joint Fact-Finding Committee on Highways have shown that present highway revenue measures, in these days of inflated costs, are far short of meeting deficiencies in our highway system. The terrible toll of injuries and deaths caused by overcrowded highways cannot be allowed to go on. The highway construction problem must be dealt with separately and I shall give you my full cooperation in finding a sound solution without further delay.

A careful review has been made of the construction needs for correctional, educational, and hospital uses. Only the most urgent projects have been included. At present day costs, however, they require a large sum of money and any postponement of them would neither be honest budgeting nor sound economy. For many years during the prewar depression hardly any funds were appropriated for the then growing capital outlay needs. During the war years, no construction work could be undertaken. In the post-war period we have devoted our efforts to catching up with these long years of neglect. Good progress has been made, but cost increases have almost trebled the amounts required for a given project as compared with prewar levels. To be specific, before World War II we could have constructed the buildings herein recommended for approximately \$33,000,000 instead of the \$90,000,000 we must pay for them at current prices.

We must build to meet the tremendously growing needs of our expanding population. Having grown by almost 4,000,000 in the last 10 years, our population is continuing to increase by approximately 370,000 annually. This means 150,000 new school children, 250,000 more automobiles, 1,500 more patients in our state hospitals and homes, 1,000 more inmates in correctional institutions, and so on, with all of our institutions presently overcrowded.

The largest project for the *Department of Corrections* is the completion of the Medical Facility at Vacaville which will provide additional capacity there and permit some relief of overcrowding at other institutions.

There is included for the *state colleges* and the *University of California* the most urgently needed additional classrooms and service facilities.

Most of the capital outlay budget for the *Department of Mental Hygiene* is for hospitals for mental defectives. The largest single item is for a start on the new institution near Costa Mesa and more buildings are included for the hospitals at Porterville, Pacific Colony and Sonoma. You know, I am sure, of the thousands of cases of mentally deficient children on waiting lists

which the Department of Mental Hygiene has been unable to accept because of the lack of beds. It is difficult to appraise the hardship and heartache caused to thousands of homes by the failure to take these cases, and the tragedy that many may lose their chances for useful and happy lives because they could not be given early care and treatment under advanced medical methods.

I am happy to say that the brand new hospital for mental defectives at Porterville will be ready to take its first patients in May of this year, but this is only meeting a portion of the shortage. The completion of our entire program for mental defectives will permit the State to meet its responsibility in this field for the first time in its history.

The total of the recommended appropriations from the Capital Outlay and Savings Fund amounts to more than \$83,700,000, including minor construction items and an allotment of \$8,500,000 to meet rises in cost which will have occurred since earlier appropriations were made. This program contemplates appropriating the entire amount of the carry-forward balance of \$31,800,000 in the Capital Outlay and Savings Fund and a transfer of \$51,700,000 from the General Fund. There are large projects of capital outlay yet to be financed. A new campus for the Los Angeles State College of Applied Arts and Sciences, an additional prison and an additional Youth Authority school have been authorized and heavy outlays will be required to begin construction on these new institutions within the next few years.

I recommend that there be placed in the Capital Outlay and Savings Fund as a partial financing of these outlays the State's share of the impounded oil royalty funds amounting to approximately \$35,000,000 which would otherwise be paid into the General Fund, if and when title to these funds is recovered by the State.

The proposed program still leaves untouched the very serious shortage of office space at the State Capital and in the principal cities where branch offices are maintained. The present overcrowded condition of many departments is a handicap to efficient operation, and it is poor business to be spending the millions now required for rented quarters. I trust that a means of financing at least a major part of the required office building needs can be developed at this session.

## LOCAL ASSISTANCE

Excluding capital outlay items, two-thirds of the State's normal, day-to-day expenditure program for 1953-54 is represented in the \$744,069,000 earmarked for assistance to local governments. The outstanding feature of these payments is their fixed nature. More than 9 out of each \$10 in local assistance is fixed by provisions of the Constitution or statutes; less than \$1 is subject to control in preparation of the budget. These fixed, continuing appropriations, which for the most part are

computed by specified formulas, will increase \$100,647,000 during the budget year as compared with 1952-53. This change is partially offset by a decline in controllable costs resulting chiefly from the nonrecurrence of the \$20,000,000 appropriation for building loans to distressed school districts. Consequently, the net increase in appropriation requirements for local assistance is \$88,009,000.

Three basic factors account for this multimillion-dollar increase: (1) the recent constitutional amendment which raised by nearly one-fourth the State's contribution for each pupil in the Public School System, (2) the rapid growth in school population, and (3) a continued rise in receipts from motor vehicle taxes which are shared with city and county governments. Appropriations for local school purposes during 1953-54 are estimated at \$406,958,000, an increase of \$75,150,000 from the current year. Shared revenues from liquor licenses, motor vehicle fees and fuel taxes going to cities and counties will total nearly \$163,900,000, a gain of \$10,850,000.

It is encouraging to report a decided leveling off in costs in the programs for aid to the aged, the blind, and to needy children. There will be a reduction of more than \$750,000 in state costs of aid to needy children and only relatively small increases in the amounts for aged and blind. The greater opportunity in today's labor market for employment, improvement in administration, and heavier payments under the recent amendments to the Federal Social Security Act are the reasons for this improved situation.

This State has so far failed to avail itself fully of the advantages of the Federal Social Security Act amendments in delaying its participation in the program for aid to the needy permanently disabled. I again recommend that we amend our welfare laws so as to bring the totally and permanently disabled under a program similar to that for the aged. Certainly no group of needy persons merits consideration more than those with complete and permanent disabilities. They are less able to care for themselves than most others whose needs have been recognized for years. Most of them now receive some assistance through county general relief, but their needs could be much more adequately met through this program of joint federal, state and local aid.

You will remember I recommended the establishment of such a program in 1951 soon after this category was included by Congress in the Federal Social Security Act. In the meantime 38 states and territories have adopted programs and we have had an opportunity to study the experience of such states as New York, Pennsylvania, Ohio, Massachusetts, Illinois and New Jersey. Experience in these states has demonstrated that the cost estimates which I presented to you at the last regular session were substantially accurate in contrast to the extravagant estimates

given you by the opponents. The adoption of this addition to our social welfare program will make available to us about 5½ million dollars in federal grants in the budget year, and will permit the counties to make a saving of one and one-half million per year in their present outlays for general relief. I have accordingly included in the figures presented to you in this message on the General Fund finances an estimate of \$5,500,000 as the cost of this program for the initial year, 1953-54, and \$14,700,000 for the full Fiscal Year, 1954-55, when it would be on a going basis. While technically this is a new state expenditure program, the State's obligation to this very needy and deserving group of its citizens is not new, and California has already delayed too long in meeting this obligation, particularly since the Federal Government has made funds available to share the costs and has recently given substantial relief to this State through its heavier sharing of aid to the aged, by its increased grants for old age and survivors insurance.

### **A BALANCED BUDGET**

Because of the factors mentioned, I have regretfully concluded after a thorough review of needs, that we cannot reach a sound solution of the financial problem confronting us, in any large measure, by reducing appropriations. I know that the people of the State would not agree to a reduction of state responsibilities and services in any such magnitude. The easy way, then, would be for me to submit to the temptation of piecing out our revenues by using some of the reserve funds to balance the budget this year, leaving the future to take care of itself. I dislike increasing the tax load on the people of California as much as anyone. During the 10 years I have been Governor we have had general tax reductions rather than increases. This would not be an honest budget, however, if I did not lay the full problem before the Legislature and the public and point out the consequences of adopting a policy of expediency and temporizing at this time. Some will say that we have overestimated the financial problems of the future, that we underestimated revenues in the past, that future receipts will again exceed our forecasts, and that we should not cross the bridge of a big deficit until we come to it. It would be poor counsel, in my judgment, either to overestimate future income or underestimate future governmental expense. This would be gambling too heavily with the State's future and would be putting all our eggs in the basket of inflation. If we cannot finance ourselves on a pay-as-you-go basis without using up essential reserves while we are at the peak of prosperity and employment, when can we do it? We have not gambled in estimating revenues and I make no apology for that. If we had gambled, we would be in real trouble this year. Certainly, duty should impel us always to be conservative in fixing our spending limits.

Should we ever fail in that regard, our State will be in great jeopardy.

The state spending program which we jointly developed could, in all probability, have been maintained and financed within our existing tax laws, but the heavy increase in state school support adopted by the voters in passing Initiative Measure No. 2 will add more than the State's present tax system can carry. I do not quarrel with the voters in their decision to increase school financing, because I share their desire for a good school system. I merely say that it will be necessary to raise revenues to pay for it. Accordingly, if the Legislature determines, as I believe it should, to continue State Government on a pay-as-you-go basis it will be necessary to have more revenue and, in my opinion, the least objectionable revenue measures it could adopt to accomplish that result would be a new cigarette tax and increased levies on liquor and horse racing. Most states have had cigarette taxes for a good many years. California is one of the seven which so far has not used this form of tax. California's tax rate on distilled spirits is one of the lowest in the Nation at the present rate of 80 cents a gallon. The national average of such state taxes is \$1.60 a gallon. I have, for some time, felt that an adjustment should be made in the license tax on pari-mutuel betting on horse racing to place a heavier levy on the highest brackets of wagering receipts which bring the largest track operators excess profits beyond reasonable returns.

Following are the calculations of yields which can be derived from such measures:

	<i>Estimated yields</i>	
	<i>1953-54</i>	<i>Full year 1954-55</i>
Cigarette tax		
At rate of 2 cents per package-----	\$26,500,000	\$30,200,000
Liquor excise tax		
Increase tax on distilled spirits from 80 cents per gallon to \$1.50 per gallon-----	12,500,000	13,600,000
Additional 2 cents per gallon on beer-----	3,600,000	4,000,000
Additional license fees on horse racing		
Excess profits -----	1,000,000	2,000,000

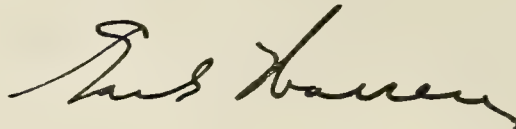

A combination of these levies can be enacted at this session in such way as to produce sufficient revenues to meet the deficiency for 1953-54 with a margin of safety and to make a substantial start in meeting the much greater deficiency in the year to follow.

In conclusion and by way of summary, I repeat what has been stated in other parts of this message. First, that the current budget will be in balance at the end of the present fiscal year. We will have, in addition, a surplus of \$66,000,000, but due largely to the passage of Proposition 2, at a cost of \$67,000,000,

this proposed budget will be out of balance next year unless we obtain additional revenue. Second, it would be possible to supply this deficit by raiding one or more of our funds reserved for vital purposes. This would appear to be the easiest method, but it would, in my opinion, be unwise from at least two viewpoints: (1) the practice thus established would be used as a precedent for continued raiding until these necessary reserves would be exhausted, and (2) because it would eventually leave our State on the ragged edge of insolvency. I recommend against such action. The only other way of providing funds after we have reduced spending to a minimum, as we have done in this budget, is by increasing taxes in some form. I dislike raising the tax load of the people. I have never done it. We have always lived within our means and have reduced taxes whenever possible, but if we must increase taxes, I believe the best way to do it is by imposing levies on liquor, cigarettes, and horse racing comparable to the average state levies throughout the Nation. This can be accomplished by the schedule above set out, and I so recommend to you.

While I present these measures as the least objectionable means of raising the necessary funds, I realize that it is the prerogative of the Legislature to determine the tax structure of our State and I will welcome any alternative plan which would maintain an equitable revenue system and keep the State Government in a sound financial condition.

Respectfully submitted,

*Earl Warren*  
Governor

January 12, 1953

# Letter of Transmittal

HONORABLE EARL WARREN, *Governor of California*  
*State Capitol, Sacramento, California*

DEAR GOVERNOR WARREN: Transmitted herewith are the summary tables and detailed statements for the Budget of the State of California for the Fiscal Year July 1, 1953, to June 30, 1954, compiled in accordance with your policies and instructions.

The revenue estimates presented in this budget are based on the assumption that there will be no material increase in war activities and the defense program will be continued as now planned. The amounts shown have been determined after a careful appraisal of trends and after consultation with national and state economists. They have been reviewed with the staffs of the State Controller and the administrators of the principal tax laws, who are in substantial agreement.

Again we have had excellent cooperation from department heads and staff members in determining expenditure requirements.

Respectfully yours,

A handwritten signature in dark ink, appearing to read "James E. Moran", with a stylized, flowing script.

Director of Finance

January 12, 1953

# Summary Statements

---

Schedule 1. General Budget Summary.

Schedule 1-A. Reconciliation of General Fund Accumulated Surplus as of June 30, 1953, as Estimated in the 1952-53 Budget with the Amount Estimated in the 1953-54 Budget.

## Explanation of Budget Revenue Estimates

Schedule 2. Comparative Statement of Revenues for the Fiscal Years 1951-52, 1952-53, and 1953-54.

## Analysis of Expenditure Requirements

Schedule 3. Comparative Statement of Expenditures by Character, Function, Organization Unit and Fund for the Fiscal Years 1951-52, 1952-53, and 1953-54.

Schedule 4. General Fund, Statement of Financial Condition, June 30, 1952.

Schedule 5. Summary of Fund Condition by Funds as of June 30, 1952, June 30, 1953, and June 30, 1954.

Schedule 6. Statement of Balances in Other Treasury Funds Not Included in Budget Totals as of June 30, 1952, June 30, 1953, and June 30, 1954.

Schedule 7. Comparative Statement of Contributions and Expenditures of Federal Aid Granted to the State of California for the Fiscal Years 1951-52, 1952-53, and 1953-54.

Schedule 8. Schedule of Proposed Expenditures by Method of Appropriation for the Fiscal Year 1953-54.

Schedule 9. Comparative Statement of Fixed Charges and Controllable Expenditures for the Fiscal Years 1951-52, 1952-53, and 1953-54.

Schedule 10. Reconciliation of the 1952-53 Budget with the Estimated Expenditures for 1952-53 as Presented in the 1953-54 Budget.

Schedule 11. Statement of Bonded Debt of the State of California as of November 30, 1952.

<sup>a</sup> If the extraordinary withdrawals for School Bond Retirement Fund, \$50,000,000; School Building Loan Fund, \$20,000,000; and civil defense capital outlay, \$5,434,752; totaling \$75,434,752, be considered to have been withdrawn from the surplus accumulated in prior years, the beginning Adjusted Surplus at July 1, 1952 is \$84,951,749.

<sup>b</sup> In addition, Aid to the Needy Permanently Disabled will require \$5,500,000 for 1953-54. This amount has not been included in these totals under the long standing practice of not including in the budget schedules expenditures which have not yet been authorized by basic laws. If this program is authorized, Local Assistance would be \$570,412,834, total General Fund outgo would be \$893,353,209, and the accumulated deficit would be \$25,221,329, recommended to be met by increased revenues.

## RECONCILIATION OF GENERAL FUND ACCUMULATED SURPLUS AS OF JUNE 30, 1953 AS ESTIMATED IN THE 1952-53 BUDGET WITH THE AMOUNT ESTIMATED IN THE 1953-54 BUDGET

ACCUMULATED SURPLUS, JUNE 30, 1953, as estimated in the 1952-53 Budget.....		\$69,854,841
Effect of Legislative Action on the Budget Bill and Special Appropriation Measures Enacted:		
Provided funds for acquisition of the Central Valley Project.....	—\$10,000,000	
Increased amount available for salary increases.....	—1,633,735	
Additional amount made available for school apportionments.....	—11,000,000	
Provided for transfer to School Bond Retirement Fund the amount to be loaned to the Veterans Farm and Home Building Fund.....	—50,000,000	
Decreased amount of transfer to the Capital Outlay and Savings Fund.....	+7,834,456	
Other net changes.....	+77,226	—64,722,053
ACCUMULATED SURPLUS, as reported on April 18, 1952.....		\$5,132,788
Effect of Revised Estimate of Revenues and Special Appropriation Measures Enacted at the 1952 2nd Extraordinary Session:		
Increase in estimated revenues for 1951-52:		
1952 Budget estimate.....	\$712,382,021	
Revised estimate.....	732,298,541	+19,916,520
Special Appropriations:		
Savings in Social Welfare Aid payments.....		+4,531,200
State operations.....		—107,711
Earthquake damage repair.....		—3,000,000
School building construction.....		—20,000,000
ACCUMULATED SURPLUS, after action at the 1952 2nd Extraordinary Session.....		\$6,472,797
Effect of Revised Estimates of Revenues and Expenditures as Presented in the 1953-54 Budget:		
Increase in estimated revenues for 1951-52 and 1952-53:		
1951-52 Actual Revenues.....	\$734,025,725	
Previous estimate.....	732,298,541	+1,727,184
1952-53 Revenues per 1953 Budget.....	776,304,538	
1952-53 Revenues per 1952 Budget.....	743,294,513	+33,010,025
Revised expenditures for 1951-52 and 1952-53:		
Savings in State operations for 1951-52.....		+5,186,881
Savings in State operations for 1952-53.....		+3,758,232
Savings in Salary Increase fund for 1951-52.....		+1,891,384
Savings in Salary Increase fund for 1952-53.....		+1,977,716
Changes in capital outlay program.....		—187,723
Savings in local assistance for 1951-52.....		+3,655,906
Savings in local assistance for 1952-53.....		+7,467,478
Prior year surplus adjustment.....		+1,269,474
ACCUMULATED SURPLUS, JUNE 30, 1953, as estimated in the 1953-54 Budget.....		\$66,229,354

# SOURCES AND USES OF STATE FUNDS 1953-1954 FISCAL YEAR

# Budget Revenue Estimates

For the third successive year, it is necessary to emphasize the uncertainties introduced into any revenue forecast by international conflict and political unrest in many parts of the world. Contingencies, ranging from the possibility of peace to the chance of intensified and spreading war, could set in motion forces having a tremendous effect upon the nation's economy, and in turn, upon State revenue receipts. New policies are being formulated to govern this country's foreign affairs and its prosecution of the Korean war. The direction these will take, the degree of success to be achieved, and the counter-moves by communist powers cannot be known at this time. The revenue estimates for the next eighteen months, presented in this budget, rest upon the two basic assumptions: (1) the Korean war will not be materially intensified nor spread to new areas, and (2) the national defense program will not be diminished by an uneasy peace.

State tax collections have clearly reflected the price inflation and business volume generated by the national defense program. With the prospect of a further moderate rise in expenditures for national security and with a continued high level of civilian activity, State revenues are expected to reach a new record total of \$1,195,747,023 during the 1953-54 Fiscal Year, an increase of \$46,319,983 over the current period and \$109,403,287 above actual receipts during the year which closed last June 30th. Of this total, \$801,902,526 will accrue to the General Fund, while \$393,844,497 will be deposited in the various special funds. Comparative data showing the amounts received from principal sources during 1951-52, together with estimates for the year in progress and the budget period, are shown in the following table:<sup>1</sup>

## COMPARISON OF STATE REVENUES (Thousands of dollars)

	<i>Actual 1951-52</i>	<i>Estimated 1952-53</i>	<i>Estimated 1953-54</i>

<b>Total, Special Funds</b>	<b>\$352,318</b>	<b>\$373,123</b>	<b>\$393,844</b>
<b>Grand Totals, Revenue---</b>	<b>\$1,086,344</b>	<b>\$1,149,427</b>	<b>\$1,195,747</b>

### Current Year Receipts

The revenue forecasts presented a year ago were predicated upon a controlled national economy, with major emphasis on defense production and a moderate scarcity of civilian durable goods. Developments within the last year have changed these conditions materially and have altered the present revenue outlook. A stretch-out of the national security program has allowed a larger volume of production for civilian needs than

<sup>1</sup> Amounts in the following tables may not add to the totals shown, due to rounding.

seemed probable a year ago. As a result, allocations of raw materials have been liberalized and most controls over production and prices have been discarded. With the exception of new car purchases, consumer expenditures for durable goods in California during 1952 exceeded the record volume registered during the previous year. Aggregate personal income increased more rapidly than anticipated, particularly wage and salary receipts. Profits during 1951 were somewhat larger than indicated in preliminary reports obtained from corporations operating in this State, but corporate earnings in 1952 appear to have been at the level forecast a year ago.

Each of these developments has contributed to the yield from principal taxes. Although the revised estimates of receipts from several levies fall below the projections made in the 1952-53 Budget, total revenues during the current year are now estimated at \$1,149,427,040, an increase of \$46,956,957, or 4.3 percent, over the amount shown in the previous budget. General Fund collections, which are especially sensitive to changes in income and spending, will reach \$776,304,538, a gain of 4.4 percent over the original estimate, while special fund receipts of \$373,122,502 will exceed the original estimate by 3.9 percent. A comparison of the original and revised estimates is given below:

## ESTIMATED REVENUE, 1952-53 (Millions of dollars)

<i>Source</i>	<i>Original</i>	<i>Revised</i>	<i>Change</i>	<i>Percent change</i>
Sales and Use Taxes-----	\$427.1	\$451.8	\$24.7	5.8

<b>Totals -----</b>	<b>\$1,102.5</b>	<b>\$1,149.4</b>	<b>\$47.0</b>	<b>4.3</b>

## THE 1953 OUTLOOK

Several of the most important factors contributing to the high level of economic activity in the United States during the past year will continue to exercise a vital influence in 1953. Chief among these is the increasing volume of defense expenditures. Investment in commercial and industrial facilities will be large, although possibly under the total for 1952, while residential construction will be well sustained. With greater income, demand for consumer goods will increase. Some concern has been expressed regarding business trends in the latter part of the year, but recently there has been a tendency among business commentators to move the critical period into 1954. The revenue estimates here presented assume a leveling off in business activity in the early months of that year.

Although temporary and artificial in nature, the national defense program is scheduled to be at or near the maximum effort now contemplated and will provide the basic support for large scale economic operations. According to the Office of Defense Mobilization, appropriations for military procurement and construc-

tion have totalled \$129 billion since Korea. Items worth \$41 billion have been delivered or constructed, \$58 billion are in process or on order, and contracts covering the \$30 billion balance will be let before July, 1953.<sup>2</sup> Allowing for some further stretchout of the program, expenditures for national security in 1953 have been estimated at \$56.5 billion. While estimates range from \$50 to \$62 billion, this figure represents a consensus of opinion. Economies are likely to be effected in certain other Federal costs, but these may be offset by an increase in parity payments, with only a minor net change in the total of nondefense expenditures. Outlays by State and local governments are expected to increase as these agencies continue to bite into the backlog of need for highways, schools, and other facilities. In the aggregate, governmental expenditures for goods and services during 1953 are estimated at \$86.0 billion, a gain of \$8 billion over the total for the previous year, with most of the change centered in defense payments. Of the several factors affecting the short-term outlook, this increase seems to be the most certain and measurable.

In contrast with this relative degree of certainty, the outlook for private investment in industrial plants, commercial establishments, equipment, inventories, and residential property during 1953 is somewhat uncertain. A decline in total expenditures for these purposes was registered last year, as inventory accumulation dropped sharply from the peak reached in 1951. However, industrial expansion was continued at the high rate which has characterized most of the postwar years and residential building, although substantially below the record established in 1950, exceeded expectations by a wide margin.

Recent surveys of the building outlook for 1953 indicate an increase in the volume of private construction.<sup>3</sup> While these reports are encouraging and there are several indications that operations will be large, some restraint must be exercised in appraising the probable building situation during the new year. Industrial expansion has been maintained at a very high volume for several years, with an increase of nearly 50 per cent in the nation's factory capacity since World War II.<sup>4</sup> This is substantially above both the rate of population growth and the rate of expansion normally used in projecting productive capacity. A reduction in expenditures for defense plants is anticipated during the year<sup>5</sup> and, although the volume of commercial building may increase, there is room for considerable doubt that gains in the light construction field will completely offset the decline in heavy building. For purposes of the budget revenue estimates, it has been assumed that private investment in physical plant and other facilities will decline approximately 10 percent for the nation as a whole. However, the exigencies of continued population growth should result in a smaller decrease so far as building operations in California are concerned.

### Consumer Expenditures

A number of important elements in the current outlook combine to indicate an increase in personal

consumption expenditures during 1953. Employment is likely to be sustained at, or above, the 1952 level by the larger output of defense materials. There has been a resurgence of demand for clothing and textile products. Motor vehicle production will be increased as controls are relaxed in the coming months. Dollar volume of spendable income will be greater as a result of wage increases for workers in several important segments of the economy. Elimination of credit controls should contribute moderately to the volume of business transactions. Although consumer credit is currently high in terms of aggregate dollars, it is not out of line in relation to total personal income. Finally, ample raw materials and a large productive capacity indicate that demand rather than supply will be the determining factor in the 1953 markets. Therefore, greater attention will be focused upon design, styling, improvement of products, and more aggressive selling methods.

Personal consumption expenditures in the nation during the year are estimated to total \$223.5 billion—an increase of \$7.5 billion over 1952 and approximately equal to the gain registered between 1951 and 1952. This increase will be divided almost evenly among the three major classifications: nondurables, services, and durable goods, with the prospect of larger unit sales of automobiles particularly important in the last class.

Except for the expected termination of the excess profits tax on June 30, no changes are anticipated in Federal tax levies during 1953. It is assumed that the large volume of defense expenditures will prevent an adjustment in other levies before the expiration of the present temporary rates on December 31, 1953, and March 31, 1954.

Fiscal transactions of the Federal Government may result in a moderate cash deficit, but this is not likely to be an influential factor in the price situation. Adequate productive capacity and increased efficiency resulting from the large outlays for plant modernization in recent years are expected to dampen any inflationary trend. Food indexes, both wholesale and retail, are expected to decline slightly, but indications point to relative stability in other prices. No change is anticipated in the wholesale price index, while the consumers' price index should show a fractional rise, due chiefly to upward adjustments in rents and the cost of utility services.

Under these conditions, the gross value of goods and services produced by the nation's economy is expected to reach \$355 billion—an increase of \$10 billion over the previous year, or approximately two-thirds of the advance scored in 1952. Personal income is estimated at \$274 billion, compared to \$268 billion in 1952, with a major part of the change attributable to larger salary and wage payments. Corporate profits and proprietors' income are expected to remain substantially the same as in 1952 under the impact of a more competitive market. Dividend payments should increase somewhat as the tax on excess profits is eliminated and a larger share of earnings is distributed to stockholders. Interest and rental income may increase, but the changes are not likely to be significant in the income total.

It is believed that economic activity in California will be better than in the nation and the proportionate gains scored in recent years will be extended. In 1947, the people of this State accounted for 8.66 percent of

<sup>6</sup> Seventh Quarterly Report to the President by the Director of Defense Mobilization, pages 12-15.

the income payments in the country as a whole. By 1951, this ratio had advanced to 8.77 percent, and preliminary estimates for 1952 indicate a further gain—at least 9.14 percent of the total. Projections for 1953 show a total income volume of \$24.4 billion for California residents, representing another advance in the relative position of this State in the national economy.

### Population Growth

Population growth during the budget period is expected to follow the general trend of recent years. From a census total of 10,586,223 on April 1, 1950, the number of California residents increased to an estimated 11,500,000 on July 1, 1952. Projections to the corresponding dates in 1953 and 1954 show totals of 11,870,000 and 12,190,000, respectively. Incomplete reports on births and deaths during 1952 indicate that last year may have set a new record for natural increase. If the previous high of 156,000 established in 1951 is not exceeded, the margin of difference will be narrow. Available indicators point to a continued net in-migration of new residents from other areas.

### Economic Data

The forecasts of production, income, expenditures, prices, and population in 1953, necessary to form a consistent background for the budget revenue estimates, are summarized in the accompanying table. Values have been estimated on the basis of a careful appraisal of trends and with the advice of national economists and economic analysts familiar with California conditions. As indicated at the outset of this statement, they rest upon the two fundamental assumptions that this nation will not become involved in an intense war and that the defense program will be prosecuted at the degree now scheduled.

### GENERAL FUND REVENUE

The direct relationship between business activity and General Fund revenue receipts has been emphasized on many occasions in the past. The three major levies, accounting for 86 percent of the total, are directly geared to individual income, volume of spending, and corporate earnings. A change in retail trade is reflected in sales tax receipts within four months. Improvement or reduction in corporate profits affects tax collections three months after the close of corporate accounts, while fluctuations in personal income during a calendar year influence State revenues within the first few months of the succeeding year. Such subordinate taxes as those on alcoholic beverages, insurance, and inheritances are indirectly related to economic conditions and income, with receipts from these sources fluctuating through a narrower range but following the underlying trends. The precarious balance between revenue and business transactions was amply demonstrated in the minor recession of 1949, when taxable sales and income declined and a \$22,000,000 drop in General Fund revenue was avoided only by the automatic termination of the temporary tax reductions enacted during World War II.

Under the economic pattern forecast for 1953, General Fund revenues to be received in the 1953-54 Fiscal Year are estimated at \$801,902,526. This represents an increase of \$25,597,988 over the indicated total for

### ECONOMIC DATA (Dollar amounts in billions)

	1951 Actual	1952 Preliminary	1953 Estimated
Gross National Product	\$329.2	\$345.0	\$355.0
Personal Expenditures	208.0	216.0	223.5
Durable Goods	27.1	26.0	28.0
Non-durable Goods	113.5	119.0	122.5
Services	67.3	71.0	73.0

Less: Personal Income Taxes	2.6	3.2	3.4
Equals: Disposable Income	18.7	20.2	21.0
Spendable Resources* of the People of California	17.9	19.6	20.4
Consumers' Price Index (1935-39=100)	185.6	189.5	191.5
Wholesale Price Index (1947-49=100)	114.8	112.0	112.0
California Population July 1 (thousands)	11,100.0	11,500.0	11,870.0

\* Spendable resources include allowances for change in short-term consumer credit and change in liquid asset holdings of individuals, such as money, bank accounts, and savings bonds. Amounts are estimated by the State Department of Finance.  
Source: Data for 1951 compiled by Federal and State agencies; 1952 partially estimated on the basis of official data; 1953 estimated by State Department of Finance, Division of Budgets and Accounts.

the current year and \$67,876,801 more than actual receipts during the period which closed June 30, 1952. Although increased yields are anticipated from most sources, a great part of the gain can be traced to the sales tax. Larger personal incomes will generate an increase in receipts from personal income tax, while relative stability in corporate profits will hold the bank and corporation franchise tax close to current levels.

### Sales Tax—\$465,400,000

Sales and use tax collections during 1953-54 are estimated at \$465,300,000, and permit fees at \$100,000. The total of these two amounts compares with \$451,800,000 expected during the current year and \$417,692,523 received during 1951-52. This forecast allows for an increase in the volume of expenditures by individuals under the impact of larger personal incomes and population growth, but a slight decline in sales of building materials and industrial equipment, particularly in the last quarter of 1953 and early months of the following year.

The California tax applies to retail sales of tangible personal property and sales by wholesalers, manufacturers, and similar vendors where the property will be used or consumed by the purchaser. Industrial and commercial machinery and equipment, and the sup-

plies used in production are taxable to the agency which purchases and consumes them. Sales for resale, including raw materials to be processed, are exempt. Approximately half of the tax is generated by transactions involving nondurable goods which have a limited useful life and are frequently replaced. To this extent the tax base should be reasonably stable. Half of the tax comes from sales of durable goods used by consumers and industry, usually involving the expenditure of relatively large sums of money per unit purchased, hence generating a substantial amount of tax at the time of purchase. Since these items have a longer useful life, replacement is not as frequent and is postponable. This half of the tax base may be highly unstable and subject to wide fluctuations during the business cycle. This characteristic of the sales tax must be kept in mind in estimating its yield, in appraising the validity of an estimate, and in financial planning for the future.

Two methods have been employed to estimate taxable sales of tangible personal property during the period covered by this budget.<sup>6</sup> One is based upon the average relationship between taxable sales and the estimated spendable income of civilians in California during the 17 years 1935 through 1951.<sup>7</sup> Based on this relationship, estimated civilian spendable resources of \$19.8 billion during 1953 should result in taxable sales of \$14.9 billion.

The second method of estimation, on which principal reliance is placed, involves an analysis of sales in the 44 trade and industrial classifications reported by the State Board of Equalization. Under this method, taxable sales in 1953 are estimated to reach \$14,974,000,000, only slightly more than the total obtained on the basis of probable civilian spending.

Most of the increase in revenue from this source during 1953 is expected to result from greater sales of new motor vehicles, which have been depressed during the last two years by restricted production. Car, truck, and trailer sales in California reached a postwar peak in 1950, with the distribution of 633,000 vehicles. The volume dropped to 510,000 units in 1951 and is estimated at 462,000 in 1952. Unit volume in 1953 is forecast at 567,000 with most of the improvement centered in passenger cars. Average vehicle prices have increased about 15 percent in the last two years and are expected to rise about 2.5 percent more in 1953, largely as the result of the trend toward the purchase of cars carrying optional equipment at an additional cost. Sales value of new vehicles in the year is estimated at \$1,416,600,000, against an indicated \$1,123,100,000 in 1952 and a previous high of \$1,316,000,000 in 1950. Taxable sales of motor vehicle equipment, parts, and supplies are expected to continue the gradual rise shown throughout the postwar years, paralleling the growth in vehicle registrations. Total taxable sales of motor vehicles, parts, and supplies

are estimated at \$3,222,600,000 for the new year, compared with \$2,825,700,000 in 1952 and \$2,648,700,000 during 1951.

As indicated earlier, the level of building operations is one of the most uncertain aspects in the 1953 outlook. Heavy industrial construction is likely to drop as this preliminary phase of the defense build-up draws to completion. There are indications that residential construction may be nearing the end of its large volume operations which have provided approximately 500,000 new dwelling units since the census of 1950—an increase of 15 percent—compared with a 10 percent growth in population. In view of this possible weakness in the residential building outlook, this type of construction has been estimated to decline 10 percent in 1953. Commercial and other private non-residential building, restricted during most of the last two years, should be larger. Public construction is virtually certain to be greater. Taxable sales of building materials are estimated to be 2 percent less than in 1952.

Sales of producers' goods—the machinery, equipment, and other facilities of factories and processing plants—are expected to decline approximately 3.3 percent from the total of 1952. This net change is the product of conflicting trends in the many lines which comprise this group. Where it has been possible to do so, advice has been obtained from leading establishments in the various fields. Some of these anticipate further gains while others suggest a moderate slide from current levels. The principal decrease anticipated is in heavy industrial machinery, and the allowance made at this point is largely a concession to the probable slowing down in the construction and equipment of defense plants. Taxable sales of producers' goods are estimated at \$2,404,600,000 for 1953, against an indicated total of \$2,487,600,000 in 1952 and actual sales of \$2,401,700,000 a year earlier.

Supply of consumers' durables (other than automobiles) has been adequate during the defense build-up despite the earlier threat of shortages in important metals. It is probable no great backlog of demand exists and future sales are likely to be determined by replacement needs and the construction of new homes. Improvement of products and restyling are particularly important in these items, and it is probable that aggressive selling methods will uncover a substantial replacement demand. With the establishment of television stations in new areas and assignment of additional channels to places already served, sales of television sets are likely to increase. Taxable transactions of consumers' durables totaling \$1,362,000,000 are forecast, compared to \$1,290,700,000 estimated for 1952 and \$1,177,300,000 reported in 1951.

Sales of apparel, meals, household supplies, drug store items, and other nondurable goods during 1953 are estimated at \$6,204,400,000, an increase of 5.2 percent over the total indicated in the previous year, and substantially above the \$5,485,100,000 recorded in 1951. The estimate is predicated upon per capita consumption trends since 1949 and the increase in State population projected for the ensuing period.

A summary of estimated taxable sales in these broad groups during calendar year 1953, together with corresponding amounts for 1952 and 1951, is provided in the following table:

<sup>6</sup>In preparing revenue estimates, calendar year data are used almost exclusively in order to take full advantage of such related material as census reports, income payments, and other economic data. All estimates include assessments of additional tax, interest, and penalties as a result of the audit programs of tax administering agencies. Calendar year estimates are apportioned to fiscal years on the basis of ratios during recent years.

<sup>7</sup>The correlation equation: Taxable sales equal—.895 plus .797 times spendable resources. As used in this formula, spendable resources include civilian income less federal and state income taxes plus or minus the increase or decrease in short-term consumer credit, minus or plus the increase or decrease in liquid assets. Civilian income is used in order to avoid as much as possible of the distortion during the war years.

	Taxable sales (Millions of dollars)			Percent change 1952 to 1953
	1951	Est. 1952 *	Est. 1953	
	1951	1952 *	1953	
Nondurable goods --	\$5,485.1	\$5,896.6	\$6,204.4	5.2
Consumer durables †	1,177.3	1,290.7	1,362.0	5.5

\* Three quarters actual and one quarter estimated.  
† Other than motor vehicles and building materials.

## Franchise Tax—\$118,500,000

Bank and corporation franchise tax collections in 1952 were determined primarily by profits during the calendar year 1951. Therefore, collections in the six months, July through December, were relatively certain when the budget estimates were prepared. Receipts in the first six months of 1953 (last half of the current fiscal year) and the July-December period (first half of fiscal 1954) will reflect taxable earnings during 1952. In an effort to pin down 1952 profits as accurately as possible, preliminary reports were obtained from 323 firms in a carefully selected and weighted sample of the corporations and financial institutions subject to the State tax.

Results of this survey indicate wide variations in profits among the various segments of industry last year, with an over-all decrease of 3.5 percent. Consequently, the base is expected to decline from \$2.77 billion reported for purposes of the 1952 tax to \$2.67 billion in the 1953 returns—a reduction of approximately \$4,000,000 in terms of the 4 percent tax. Although the sample involves comparatively few firms, the corporations reporting account for approximately half of the tax base. A similar study conducted last year made it possible to forecast collections during calendar year 1952 within a margin of 3.3 percent.

Corporate profits during 1953, on which taxes will be paid in the last half of fiscal 1954, are expected to remain fairly stable. A slight drop in manufacturing, trade, and service industries, resulting from more competitive markets, should be more than offset by a continued moderate rise in the earnings of utilities and financial corporations. Because the California levy applies to profits before payment of the Federal tax on corporate incomes, termination of the excess profits tax next June would have no effect upon State receipts.

Revenues from the bank and corporation franchise tax and the supplementary corporation income tax are estimated to total \$118,500,000 during the 1953-54 Fiscal Year—only fractionally above the current period. The revised estimate of \$118,300,000 this year may be compared with the budget forecast of \$118,500,000 made a year ago, and actual receipts of \$120,126,645 during 1951-52.

## Personal Income Tax—\$104,100,000

The income received by Californians in the form of salaries and wages, proprietors' profits, dividends, interest, rent, capital gains, and other miscellaneous sources determines the amount of tax revenue which will be collected from the personal income tax. Consequently, the tax attributed to each of the various

sources of income has been related to its counterpart in the income payment series published by the United States Department of Commerce. Using available data and general assumptions outlined earlier, the Department of Finance has prepared estimates of income of California residents for 1952 and 1953.

Estimates of revenue from this tax have been made by using the established relationships and projecting the trends. The following table presents the estimates of income payments upon which the forecast of personal income tax revenue has been based.

	Income payments (millions of dollars)		
	1951	1952	1953
Salaries and wages-----	\$14,044	\$15,711	\$16,600
Proprietors' income -----	3,610	3,818	3,850
Property income -----	2,292	2,571	2,600
Other income -----	1,260	1,300	1,350
Totals -----	\$21,306	\$23,400	\$24,400

Two sources of income which generate tax revenues have no strict counterpart in the income payment series. These are receipts from net capital gain and other miscellaneous income. No satisfactory method has been discovered for estimating the former and a slight reduction has been assumed in income from this source for 1952 and 1953. The second source mentioned above consists of income from fiduciaries and other miscellaneous taxable income which cannot be classified in the broad groups mentioned earlier. Tax receipts from this source have been held at the 1951 level.

Based upon the relationship between the aggregate income of California residents, as estimated in the table above, and State tax derived from these several types of income as shown by tax returns for previous years, revenue from the personal income tax during 1953-54 is estimated at \$104,100,000. This may be compared with \$100,100,000 indicated for the current fiscal year and \$90,914,286 collected in 1951-52.

## Insurance Tax—\$33,800,000

Collections under the State tax on insurance premiums, including those written by Compensation Insurance Fund, have shown a gradual increase over a period of several years, reflecting growth in business activity, higher values, increases in some premium rates, and population gains. The budget estimate of revenue from this source is based upon reports obtained from a sample of 122 insurance companies accounting for 68 percent of the tax base.

On the basis of this information, gross premiums (less dividends to policyholders) on which the 1953-54 tax will be levied are estimated to reach a total of \$1,485,300,000, an increase of 13.2 percent over the previous year. The tax on this volume will be \$34,904,000, and approximately \$125,000 will be received from ocean marine insurance profits. Other adjustments have been estimated to increase revenues by \$210,000. Deductions for local property taxes paid on principal business offices in California are estimated at \$1,439,000, leaving net receipts of \$33,800,000. Corresponding totals for the current year and for 1951-52 are \$29,769,569 and \$25,731,960, respectively.

## Inheritance and Gift Taxes—\$26,500,000

Revenue yield from the inheritance tax depends upon the number and size of bequests and the relationship between beneficiaries and decedents. The variability

inherent in this type of levy was demonstrated during 1951-52, when one estate contributed \$4,500,000 to the total received from this source. With six months of the current fiscal period complete, collections are averaging less than \$2,000,000 monthly and have been estimated at \$23,000,000 for the year as a whole. Although settlement of another large estate is pending, the amount of tax cannot be determined at this time, and final payment is likely to be delayed by litigation. Some increase in yield may be expected as settlements reflect the current higher security values. For this reason, the estimate for 1953-54 is placed at \$25,000,000.

Gift tax receipts, also subject to wide variations, have averaged \$1,526,000 annually in the last three years. Because most of the revenue from this source is received during the months of February through May, there is no reliable indication of the trend in the current fiscal year. The estimate has been carried at \$1,500,000 for both the present period and 1953-54.

### **Alcoholic Beverages—\$19,525,000**

Revenue returns from the excise taxes on distilled spirits, beer, and wine have followed the growth in numbers of the State's adult population during recent years. Collections in 1952-53 appear to be falling slightly behind the forecasts made a year ago, and the estimates presented in this budget have been revised accordingly.

In terms of the State's 8,000,000 adult population, annual consumption of distilled spirits is estimated at 2.43 gallons per capita, beer 22.1 gallons, dry wine 0.97, sweet wine 1.92, and sparkling varieties 0.04 gallon. Of the \$4,000,000 estimated for beer and wine during 1953-54, approximately \$3,540,000 will be derived from sales of beer, \$305,000 from sweet wine, \$75,000 from dry, and \$80,000 from sparkling beverages.

Comparative collections for the budget years are shown below:

	<i>Alcoholic beverage taxes</i>		
	<i>Actual 1951-52</i>	<i>Estimated 1952-53</i>	<i>Estimated 1953-54</i>
Distilled spirits .....	\$14,429,563	\$15,270,000	\$15,525,000
Beer and wine .....	3,730,045	3,970,000	4,000,000
Totals .....	\$18,159,608	\$19,240,000	\$19,525,000

### **Private Car Tax—\$1,225,000**

In order to avoid the administrative difficulties involved in local assessment, railroad cars owned by companies other than railroads are taxed by the State. The number of units operated in California during 1951 continued the decline which started three years ago, but assessed value per car rose to a new high. As a result, the total assessment rolls increased to more than \$23.5 million, compared with a little less than \$22 million in 1950. With an average rate of \$4.79 per \$100 of assessed value, the tax to be paid in 1952-53 will be \$1,127,000, compared with \$1,088,988 last fiscal year. Unit values should be somewhat higher next year and the tax rate should not change. Therefore, receipts from this source are estimated at \$1,225,000 for the coming fiscal year.

### **Other General Fund Revenue—\$32,853,000**

Interest on investments is expected to reach \$9,268,488 during 1953-54, an increase of \$753,000 over the current year due largely to the fact that the surplus will be liquidated and the interest on these investments will accrue at the time the bondholdings are sold.

Charges for care and treatment of patients at State hospitals is estimated at \$7,006,394, up \$775,000 from the present year. The General Fund share of horse racing revenue is placed at \$4,252,714, while \$2,587,375 will be transferred from motor vehicle license fee receipts to pay highway debt charges. Student fees at educational institutions will amount to \$2,450,546. Other charges shown in detail in Schedule 2 total \$7,287,009 for the year in prospect.

## **SPECIAL FUND REVENUES<sup>8</sup>**

Though there are some borderline items, special fund revenues can be classified into three categories: (1) the receipts from broad tax levies which are dedicated to specific purposes; (2) charges made for special governmental services to specific groups or individuals; and (3) certain rentals, royalties, and other revenues earmarked for particular purposes. Motor vehicle taxes and fees which must be used for highways, roads, and streets illustrate the first of these classes. License fees for the regulation of businesses and professions are typical of the second, while the third includes royalties devoted to beach and park development and school support. Interest earned on the investment of special fund money usually accrues to the fund invested. One characteristic is common to all—the restriction against diversion of these funds to other uses without a change in the Constitution or the statutes, and in some instances a change in both.

Approximately one-third of all State governmental revenues accrue to special funds and are thus restricted as to use. Principal among these are the levies imposed in connection with the ownership and operation of motor vehicles—the fuel taxes, registration and weight fees, the tax on companies transporting persons and property for hire over State highways, drivers' licenses, fees on the transfer of vehicle ownership, and other minor charges. Together with the license fee levied in lieu of local property taxes on motor vehicles, these revenues are estimated to return \$337,713,625 during the 1953-54 Fiscal Year, or 86 percent of the special fund total.

Fees and charges for regulatory services and special assistance to various sections of industry, business, and the professions are the second largest source of income to these accounts. These are followed in fiscal importance by horse racing license fees, which are divided between the General Fund, the Fair and Exposition Fund, and other funds, with most of the revenue deposited in the Fair and Exposition Fund and used for support of agricultural fairs and agricultural education. In addition, it is estimated the State will collect \$8,200,000 in liquor license fees which will be returned to local governments. It will receive \$3,592,567 in interest on investments for special funds and will obtain \$2,800,000 as the State's share of oil and mineral royalties.

### **Motor Vehicle Registration Fees—\$145,116,000**

Fee-paid registrations of automobiles, trucks, buses, motorcycles, and trailers numbered approximately

<sup>8</sup> Trust funds, such as contributions to the various retirement plans; bond funds, such as receipts from the sale of school building bonds; sinking funds for bond interest and redemption; working revolving funds; utility funds, such as the Veterans Farm and Home Building Fund of 1943; and assessment funds, are not government cost funds and are not included in the general category of special funds. State payments to any of these noncost funds are, of course, regarded as an expenditure and reported as such.

5,556,000 units during 1952. Under the assumption of increased vehicle production and continued migration to this State, registrations are expected to reach 5,864,000 by December 31, 1953, and 6,125,000 on the same date a year later. In addition, there will be more than 70,000 exempt units, making a total of nearly 6,200,000 vehicles on the State's highways by the end of 1954.

Current registration and weight fees were established in 1947, and averages have stabilized within a narrow range. Including penalties, interest, and other charges, registration fees on cars and light trucks averaged \$6.38 in 1952, within a fraction of a cent of the corresponding ratios for the two previous years. Truck fees were \$34.36—58 cents below the average for 1951. Motorcycle registration fees amounted to \$6.50, and trailers averaged \$15.88 per registered unit.

Receipts from the vehicle license fee (in lieu tax) have shown a substantial increase during recent years as a growing number of new, higher priced units appear in the registration records. Revenue from this source, amounting to \$64,325,176 in 1951-52, is estimated to reach \$76,000,000 during 1953-54. With the exception of appropriations to meet highway bond charges and administrative cost, this money is returned to city and county governments for expenditure.

Suit to determine the legality of caravan fees was decided in favor of the State, resulting in the collection of \$2,000,000 in impounded revenue from this source during 1951-52. Normal receipts are estimated at \$1,000,000 annually for the next two years.

A summary of actual and estimated collections under each of the several vehicle fees during the period covered by this budget is shown below:

<i>Motor Vehicle Fees</i> (Millions of dollars)			
	<i>Actual</i> 1951-52	<i>Estimated</i> 1952-53	<i>Estimated</i> 1953-54
Registration and weight fees	\$55.6	\$58.9	\$61.6
License (in lieu) fees*	64.3	69.2	76.0
Drivers' license fees	3.2	3.1	3.7

<b>Totals</b>	<b>\$127.7</b>	<b>\$135.0</b>	<b>\$145.1</b>

\* Includes approximately \$2.6 million each year transferred to the General Fund for highway bond interest and redemption. See Schedule 2 for detailed amounts.

### **Motor Vehicle Fuel Taxes—\$182,550,000**

State-levied taxes on motor vehicle fuels will return the sum of \$182,550,000 during 1953-54, according to the estimates here presented. Of this amount, \$174,000,000 will be derived from the gasoline tax of 4½ cents per gallon, \$8,530,000 from the same rate of tax on diesel and similar fuels, and \$20,000 from license fees required in the administration of these laws. After several years of decline, average gasoline consumption per vehicle increased during 1951-52 and appears to be rising further in the current fiscal year. A greater volume of tourist traffic and a higher level of employment during the last two years undoubtedly contributed to this reversal of trend. The combined effect of greater consumption and larger registrations has carried gasoline tax receipts from \$155,266,952 in 1951-52 to an estimated \$165,500,000 this year, and will add to the total again during the coming period. Consumption of diesel fuel per vehicle has moved in the opposite direction, however. The number of diesel powered units has more than doubled since 1948, but

consumption per vehicle has declined throughout the postwar period.

Comparative revenues for the three budget years are:

<i>Motor Vehicle Fuel Taxes</i> (Millions of dollars)			
	<i>Actual</i> 1951-52	<i>Estimated</i> 1952-53	<i>Estimated</i> 1953-54
Gasoline	\$155.3	\$165.5	\$174.0
Diesel fuel	6.8	7.6	8.5
<b>Totals</b>	<b>\$162.1</b>	<b>\$173.1</b>	<b>\$182.5</b>

### **Motor Transportation Tax—\$12,635,000**

Analysis of taxable receipts of highway transportation companies shows a very close relationship between the aggregate volume of business done and the disposable income of California residents. With income at \$20.2 billion in 1952, and \$21.0 billion in 1953, gross receipts of for-hire carriers is estimated at \$487 million in the current fiscal year and \$497 million in 1953-54. The 3 percent tax will result in a gross assessment of \$14,600,000 this year and \$14,900,000 in the ensuing fiscal period. Against these amounts, the law allows operators to claim an offset in the amount of one-third of the motor vehicle weight fees paid in connection with taxable operations, estimated at \$2,180,000 for 1952-53 and \$2,300,000 in 1953-54. Net revenues, including \$35,000 permit fees each year, are therefore estimated at \$12,635,000 in the coming year, compared with \$12,455,000 in 1952-53 and actual payments of \$11,311,989 in 1951-52.

### **Horse Racing Fees—\$22,221,314**

It is estimated that a total of \$393 million will be wagered in the pari-mutuel pools at California horse racing meets during 1953-54, compared with \$358 million indicated this year and \$358 million in 1951-52. The State's license fee at each race meet is 4 percent of the first \$10 million wagered, 5 percent of the next \$10 million wagered, and 6 percent of all amounts wagered in excess of \$20 million, plus the "breakage" after the amount wagered exceeds \$27 million. In addition, the State receives miscellaneous license fees from owners, trainers, jockeys and others and the amounts payable to winning pari-mutuel ticket holders remaining unclaimed 90 days after the close of a race meet. Receipts from these sources are shown in the table below:

<i>Horse Racing Fees</i> (Thousands of dollars)			
	<i>Actual</i> 1951-52	<i>Estimated</i> 1952-53	<i>Estimated</i> 1953-54
Pari-mutuel pools	\$18,565	\$18,953	\$20,585
Breakage	1,080	1,250	1,200
Miscellaneous license fees	32	32	32
Unclaimed pari-mutuel tickets	365	301	404
<b>Totals</b>	<b>\$20,042</b>	<b>\$20,536</b>	<b>\$22,221</b>

The sums of \$3.6 million in 1951-52, \$3.9 million in 1952-53 and \$4.3 million in 1953-54, included in the above table, accrue to the General Fund. Of these amounts, one million dollars annually is transferred to the Capital Outlay and Savings Fund.

### **Liquor License Fees—\$8,200,000**

Liquor license fee receipts are estimated at \$8,200,000, compared to \$8,550,000 expected in the current

fiscal year and actual receipts of \$7,827,214 during 1951-52. Variations in the date of issuing licenses, which will pyramid an additional \$400,000 into the present year, account for the wide fluctuation in these amounts. Aside from these random changes, license fee revenue has been relatively stable during the last five years, with a persistent though slight drop in on-sale fees. Revenue from this source is returned to cities and counties on the basis of the value of licenses issued in each jurisdiction, without deduction of State administrative costs.

### RECENT TAX TRENDS

Basically the State tax structure has not been changed in the last 17 years. With two general exceptions, the tax rates which are estimated to produce more than \$1,139,800,000 yielded less than \$250,000,000 annually in the five years before World War II. This phenomenal growth without an increase in the burden of taxes in relation to income is further proof of the direct relationship between taxes and the aggregate volume of business activity in the State. The two exceptions are in opposite directions, so far as tax yield is concerned. The State income tax at the present time is lighter than it was prewar: exemptions are \$1,000 higher for both individuals and families, and the maximum tax rate is now 6 percent on taxable income in excess of \$25,000 compared to 15 percent above \$250,000 prior to 1944. In contrast to this relief, motor vehicle taxes were increased substantially in 1947, as part of an effort to solve State and local highway problems. The motor vehicle fuel tax was raised 50 percent (from 3 cents to 4.5 cents per gallon), registration fees were doubled, weight fees were increased almost 100 percent, and a driver's license fee was imposed. These two changes did not offset each other, however. The added motor vehicle revenue exceeded the reduction in personal income tax by a wide margin.

State tax revenue per \$100 of income received by the people of California is lower today than during prewar years. Under the estimates presented here, tax receipts from all sources in 1952-53 will amount to \$4.68 per one hundred dollars of income received by the people of California last year, and this ratio will drop to \$4.67 next fiscal year.<sup>9</sup> This compares with an average of \$4.86 in the five prewar years and a high of \$5.07 in 1950-51, when two waves of scare buying inflated the ratio substantially above other postwar years.

State tax payments for support of General Fund activities next year will be 7 percent below prewar in relation to income of individuals. Receipts of \$3.18 per \$100 of individual income are 25 cents under the prewar average. In addition to the personal income tax reduction, this change is the result of a shifting within the tax system. Certain levies formerly used for general support are now dedicated to special activities. For example, the motor vehicle transportation tax was deposited in the General Fund until the law was changed in 1947. This money is now used for highway construction and maintenance. The State formerly received a share of liquor license fees which now goes entirely to cities and counties. There has been a similar shift in motor vehicle license fee receipts. All told, approximately \$33,000,000 of current revenue which formerly went to the General Fund is now specifically earmarked for special purposes.

A summary of income payments to individuals in California, State tax collections, per capita taxes, and tax payments per \$100 of individual income is shown in the following table.

<sup>9</sup> These comparisons are made between taxes received by the State during a fiscal year and income received by California residents in the preceding calendar year. Data on income payments to individuals are available only on a calendar year basis. Since there is a slight lag between the taxable event and receipt of tax revenue by the State, the comparison is believed to be valid.

### SUMMARY OF STATE POPULATION, INCOME OF CALIFORNIA RESIDENTS, AND STATE TAX COLLECTIONS Excluding Departmental and Miscellaneous Revenues

\* Amounts shown during period of World War II represent civilian population, estimated income of civilians, and per capita civilian income.

Population data, 1936 through 1939, are based on United States Census Bureau estimates; population, 1940 to date, estimated by the State Department of Finance. (*Provisional Annual Estimates of the Population of California, 1940-1953*, Nov. 1951, and *California's Population, 1948-1954*, July, 1952.)

Income of individuals, 1936 through 1951, from United States Department of Commerce estimates. *Survey of Current Business*, Aug. 1952. Reported totals for 1941 through 1945 have been adjusted to exclude income of armed forces personnel. Data for 1952 and 1953 are estimates by the State Department of Finance.

Income per capita computed from population and income data shown. Amounts differ somewhat from U. S. Department of Commerce estimates.

Taxes per capita computed on the basis of population January 1st, the midpoint of the fiscal year.

NOTE: Detail may not add to totals, due to rounding.

<sup>a</sup> Amounts are not comparable, since the sums shown for 1952-53 represent only the unallocated balance of similar provisions made for salary adjustments and price increases approved in connection with the current budget.

\* Credits to the General Fund for overhead charged to agencies supported from special funds. The adjustment is necessary to avoid duplication of the amounts shown.

# Expenditure Requirements, 1953-54

State expenditures in the fiscal year beginning July 1, 1953, and running through June 30, 1954, are estimated at \$1,326,851,805. Of this amount, \$863,021,962 represents payments required under existing law and \$463,829,843 comprises the controllable costs which are subject to determination by the Governor in preparing his budget recommendations.

The expenditure budget for the coming fiscal year is \$82,787,967, or 6.7 percent above the estimated total for 1952-53 and \$258,780,295 more than actual payments in 1951-52.

Both for convenience and a better presentation of the amounts involved, expenditures are scheduled in the budget under three headings: State operations, capital outlay, and local assistance. The first of these includes the current cost of operating the agencies of State government—the Legislature, courts, executive offices, administrative departments, and the various boards, commissions, and other units. Expenditures for structures and other permanent improvements, including highway construction, are set forth in the capital outlay section. State payments to local governments for schools, social welfare, public health, and other purposes, as well as apportionments of State-collected revenues for expenditure by cities and counties, are detailed under the local assistance category. A summary of the amounts involved in each of these classes during the three fiscal years covered by this budget is shown below:<sup>1</sup>

(Millions of dollars)					
	Actual 1951-52	Estimated 1952-53	Proposed 1953-54	Change from 1952-53 Amount	Pct.
State operations -----	\$294.5	\$331.6	\$367.9	\$36.3	11.0
Capital outlay -----	181.0	256.4	214.9	-41.5	-16.2
Local assistance -----	592.6	656.1	744.1	88.0	13.4
Totals -----	\$1,068.1	\$1,244.1	\$1,326.9	\$82.8	6.7

As indicated in these data, \$744,069,344 of the State's expenditures during 1953-54 will be directed toward the assistance of local governments, \$214,898,124 will be devoted to permanent improvements, and \$367,884,337 will be used in day-to-day operation of educational centers, hospitals, correctional facilities, and the many other activities ordinarily considered as State government. The amounts making up the totals in each of these three sections are shown in the accompanying table (Page A-22) and are detailed in Schedule 3.

Although the activities of State government and the purposes for which assistance is granted to local agencies vary widely, expenditures can be classified into seven general groups. The most important of these from the budget viewpoint is education, which will take approximately 39.7 percent of the aggregate outgo in 1953-54. This includes the administrative services of the State Department of Education, maintenance of the State Library, the support of the University, colleges, and special schools, apportionments for public schools, contributions to the teachers' retirement sys-

tem, free textbooks, child care centers, and capital outlay for educational institutions. The second largest category, accounting for 20.0 percent of the total, involves the expenditures for highways, roads, streets, and services to motorists. Payments for social welfare and public health are third in order of fiscal importance with 13.7 percent of the total. These are followed by expenditures for mental hygiene and corrections (9.7 percent of the total), where capital outlay items are particularly important, and development and conservation of natural resources (5.1 percent). Fiscal management—including tax collection, auditing of disbursements, central purchasing, the custody and maintenance of general facilities, and construction of general purpose facilities—ranks sixth in magnitude with 2.4 percent of the total. All other expenses, including general administration, regulation of business, industry, and the professions, support of the judiciary and the Legislature, and the subventions to local governments for general government, account for 9.4 percent of the expenditure budget. Amounts provided for each of these seven categories in 1953-54, together with the change from the current year totals and the proportion of the total cost attributable to each broad function, are given in the table below:

	Estimated expenditures 1953-54 (millions)	Change from 1952-53 Amount (millions)	Per- cent	Percent of total
Education -----	\$527.0	\$71.9	15.8	39.7
Highways and vehicle regulation -----	265.3	3.1	1.2	20.0
Social welfare and health -----	181.7	2.0	1.1	13.7
Mental hygiene and corrections -----	129.2	5.6	4.5	9.7
Conservation of natural resources -----	67.3	1.0	1.5	5.1
Fiscal affairs -----	31.3	-1.2	-3.7	2.4
All other -----	124.9	0.4	0.3	9.4
Totals -----	\$1,326.9	\$82.8	6.7	100.0

## STATE OPERATIONS

The program of State operations recommended in this budget for 1953-54 involves expenditures of \$367,884,337, an increase of \$36,313,505, or 11.0 percent over the total for the current year. This total includes the current operating expense of the three major branches of government—the legislative, judicial, and executive, with the last unit comprehending the nineteen administrative departments, the several boards and commissions, and all independent offices. Debt service on obligations issued to finance the construction of facilities related to State operations is classified as current operating cost.<sup>2</sup> In addition, the total includes funds for a 5 percent increase in the salaries of State employees, as recommended by the State Personnel Board, and a reserve of \$2,500,000 to meet emergencies and unforeseen developments which may arise during the course of the next fiscal year. The salary increase fund is provided upon a contingent basis, pending further determination by the Personnel Board that adjustments are

<sup>1</sup> In all of the text tables amounts have been rounded to the nearest thousand dollars. In some instances this results in an apparent error in addition or subtraction. In all cases, however, totals are correct to the nearest thousand.

<sup>2</sup> Interest on and redemption of these State obligations, which were issued between 1911 and 1929, will be paid from the Bond Sinking Fund of 1943 and from motor vehicle license fees earmarked for highway bonds. Debt service on the more recent issues authorized to assist distressed school districts in meeting their building problems is classified as local assistance.

necessary to bring State pay-schedules into line with those of private industry and other governmental jurisdictions.

California budget procedure has been recognized as one which relates appropriation requirements to the work program.<sup>3</sup> This concept of performance budgeting—the bringing together of allied activities under general headings in terms of the work to be done—is helpful in analyzing the State's expenditure needs and in emphasizing the trends underlying the several hundred separate appropriations which must be made in each annual budget bill.

In preparing the following material, all current expense has been classified into seven functional categories—education, mental hygiene and corrections, highways and vehicle regulation, conservation of resources, social welfare and health, fiscal affairs, and all other. In making these combinations, budget data have been adjusted in four respects: (1) the \$14,169,954 proposed for salary adjustments has been distributed among operating agencies by increasing salary and wage expenditures 5 percent; (2) the contribution from the General Fund for employees' retirement, budgeted in a lump sum, has been allocated among departments on the basis of salary and wage payments from the General Fund; (3) debt service has been attributed to the function (e.g., highways, education, conservation, etc.) for which the proceeds of the bond issues were spent; and (4) in some instances expenditures of a single agency have been divided between two or more broad functions, as in the case of the Department of Public Works, where the money spent has been divided between highways, conservation, and all other.

As a result of these combinations and adjustments, amounts shown in the following text tables do not agree with those given in the summary on page A-22 or in Schedule 3. However, it is believed that this procedure not only provides a more convenient basis for summarizing current operating expenditures but also presents a more complete picture of State operations than can be obtained from the organizational basis required for budget administration. It must be noted, however, that the controlling factor in expenditures is the legislative authorization given in the budget bill and other appropriations which may be approved. Allocation of the salary increase fund to the various agencies for purpose of this presentation does not augment the separate appropriations. This can only be done after legislative approval of the lump sum budgeted for this purpose. It must be emphasized, too, that the total of \$367,884,337 for State operations detailed in the following tables is identical with the amount shown in the budget summary schedules.

### Education—\$91,751,000

Educational activities include support of the University, State colleges and technical colleges, special schools, administrative offices of the Department of Education, and the State Library. As a group, these comprise the largest item of expenditures in the State operations budget. With \$91,750,537 provided for this purpose in 1953-54, expenditures will increase \$12,735,409, or 16.1 percent over 1952-53, due primarily to the growth of newly established institutions, curricula de-

velopment, and expanded enrollments at established State colleges.

Two-thirds of this educational cost involves State support of the University, and over one-half of the 1953-54 increase is represented here. Proposed expenditures from the General Fund for the University in the coming year total \$59,482,698, or \$7,772,412 above the estimated expenditures for 1952-53. Although enrollment is expected to increase only slightly, greater emphasis will be placed upon a number of activities conducted on the eight campuses of this institution. These include the new colleges of letters and science at Davis and Riverside, the expanded program of medical education at San Francisco and Los Angeles, and additional research on problems of agriculture. Approximately half of the increase in the appropriation recommended for next year may be traced to these and similar items. The remainder is attributable to salary adjustments and a strengthening of such established projects as the agricultural extension service, programs of organized research, improvements in library services, and instruction.

Support of State colleges and technical colleges in the amount of \$23,709,969 is proposed for 1953-54, an increase of \$3,702,684 over the current year. Expanding enrollments, already being felt in the current year, will bring an estimated record number of 29,113 students at these schools.<sup>4</sup> This upswing of 2,362 students, reflecting both the heavier attendance at the older colleges and the proposal to offer lower division work at the new centers in Long Beach and Sacramento, accounts for a major part of the larger appropriations recommended for 1953-54. Other factors contributing to the gain are the operation of facilities to house additional students, the added costs of operating new campuses at four of the colleges, and a \$954,217 increase in State support for all colleges due to a decline in veteran tuition payments by the Veterans Administration.

Completion of the first unit of the School for the Deaf at Riverside, permitting residential training for 225 children, accounts for the principal change in expenditures for special schools. A minor increase is also occasioned by continued expansion of the new intensive treatment center for the blind in Oakland. No change in the level of activity is anticipated for the three blind workshops, but rather severe shifts to commercial products must be made to offset declining Federal orders.

Some additional assistance will be needed by administrative bureaus of the Department of Education in fulfilling their advisory and regulatory responsibilities to school districts. Increased State support of vocational rehabilitation is also proposed as a means of directing this program to the better economic advantage of the State.

A summary of all current expense for education is given in the following table:

	(Thousands of dollars)				Change from	
	Actual 1951-52	Estimated 1952-53	Proposed 1953-54		1952-53 Amount	Pct.
Department of Education—	\$3,744	\$4,463	\$5,031		\$568	12.7
State colleges and technical colleges —	16,924	20,007	23,710		3,703	18.5
Special schools and blind centers —	2,217	2,661	3,345		684	25.7
University —	45,818	51,710	59,483		7,773	15.0
Other —	149	174	181		7	4.0
Totals —	\$68,853	\$79,015	\$91,751		\$12,736	16.1

<sup>3</sup> The Hoover Commission Task Force Report on Fiscal, Budgeting, and Accounting Activities, page 75, notes "... Some of the States have also developed programming in connection with their budgeting. A good example is the California State budget, where the program idea is definitely carried into the appropriations."

<sup>4</sup> Total enrollment of full-time and part-time students is adjusted to a full-time basis for each institution in analyzing budget needs.

**Mental Hygiene and Corrections—\$85,622,000**

One of the most important goals in the State's post-war building program has been the provision of adequate facilities at State hospitals and correctional centers. The coming fiscal year will show several important steps toward realization of this goal, with the opening of two new mental hospitals, additional units at the older institutions, a new prison, and larger facilities at the correctional schools. Completion of these projects will make it possible to relieve overcrowding, increasing the opportunity for proper treatment and lessening the dangers which always accompany the confinement of a large number of wards in limited areas. It will permit a more complete segregation of prisoners at penal institutions, allowing the assignment of inmates to facilities designed and operated to achieve a maximum rate of rehabilitation and release. It will provide the Youth Authority with a physical plant more nearly in keeping with its responsibilities for the care and correction of young offenders.

During recent years, California's program for mental hygiene and corrections has been increasingly focused upon the economies to be achieved by the return of patients and inmates to a place in society. In the mental hygiene budget for 1953-54 this objective finds further expression in the recommendations for continued research in the treatment of mental disorders, alcoholism, and sex crime, in outpatient and pre-admission clinics, in the community education program, and in the increased emphasis upon the assignment of patients to family care outside the hospitals wherever possible. Following the recommendations which resulted from a study of feeding practices and procedures, provision is made for an improvement in food rations and an increase in the kitchen staff at mental hospitals.

The budget for corrections reflects these basic economies in the additional attention given to parole problems—one objective of which is the earlier release of eligible prisoners, the proposal to expand the inmate pay programs, the intensified in-service training of prison employees, and the modest expansion in culinary, medical, and camp personnel. The same objective underlies the recommendations for better classification and supervision at the correctional schools and youth camps. While these improvements require increased expenditures at the moment, experience has repeatedly demonstrated the fundamental economy of rehabilitation as compared to the constant financial drain involved in mere confinement and custody.

Expenditures for maintenance and operation of mental institutions during 1953-54 total \$60,674,005 under the recommendations presented in this budget, an increase of \$8,443,588 over the amount required in the current year. Approximately \$1,150,000 of this latter amount can be attributed to the opening of a new home for the mentally defective at Porterville, providing relief from the overcrowding at other homes and allowing the State to discharge its responsibility to 1,500 defectives who cannot be accepted in these institutions at present.

An increase of \$3,921,154 in expenditures for corrections will carry the total for this purpose to \$24,948,429 during 1953-54. Of this amount, \$18,544,045 will be required for adult corrections, and \$6,404,384 for the maintenance of facilities operated by the Youth Authority.

A summary of recommended appropriations for these activities, estimated requirements during the current year, and actual expenditures during 1951-52 is given below:

(Thousands of dollars)					
	Actual 1951-52	Estimated 1952-53	Proposed 1953-54	Change from 1952-53 Amount	Pct.
Mental hygiene -----	\$45,585	\$52,230	\$60,674	\$8,444	16.2
Corrections:					
Adult facilities -----	14,188	15,660	18,544	2,884	18.4
Youth Authority -----	4,862	5,367	6,404	1,037	19.3
Totals -----	\$64,635	\$73,253	\$85,622	\$12,364	16.9

**Highways, Traffic Law Enforcement and Regulation of Motor Vehicles—\$66,556,000**

For services to motorists during the 1953-54 Fiscal Year, the State government will spend \$66,556,025. This amount includes the planning, administering, and maintaining of State highways, enforcement of traffic laws and the registration of motor vehicles, licensing of motor vehicle operators, and administration of the financial responsibility law. It does not include the cost of highway construction for which a substantially larger sum is scheduled.

While expenditures in this broad field concern every motorist, one proposal in particular is of vital interest. As an immediate attack upon the toll of highway deaths and accidents, the budget proposes the addition of 180 uniformed positions to strengthen the Highway Patrol. This represents an increase of 12 percent over the present roll, and is equivalent to one additional officer for each 75 miles of State highway. The cost of this improvement will be approximately \$1,074,000. With this additional strength there will be one uniformed officer for each 3,875 vehicles registered in the State, contrasted with a ratio of one officer for each 3,521 vehicles in 1948.

The increases in the budget of the Department of Motor Vehicles result primarily from increases in workload, intensification of the driver education program, and provision for additional field services. The increase in current expense for State highways is attributable primarily to the cost of maintenance necessary in conjunction with the construction of new and modern highways and the preservation of the existing highway system.

(Thousands of dollars)					
	Actual 1951-52	Estimated 1952-53	Proposed 1953-54	Change from 1952-53 Amount	Pct.
Traffic law enforcement----	\$11,891	\$13,584	\$15,476	\$1,892	13.9
Regulation of motor vehicles -----	11,880	13,466	16,260	2,794	20.7
State highways -----	34,788	33,709	34,820	1,111	3.3
Totals -----	\$58,559	\$60,758	\$66,556	\$5,798	9.5

**Conservation and Development of Natural Resources—\$45,157,000**

Under this classification are included the several agencies of State Government whose activities are directed toward improved utilization and conservation of the State's natural resources. The group includes the Departments of Agriculture and Fish and Game, the Division of Water Resources, and related sections in the Department of Public Works, the Reclamation Board, and the Division of Fairs and Expositions in the Department of Finance. The combined expenditures of these agencies on the various phases of resource conservation and development will be \$45,156,878. Of these agencies, the largest and most diversified is the Depart-

ment of Natural Resources, which is charged with the operation of State beaches and parks, the protection of forest and watershed areas, the supervision of mining and oil field activities, and with assistance in the formation of soil conservation districts. During 1953-54 more than \$17,045,883 will be spent on this work. The principal changes include an augmentation of fire crew strength to provide for better supervision and full seven-day staffing in key positions, a rounding out of the equipment complement, and the reactivation of the Whitmore work camp by the Division of Forestry. In the Division of Beaches and Parks, the recommended program provides for improvement in the planning for park and beach development, the operation of newly developed recreational areas, and additional personnel at several of the State beaches and parks. Principal changes in the program of the Department of Fish and Game include conversion to a decentralized regional organization, and internal adjustments incidental to the status of this agency as an independent department of State Government. With the exception of the Hall scale eradication program to be initiated by the Department of Agriculture, and additional emphasis upon water problems, the budget recommendations for support of other conservation agencies are geared primarily to workload requirements. It is of interest that the preliminary work on the Feather River project initiated this year is continued into 1953-54 at an estimated cost of \$750,000.

The following data summarize the current expense for conservation and development of natural resources:

	(Thousands of dollars)				
	Actual 1951-52	Estimated 1952-53	Proposed 1953-54	Change from 1952-53 Amount	Pct.
Agriculture .....	\$9,654	\$10,446	\$10,967	\$521	5.0

Totals .....	\$37,871	\$42,928	\$45,157	\$2,229	5.2

### Fiscal Affairs—\$29,216,000

Expenditures for administration of the State's tax laws, financial management, and fiscal control during 1953-54 are budgeted at \$29,216,487, an increase of \$2,165,981 over the comparable total for the current year. About half of this change is accounted for in the proposed 5 percent adjustment in salary scales, and the remainder represents a realignment of operations to meet expanding work load.

As here classified, fiscal affairs include the tax collection activities of the State Board of Equalization, the Franchise Tax Board, and the Controller's Office, the management and control operations of the Finance Department, the Controller's duties with respect to the verifying and reporting of receipts and disbursements, and the responsibilities of the State Treasurer in the custody and investment of funds.<sup>5</sup> Completion of additional office buildings during the current year and in 1953-54 will increase substantially the custodial duties of the Department of Finance. An unexpectedly

<sup>5</sup> Collection activities of other agencies are, for the most part, incidental to their regulatory duties and are not included in fiscal affairs for that reason. The most important of these are the Department of Motor Vehicles, which collects motor vehicle registration and weight fees, vehicle license fees and other similar charges, and the Department of Insurance, which receives reports essential to administration of the insurance gross premiums tax.

large volume of personal income tax returns in 1952, with a further increase anticipated in 1953-54, necessitates a revision of the review and audit activities of the Franchise Tax Board, with an increase of \$594,273 in the expenditure requests for that agency.

A summary of the totals provided for each of the agencies in this field is given in the following table:

	(Thousands of dollars)			Change from 1952-53	
	Actual 1951-52	Estimated 1952-53	Proposed 1953-54	Amount	Pct.
Control and management:					
Board of Control .....	\$19	\$23	\$24	\$1	4.3
Controller <sup>a</sup> .....	1,455	1,736	1,806	70	4.0
Dept. of Finance <sup>b</sup> .....	5,237	6,424	7,057	633	9.8
Treasurer .....	211	230	234	4	1.7
Subtotals .....	\$6,921	\$8,414	\$9,122	\$708	8.4
Tax collection:					
Board of Equalization ..	12,986	14,089	14,883	794	5.6
Controller <sup>c</sup> .....	727	790	859	69	8.7
Franchise Tax Board .....	3,217	3,758	4,352	594	15.8
Subtotals .....	\$16,930	\$18,637	\$20,095	\$1,458	7.8
Totals, fiscal affairs <sup>d</sup> .....	\$23,852	\$27,051	\$29,216	\$2,165	8.0

<sup>a</sup> Excluding tax collection divisions of the Controller's Office.

<sup>b</sup> Excluding Division of Fairs and Expositions and Division of State Lands (see Conservation of Natural Resources).

<sup>c</sup> Tax collection divisions only.

<sup>d</sup> After credits to the General Fund for overhead services charged to agencies supported from special funds. The adjustment is necessary to avoid duplication of the amounts shown.

### Welfare and Public Health—\$20,353,000

The activities classified under the heading of welfare and health include State administration of the public assistance programs, regulation of health matters, assistance to war veterans, and safeguarding the welfare of workers in the industrial, commercial, and service establishments throughout the State. In the first two of these functions the State's role is largely that of supervising and coordinating the work of local agencies, though a considerable volume of research and investigation of health matters is conducted by the State in addition to its responsibility for local health activities. In the latter two fields—veterans' assistance and industrial welfare—the programs are almost entirely State-administered and State-operated.

In total, current expenses for health and welfare in the 1953-54 budget amount to \$20,352,611.<sup>6</sup> Expenditure programs presented are geared directly to the immediate needs in each field. The Department of Public Health is intensifying its program of maternal and child care, particularly in the control and prevention of diarrheal diseases, infant mortality, and premature births. Funds are provided to investigate problems relating to the disposal of radio-active materials, with particular emphasis upon development of an over-all State policy in this new field. In comparing the 1953-54 budget with total costs in 1952-53, the effect of these developments is obscured by the abnormally high expenditures related to the encephalitis epidemic in 1952. Funds for encephalitis control resume normal proportions in the budget for the coming year.

A major reorganization proposed for the Department of Social Welfare in 1953-54, adding to the current operating expense of this agency, will provide better administrative control over the large subvention expenditures with an accompanying saving in aid payments. The \$223,684 increase shown in the recommended expenditure of this department is traceable

<sup>6</sup> Excluding \$158,677,698 in subventions for these activities, shown under Local Assistance.

to the proposed reorganization and general salary adjustment and to a moderate increase in work load.

Administrative expense in connection with veterans' affairs, relatively stable during recent years, will continue at essentially the same level. The opening of new barracks at the Veterans' Home in 1953 will contribute slightly to the support requirement for this center.

Expenditures recommended for the Department of Industrial Relations are influenced by the State's expanded labor force and high level of employment. These factors are reflected in a direct work load increase, plus the need to intensify enforcement of safety regulations, the compensation insurance laws, and the statutes governing employment of women.

(Thousands of dollars)					
	Actual 1951-52	Estimated 1952-53	Proposed 1953-54	Change from 1952-53 Amount	Pct.
Industrial relations -----	\$4,943	\$5,548	\$6,255	\$707	12.7
Public health -----	4,725	5,289	5,327	38	0.7
Social welfare -----	1,961	2,099	2,323	224	10.7
Veterans' affairs -----	6,301	6,306	6,377	71	1.1
Other -----	59	67	71	4	6.0
Totals -----	\$17,989	\$19,310	\$20,353	\$1,043	5.4

## Other Expense—\$29,229,000

This miscellaneous category of current expense comprises most of the general government functions in the State's program, as distinguished from the service and fiscal management activities outlined above. The expenditure total includes support of the Legislature, courts, executive offices, general administrative agencies,<sup>7</sup> regulatory bodies, and the contingency reserve which cannot be allocated to specific uses at this time.

The regulatory agencies, such as the Public Utilities Commission, the six offices which deal with the general subjects of banking and investment,<sup>8</sup> and the 28 boards, bureaus, and commissions regulating the professions and vocations,<sup>9</sup> contribute the principal items of expense in this group. In total, these account for \$10,407,831, approximately one-third of the total. Expenditure recommendations of \$1,888,287 are made for general administration, including the Personnel Board, the State Employees' Retirement System, the Office of the Secretary of State, and the Commission on Interstate Cooperation.

With the exception of a decline in expenditure requirements for the Legislature, arising chiefly by reason of the shorter legislative session to be held next year, there are no outstanding developments in this field of miscellaneous expense. Amounts budgeted for each of the component groups in 1953-54, together with comparative totals for the current year and for 1951-52, are shown in the following table:

(Thousands of dollars)					
	Actual 1951-52	Estimated 1952-53	Proposed 1953-54	Change from 1952-53 Amount	Pct.
Legislative -----	\$2,430	\$3,726	\$2,800	—\$926	—24.8
Judicial -----	1,299	1,390	1,460	70	5.0
Executive and civil defense -----	1,802	1,794	1,971	177	9.9
General administrative <sup>a</sup> -----	1,675	2,010	1,888	—122	—6.1
Regulative -----	8,646	9,507	10,408	901	9.5
Other <sup>b</sup> -----	6,873	10,216	8,202	—2,014	—19.7
Reserve for contingencies <sup>c</sup> -----	—	608	2,500	1,892	311.2
Totals -----	\$22,726	\$29,252	\$29,229	—\$23	—0.1

<sup>a</sup> After credits to the General Fund for overhead services charged to agencies supported from special funds. The adjustment is necessary to avoid duplication of the amounts shown.

<sup>b</sup> Including the Departments of Justice, Military Affairs, and Public Works (other than expenditures for highways and water resources), and miscellaneous expenses.

<sup>c</sup> The amount shown for 1952-53 represents the unallocated balance of \$2,500,000 emergency and price increase fund provided for the current year. The \$2,500,000 given for 1953-54 is the total emergency fund requested for the coming fiscal year.

## CAPITAL OUTLAY

Aside from the normal utilization of motor vehicle revenue available for highway construction, the capital outlay expenditures recommended in this budget are focused upon the most urgently needed facilities at State hospitals and homes, prisons, correctional schools, and educational centers. Of the \$214,898,124 earmarked for permanent improvements, \$114,353,157 will be used for highway construction and activities related to motor vehicle regulation, \$42,816,100 for mental and correctional institutions, and \$28,252,079 for special schools, State colleges, and the University. Other capital outlay recommendations amount to \$29,476,788, including an unallocated fund of nine million dollars to meet price adjustments and other contingencies in the building program.

While the State's building program still contains a large element of catching up with war and postwar deficiencies, emphasis is gradually shifting to the problem of keeping up to date with current population growth. California, with a present population of nearly twelve million people, must look forward to a 1960 total of more than fourteen million. This means a population growth of one-third during this decade. The State's facilities—its hospitals, prisons, schools, and colleges—must keep pace. It is this basic need, priced at a cost level nearly three times that of prewar years, which sets the pattern for the capital outlay recommendations for 1953-54.

A summary of expenditures classified by principal governmental functions is given below:

(Thousands of dollars)					
	Actual 1951-52	Estimated 1952-53	Proposed 1953-54	Change from 1952-53 Amount	Pct.
Highways and vehicle regulation -----	\$113,505	\$121,652	\$114,353	—\$7,299	—6.0
Mental hygiene and corrections -----	31,328	49,665	42,816	—6,849	—13.8
Education -----	19,660	44,235	28,252	—15,983	—36.1
Conservation of natural resources -----	8,779	17,756	12,881	—4,875	—27.5
Social welfare and health -----	2,289	3,279	2,716	—563	—17.2
All other -----	5,427	19,845	13,879	—5,966	—30.1
Totals -----	\$180,989	\$256,432	\$214,898	—\$41,534	—16.2

## Highways, Traffic Law Enforcement and Regulation of Motor Vehicles—\$114,353,000

It is not possible to summarize here the multitude of items entering into the capital outlay budget for highways. A complete statement of the program approved by the State Highway Commission is provided in the body of this budget and may be referred to for detailed information on the projects involved. It may be observed, however, that the decline in highway investment indicated for 1953-54 results from the \$10,000,000 fund for acquisition of rights-of-way created by Chapter 20 of the Statutes of 1952, Second Extraordinary Session. This fund is budgeted for expenditure in the current year and has no counterpart in the 1953-54 total.

<sup>7</sup> General administrative agencies include the State Employees' Retirement System, the Commission on Interstate Cooperation, the Personnel Board, and the Secretary of State's Office.

<sup>8</sup> Divisions of Banking, Building and Loan, Corporations, and Real Estate; the Department of Insurance; and the District Securities Commission. Regulatory expense incurred by other departments incidental to their principal functions are not included in the totals presented here.

<sup>9</sup> See Budget Schedule 3 for a list of these agencies.

Expenditure recommendations for the Highway Patrol and the Department of Motor Vehicles cover acquisition of local office building sites and improvements at the Patrol academy.

	(Thousands of dollars)			Change from 1952-53	
	Actual 1951-52	Estimated 1952-53	Proposed 1953-54	Amount	Pct.
State highways .....	\$112,779	\$121,416	\$113,929	—\$7,487	—6.2
Highway patrol .....	162	105	316	211	200.6
Motor vehicle regulation ..	564	131	108	—23	—17.6
Totals .....	\$113,505	\$121,652	\$114,353	—\$7,299	—6.0

### Mental Hygiene and Corrections—\$42,816,000

Nearly half of the budget appropriation recommended for capital outlay other than highways will be found in the proposed improvements at mental hospitals and correctional facilities. Of the \$42,816,100 total for this group, \$25,767,767 has been allocated to meet hospital needs, \$12,763,706 for the adult prisons, and \$4,284,627 for the centers operated by the Youth Authority.

Major projects of the Department of Mental Hygiene for the care of mental defectives include a new home at Costa Mesa in Southern California, designed to care for 990 patients and estimated to cost more than eleven million dollars, additional facilities at the Porterville mental home to provide 490 beds, a receiving hospital and ward buildings at Sonoma to house 800, and an additional ward capacity of 234 at Pacific Colony. In addition, special urgency legislation will be presented to authorize immediate construction of a hospital annex at Pacific Colony to accommodate 314 patients. A coordinated attack upon the problem of adequate facilities to discharge the State's responsibility for the mentally defective is being made in this phase of the 1953-54 capital outlay program.

In the field of adult corrections, a 580 capacity reception-guidance center and recreation facilities are proposed for the new Medical Center at Vacaville. New commissary and laundry buildings are planned at Folsom and San Quentin and a new main entrance and parking area at Chino.

The Youth Authority program includes site purchase for the 600-boy capacity Youth Training School, construction of auditoriums at Los Guilucos and Paso Robles, building of detention units at Paso Robles and the Fred C. Nelles School, and replacement of old structures at Preston, including two dormitories, administration, commissary, vocational trades buildings, and baking addition.

	(Thousands of dollars)			Change from 1952-53	
	Actual 1951-52	Estimated 1952-53	Proposed 1953-54	Amount	Pct.
Mental hygiene .....	\$17,383	\$30,009	\$25,768	—\$4,241	—14.1
Corrections:					
Adult facilities .....	7,661	11,993	12,764	771	6.4
Youth facilities .....	6,284	7,663	4,285	—3,378	—44.1
Totals .....	\$31,328	\$49,665	\$42,816	—\$6,849	—13.8

### Education—\$28,252,000

The total of \$28,252,079 budgeted for construction at educational centers in 1953-54 includes \$11,642,054 for State colleges and schools, \$16,601,775 for the University of California, and \$8,250 for the Department of Education.

At the State colleges, major emphasis is on construction of classroom and gymnasium facilities for established colleges at San Jose, San Diego, and San Luis Obispo, where enrollment threatens to exceed current

capacity. Second units of permanent buildings are also provided at Long Beach State College and the School for the Deaf at Riverside, where presently funded construction programs permit only partial operation of newly-established facilities.

The major units comprised within the \$16,601,775 budgeted for the University include an anthropology building and a soils and plant nutrition building at Berkeley, a horticulture building at Davis, a life sciences building at Los Angeles, a residence hall at San Francisco, and a music building at Santa Barbara. Provision is made for the acquisition of more land needed at the Berkeley and Riverside campuses. Additional supplies and equipment are provided for the new medical facilities at Los Angeles and San Francisco, the life sciences building at Los Angeles, the 120 inch telescope at Mt. Hamilton, the new college at Riverside, and the new campus at Santa Barbara.

Expenditure recommendations are classified by principal types of institutions in the following table:

	(Thousands of dollars)			Change from 1952-53	
	Actual 1951-52	Estimated 1952-53	Proposed 1953-54	Amount	Pct.
State colleges .....	\$6,520	\$19,602	\$8,342	—\$11,260	—57.4
Technical colleges ..	983	4,680	2,275	—2,405	—51.4
Special schools and blind centers .....	973	1,040	1,024	—15	—1.4
University .....	11,184	18,666	16,602	—2,064	—11.0
Other .....	---	247	8	—238	—96.6
Totals .....	\$19,660	\$44,235	\$28,252	—\$15,983	—36.1

### Conservation and Development of Natural Resources—\$12,881,000

With a constantly growing population, conservation of natural resources becomes increasingly important in the State's development. The budget for 1953-54 provides \$12,881,392 for capital outlay improvement of recreational areas, forest protection, reclamation, the promotion of agriculture, and water conservation. This represents a decrease of \$4,875,033 from the total for the current year, with most of this change to be found in reduced expenditures for improvements at agricultural fairs and in beach and park development.

Purchases of new beach and park areas are budgeted at \$2,057,000, while construction of facilities in connection with this activity is scheduled at \$1,155,000. Acquisition of forest lands, construction of fire control stations, and improvement of forestry camps comprise the principal items in a \$2,076,000 program of capital outlay to protect forest, range, and brush lands. Fish and game development, including the activities of the Wildlife Conservation Board, will require capital investments of \$2,980,600.

Expenditures for capital outlay at agricultural fairs are budgeted at \$2,832,291, a decrease of \$3,356,754 from the current year's level. This change may be traced largely to the fact that expenditures for improvements at district agricultural fairs are unusually large in the current year and will be at a more normal level in 1953-54. Capital outlay for other agricultural activities, including border inspection stations, the poultry improvement project, reclamation, and water investigations total \$1,780,131, or approximately \$400,000 less than during the current period. Virtually all of this decline is accounted for in the reduced appropriation for border stations, as the work of rebuilding these structures draws to a close.

Capital outlay expenditures classified by principal functions are given below:

(Thousands of dollars)

	Actual 1951-52	Estimated 1952-53	Proposed 1953-54	Change from 1952-53	
				Amount	Pct.
Agriculture .....	\$209	\$671	\$278	—\$393	—58.5
Fairs and expositions .....	1,962	6,189	2,832	—3,357	—54.2
Beaches and parks .....	1,610	5,644	3,212	—2,432	—43.1
Forestry .....	737	1,625	2,076	451	27.8
Fish and game .....	3,660	2,114	2,981	866	41.0
Reclamation .....	602	1,339	1,270	—69	—5.2
Water resources .....	---	174	232	58	33.5
Totals .....	\$8,779	\$17,756	\$12,881	—\$4,875	—27.5

### Social Welfare and Health—\$2,716,000

Projects at the Veterans' Home and the construction of employment offices in various localities throughout the State constitute the permanent improvement program recommended in the welfare area. Provision is made for a 120-bed addition to the hospital at the Veterans' Home, a new residence for the Commandant, and minor items, costing in total \$1,689,770. Under the long-term program of local office construction for the Department of Employment, appropriation of \$371,332 is recommended for the purchase of sites for future buildings, \$16,300 for planning, and \$639,000 for new structures.

Capital outlay expenditures for these functions in 1951-52, including public health offices, amounted to \$2,289,429, and are estimated at \$3,278,902 for the current year.

### All Other—\$13,879,000

The principal item included in this miscellaneous capital outlay category is the unallocated fund provided to meet price contingencies in the building program as a whole. Experience during recent years has repeatedly demonstrated the necessity for a reserve of this kind, and the amount recommended has been determined after an analysis of the price factors involved.

Capital outlay appropriations for general purposes, including allotments for the reconstruction and renovation of office structures, amount to \$2,128,000, a decline of nearly \$3,373,000 from the corresponding total for the current year. The new appropriation provides for the acquisition of office building sites in certain of the major cities and for the construction of a textbook warehouse adjoining the new printing plant.

(Thousands of dollars)

	Actual 1951-52	Estimated 1952-53	Proposed 1953-54	Change from 1952-53

Totals .....	\$5,427	\$19,845	\$13,879	—\$5,966	—30.1

## LOCAL ASSISTANCE

State payments to local units of government during 1953-54 are expected to reach the record total of \$744,069,344. This is \$88,008,739 above the estimated total for the current year, due chiefly to the increase in State support of public schools, larger apportionments of revenue for roads and streets, and a greater return from the license fee levied in lieu of local property taxes on motor vehicles. Appropriations fixed by provisions of the Constitution or statutes will increase \$100,646,765 over the total of such charges in the current year, but items subject to direct control will decrease \$12,638,026. The latter change is due entirely to the elimination of the current \$20,000,000 non-recurring appropriation for local school buildings. Other controllable expenditures for local assistance will increase approximately \$7,000,000.

In terms of the six broad governmental functions outlined above, approximately fifty-five cents of each local assistance dollar goes to education, nineteen cents to social welfare, eleven cents to roads and streets, and fifteen cents to other governmental activities. There are no subventions for mental hygiene, and the amount for corrections is negligible in the over-all total. A summary of payments estimated for 1953-54, the increase in each general category, and the percentage distribution by class are shown in the table below:

	Budgeted expenditures 1953-54 (millions)	Change from 1952-53		Percent of total assistance
		Amount (millions)	Per- cent	
Education .....	\$407.0	\$75.1	22.6	54.7
Social welfare .....	144.8	1.2	0.8	19.4
Public health .....	13.8	0.4	2.9	1.9
Roads and streets .....	84.4	4.6	5.7	11.3
Conservation of resources .....	9.3	3.6	64.0	1.3

### Subventions for Education—\$406,958,000

Payments for support of public schools and related activities will amount to \$406,957,890 during the period covered by this budget—an increase of \$75,156,140 over requirements in the current year. Normal, recurring expenditures for this purpose will expand by nearly one hundred million dollars, but this sum will be partially offset by a non-recurring appropriation in the current year of \$20,000,000 for the construction of local school buildings. To the extent of this offset, a comparison of expenditures in the two years tends to obscure the basic change in State support for public schools which becomes effective in this budget.

Several factors contribute to this increase. The most important of these is the action of California voters last November in approving by a 2 to 1 majority a constitutional amendment which raised State support for public schools from \$120 to \$180 per unit of attendance. As prior legislation had already provided an average of approximately \$147 per pupil for the current year—substantially more than the constitutional minimum—the actual increase amounts to \$33 per pupil, but this change applied to an attendance list of 2,040,000 results in expansion in school apportionment of approximately \$67,000,000. A second factor is the rapid growth in school enrollment—7.1 percent over the total for the previous year and more than twice the relative rate of increase in the total population. The wave of births which started in 1934 reached tidal proportions in the postwar years. These children are now entering the school system, carrying enrollments to new record levels each successive year, and this trend will continue for at least another decade. The estimated attendance of 2,040,000 this year, which will be the base for apportionments in 1953-54, compares with the last year's record of 1,904,926 and 1,783,637 in 1950-51. This rapid growth adds approximately \$21,000,000 to State support requirements in 1953-54, resulting in a total increase of \$87,435,000 over the corresponding amount for schools in the current, 1952-53, Fiscal Year.

The appropriation required to fulfill the State's obligation under the teachers' retirement program is estimated at \$22,166,800, an increase of \$3,644,800 over the current year. In the last two years, the State's annual appropriation for this purpose has

been less than estimated expenditure requirements as a result of unexpended funds carried forward from the previous period. This situation will be reversed in 1953-54, when it will be necessary to include in the appropriation an amount of \$530,000 to liquidate a deficit in the current year's allowance. This reversal, coupled with a larger number of retirements anticipated next year under the liberalized benefit program authorized in 1949, accounts for the advance in retirement contributions from the State General Fund during the coming fiscal year.

State expenditures for debt service on school building bonds will increase nearly 50 percent to reach \$8,653,000 in 1953-54 as maturity dates fall due on an increasing volume of these obligations, and interest payments are required on the \$415,000,000 worth of bonds authorized for issuance since the program started two years ago. The sum estimated for the coming period represents the State's fixed responsibility after deducting repayments of principal and interest by the local districts which have received loans from the State.

Appropriations for free textbooks, \$3,366,832, will be fifty percent greater than in the current fiscal year, reflecting both the increasing enrollment trend and a greater number of editions due for revision and replacement.

Subventions for vocational education and child care centers will remain essentially at current levels, marking a continuation of the trends evident in recent years with regard to these items.

A summary of subventions for the educational function follows:

	(Thousands of dollars)			Change from 1952-53	
	Actual 1951-52	Estimated 1952-53	Estimated 1953-54	Amount	Pct.
School support .....	\$239,969	\$279,747	\$367,183	\$87,436	31.3
Teachers' retirement .....	16,390	18,522	22,167	3,645	19.7

\* Net result of \$20,000,000 current appropriation less \$250,000 return of unused funds loaned from prior appropriations.

## Social Welfare—\$144,830,000

In sharp contrast with the upward trend in educational costs, subventions for social welfare are expected to remain relatively stable during the next year. The sum of \$144,830,145 is provided for this purpose against \$143,659,822 estimated for the present year and \$148,445,005 actually spent in 1951-52.

Welfare grants include old age security, aid to the blind, and aid to needy children. Case loads in all three categories have shown remarkable stability during recent months, particularly when contrasted with the rapid growth which characterized some of the earlier years. Actual and estimated case loads in the major programs during the period covered by this budget are:

	(Average cases during the year)		
	1951-52	1952-53	1953-54
Old age security .....	272,860	273,880	278,600
Aid to needy blind .....	10,867	11,330	11,870
Aid to partially self-supporting blind .....	539	520	520
Aid to needy children .....	136,558	134,648	133,960
Totals .....	420,824	420,378	424,950

A tight employment situation, which has kept a greater number of the older workers in the labor force and allowed responsible relatives better opportunity to support their dependents, undoubtedly is an important element in the current case load stability. Another is the increase in Federal old age and survivors insurance benefits, which has raised individual resources and lessened the need for public assistance based on need. Both of these will continue to exercise an influence in 1953-54, but the effect may not be sufficient to balance an increase of approximately 4 percent in the State's population 65 years of age and over. Consequently, allowance has been made for a moderate rise in the aged case load next year, sufficient to carry the average to 278,600 cases. This assumption will be reviewed as additional experience is obtained. If a resumption of previous trends becomes apparent, the forecast may have to be revised upward, with an accompanying increase in the amount of money required. If present trends are maintained, or if a further decrease appears likely, the estimate will be revised accordingly.

The Social Security Act amendments of 1952 increased the benefits under the old age and survivors insurance system and provided greater Federal participation in the categorical aid payments. There resulted a net gain in the average monthly payment to the recipients of old age security and aid to needy blind as the Federal increase in these two categorical aids was passed on by State legislative action.

Due to the changes, total General Fund cost for old age security dropped from \$106,145,005 for 1951-52 to \$103,137,600 estimated for 1952-53, and is estimated at \$104,374,700 for 1953-54.

Blind aid and payments under the program of assistance to partially self-supporting blind are expected to continue the nominal increase recorded in recent years. The number of needy children is estimated to decrease slightly, as greater emphasis upon rehabilitation of parents through vocational training and the expansion of job opportunities achieves a better balance between the number of new cases accepted and the number closed. The General Fund cost is less for 1953-54 as a result of the greater Federal participation, even though an increase in the cost of living has raised the amount of the average payment.

Payments for medical care of aged and blind after the first two months of confinement in county hospitals are estimated at \$1,334,800, compared with \$1,311,600 in the current year and \$1,267,705 in 1951-52. Reimbursement to counties for the expense of licensing and inspecting boarding homes for aged and children and for administrative cost of the adoption program will show a moderate increase.

Amounts provided for each of the social welfare subventions are summarized in the following table:

	(Thousands of dollars)			Change from 1952-53	
	Actual 1951-52	Estimated 1952-53	Estimated 1953-54	Amount	Pct.
Old age security .....	\$106,145	\$103,138	\$104,375	\$1,237	1.2

Roads and Streets—\$84,413,000

A gain in motor vehicle registrations and the rising volume of motor fuel consumption for the coming fiscal year will result in a \$4,568,856 increase in the State-collected funds for local roads and streets. Apportionments for this purpose are estimated at \$84,412,630, of which \$60,757,567 will go to counties as their share of fuel tax and registration fee receipts, while \$23,655,063 will become available to municipalities for maintenance and construction of city streets not in the State highway system. These amounts are predicated upon continuance of the present 4½ cents per gallon gasoline tax and the existing sharing provision which gives one and three-eighths cents to counties and five-eighths of a cent to cities. In addition, county governments receive a specified share of motor vehicle registration and weight fees, based partially upon the trend in vehicle registrations. Amounts for each purpose are shown below :

(Thousands of dollars)					
	Actual 1951-52	Estimated 1952-53	Estimated 1953-54	Change from 1952-53 Amount	Pct.
For county roads:					
Fuel tax -----	\$45,710	\$49,183	\$52,041	\$2,859	5.8
Registration fees -----	7,804	8,305	8,716	411	4.9
Subtotals -----	\$53,514	\$57,488	\$60,758	\$3,270	5.7
For city streets:					
Fuel tax -----	20,777	22,356	23,655	1,299	5.8
Totals -----	\$74,292	\$79,844	\$84,413	\$4,569	5.7

Public Health—\$13,848,000

Grants to local governments for public health purposes, which were among the most rapidly expanding services of government a few years ago, have recently stabilized at a level of approximately \$13,000,000 annually. Appropriations for this purpose are entirely controllable in the budget making process. There are no fixed or mandatory charges, although the formulas for distribution of tuberculosis subsidies and aid to crippled children tend essentially to fix the amounts to be provided for these purposes.

In total, the \$13,847,553 recommended for health subventions in 1953-54 represents a gain of 2.9 percent over the current amount, an increase paralleling annual population growth. Most of the change occurs in the items of State aid for the support of local health departments. Minor increases are shown in payments for tuberculosis care and the care of crippled children, while a small decrease is anticipated in the apportionment of aid for local hospital construction.

(Thousands of dollars)					
	Actual 1951-52	Estimated 1952-53	Estimated 1953-54	Change from 1952-53 Amount	Pct.
Local health departments --	\$2,761	\$2,872	\$3,202	\$303	11.5
Tuberculosis subsidies ----	4,937	5,188	5,266	79	1.5

Hospital construction -----	2,542	1,624	1,540	—84	—5.2
Totals -----	\$12,168	\$13,459	\$13,848	\$389	2.9

\* Including assistance to school districts for the treatment of cerebral palsied children.

Conservation of Natural Resources—\$9,305,000

Two items dominate the State's subventions for conservation and development of natural resources—the apportionments of horse racing revenue for support of county agricultural fairs, and grants for flood control. The former involves estimated payments of \$3,085,360

in the coming year, approximately \$1,172,000 below the corresponding amount for 1952-53. The decline results from an increase in other appropriations having a prior claim upon the Fair and Exposition Fund and from a drop in unexpended balances carried forward from the previous year. The latter—flood control—will increase materially in 1953-54 when further reimbursement for expenditures on a major project in the Los Angeles-San Gabriel area, approved in 1948, will be due.

The sum of \$3,000,000 appropriated in 1952 for earthquake damage will be entirely allocated in the current fiscal year and no corresponding payment is contemplated in 1953-54.

A summary of expenditure items comprising the subventions for conservation and resource development follows:

(Thousands of dollars)					
	Actual 1951-52	Estimated 1952-53	Estimated 1953-54	Change from 1952-53 Amount	Pct.
Aid to fairs -----	\$2,224	\$4,258	\$3,085	—\$1,172	—27.5
Flood control -----	1,902	352	5,088	4,735	1,345.2
Agricultural commissioners --	114	123	132	9	7.3
Other -----	702	939	1,000	61	6.5
Totals -----	\$4,942	\$5,672	\$9,305	\$3,633	64.0

Other Assistance—\$84,716,000

Miscellaneous subventions and shared revenues have been budgeted at \$84,716,000 for the ensuing fiscal year. The total includes amounts to be apportioned from the State-collected liquor license fees, the assessment upon motor vehicles levied in lieu of property taxes, subventions for local public works under the \$90,000,000 appropriation authorized in 1946, contributions toward the compensation of superior court judges, the retirement fund provided for judges of superior and municipal courts, and other general purpose grants from the State to local units of government.

Principal developments under this heading involve a substantially larger apportionment from the motor vehicle in lieu tax, generated by the increasing volume of new, higher priced vehicles in the registration structure. Distributions of this money and apportionments of liquor license fees, which were accelerated in 1951-52 by legislative direction, will reflect the normal outflow of revenue collections in the present year and in 1953-54. It is expected that subventions for local public works will continue to decline as the 1946 appropriation is gradually exhausted.

Amounts estimated to be distributed during fiscal 1954 under each of the several items comprising this group, together with corresponding amounts for the two previous years, are shown below:

(Thousands of dollars)					
	Actual 1951-52	Estimated 1952-53	Estimated 1953-54	Change from 1952-53 Amount	Pct.
Vehicle license fees -----	\$72,793	\$64,684	\$70,989	\$6,305	9.7
Liquor license fees -----	8,216	8,171	8,182	11	0.1
Postwar public works -----	2,670	2,990	2,700	—290	—9.7
Judges' salaries and retirement -----	1,572	1,681	1,727	46	2.7
Earthquake damage -----	---	3,000	---	—3,000	—100.0
Aid for juvenile homes and camps -----	713	745	793	49	6.4
All other * -----	390	354	325	—29	—8.2
Totals -----	\$86,354	\$81,625	\$84,716	\$3,091	3.8

\* Includes apportionment of unrefunded gasoline tax on aircraft fuel and workmen's compensation insurance for disaster service workers.

## Schedule 4

**GENERAL FUND—STATEMENT OF FINANCIAL CONDITION, JUNE 30, 1952**

## ASSETS

Cash		
In State Treasury.....	\$35,256,275	
In Transit From Agencies.....	4,341,440	
Agency Accounts.....	1,774,420	
Total Cash.....		\$41,372,135
Less: Reserve for Uncleared Collections.....		514,035
Net Total Cash.....		\$40,858,100
Agency Revolving Funds.....		7,844,576
Investments		
Bonds at Par.....	\$96,185,000	
U. S. Treasury Notes, at Cost.....	9,501,637	
Unamortized Premium and Accrued Interest, Less Discount.....	295	
Total Bond Investments.....		105,686,932
Accounts Receivable—Current		
Due From Other Funds.....	\$3,886,753	
Equity in Feeder Funds.....	8,386,380	
Abatements and Reimbursements.....	4,908,081	
Advances to Counties for Aid to Aged, Blind, and Needy Children:		
State's Share.....	13,122,809	
Federal Share.....	21,123,693	
Sundry Accounts Receivable.....	1,299	
Total Accounts Receivable, Current.....		51,429,015
Accounts Receivable—Other (Fully Reserved)		
Revenue Receivable.....	\$5,812,726	
Toll Bridge Authority.....	1,605,596	
Sixth District Agricultural Association.....	1,238,745	
Unreimbursed Debt Service—Public School Building Loan Fund.....	3,178,883	
Due From Agriculture Fund.....	7,169	
Advance to Business and Professions Building.....	160,908	
Flood Control Project Maintenance Revolving Fund.....	93,588	
Due From School Districts for Apportionment Adjustment Pursuant to		
Correction in Reported Local Tax Rate.....	68,787	
Sundry Accounts Receivable.....	554,492	
Total.....	\$12,720,894	
Less: Reserve for Uncollected Accounts Receivable.....	12,720,894	
TOTAL ASSETS.....		\$205,818,623

## LIABILITIES AND RESERVES

Liabilities		
Claims Payable Filed.....	\$4,224,473	
Accounts Payable.....	30,388,514	
Due to Other Funds.....	310,754	
TOTAL LIABILITIES.....		\$34,923,741
Reserves		
Reserve for Prepaid Appropriation Reimbursements and Deferred Abate-		
ments of Expenditures for 1952-53 F.Y.....		914,462

## SURPLUS

Unappropriated Surplus, June 30, 1952.....	\$143,153,793	
Unencumbered Appropriation Balances Estimated to Revert.....	14,927,397	
Unencumbered Appropriation Balances Chargeable to Subsequent Fiscal		
Years.....	11,899,230	
Accumulated Surplus Available for Expenditure.....		169,980,420
TOTAL LIABILITIES, RESERVES AND SURPLUS.....		\$205,818,623

\* The change in the capital outlay program is due to the timing of the beginning of construction; the over-all program remains unchanged.

f Savings due to increased amount of federal funds made available.

g Increase due to additional horse racing revenue available for county fairs.

## Schedule 11

**STATEMENT OF BONDED DEBT OF THE STATE OF CALIFORNIA  
AS OF NOVEMBER 30, 1952**

This statement does not include bonds issued under authority of state instrumentalities, such as the Toll Bridge Authority, Water Project Authority, Board of State Harbor Commissioners, World Trade Center Authority, and state colleges and the University of California, which bonds are not general obligations of the State.

Name of issue	Rate of interest	Date of maturity	Amount authorized	Amount unsold	Redemption to November 30, 1952	Amount outstanding November 30, 1952	Amounts in sinking funds for payment of principal November 30, 1952
<b>GENERAL OBLIGATION BONDS</b>							
<b>GENERAL FUND</b>							
Sacramento State Buildings of 1913 <sup>1</sup>	4%	1965	\$3,000,000			\$3,000,000	\$3,000,000
San Francisco State Buildings of 1913 <sup>1</sup>	4%	1916-65	1,000,000		\$740,000	260,000	260,000

<i>Less: Amounts in Sinking Funds, November 30, 1951, Available for Payment of Principal</i>						<i>13,120,466</i>	
<b>NET BONDED DEBT</b>						<b>\$498,584,534</b>	

<sup>1</sup> Chapter 611, Statutes 1943, and Chapter 1492, Statutes 1945, appropriated \$26,239,738.75 to the Bond Sinking Fund of 1943 for the purpose of paying the principal and interest on these issues to final maturity.

<sup>2</sup> In addition there is \$26,399 in the Olympic Bond Fund and \$3,713,063 in the Bond Sinking Fund of 1943 which is available for payment of interest, and \$84,253 in the Sacramento State Building Sinking and Interest Fund in excess of the amount required to retire outstanding bonds.

<sup>3</sup> The servicing of these bonds is primarily the obligation of the San Francisco Harbor Improvement Fund and the Veterans Farm and Home Building Fund; however, in last analysis they are general obligation bonds.

<sup>4</sup> In addition there is \$203,481 in the Seawall Sinking Funds and \$5,973 in the India Basin Sinking Fund of 1909 which is available for payment of interest.

<sup>5</sup> Callable on or after January 2, 1951, in the amount available in the sinking fund.

<sup>6</sup> Callable on or after January 2, 1955, in the amount available in the sinking fund.

<sup>7</sup> \$500,000 callable on or after March 1, 1971.

<sup>8</sup> Callable on or after January 2, 1941, in the amount available in the sinking fund.

<sup>9</sup> Budget Act of 1952 provides \$50,000,000 to be set aside in the School Bond Retirement Fund, which will be available in March, 1953, for retirement of school building bonds.

# Salaries and Wages

## **Position Titles**

In the detailed departmental and agency budgets, positions included in the state civil service have been set forth under the official class titles established therefor by the Personnel Board. Positions exempt from civil service have been listed by their departmental titles, as set forth on the official roster of employees maintained by the Personnel Board, or as maintained by the State Controller under the central pay installation.

## **Positions Now Authorized**

In general, the positions included under this heading are those which were established as of July 1, 1952, together with those for which funds were provided in the 1952-53 Fiscal Year Budget or otherwise authorized as of that date and authorized revisions thereof. Amounts shown for positions now authorized represent actual salary payments for 1951-52 and estimated salary payments during 1952-53 and 1953-54, assuming full year employment, unless the position is estimated to be established materially later than July 1, 1952. In such cases only the cost from date of establishment is shown.

Replacement of positions at a higher level either (a) upon completion of a training period or (b) after temporarily "down grading" are included under this heading. Such transactions are indicated by showing both class titles on the same line, with a salary range of the minimum salary of the lower class and the maximum of the higher class. Examples: (a) administrative trainee-junior staff analyst, \$281-395, (b) junior-intermediate clerk, \$200-268.

Continuation during 1953-54 of positions authorized temporarily until June 30, 1953, are included under "Positions Now Authorized." These positions may be identified by an explanation in parenthesis indicating the extent of the continuation, such as: (extended to December 31, 1953) or (extended to permanent).

## **Proposed New Positions**

Proposed positions for the budget year which have not yet been established or authorized have been listed under this heading. Proposed increases in time of part-time positions are also listed under this heading, if the increase amounts to one-half time or more; otherwise the position is shown under "Positions Now Authorized" on the increased time basis.

Proposed new positions include upward replacement of positions only to extent that they involve major organizational changes.

## **Estimated Salary Savings**

Unless indicated to the contrary by experience and anticipated conditions, a lump sum deduction is made

from each group total of salaries and wages in anticipation of savings which are estimated to accrue because of temporarily vacant positions, and the lower entrance rates of salary at which replacement personnel are paid.

The amounts of such estimated savings may not correspond to the number of positions deducted because of adjustments to the latter for positions authorized to start after July 1. The amounts shown opposite such positions are for the estimated costs for the period of occupancy only and, therefore, there is no money savings to be anticipated.

## **Number of Positions**

Filled positions in 1951-52 are counted to the nearest tenth of full-time and full-year employment, except for members of boards and commissions, temporary help, etc.

Authorized positions for 1952-53 and 1953-54 are counted to the nearest tenth of full time. Full-time positions authorized to start later than July 1st are counted as full positions, but the totals are adjusted for the unused time by a deduction under estimated salary savings.

Where more than one part-time position of the same class appears under a single function, the number of separate part-time positions is indicated opposite the word "Individuals." Such items and all other items enclosed in parentheses in the number of positions columns are excluded from position totals.

## **Salary Range**

Rates of pay listed under this heading represent salary ranges established by the State Personnel Board for civil service classifications, or fixed by statute or by the appointing authority and approved by the Director of Finance for each class of exempt position.

The amounts shown indicate (1) the minimum rate and (2) the maximum rate. The minimum of the range serves as the normal entrance rate for new appointees to any position in a class and represents the lowest rate to be paid to any employee who is considered qualified for appointment to or retention in a position. The maximum of the range represents the highest rate payable to an employee who occupies any position in the class.

Under the revised pay plan adopted by the State Personnel Board on July 25, 1947, the intermediate steps in each salary range have been fixed at a uniform percentage interval of 5 percent, except that no interval is less than \$10. This plan is used also for many salaries fixed for exempt positions. A table of salary ranges in the state service is included at the end of this section. Thus, \$220-268 indicates a monthly salary range having steps of \$220-\$231-\$243-\$255-\$268. Salary ranges for instructional positions in the state colleges and in other state agencies are set forth below.

# Schedule of Usual Salary Ranges in the State Service \*

Range No.	Steps					Range No.	Steps				
9 -----	\$140	\$150	\$160	\$170	—	31 -----	\$436	\$458	\$481	\$505	\$530

28 -----	376	395	415	436	458	* Four step salary ranges, with one step higher minimum are established for certain classes with recruiting difficulties.					
29 -----	395	415	436	458	481						
30 -----	415	436	458	481	505						

## Salary Schedule for Instructional Positions—State Colleges <sup>a</sup>

### ANNUAL SALARY RANGE

#### ACADEMIC

(By classes in accordance with professional preparation)

RANK <sup>c</sup>	CLASS I	CLASS II	CLASS III	CLASS IV	VOCATIONAL
Assistant	\$3,372-4,092	—	—	—	—
Assistant, C. P. C. and Fresno <sup>c</sup>	3,372	—	—	—	—
Instructor	—	\$3,720-4,512	\$3,900-4,740	\$4,092-4,980	—
Junior Instructor, C. P. C. and Fresno <sup>c</sup>	—	3,720-4,512	3,900-4,740	4,092-4,980	\$3,720-4,512
Assistant Professor	—	4,092-4,980	4,296-5,232	4,512-5,496	—
Intermediate Instructor, C. P. C. and Fresno <sup>c</sup>	—	4,092-4,980	4,296-5,232	4,512-5,496	4,296-5,232
Associate Professor	—	5,772 <sup>b</sup>	4,980-6,060	5,232-6,360	—
Senior Instructor, C. P. C. and Fresno <sup>c</sup>	—	4,740-5,772	4,980-6,060	5,232-6,360	5,232-6,360
Professor	—	6,360 <sup>b</sup>	7,008 <sup>b</sup>	5,772-7,728	—
Principal Instructor, C. P. C. and Fresno <sup>c</sup>	—	—	—	5,772-7,728	5,772-7,728

#### EXTENT OF PROFESSIONAL PREPARATION

- CLASS I** Persons whose academic or professional preparation is deemed equivalent to four years beyond high school graduation or holders of recognized Bachelor's degrees.
- CLASS II** Persons whose academic or professional preparation is deemed equivalent to five years beyond high school graduation or holders of recognized Master's degrees.
- CLASS III** Persons whose academic or professional preparation is deemed equivalent to six years beyond high school graduation.
- CLASS IV** Persons whose academic or professional preparation is deemed equivalent to seven years beyond high school graduation or holders of recognized Doctor's degrees.

<sup>a</sup> Based on salaries effective October 1, 1951, for classifications used at state colleges, and September 1, 1952, for classifications used at California Polytechnic College and the Division of Agriculture at Fresno State College.

<sup>b</sup> Limited to persons holding this class and rank prior to adoption of salary schedule—therefore maximum only is paid.

<sup>c</sup> The positions for C. P. C. (California Polytechnic College) and the Agriculture Division of Fresno State College receive, in addition to the above schedule, three steps, or approximately 15 percent, if employed for 12 months instead of the normal 10-month teaching period.

**Salary Schedule for Instructional Positions—Other State Agencies**  
(Ranges and Criteria of Application for Teachers)

Range	Steps				
A -----	\$310	\$325	\$341	\$358	\$376
B -----	325	341	358	376	395
C -----	341	358	376	395	415
D -----	358	376	395	415	436
E -----	376	395	415	436	458
F -----	395	415	436	458	481

CRITERIA FOR RANGE DETERMINATION		ACADEMIC (Preparation)	VOCATIONAL (Preparation)
Range A	Emergency or special credential, without	bachelor's degree.	—
Range B	Bachelor's degree or regular elementary, junior high, or kindergarten-primary credential.		—
Range C	Bachelor's degree or regular elementary, junior high, or kindergarten-primary credential: plus 12 upper division or graduate units which were not counted toward degree or which were taken subsequent to obtaining credential.		Three years experience as journeyman craftsman.
Range D	Bachelor's degree or regular elementary, junior high, or kindergarten-primary credential: plus 24 upper division or graduate units which were not counted toward degree or which were taken subsequent to obtaining credential or regular general secondary credential.		Qualification for special secondary vocational Class A Credential in T and I and PS Education.

### Merit Salary Adjustments

Subject to availability of funds, Section 18856 of the Government Code requires that each employee in the civil service receive an increase of one intermediate step in his salary range during each year in which his service rating is equal to or above a reasonable minimum, which has been fixed by the Personnel Board as "Standard."

Employees in salary ranges with a maximum step of \$395 and below may receive an increase from the first step to the second step of their salary range upon satisfactorily completing their probationary period (six months).

Provision for the salary adjustments to which present employees will become entitled during the balance of the current year and in the budget year has been included in the amounts shown opposite each position or group of like positions. Inasmuch as turnover of personnel generally results in replacement at a lower step in the salary range, the amount budgeted for salary adjustment opposite each position is offset by a lump sum deduction for downward adjustments included in the deduction for "estimated salary savings."

Similar amounts for salary adjustments have been provided for exempt positions, where requested by the agency. Such adjustments have been computed in accordance with the salary schedule in effect for the respective positions.

### Salary Range Adjustments

In determining the appropriate salary level for a class, a number of factors are taken into consideration by the State Personnel Board:

1. Rates of pay of private employers and of other public jurisdictions for comparable work.

2. Internal consistency of rates; equal pay for equal work, and pay differentials based on differences in the kind, difficulty and responsibility of the work.

3. Conditions of work in the class.

4. The adequacy of existing appropriations which may be used for salary increase purposes.

The rates of pay of a group of approximately 1,000 laborers, workmen, and mechanics in the state service are established at the hourly wage rates negotiated with private contractors in the county in which they are employed. They receive all the collateral benefits, such as premium pay for night work, travel time, and overtime received by employees in private industry and, in addition, they receive the added state benefits of vacation and sick leave with pay, plus 5 cents and 10 cents an hour increase after one and two years' employment with the State.

The salary ranges shown are those in effect on July 1, 1952, and salaries and wages expenditures for both the 1952-53 and 1953-54 Fiscal Years reflect rates of pay then in effect. Statutory salaries are provided for at rates inclusive of enactment by the 1951 Legislature (Chapter 1613, Statutory Salary Equalization Plan, and other special enactments).

Further anticipated special salary range revisions by the Personnel Board after July 1, 1952, and the cost of continuing these adjustments during 1953-54 is included under the heading "Provision for Salary Increases."

16	<b>GENERAL ANALYSIS</b>				
17					
18					
19	Number of positions -----	48.3	47.8	47.8	-
20					
21	The decrease in net appropriation results from a decrease in the number of days in the legislative session. The 1951-52 Fiscal Year is a				
22	more comparable year with the 1953-54 Fiscal Year. Provision is made to purchase additional books to keep the present library in a				
23	current condition.				
24	The amount of estimated reimbursements to be received from the Code Commission is based on furnishing approximately the same services				
25	as in the 1951-52 Fiscal Year.

11					(49%)

## GENERAL ANALYSIS

The increase in the proposed budget reflects an estimate of the amount of work to be performed by the Legislative Counsel Bureau in accordance with experience during the 1951-52 Fiscal Year. The original program of the Code Commission should be complete with the 1953 Session of the Legislature. Thereafter work will consist of checking all statutes to ascertain if they have been codified or should be repealed, revision of codes, codification of 1953 Statutes, and technical work of nonsubstantive needed revision.

11	<b>GENERAL ANALYSIS</b>				
12	Number of positions-----	0.5	1	-	—1
13	The decrease in this budget results from the elimination of the deputy counsel II and related expenses provided to represent the commission in matters relating to the proposed Uniform Commercial Code to be submitted to the 1953 Session of the Legislature. The amount budgeted is to provide for attendance of the commissioners at meetings of the national conference and California's contribution to that conference.

## JUDICIAL COUNCIL

The Judicial Council surveys the conditions of business in the courts with the view of simplifying and improving the administration of justice. Suggestions are submitted to the courts for expediting business and helping to secure uniformity. The chairman also equalizes the work of judges by making assignments to courts with heavy dockets. It also collects and compiles statistics on all courts and makes many special studies looking to the improvement of the administration of justice, some of which are required by the Legislature and others voluntarily undertaken.

## Governor's Office

## OFFICE OF CIVIL DEFENSE

Pursuant to Chapter 1, Division 7, Military and Veterans Code, as amended (Civil Defense Act of 1950) the Governor has assigned the duties thereunder to personnel in his office, known and referred to as the Office of Civil Defense. This office is responsible for coordinating the plan and program for the civil defense of the State.

## Headquarters Office at Sacramento

LINE	EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54	CHANGE FROM 1952-53

3	<b>General Fund</b>				
4	<b>SUPPORT</b>				
5	Budget Act appropriation	\$1,294,255	\$1,381,666	\$1,404,937	
6	Allocations from Salary Increase Fund	12,419	36,246	-	
7	Total Available	\$1,306,674	\$1,417,912	\$1,404,937	
8	Unexpended balance, estimated savings	292,296	148,415	-	
9	TOTAL EXPENDITURES, SUPPORT	\$1,014,378	\$1,269,497	\$1,404,937	\$135,440 (10.7%)
10	<b>OTHER CURRENT EXPENSES</b>				
11	Budget Act appropriation	\$500,000	\$50,000	\$25,000	
12	Unexpended balance, estimated savings	144,350	-	-	
13	TOTAL EXPENDITURES, OTHER CURRENT EXPENSES	\$355,650	\$50,000	\$25,000	-\$25,000 (-50%)
14	TOTAL EXPENDITURES	\$1,370,028	\$1,319,497	\$1,429,937	\$110,440 (8.4%)
15	<b>GENERAL ANALYSIS</b>				
16	Number of positions	137.6	157.5	154.5	-3
17	Provision is made for continuation of the existing level of service with reductions in the clerical staff, primarily in the central office clerical pool. Provision is also made for the recurring cost of maintaining regional control centers, technical and organizational equipment, and communications service charges which are currently being acquired or established.				
18	SALARIES AND WAGES: The reduction results from the elimination of five clerical positions in the central office pool and one intermediate stenographer-clerk position in Region VII. It is intended that such clerical positions will remain unfilled as they become vacant during the current year. Provision is made for the anticipated vacancies through estimated salary savings.				
19	OPERATING EXPENSES: The principal increase, amounting to \$90,300, is due to maintenance of radio, radiological, fire and rescue equipment. Other items of recurring nature consisting of attack warning system rental in the amount of \$22,903, and subsistence for command post exercises at a cost of \$6,400 are reported for the 1952-53 Fiscal Year in the Capital Outlay Section of the Budget. Increased rent, janitor service, light, heat and power, maintenance of control centers, offset by minor non-recurring items constitutes the balance of the increase.				
20	EQUIPMENT: Consists of film and film cabinet, files, and miscellaneous items.				
21	REIMBURSEMENTS: These items result from reassignment of building space to other agencies, and payment for services in connection with a water pollution sampling program being performed for the State Water Pollution Control Board.

## STATE EMPLOYEES' RETIREMENT SYSTEM

Administers the State Employees' Retirement System and the Legislators' Retirement System. This involves determination of membership, computation, collection, and recording of employer contributions and member contributions, service and compensation; the computation and payment of withdrawals of member contributions and death and retirement benefits, including retirement for service, ordinary and industrial disability and industrial death; the investment of funds; the preparation of periodic and special valuations.

Members of the State Employees' Retirement System consist of state employees (including most University employees) and employees of local governmental agencies participating on a contractual basis. Members of the Legislators' Retirement System consist of legislators and elective state officials who elect membership.

Records pay roll deductions for state employees who request deductions for the purchase of United States Defense Savings Bonds; registers and issues bonds so purchased to employees.

Office at Sacramento

## ADMINISTRATION

## Analysis

**SALARIES AND WAGES:** One additional clerical position is proposed for the Central Files Section due to the increased work load. Three positions are being eliminated in the Accounting Division and temporary help for the annual closing of member accounts is reduced in the amount of \$4,475 due to the elimination of accounting backlog and improvements in procedures. \$5,800 is provided for temporary help for processing ballots in the election of a board member during 1953-54.

**OPERATING EXPENSES:** The increase of \$5,315 is due to increases in work load and additional office space required.

**EQUIPMENT:** The amount of \$13,549 provides for additional files for expansion of membership, a postage meter and the replacement of worn out furniture and equipment.

**REIMBURSEMENTS:** The increase of \$16,512 is due to the estimated increase in contracting public agency members plus the increase in the unit cost per member for administrative expenses.

<sup>a</sup> Composed of savings in salaries and wages, \$1,961; operating expenses, \$724; equipment, \$16; and excess reimbursements, \$1,770.

<sup>b</sup> Composed of savings in salaries and wages, \$38; operating expenses, \$82; and equipment, \$334.

45	U. S. DEFENSE SAVINGS BONDS						
46	Analysis						
47	This unit records the funds deducted from salaries of state officers and employees for the purchase of U. S. Defense Savings Bonds. It						
48	purchases bonds from the United States Federal Reserve Bank, registers and issues such bonds to the purchaser in accordance						
49	with State Board of Control rules and the provisions of Section 20122 of the Government Code.						
50	On October 1, 1952, there were 3,000 monthly pay roll deductions authorized by state employees for the purchase of bonds. It is estimated						
51	that the number of deductions will increase to 4,000 during 1953-54.						
52	The increase in cost is due to the estimated increase in work load.

## GENERAL ANALYSIS

The increase is made up of a \$600 increase for traveling offset by minor differences totaling \$27.  
 The principal item of expenditure is \$25,000 which is the same amount that has been paid each year since 1948-49 for a contract with the Council of State Governments.  
 The Council of State Governments is a research and service agency serving the over-all legislative, administrative, and judicial agencies of state government such as state legislatures, the Governors' conference, the Conference of State Chief Justices, the National Associations of Attorneys General, Secretaries of State, Budget Officers, and Purchasing Officials.

## PERSONNEL BOARD

Administers the State Civil Service Act and prescribes and enforces rules thereunder. This involves examination and certification of qualified applicants for appointment to the State Civil Service; classification of positions; adoption of suitable pay rates; maintenance of records on approximately 52,000 state employees; assistance to state agencies in training employees; establishing standards of health and safety in state agencies; and performing services for state agencies excepted from civil service and for political subdivisions of the State on a reimbursable basis.

## GENERAL ANALYSIS

Number of positions----- 324.3 326.9 330.3 3.4

Provision is made for continuation of the existing level of service with increases provided for work load and a change in the salary survey program. Two additional junior analyst positions are included to provide for an independent salary survey to be made exclusively by members of the Personnel Board staff in lieu of participating in a cooperative survey with other governmental jurisdictions. A graphic artist position is added to relieve the analysts and examiners of chart work to provide time to devote to the increased work load.

2	EXAMINING AND RECRUITING						
3							
4	Analysis						
5							
6	This division recruits and examines qualified personnel for state service, maintains employment lists, and conducts certification and						
7	placement activities.						
8							
9	SALARIES AND WAGES: A reduction of \$2,000 in temporary help for hearing reporters results from provision for recording						
10	equipment to be used in qualification appraisal board interviews in lieu of reporters. An increase of \$1,024 in proctors temporary						
11	help results from increased work load.						
12							
13	OPERATING EXPENSES: An increase in telephone exchange charges results from provision for two additional telephones, additional						
14	traveling and automobile costs due to increased work load. Additional funds are provided for out-of-state expert examiners to improve						
15	the nation-wide recruitment activities in medical and related classes. Other increases are due to price changes.						
16							
17	EQUIPMENT: Provision is made for replacement of worn out furniture and typewriters and two double mandril dictating machines						
18	to be used in lieu of hearing reporters.						
19

28	OFFICE SERVICES						
29	Analysis						
30							
32	This division performs clerical work; processes applications; arranges, administers, scores, and processes examinations; establishes						
33	eligible lists and maintains statistical data.						
34							
35	SALARIES AND WAGES: The increase is due primarily to the proposed new graphic artist position plus an increase in temporary						
36	help for training time in the clerical pool.						
37							
38	EQUIPMENT: The major items consists of replacement of addressing, duplicating and dictating machines, typewriters and transfer						
39	cases with Grade A files for current material; additional items for the new position, a collator and additional filing equipment.						
40

38	COOPERATIVE PERSONNEL SERVICES						
39							
40	Analysis						
41							
42	The operations of this division are governed by requests of local agencies for personnel services which are performed on a contractual						
43	basis by which the cost of such services is repaid to the State. The total cost is to be reimbursed and therefore no increase in						
44	the net appropriation is required for this function.						
45	Provision is made for an additional dictating machine and replacement of broken chairs.						
46

24		(Filled)	(Auth.)	(Auth.)			
25	ADMINISTRATION						
26	Analysis						
27	SALARIES AND WAGES: The decrease of \$2,597 is due primarily to a reduction in temporary help allotments for employing election clerks. This reduction is possible because the work relating to the 1952 elections will be completed during the 1952-53 Fiscal Year.						
28	OPERATING EXPENSES: The increase of \$1,545 is due to (1) the inclusion of \$4,500 for the cost of printing the Roster of Public Officials which has been reported in the budget for Other Current Expenses in the current and past years; (2) an increase in traveling expenses in the amount of \$216 results from an out-of-state trip for the Secretary of State to attend the convention of Secretaries of State. The expenses relating to the 1952 convention were incurred in the 1951-52 Fiscal Year. The increases are partially offset by (1) a reduction in printing costs relating to election activities; (2) reduced postage resulting from provision for one instead of two revisions of the Roster of Public Officials; and (3) the nonrecurring item for purchase of file guides.						
29	EQUIPMENT: The amount of \$790 provides for replacement of worn out borrowed furniture, law books and miscellaneous items.

2	COLLECTION AGENCY DIVISION						
3							
4	Analysis						
5							
6	This division licenses and supervises collection agencies in accordance with the provisions of the Collection Agencies Act, Act 1460 of						
7	the General Laws of California.						
8	The principal increase in operating expenses results from the cost of reprinting the Collection Agency Law. Provision is made for the						
9	replacement of one light automobile.

## DEPARTMENT OF AGRICULTURE

Administers and enforces the provisions of the Agricultural Code and related statutes. These laws call for regulatory and service activities dealing with the protection of plantings and livestock from infectious diseases, pest animals, weeds and injurious insects, and with aids to insure the marketing of quality agricultural products. In this broad field of activity the department cooperates extensively with the United States Department of Agriculture on the one hand and with county agricultural services on the other. The General Fund finances activities which are of general public benefit and the Department of Agriculture Fund finances other activities for which the beneficiaries are charged.

## GENERAL ANALYSIS

61 Number of positions—General Fund..... 696.7 700.6 710.3  
62 Number of positions—Department of Agriculture Fund..... 462 459.6 461.7

63  
64 The programs and activities of the Department of Agriculture are projected at the current year level with adjustments for work load  
65 changes.

66 <sup>a</sup> Appropriated by Chapter 1274, Statutes 1949 and available until July 28, 1952 only.

67 <sup>b</sup> Composed of savings in salaries and wages, \$4,188; operating expenses, \$35,402; equipment, \$16,986; and loss in reimbursements,  
68 \$2,261.

16	DIVISION OF PLANT INDUSTRY						
17	ADMINISTRATION						
18	Analysis						
19	The functions and duties of the Chief of the Division of Plant Industry are to supervise, administer, and correlate the office and field activities of the six bureaus comprising the division. Detail of the functions of these bureaus appears preceding the budget requests of the several bureaus.						
20	SALARIES AND WAGES				SALARY RANGE

36	GENERAL ENTOMOLOGY						
37	Analysis						
38	This function includes all administrative activities of the bureau, including planning and general supervision of major insect eradication-control programs which are otherwise budgeted as separate projects. It also includes direct responsibility for insect pest survey; insect identification; conduct of minor insect eradication-control programs, not of sufficient size to merit separate budgetary consideration; apiary inspection; development of commodity treatments to alleviate quarantine restrictions; and advice to county agricultural commissioners in regulatory matters involving pest control.						
39	A reduction results from transferring one employee and seasonal help from a small program for Hall Scale Eradication to a separate function for a more intensive program.

52	<b>LEAFHOPPERS AND HOST PLANTS</b>						
53							
54	<b>Analysis</b>						
55							
56	The work in the budget year is a continuation of the program of the current year. A decrease of \$6,651 in the budget year is due pri-						
57	marily to less need for materials and in their applications in covering the reduced acreage of the Russian thistle estimated as coming						
58	under treatment.						
59

14	Plants-----				\$275,779	\$345,430	\$338,798
15	GRAPE LEAF SKELETONIZER ERADICATION						
16	Analysis						
17	An increase of \$13,778 in the budget year results from the need of resuming treatment of all domestic grapes in the major part of the						
18	control area to permit the establishment of parasites. Such treatment had been waived during the past year but resulted in an						
19	increase in infestation presenting hazards of carryout which have had to be safeguarded against while developing a biological						
20	control program.

9	HALL SCALE ERADICATION						
10	Analysis						
11	This program has been carried on in cooperation with the Federal Government, the State's share being included in the General Entomology						
12	function. The State's contributions have averaged \$9,000 while those of the federal agency have averaged \$70,000 annually. Inspection						
13	has proved ineffective in promptly locating infestation and it is now requested to treat exposed as well as known infested properties.						
14	The interest of the State in protecting over half a million acres of deciduous fruit hosts warrants an increase in eradication effort.						
15	The modified program should make more certain the successful completion of this project as well as advancing the date of such com-						
16	pletion.

37	BUREAU OF PLANT QUARANTINE						
38	Analysis						
39	This bureau enforces state and federal quarantine laws, rules, and regulations. Headquarters office is maintained at Sacramento, and						
40	in addition the bureau maintains maritime inspection stations at San Francisco, San Pedro, and San Diego, and 18 border agricul-						
41	tural inspection stations on the principal interstate highways. Maritime shipping and airplane arrivals is holding steady whereas						
42	border travel shows a 10 percent increase by actual count during the first seven months of 1952 over the same period a year ago.						
43	The program is therefore projected at the same level during the current and budget years.

**BUREAU OF PLANT PATHOLOGY****Analysis**

The work of the Bureau of Plant Pathology concerns the detection, control, suppression, eradication and prevention of the introduction and spread of serious and destructive plant diseases. The bureau deals with infectious and contagious diseases of plants as distinguished from insect pests. Those diseases which are caused by plant viruses and by plant parasitic nematodes in particular have added greatly in recent years to the need for constant vigilance and action for the protection of our agricultural and horticultural industries against plant diseases. The program for this function in the budget year is planned on substantially the same basis as for the current year, except for one proposed new position in the classification of associate plant pathologist which is needed to meet the increased work load in diseases caused by plant parasitic nematodes.

<sup>a</sup> Part salaries paid by Federal Government.

18	BUREAU OF RODENT AND WEED CONTROL AND SEED INSPECTION						
19	Analysis						
20	This function is concerned with the eradication and control of noxious weeds and poisonous plants where found to be detrimental to agriculture or livestock; the control of field rodents to reduce the destruction of crops and the control of rodents which are known to harbor disease transmissible to humans; also seed inspectors work for the enforcement of the California Seed Law and in cooperation with the Federal Government for the enforcement of the Federal Seed Act. The program is projected on an expanded scale by the addition of four positions for increased volume of seed tests and seed business, however, most of the increased cost of these positions will be offset by reimbursements from the special fund functions of this bureau.

35							
36	Analysis						
37							
38	This program is concerned with the control of wild predatory animals such as coyotes, bobcats, mountain lions, and bears for the pro-						
39	tection of sheep, cattle, poultry and certain types of crops. It is a three-way activity in cooperation with the Federal Government,						
40	various counties and the State. The budget is predicated upon a continuation of the existing level of service.

73	SPRAY RESIDUE AND INJURIOUS MATERIALS						
74	ENFORCEMENT						
75							
76	Analysis						
77							
78	This function enforces provisions of the Agricultural Code which protect consumers from poisonous spray residue on fresh and dried						
79	fruits and vegetables. Also it administers regulations concerning the use and application of injurious materials, which is a rela-						
80	tively new function added to the Agricultural Code by Chapter 1295, Statutes of 1949.

20	BUREAU OF MEAT INSPECTION						
21	Analysis						
22	This bureau conducts inspection of animals and meat products in slaughtering and meat processing establishments, for the purpose of protecting the public from unwholesome or otherwise objectionable meat products. The bureau also inspects foreign cold storage meat and enforces laws prohibiting sale of uninspected meat in the State. The program is projected at the present level.

55	GENERAL MARKETING SERVICE						
57	Analysis						
60	This service consists of the following: (1) assistance in the solution of marketing problems of agricultural groups which are not organized under formal marketing laws; (2) assistance to new industries in formulating and obtaining marketing programs under the general marketing laws, and (3) administration of the marketing programs formulated under general marketing laws. The General Fund is reimbursed for all expenditures for the latter two types of services from deposits received and assessment collected. Three new positions are recommended; one marketing economist, one auditor III, and one district supervisor of marketing enforcement. These positions are requested to handle the increased work load resulting from the formulation of additional marketing programs and the enlargement by amendment of existing programs. Included in operating expense and equipment is provision for additional travel and automobiles which these positions will require.

50	BUREAU OF MARKET NEWS						
51	Analysis						
52	The Bureau of Market News operates in California as the Federal-State Market News Service. Daily reports are published on the market-						
53	ing of agricultural commodities in intrastate, interstate and foreign markets, containing data on prices, market conditions, demand,						
54	supply, truck and carlot movements, truck unloads, cold storage holdings and other related information. Commodity groups included in						
55	this service are fresh fruits and vegetables; livestock and dressed meats; dairy and poultry products; hay, grain and feedstuffs; dried						
56	fruits, bulk wine, honey, dried edible beans, and other miscellaneous products. Included in operating expenses and equipment is pro-						
57	vision for the final phases of the program of modernization and mechanization of the Market News Service radiotelegraph network.						
58	This mechanization program provides for the changeover during a four-year period of a manually operated system. It will increase the						
59	traffic carrying capacity needed as a result of the new commodities and offices added by legislative action during the past few years.						
60	Such improvement was further made necessary since manual operation is fast becoming obsolete and qualified operators increasingly						
61	difficult to find.

1	<b>BUREAU OF FIELD CROPS</b>						
2	Analysis						
3							
4							
5							
6	This Bureau is charged with inspection and registration of public grain warehouses, primarily for control of insects of stored grain; enforcement of the labeling of commercial feeding stuffs through inspection, sampling, and analysis of feeds and feed materials; optional licensing, filing of bond and inspection of warehouses storing agricultural products; and upon application the inspection and grade certification under United States standards of such field crops and by-products as grain, flaxseed, rough and milled rice, beans, peas, hay, castor beans, sunflower seed, safflower seed, and hops. No change is contemplated in operations from the current year.

32							
33	BUREAU OF MARKET ENFORCEMENT						
34							
35	Analysis						
36							
37	The Bureau of Market Enforcement enforces the provisions of Chapters 6 and 9 of Division 6 of the Agricultural Code, commonly						
38	referred to as the Produce Dealers Act and the Processors Law. These laws afford protection to farmers against financial loss in						
39	the sale or consignment of their produce to dealers, commission merchants, brokers, cash buyers and processors. These laws						
40	provide means for the adjustment of disputes between the parties, and are effective in securing settlement for amounts due						
41	producers for farm products.						
42	License fees filed by handlers of agricultural products support the activities of this agency. No change in the level of service is proposed.						
43

13	BUREAU OF MILK CONTROL						
14							
15	Analysis						
16							
17	This bureau administers and enforces the laws relating to the establishment of the price for fluid milk which distributors pay to pro-						
18	ducers and minimum wholesale and minimum retail prices. There are 34 separate marketing areas in the State where producer and						
19	resale prices are established. The bureau also licenses and bonds market milk distributors, establishes minimum refrigeration						
20	rental schedules, and enforces the unfair trade practice provisions as they relate to the dairy industry.						
21	No change in program is anticipated.						
22

25	CANNING TOMATO INSPECTION						
26	Analysis						
27							
28	This service involves the compulsory inspection of all loads of canning tomatoes received by processors and delivered by growers. This activity is governed by the tonnage of tomatoes marketed by growers to canners. It is an annual crop and there has been planted for harvest and inspection in the current year less acres than were harvested and inspected in the past year. It is estimated that the budget year will be approximately the same as the current year—1,500,000 tons.

29	BUREAU OF SHIPPING POINT INSPECTION						
31	Analysis						
33	This bureau, in cooperation with the United States Department of Agriculture, makes inspections and issues federal-state certificates cover-						
34	ing pack, size, quality, condition and grade of fruits, nuts, and vegetables based on United States or other recognized standards. This						
35	service is furnished at requests of shippers, growers or other financially interested parties. It is also required by certain marketing						
36	control boards, to show compliance with established standards. The income and expenditures are governed by the volume of products						
37	offered for inspection. It is expected that the volume of work will continue at approximately the same level as the current year.						
38	Seasonal help has been reduced to offset the establishment of two full time clerical positions.

## STATEMENT OF JUSTIFICATION

Division of Marketing  
Bureau of Fruit and Vegetable Standardization  
Canning Tomato Inspection

Chapter 66, Statutes of 1951, appropriated \$90,000 for the purchase of 150 color-meters (bridge-spectrophotometers) for the purpose of more accurately testing tomatoes for conformity with the color requirements established by law.

## EQUIPMENT

Purchase of 150 color-meters — \$90,000

Department of Agriculture

CALIFORNIA DAIRY INDUSTRY ADVISORY BOARD

The California Dairy Industry Advisory Board provides the means for the dairy industry to develop, maintain and expand markets for California dairy products. The board, made up of industry representatives, acts in an advisory capacity to the Director of the California Department of Agriculture who is designated as the administrative and enforcement officer for duties outlined in Division 4, Chapter 14 of the Agricultural Code. The cost of this program is defrayed entirely from fees paid by producers and handlers of dairy products.

# POULTRY IMPROVEMENT COMMISSION

The Poultry Improvement Commission conducts official tests of poultry breeding stock to provide California's poultry industry with accurate data on the various types and strains of chickens.

Office at Modesto

## GENERAL ANALYSIS

Number of positions----- 10.7 10.8 10.8

The 1953-54 program is based on continuation of the standard or official egg laying test and the random sample meat bird test at the current year level of service. The random sample egg laying test program is continued with the same number of entries planned as in the current year; however, the number of chicks taken with each entry is being increased to provide a more representative sample of the participating hatcheries entries. Operating expense and revenues have been adjusted to reflect the revised testing program.

## DEPARTMENT OF CORRECTIONS

The department has been established to integrate and correlate the correctional activities of the State. It is responsible for the administrative control and operation of all state institutions for adult felons. The department also inspects prisons and jails and makes recommendations on plans and specifications of facilities costing \$1,500 or more.

GENERAL ANALYSIS

The Department of Corrections 1953-54 budget provides for the opening and staffing of the new 1,200-capacity Deuel Vocational Institution at Tracy, an expanded inmate pay program, a special intensive parole unit and parole out-patient clinic under the Adult Authority, two additional state forest camps, and staffs to handle increased work load and to provide moderate improvement in service for a population of 13,853, an increase of 1,371 or 11 percent over the 1952-53 Governor's Budget.

DEPARTMENTAL ADMINISTRATION, ADULT AUTHORITY, AND BOARD OF TRUSTEES—INSTITUTION FOR WOMEN

The analysis and expenditures for these agencies will be found under their respective budgets.

STATE PRISONS AND INSTITUTIONS

In this group are the following :

Medical Facility	State Prison at Soledad
Institution for Men, Chino	Deuel Vocational Institution
State Prison at Folsom	Institution for Women, Corona
State Prison at San Quentin	

The total increase of \$2,172,542 (14.4%) over the 1952-53 Governor's Budget is composed in part of the following items, which are common to all or several institutions, and are discussed in groups below rather than individually under each institution.

**SALARIES AND WAGES:** The increase of \$1,581,949 includes the following 162.3 new positions common to all or several institutions at a cost of \$614,919:

4 Personnel Clerks -----	\$11,844
1 Senior account clerk—Folsom -----	\$3,294
1 Intermediate typist-clerk—Soledad -----	2,706
1 Intermediate typist-clerk—Deuel -----	2,706
1 Senior typist-clerk—Corona -----	3,138
To provide approximately one personnel clerk per 200 positions, a yardstick applied to other state agencies.	

12 Culinary Positions -----	\$46,872
-----------------------------	----------

The additional positions are requested in the several institutions as follows :

	Medical Facility	Chino	Folsom	San Quentin	Soledad	Deuel 1,150 <sup>b</sup>	Corona 473
Estimated institution population -----	1,100	1,500	2,200	4,370	1,950		
Supervising cook II -----	1	—	—	—	—	—	—
Supervising cook I -----	1	1	1	—	1	4	—
Instructor in cooking -----	—	—	—	—	—	—	1
Baker -----	—	—	—	1	—	—	—
Instructor in meat cutting and butchering -----	1	—	—	—	—	—	—
Total New Positions -----	3	1	1	1	1	4	1
Existing positions -----	4	9	8	16	11	9	1 <sup>a</sup>
Total Positions -----	7	10	9	17	12	13	2

\* Total received plus released including admission, parole violators returned, paroles, discharges, transfers between institutions and reception-guidance centers, and releases and returns from court.

† Total received only.

<sup>a</sup> Cooking performed on a cottage basis by inmates under the direction of supervisor counselors.

<sup>b</sup> Estimated June 30, 1954.

## DEPARTMENT OF CORRECTIONS—Continued

## STATE PRISONS AND INSTITUTIONS—Continued

## 12 Culinary Positions—Continued

The above positions will provide for the following coverage on a comparative post assignment basis:

	Medical Facility	Chino	Folsom	San Quentin	Soledad	Deuel
Administrative						
Food manager	1	1	1	1	1	1
General Supervision						
Supervising cook II	1 *	1	1	2	1	1
Main Kitchen (7 days) inmates served	(700)	(1,500)	(2,050)	(4,120)	(1,500)	(1,150) <sup>a</sup>
Supervising cook I (early shift)	1	2	2	4	2	2
Supervising cook I (late shift)	1	2	2	3	1	2
(One per 1,000 meals)						
Relief	1 *	—	—	—	1.8	{0.4 2 *
Branch Kitchens (7 days) inmates served	(400)	(400)	(150)	(250)	(450)	—
Supervising cook I	—	1 *	—	1	{1 1 *	—
(One per 350 meals)						
Employees Kitchen (7 days) employees served	(100)	(125)	(125)	(150)	(100)	(50)
Supervising cook I (early shift)	—	1	1 *	1	1	1 *
Supervising cook I (late shift)	—	—	—	1	0.2	1 *
(One per 150 meals)						
Relief	—	—	—	1	—	0.6
Bakery (6 days)						
Instructor in baking	1	1	1	1	1	1
Baker	—	—	—	1 *	—	—
(One per 1,500 or more meals)						
Butcher Shop (6 days)						
Instructor in meat cutting—butcher	1 *	1	1	1	1	1
Totals	7	10	9	17	12	13

In general, the proposed positions are below the ultimate required, especially when relief needs are considered. They represent, however, the most urgent requirements at the present time.

## Medical Facility:

The three proposed positions will bring the staffing more in line with that already established at the other facilities. There will be 1,100 inmates in 1953-54, an increase of 100 over 1952-53. The supervising cook II will be responsible for the many special diets and relieve the food manager on days off. The supervising cook I will provide partial cook relief in the main kitchen. The instructor in meat cutting is required for supervision and instruction of inmates in this operation.

## Chino:

The supervising cook I is to be in charge of food dispensing and distribution at the main kitchen for the 400 Reception-Guidance Center inmates and the 75 hospital and ambulatory patients.

## Folsom:

The supervising cook I will provide an employee to be responsible for meal preparation in the employees' kitchen, serving 125 employees.

## San Quentin:

The baker is required to provide supervision and relief in the two-floor bakery employing 27 inmates and operating seven days per week. The 4,370 institution population for 1953-54 is 588 over the 1952-53 Governor's Budget estimate and will increase the overload.

## Soledad:

The supervising cook I will provide two-shift coverage in the ranch mess.

## Deuel:

The four supervising cooks I are required to provide two-shift supervision in the new employees' mess (not operated at Lancaster) and adequate relief in the new main kitchen. This institution houses inmates in the most difficult age group for operational purposes and will double its population in 1953-54.

## Corona:

The instructor in cooking under the food manager, replacing a home economics teacher, will act as a "floating supervisor and instructor" over the supervisor-counselors and inmate cooks in the several cottage kitchens. This position will also provide seven-day management by relieving the food manager on days off.

## 2 Assistant Laundry Supervisor

\$6,588

(1 Chino, 1 Soledad)

The following is a comparison of present institution laundry staffs:

	Medical facility	Chino	Folsom	San Quentin	Soledad	Deuel
Laundry supervisor	1	1	1	1	1	1
Laundryman	—	1	1	—	—	—
Instructor in laundry and dry cleaning	—	—	—	1	—	1
Correctional officer	1	—	1	1	—	—
Totals	2	2	3	3	1	2

The positions are proposed to assist the laundry supervisor in the operation of the laundry and dry cleaning plant and relieve him on vacation and sick leave. The Soledad position is proposed on the basis of population served; the Chino position is proposed on the basis of population and facilities served, including the institution, reception-guidance center and camps.

\* Proposed new position.

<sup>a</sup> June 30, 1954 estimate.

## DEPARTMENT OF CORRECTIONS—Continued

## STATE PRISONS AND INSTITUTIONS—Continued

## In-service Training—Culinary-----\$5,108

In-service training for culinary employees on the basis of 53 hours for new personnel and 36 hours per year for existing personnel is included to develop in the culinary personnel the knowledge, skills, and habits necessary to satisfactorily perform their responsibilities, and to study and improve the details of kitchen operation. Subject matter to be covered includes, for new employees, (1) food handling and sanitation, (2) supervisory techniques, (3) classification and treatment, and (4) business procedures. The refresher training for other employees substitutes instruction and teaching methods for the latter two. The cost of this program should eventually pay for itself.

## 4 Correctional Lieutenants (Inmate Assignment Officers)-----\$18,048

One is proposed for each men's institution, except medical facility. Chino already has such a position. The position will maintain the proper assignment of inmates, which is vitally important if the rehabilitation program is to be wholly successful. It cannot be properly handled by the associate warden-custody who is responsible for custodial planning and must attend many top level conferences, or by the correctional captain who must daily direct the operations of the custodial staff.

## In-service Training—Custodial-----\$86,216

In-service training in the amount of 53 hours for new employees and 36 hours per year refresher training for other employees, on state time, has been recommended in a special state-wide survey on the subject. This represents an increase of 18 hours per year refresher training over the currently authorized level. Generally, the training may be divided into (1) subject matter relating to custodial duties and classification and treatment responsibilities, (2) physical conditioning and self-defense, and (3) instruction and practice in firearms and chemical equipment.

## 36.5 Additional Medical and Nursing Positions-----\$170,702

The following additional medical and nursing positions are requested in the several institutions:

	Medical Facility	Chino	Folsom	San Quentin	Soledad	Deuel	Corona
Psychiatrist II-----	—	—	—	—	—	1	0.5
Physician and surgeon II-----	1	—	—	—	1	1	—

Correctional sergeant (custodial head)-----	—	—	1	1	1*	—
Totals-----	23.5	21.2	39.5	19	20	12

\* Proposed new positions.

<sup>a</sup> Staffed for estimated June 30, 1954, population of 1,150.

<sup>b</sup> One position 24 hours, seven days on each floor of hospital requested; Folsom, two floors, 10 positions; San Quentin, three floors, 15 positions.

<sup>c</sup> Guidance Center—maximum security area in hospital.

<sup>d</sup> Women nurses, professional supervision of inmate nurses, and instruction.

<sup>e</sup> Two shifts, seven days, required because of activity in this age group.

## DEPARTMENT OF CORRECTIONS—Continued

## STATE PRISONS AND INSTITUTIONS—Continued

In the several institutions, the additional positions are requested specifically as follows:

**Medical Facility—Psychiatric and Medical Institution:**

## 1 Physician and surgeon

To provide third physician and surgeon for 1,100 population. Position will function on surgery, large number of tubercular cases and 400-capacity old men's area population.

## 3 Supervising nurse

## 1 Graduate nurse

These positions are necessary to provide 24-hour technical supervision over the 47 medical technical assistants throughout the institution, with double coverage on the day shift.

## 1 Electroencephalographic technician

This position is requested to provide a qualified technician to operate a technical machine necessary in the diagnosis of mental disorders in the inmate population.

**Chino:**

## 3 Medical technical assistants

One position will provide additional relief for 24-hour, seven-day coverage in the inpatient department. Two positions are needed to provide for eight-hour, seven-day coverage in the outpatient department.

**Folsom:**

## 1 Surgical nurse

This position is proposed to supervise the inmate nurses in the surgery.

## 3 Medical technical assistant

Two positions are to provide seven-day, 24-hour coverage on the two inpatient floors of the hospital, where serious incidents have occurred. One position is required to provide seven-day, eight-hour coverage in the outpatient department.

**San Quentin:**

## 1 Senior dentist

This position is to increase to five the dental staff for 4,370 inmates including the Reception-Guidance Center.

## 3 Medical technical assistant

Two positions are to provide seven-day, 24-hour supervision over the three inpatient floors of the hospital. One position will provide relief for 7-day, 8-hour coverage in the outpatient department.

**Soledad:**

## 1 Physician and surgeon II

## 2 Senior dentist

These positions are to provide two physicians and surgeons (excluding the chief medical officer), and three dentists for the 1950 institution population.

## 1 Surgical nurse to provide qualified nurse in surgery.

## 2 Medical technical assistants to provide a free person in charge of clinical laboratory work and relief for outpatient department.

**Deuel:**

## 1 Psychiatrist II

## 1 Physician and surgeon II

## 1 Senior dentist

These positions will provide one psychiatrist, two physicians and surgeons, and two dentists for the 1,150 population.

## 1 Laboratory technician

This position will provide a civil service position in charge of clinical laboratory work.

## 3 Medical technical assistant

These positions will provide 16-hour, 7-day coverage in the outpatient department. The work is expected to be heavy because of the activity in this age group.

## 1 Intermediate stenographer-clerk

This position will provide two civil service clerks in the medical records section. Inmate clerks cannot be used because of their age, type, and shorter incarceration.

## 1 Correctional sergeant will provide custodial head of hospital

**Corona:**

## 0.5 Physician and surgeon II

## 1 Senior dentist

These positions will provide one full-time physician and surgeon and one full-time dentist for a 473 population. Most medical and dental work will now be done at the Corona hospital.

## 1 Surgical nurse

## 3 Graduate nurse

These positions will provide nursing staff for surgery to be undertaken at Corona, 24-hour, 7-day coverage in the inpatient department, and 8-hour, 7-day coverage in the outpatient department.

**37 Additional Classification and Parole Positions**

\$112,272

Additional positions proposed by class are as follows:

	Chino	Folsom	San Quentin	Soledad	Medical Facility	Deuel	Corona
Technical:							
Parole officer	—	—	2	—	1	1	—
Clerical:							
Senior clerical	—	—	—	—	1	1	—
Intermediate clerical	3	2	9	5	1	9	2
Totals, Clerical	3	2	9	5	2	10	2

## DEPARTMENT OF CORRECTIONS—Continued

## STATE PRISONS AND INSTITUTIONS—Continued

The above positions for Chino, Folsom, San Quentin, Soledad, and Medical Facility (clerical) are requested in accordance with the following work load table based on estimated movement of inmates for 1953-54 Fiscal Year on the basis of average time required per case in accordance with an actual time study in several institutions. A comparison of the staffing proposed in the several institutions follows:

	Chino	Folsom	San Quentin	Soledad	Medical Facility <sup>f</sup>	Deuel <sup>g</sup>	Corona <sup>h</sup>
Total received and released-----	4,620	2,820	7,165	3,740	880	2,405	340

Present staff <sup>d</sup> -----	8	6	12	8	3	5	2
Additional requested-----	0(-.13)	0(-.10)	2(-2.17)	0(-.46)	1	1	2
Clerical							
Total man hours (3)-----	38,766	23,722	68,287	28,586	28,586	12,504	-
Total positions required <sup>c</sup> -----	20.58	15.94	39.37	18.14	7.48	-	3
Present staff <sup>d</sup> -----	18	14	30*	13	5	5	1
Additional requested-----	3(1.58)	2(1.94)	9(9.37)	5(5.14)	2(2.48)	10	2

Hours Per Case [except Medical Facility (technical), Deuel, and Corona]:

	Technical	Clerical
Reception-Guidance Center-----	0.29	2.29
Transfer in-----	0.22	1.38
Initial classification-----	0.21	0.74
Board hearings-----	1.17	4.81
Reclassification-----	0.25	0.49
Social service-----	1.32	2.88
Disciplinary actions-----	0.10	0.31
Transfer to camp-----	0.88	0.37
Return from camp-----	0.29	0.16
Transfer out-----	0.20	1.62
Parole-----	5.42	6.68
Discharge-----	1.42	3.82
Other release-----	0.49	0.40

20 Inmate Counselor Positions----- \$74,005

11 Parole officer I—San Quentin-----	\$53,197
3 Intermediate typist-clerk—San Quentin-----	8,532
6 Parole officers I—Deuel (effective January 1, 1954)-----	12,276

This service is proposed on a two-year basis for San Quentin, the largest prison with long-term inmates, and at Deuel, which houses the youngest short-term offenders, on a 1 to 300 basis and 1 to 150 basis, respectively. The positions at Deuel are effective January 1, 1954, at which time that institution should be stabilized and reach normal capacity. This service will provide individual and group counseling to inmates at periodic intervals, thus aiding in their rehabilitation, the basic aim of the Department of Corrections program. The three typist-clerk at San Quentin are to maintain case records and information on results achieved.

3 Education Interne----- \$7,200

One position is for Medical Facility, one for Corona, and one for San Quentin. These institutions are located near metropolitan areas and major universities where recruiting should be possible. This would establish the following staffing pattern in the several institutions:

	Med. Fac.	Chino	S. Q.	Corona
Present Staff:				
Institution-----	-	1	-	-
Reception-Guidance Center-----	-	1	1	-
Proposed New Positions:				
Institution-----	1 (Med.)	-	1 (Cl. & Par.)	1 (Cl. & Par.)
Totals-----	1	2	2	1

The new positions make a work contribution of approximately half-time for approximately eight months per year, involve only a minimum cost, and provide a potential future professional staff, when trained. The requested positions will provide one position in the occupational therapy section at the Medical Facility, one position in the classification and parole section at San Quentin as presently at Chino, and one position for classification and parole at Corona.

\* Plus five additional approved to June 30, 1953 only.

<sup>a</sup> Includes parole officers, sociologist, psychologist, vocational counselors, and prison record officers.

<sup>b</sup> Includes approximately 10 percent for administrative clerical duties and consists of the following average hours per case.

<sup>c</sup> Number of positions based on 1,824 hours per employee per year.

<sup>d</sup> Adjusted for 1952-53 revised intake.

<sup>f</sup> Medical Facility technical positions are requested in accordance with total intake and release with special allowance for difficult mental and physical cases and recalcitrant tuberculars.

<sup>g</sup> Total request is comparatively high as the Tracy institution will be double the size of Lancaster and because Youth Authority inmates appear before Youth Authority Board much more frequently and spend less time in the institution prior to parole than Adult Authority wards.

<sup>h</sup> No unit time study has been developed. Positions are requested in accordance with total intake and release and with allowance for Reception-Guidance Center function for women.

## DEPARTMENT OF CORRECTIONS—Continued

## STATE PRISONS AND INSTITUTIONS—Continued

1 Fire Protection Staff: \_\_\_\_\_ \$15,984  
 2 4 Correctional Sergeant (Fire Chief and Sanitarian) \_\_\_\_\_

3 One position is proposed at Chino, Folsom, Soledad, and Deuel. The Medical Facility, which is in a  
 4 metropolitan fire district, and Corona, which can be served by Chino, will not require such a position.  
 5 San Quentin now has five posts, one correctional sergeant and two correctional officers plus full relief,  
 6 assigned to the firehouse. Four of these five positions will be abolished; therefore, no additional over-all  
 7 cost is involved. This position will plan, supervise, direct, and train personnel and inmates in fire fighting  
 8 techniques, including evacuation of inmates, periodically inspect fire department equipment and look for  
 9 fire hazards and report thereon. It will also investigate sanitary conditions throughout the institutions,  
 10 recommend prevention, control, and corrective measures of health hazards, conduct rodent and pest  
 11 control, train employees and inmates in proper sanitation, and coordinate activities with the chief medical  
 12 officer. This staffing pattern is recommended by the Fire Marshal.

13 Institution Firefighter, 28—(part time) \_\_\_\_\_ \$10,080

14 Twenty-eight intermittent, \$30 per month each, positions are requested in the several institutions to provide  
 15 11 at each institution, except Medical Facility and Corona. One will be quartered at the firehouse every 10th  
 16 night and one is for vacation relief of the 10 (150 days). These positions will provide fire protection at night,  
 17 maintain the fire fighting equipment, and instruct personnel and inmates in fire fighting.

18 This staffing is recommended by the State Fire Marshal.  
 19 The above positions will provide the following staffing:

Fire Protection Staff:	Medical Facility	Chino	Folsom	San Quentin	Soledad	Deuel	Corona
Correctional sergeant (fire chief and sanitarian)	—	—	—	5	—	—	—
Existing positions	—	1	1	—4	1	1	—

57 1952-53 estimated intake (revised) \_\_\_\_\_  
 58 Chino 2,500 San Quentin 2,650 Deuel —  
 59 Additional direct work load positions:

Deuel:		
3 Senior sociologists		\$14,940
2 Vocational counselor		9,960
1 Senior clinical psychologist		5,496
1 Senior typist-clerk		3,138
2 Intermediate typist-clerk		5,688
1 Intermediate stenographer-clerk		2,844
1 Intermediate file clerk		2,706

67 Existing direct work load positions to be abolished:

Chino:		
—1 Vocational counselor		\$4,980
—1 Senior sociologist		4,980
San Quentin:		
—1 Intermediate typist-clerk		\$2,844

74 In addition to direct work load positions, the following additional positions are proposed:

Deuel:		
1 Chief psychiatrist		\$9,852
1 Instructor in general shop		4,512

78 The chief psychiatrist is requested for the 130-capacity new clinic at Deuel to plan, direct, and coordinate its operations as well  
 79 as to handle the diagnostic and treatment work on the most seriously disturbed cases. The instructor in General Shop will  
 80 explore the potential mechanical aptitudes and abilities of the new inmates for later training and future employment possibilities

81 <sup>a</sup> Based on 228 annual working days.

82 <sup>b</sup> Includes 1,000 parole violators returned.

83 <sup>c</sup> Adjusted to revised 1952-53 intake.

## DEPARTMENT OF CORRECTIONS—Continued

## STATE PRISONS AND INSTITUTIONS—Continued

1	10 Positions—Two Additional State Forestry Camps-----	\$36,672
2	(One at Chino; one at San Quentin)	
3	2 Prison camp supervisors II-----	\$9,024
4	8 Correctional officers-----	27,648
5	To provide approved 24-hour coverage at two additional camps, jointly requested by Division of Forestry and Department of	
6	Corrections to afford better state-wide forest protection.	
7		
8	16 Correctional Officer—Sixth Custodial Position, State and Federal Forestry Camps-----	\$55,296
9	Correctional officers (10, for 12-months camp)-----	\$34,560
10	Correctional officers (10, for 8-months camp)-----	20,736
11	Present staff of one prison camp supervisor and four correctional officers provides minimum coverage with one on shift 24	
12	hours per day, 7 days per week plus relief. Both Division of Forestry and Department of Corrections propose this additional	
13	post for administrative duties, to take inmates to the hospital in emergency cases, attend meetings, make inspections, and to	
14	provide a Department of Corrections officer-in-charge at the camp at all times so that dual responsibility may be properly	
15	discharged. Part of this added cost will be financed from Federal Funds. The staffing would still be a minimum when com-	
16	pared with Youth Authority Camps.	
17		
18	OPERATING EXPENSES: The increase of \$583,026 is explained in the analysis of each institution. Generally it is due to an average	
19	population increase of 728 (5.5 percent) over 1952-53 (revised). This increase will be shared in the several institutions as follows:	
20	Medical Facility (+100)	
21	Chino (+60—one additional state forestry camp)	
22	Folsom (+110—three forestry camps transferred from San Quentin; one from Soledad)	
23	San Quentin (—20, one additional state forestry camp; three camps transferred to Folsom)	
24	Soledad (+130—one federal forestry camp transferred to Soledad)	
25	Deuel (+285—new institution at Tracy)	
26	Corona (+63)	
27	Operating Charges Incorporated in 1953-54:	
28	1. The issue of shoes, socks, and underwear complements to the new inmates at the reception-guidance centers will be transferred	
29	with the inmates to the institution. Any differential in over-all operating costs is expected to be insignificant.	
30	2. Inclusion of certain special repair projects previously charged to minor construction.	
31		
32	EQUIPMENT: Equipment items totaling \$301,479 are requested for 1953-54, an increase of \$13,031. Equipment is explained under the	
33	analysis of each institution. Original complements of equipment for two new state forestry camps are included herein. The total	
34	equipment requests are abnormally low because much original complement equipment has been or will be purchased from Capital	
35	Outlay funds for new institutions such as Medical Facility, Soledad, Deuel, and Corona.	
36		
37	INMATE PAY-WORK PROJECTS: An increase of \$25,103 is due to establishment of additional forestry camps.	
38		
39	REIMBURSEMENTS: An increase of \$134,497. These increases are mainly the result of two additional state forestry camps; one at	
40	Chino, one at San Quentin. A partial offsetting decrease is due to a fiscal change of accounting the entire rental charge on buildings	
41	used by correctional industries as revenue in 1953-54, rather than 42 percent as revenue and 58 percent as a reimbursement to	
42	support, as previously.

57	<b>GENERAL ANALYSIS</b>				
58					
59	<b>Number of positions</b> .....	<b>51</b>	<b>57</b>	<b>63</b>	<b>6</b>
60					
61	The increase is primarily due to proposed new positions and is partially offset by discontinuance of the Special Commission Studying				
62	Crime Conditions in the 1952-53 Fiscal Year.				
63					

<sup>a</sup> Composed of savings in salaries and wages, \$1,486; operating expense, \$3,073; and equipment, \$656.

<sup>b</sup> Composed of savings in salaries and wages, \$7,870.

## Department of Corrections

## DEPARTMENTAL ADMINISTRATION—Continued

LINE	SUPPORT EXPENDITURES DETAIL	NO. OF POSITIONS			ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54
		51-52 (Filled)	52-53 (Auth.)	53-54 (Auth.)			
1							
2	ADMINISTRATION						
3							
4	The administrative staff supervises and coordinates the following functions: (1) accounting, budgeting and business management;						
5	(2) personnel and in-service training of employees; (3) maintenance and upkeep of plant and construction; (4) feeding and						
6	nutrition; (5) custody and treatment; (6) prison industries; (7) compilation and dissemination of crime study data.						
7							
8	Analysis						
9							
10	SALARIES AND WAGES: The increase of \$15,093 is primarily due to the following proposed new positions:						
11	1 Associate administrative analyst						\$5,772
12	This staff position is proposed to independently plan, guide, and make organizational, systems, and						
13	procedural studies in the interests of efficiency and economy. The time and technical analysis required						
14	for necessary studies is such that it cannot be accomplished with existing personnel.						
15	1 Intermediate stenographer-clerk						2,844
16	This position is necessary to provide clerical staff on a pool basis to serve the part time needs of the						
17	associate administrative analyst, the junior staff analyst (medical), the semisenior accountant, and an						
18	architectural designer to be financed from capital outlay funds.						
19	1 Intermediate typist-clerk (teletype operator)						2,706
20	This position will operate the teletype machine serving the Adult Authority as well as the department.						
21	Work load data of estimated 15,765 messages transmitted and 18,838 received for 1953-54 justifies a full						
22	time position with primary assignment, rather than the inefficient secondary assignment to various clerical						
23	personnel as at present.						
24	1 Senior account clerk						3,294
25	This position is proposed for the increasing work load in the accounting office. The last permanent position						
26	was added in 1950-51. The large expansion in the Adult Authority since that time, especially the proposed						
27	Outpatient Parole Clinic and the Special Intensive Parole Unit proposed for 1953-54, will greatly increase						
28	the volume of the work in the accounting office.						
29	1 Intermediate typist-clerk						2,706
30	This position is proposed as a permanent extension of a limited term position for culling old inmate files						
31	in the Records Office. The large increase anticipated in 1953-54 prison and parole populations will						
32	increase the work load in this office.						
33	1 Junior staff analyst						3,996
34	This position is proposed to relieve the medical consultant of administrative details, thereby permitting						
35	the latter more time for policy matters, staff consultations, and more frequent inspections in the expanding						
36	Department of Corrections and Youth Authority facilities.						
37							
38	OPERATING EXPENSES: The decrease of \$2,170 is primarily due to discontinuance of the Crime Commission and printing the						
39	biennial report in the 1952-53 Fiscal Year.						
40							
41	EQUIPMENT: The total of \$7,631 represents an increase of \$2,012 over the current year. Major items include replacement and						
42	additional files, \$2,737; in-service training equipment, \$1,280; and equipment for new positions.						
43

## Department of Corrections

## BOARD OF CORRECTIONS

A special crime commission was established in the 1951-52 Fiscal Year to assist the Board of Corrections in the study of organized crime conditions in California. Publication of the report and completing miscellaneous activities of the crime commission are included in the Departmental Administration budget for the 1952-53 Fiscal Year.

Other Board of Corrections expenditures are budgeted in Departmental Administration beginning with the 1951-52 Fiscal Year.

## Department of Corrections

## MEDICAL FACILITY

This institution cares for and treats inmates that are mentally ill, including psychopaths and sex offenders, and those suffering from chronic diseases. The permanent site will be at Vacaville in Solano County.

Temporarily Located at Terminal Island in the Los Angeles Harbor

30	Released-----	299	400	390	—10
31	Total-----	\$598	\$800	\$880	\$80
32					<b>(10%)</b>

The increase is primarily due to increased population, and 26.5 proposed new positions.

**SALARIES AND WAGES:** The increase of \$133,394 is due principally to 26.5 new positions. Complement positions affecting several institutions are explained under "State Prisons and Institutions" following the departmental summary. The 13.5 miscellaneous positions are individually explained below:

33	1 Storekeeper I-----	\$3,456
34	This position is proposed to assist and relieve the one present storekeeper in the receipt and storage of supplies, including a large amount of drugs in the medical storeroom which must be kept under strict control. A population increase from 1,000 to 1,100 is anticipated for 1953-54. All other institutions except Corona require at least two storekeepers.	
35	9 Correctional officer-----	31,104
36	Five positions are required for 24-hour, 7-day coverage for the 100 additional older inmates to be housed in an additional cottage in the annex area. Three positions are proposed to provide two-shift, seven-day coverage of meal service supervision in the mess hall as at other prisons. The equivalent of one position is proposed to provide eight-hour, double coverage, at the inspectroscope on Saturdays and Sundays when heavy weekend visiting takes place, and to provide regular day off relief for the present inspectroscope operator.	
37	Overtime (escapes)-----	500
38	To provide funds to finance payment for overtime incurred in searching for escapees and hideouts within and about the institution.	
39	Overtime (night school area)-----	750
40	To provide necessary custodial supervision in the night school area.	
41	1 Senior sociologist (expires June 30, 1954)-----	4,980
42	This position is required for a one-year period to plan, direct, and coordinate the total program of the annex area which will house 400 older or crippled inmates in the 1953-54 Fiscal Year. This trial period is expected to reveal that individual counseling and group programs will increase rehabilitation and possible paroles among these older men.	
43	1 Senior stenographer-clerk-----	3,294
44	This position will serve the associate warden-custody who performs a dual function inasmuch as there is no associate warden-care and treatment at this institution. Inadequate clerical pool service is available at present. Most other institutions now have a correctional officer or stenographer for this purpose.	

a Composed of savings in salaries and wages, \$5,977; operating expenses, \$16,193; equipment, \$405; and loss in reimbursements, \$7,285.

b Composed of savings in salaries and wages, \$987; and operating expenses, \$13,909.

1	SALARIES AND WAGES—Continued						
2	1 Painter foreman -----						\$4,296
3	This position will supervise an inmate paint crew to properly maintain the institution, annex, and resi-						
4	dences, about 60 buildings in all. These should all be painted in the next three years as proper protection						
5	to state and federal property.						
6	0.5 Locksmith (half time) -----						1,998
7	This half time position is required to inspect and service restraint equipment, firearms, tear-gas guns,						
8	and maintain all locks in the institution. Folsom and San Quentin each have a locksmith and one is pro-						
9	posed for Soledad.						
10							
11	OPERATING EXPENSES: The increase of \$38,955 is primarily due to increased population and expanded facilities.						
12	EQUIPMENT: The total of \$8,821 represents an increase of \$2,349 over the current year. The only major item is replacement of mat-						
13	tresses, \$4,200.

## Department of Corrections

## INSTITUTION FOR MEN, CHINO

A minimum custody facility for adult offenders who are expected to profit from agricultural and vocational training. An extensive ranch is operated on a 2,600-acre tract of land. A reception-guidance center processes new offenders from Southern California. A new state forestry camp will be opened July 1, 1953.

Located near Chino, San Bernardino County

a Established because of the earthquake emergency in the Tehachapi area.

b Composed of savings in salaries and wages, \$66,493, due to delayed opening of Reception-Guidance Center; operating expenses, \$25,008; equipment, \$7,018; inmate pay-work projects, \$1,730; and loss in reimbursements, \$13,970.

c Composed of savings in operating expenses, \$23.

1	<b>GENERAL ANALYSIS</b>				
2					
3					
4	Number of positions -----	364.2	369.5	390.7	21.2
5					
6	<b>POPULATION AND UNIT COSTS</b>				
7	Institution Operations:				
8	Average Inmate Population:				
9	Prison -----	1,435	1,500	1,500	-
10	Reception-guidance center <sup>d</sup> -----	199	400	400	-
11					
12	Total -----	1,634	1,900	1,900	-
13	(1952-53 GB) -----	(1,671)	(1,880)	-	-
14	Cost per inmate <sup>e</sup> -----	\$1,238	\$1,162	\$1,198	\$36
15					(3.1%)
16	Federal Forestry Camp Operations:				
17	Average inmate population -----	34	35	35	-
18	Cost per inmate (excluding inmate pay) -----	\$1,277	\$1,127	\$1,232	\$105
19					(9.3%)
20	State Forestry Camp Operations:				
21	Average inmate population -----	173	180	240	60
22					(33.3%)
23	Cost per inmate (excluding inmate pay) -----	\$957	\$969	\$1,004	\$35
24					(3.6%)
25	Inmate Movement:				
26	Institution:				
27	Received -----	1,480	2,340	2,340	-
28	Released -----	1,464	2,245	2,280	35
29					
30	Total -----	2,944	4,585	4,620	35
31	Reception-Guidance Center:				(1.5%)
32	Received -----	2,340	2,600	2,160	-440
33					(-17%)

The increase is primarily due to:

**SALARIES AND WAGES:** The increase of \$97,890 is primarily due to 23.2 new positions. Complement positions affecting several institutions are explained under "STATE PRISONS AND INSTITUTIONS" following the departmental summary. The four miscellaneous positions are individually explained below.

4 Correctional officer ----- \$13,824

Two posts are required to provide 7-day double coverage activity on the 8 a.m.-4 p.m. and 4 p.m.-12 p.m. hour shifts in 102 capacity Sycamore Hall in the Reception-Guidance Center, which includes 12 segregation and 5 isolation cells, 5 tiers, day and reading rooms, and a lobby. Supervision by one officer is especially difficult, particularly because of the suicidal, destructive type of inmates in the isolation-segregation areas, who must be observed every half hour, while considerable movement and activity is taking place among the other inmates in the 5 tier block. One post is proposed for custodial supervision in the 6 school room and 3 vocational shops area in the reception-guidance center, to assist the instructors in custodial problems, check inmates in and out of the shops and classrooms including search for dangerous tools and contraband. One position is required for relief of the above three.

Overtime (transportation)—camps ----- 100  
Overtime (firefighting)—camps ----- 100

These amounts finance overtime due to transportation and firefighting at the new camp.

**OPERATING EXPENSES:** The increase of \$50,468 is primarily due to increased population and establishment of the new State forestry camp.

**EQUIPMENT:** The total of \$31,227 represents a decrease of \$21,868 from the current year. Major items include replacement of mattresses, \$2,100; additional barber equipment, \$1,224; replacement of textbooks, \$1,200; additional electrical equipment, \$1,935; replacement of a truck, \$2,550; replacement of two automobiles, \$3,800; additional equipment for the new camp, \$4,874.

**INMATE PAY:** The increase of \$13,223 is due to the establishment of the new State forestry camp.

**REIMBURSEMENTS:** The increase of \$73,540 is primarily due to establishment of the new State forestry camp partially offset by a decrease in services to correctional industries due to accounting maintenance services as revenues in the 1953-54 Fiscal Year.

## Department of Corrections

## STATE PRISON AT FOLSOM

A maximum security prison for inmates who are dangerous escape risks, recidivists, habitual criminals, or who are serving long sentences. A wide variety of educational courses are available.

Two state forestry camps are being transferred from San Quentin effective January 1, 1953. One federal forestry camp is being transferred from San Quentin and one from Soledad effective April 1, 1953.

Located near Folsom, Sacramento County

46					
47	<b>POPULATION AND UNIT COSTS</b>				
48	<b>Institution Operations:</b>				
49	Average inmate population -----	2,415	2,180	2,200	20
50	(1952-53 G.B.) -----	(2,459)	(2,100)	—	(0.9%)
51	Cost per inmate <sup>b</sup> -----	\$957	\$1,041	\$1,084	\$43
52					(4.1%)
53	<b>Federal Forestry Camp Operations:</b>				
54	Average inmate population -----	—	10	40	30
55	Cost per inmate (excluding inmate pay) -----	—	\$1,758	\$1,446	—\$312
56					(—17.7%)
57	<b>State Forestry Camp Operations:</b>				
58	Average inmate population -----	—	60	120	60
59	Cost per inmate (excluding inmate pay) -----	—	\$1,063	\$1,159	(100%)
60					\$96
61					(9%)
62	<b>Inmate Movement:</b>				
63	Received -----	1,441	1,760	1,410	—350
64	Released -----	1,991	1,460	1,410	—50
65					
66	<b>Total</b> -----	<b>3,432</b>	<b>3,220</b>	<b>2,820</b>	<b>—400</b>
67					(—12.4%)
68					
69					
70	The increase is primarily due to the 1953-54 total population of 2,360, including 4 new camps (transferred from San Quentin and				
71	Soledad) compared with the revised estimate of 2,250 for 1952-53 and 2,100 in the 1952-53 Governor's Budget, or an increase of				
72	12.4 percent over the latter, and 24.4 proposed new positions.				
73					
74	<sup>a</sup> Composed of savings in salaries and wages, \$3,899; operating expenses, \$22,423; equipment, \$5,099; and loss in reimbursements,				
75	\$1,044.				
76	<sup>b</sup> Excludes emergency forest fire suppression and expenditures for services performed for the entire prison system of transporting				
77	inmates and returning parole violators.				
78					

## Department of Corrections

## STATE PRISON AT FOLSOM—Continued

LINE	EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54	CHANGE FROM 1952-53
1	<b>GENERAL ANALYSIS—Continued</b>				
2					
3					
4	<b>SALARIES AND WAGES:</b> The increase of \$114,429 is chiefly accounted for by 24.4 new positions and full operation of four camps				
5	transferred to Folsom during the 1952-53 Fiscal Year. Complement positions affecting several institutions are explained under				
6	"State Prisons and Institutions" following the departmental summary. The 11 miscellaneous positions are individually explained				
7	below:				
8	10 Correctional officers -----				\$34,560
9	One position is proposed to provide custodial supervision in the vocational shop area, adjacent to the				
10	main yard, to provide custodial supervision over the classes conducted by A.D.A. instructors, and to				
11	prevent passage of contraband and weapons which has resulted in several serious incidents. One position is				
12	proposed to provide custodial coverage in Tower 17 during the day shift overlooking the yard between				
13	Cell Block 2 and the new segregation and isolation unit. Maximum security men using this yard are very				
14	dangerous and must be under constant surveillance. It cannot be adequately covered by the officers in the				
15	136 capacity segregation unit.				
16	Two positions are proposed for Tower 6, overlooking the canal on the first and third shifts, seven days per				
17	week. Day shift coverage only is presently provided. Since the construction of the Folsom Dam, the power				
18	house gates have been opened and the canal is either dry or has a maximum water depth of two feet, com-				
19	pared with 12 feet previously. The inmate escape barrier has been removed and the manning of Tower 6,				
20	24 hours per day is necessary as a protective measure against attempted escapes.				
21	One position is proposed to act as state agent to return parole violators. In 1951-52, 1,041 man days were				
22	required for this work. Four previous positions were reduced to two in 1952-53 as a result of a ratio reduc-				
23	tion with an estimated population decrease. In 1953-54 the population is expected to again increase and the				
24	man hours required will justify three positions. The position is requested at Folsom rather than San Quen-				
25	tin, where parole violators are now received, because of the work with the Sacramento office on extradition				
26	papers and travel information.				
27	Five relief positions are proposed to provide necessary relief for the new custodial positions, increase over-				
28	all sick leave relief from six to seven days (7.35 days per actual 1951-52 experience).				
29	1 Arts and craft teacher -----				4,512
30	This position is to provide guidance and instruction to the 138 inmates in the new segregation unit, approxi-				
31	mately 80 chronic disciplinary problems, to the end of developing constructive interest and attitude in these				
32	men. This position will also assist in screening inmates for aptitudes in technical and industries assignments.				
33	Positions for the four camps have been transferred in the 1952-53 Fiscal Year from San Quentin and Soledad. These positions are con-				
34	tinued during the budget year at an estimated increased cost over the current year of \$41,426.				
35					
36	<b>OPERATING EXPENSES:</b> The increase of \$91,205 is primarily due to full year operation of the forestry camps and increased				
37	population.				
38					
39	<b>EQUIPMENT:</b> The total of \$64,774 represents a decrease of \$1,856 from the current year. Major items include replacement of a				
40	milling machine, \$1,994; replacement of a departmental bus, \$19,000; and additional forestry camp equipment, \$3,314.				
41					
42	<b>INMATE PAY-WORK PROJECTS:</b> The total of \$36,600 is an increase of \$20,600 over the current year and is due to full year opera-				
43	tion of the four forestry camps transferred from San Quentin and Soledad.				
44					
45	<b>REIMBURSEMENTS:</b> The increase in reimbursements is due to full year operation of the forestry camps, partially offset by a decrease				
46	in reimbursements from correctional industries due to accounting maintenance services as revenues in the 1953-54 Fiscal Year.				
47					
48

## STATE PRISON AT SAN QUENTIN—Continued

LINE	EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54	CHANGE FROM 1952-53
1	<b>GENERAL ANALYSIS—Continued</b>				
2	<b>POPULATION AND UNIT COSTS—Continued</b>				
3	Inmate Movement:				
4	Institution:				
5	Received	3,616	3,690	3,600	—90
6	Released	3,807	3,235	3,565	330
7					
8	Total	7,423	6,925	7,165	240
9					(3.5%)
10	Reception-Guidance Center:				
11	Received	2,827	2,750	2,600	—150
12					(5.5%)
13	The increase is generally due to an institutional population increase of 588 (15.5%) over the 1952-53 Governor's Budget and 65.4 proposed new positions. One additional State Forestry Camp is planned and the transfer of three camps to Folsom.				
14	SALARIES AND WAGES: The increase of \$186,864 is due principally to 65.4 new positions. Complement positions affecting several institutions are explained under "State Prisons and Institutions" following the departmental summary. 24 miscellaneous positions are individually explained below:				
15	3 Correctional sergeant				\$11,988
16	18 Correctional officer				62,208
17	The above positions are requested to fill additional posts as outlined below and are in part required because of the 15.5 percent population increase since the last budget.

53	Received -----	2,081	1,710	1,920	-
54	Released -----	956	1,680	1,820	-
55	<b>Total</b> -----	<b>3,037</b>	<b>3,390</b>	<b>3,740</b>	<b>350</b>
56					(10.3%)
57	The increase of \$293,586 is due primarily to the increased population, 38.5 proposed new positions, increased operating expenses and more accurate estimates on the operation of the new institution.				
58	The camp program consists of two state forestry camps and three federal forestry camps. The entire costs of camp operations are reimbursed by the United States Forest Service and the State Division of Forestry.				
59	<sup>a</sup> Composed of savings in salaries and wages, \$122,525; operating expenses, \$1,578; equipment, \$3,256; inmate pay work projects, \$3,681; and excess reimbursements, \$5,692.				

## Department of Corrections

## STATE PRISON AT SOLEDAD—Continued

LINE	EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54	CHANGE FROM 1952-53
1	<b>GENERAL ANALYSIS—Continued</b>				
2					
3					
4	<b>SALARIES AND WAGES:</b> The increase of \$217,498 is primarily due to 38.5 new positions. Complement positions affecting several				
5	institutions are explained under "State Prisons and Institutions" following the departmental summary. 18.5 miscellaneous				
6	positions are explained as follows:				
7	1 Intermediate account clerk				\$2,706
8	This position is required to assist in the trust, canteen and hobby operations, the increased work load of				
9	which can no longer be handled by the one bookkeeping machine operator presently allowed for this work,				
10	due to the proportional increase of each of the following: institution population; additional forestry				
11	camp operations; expanded hobby program; increased number of releases; and establishment of indus-				
12	tries pay plan from which inmates will receive earnings from the farm, clothing factory and furniture				
13	factory.				
14	1 Intermediate clerk (mail room)				2,706
15	This position is necessary to assist in the mail room in the handling of more than 409,000 pieces of mail per				
16	year, including censoring of incoming and outgoing mail and maintenance of records of such correspondence.				
17	13 Correctional officer				44,928
18	One position is requested to provide double coverage on the 2 p.m. to 10 p.m. shift in the general supervision				
19	of the homosexual unit, Wing Z, including exercising, bathing, shakedown of cells, issuance of supplies				
20	and laundry, feeding, recreation. A large number of these inmates will not have any work assignment. The				
21	afternoon and evening is when they have their greatest freedom within the wing and double coverage is				
22	necessary with this type of inmate.				
23	Four—two positions are proposed for the 6 a.m. to 2 p.m. shift and two positions for the 2 p.m. to 10 p.m.				
24	shift to provide coverage in the main corridor for supervision of inmate activity in this area. One position				
25	during each shift will supervise feeding, work assignment, and school traffic from the control room to				
26	the East gate, while the other position will supervise this traffic from the control room to the West gate.				
27	Four positions required to provide adequate supervision of the following inmate work crews: plumbing, car-				
28	pentry, electrical, painting, and grounds. These additional positions will assist the maintenance foremen				
29	providing custodial supervision where it is not now available, including periodic checks, reporting of in-				
30	fractions, etc., and will also direct inmates on work crews.				
31	Four positions are requested to provide relief for the above post assignments.				
32	1 Instructor in electrical work				4,512
33	This position is required for the establishment of two 3-hour daily classes in industrial electrical shop serv-				
34	ices and repair, consisting of 15 to 20 inmates per class. Instruction will include elements of applied elec-				
35	tricity, household electrical repairs, motor repairs and rewinding. The establishment of this class will				
36	provide another diversified field of vocational training not now offered in the institution, and will be a val-				
37	uable asset to the ultimate rehabilitation of inmates. In addition to class instruction, this position will assist				
38	in the general institutional maintenance and servicing of electrical equipment, motors, etc.				
39	1 Assistant instructor in physical education and recreation				4,512
40	This position is requested again to assist in organizing and directing the recreation program. The program				
41	operates 10 hours per day, 7 days per week and encompasses three separate yard areas and a gymnasium				
42	in the new institution and the gymnasium at the barracks (temporary institution), as well as at the five				
43	forestry camps. Program direction, supervision, and normal relief require two civil service positions at this				
44	dual institution as at Chino and San Quentin, even though inmate leaders may conduct individual games.				
45	0.5 Locksmith (half time)				1,998
46	An additional half time position is required to assist the half time position presently established in the				
47	servicing and maintenance of all locks and locking devices in the institution. The 841 cylinder type and				
48	369 tumbler type locks in the institution, in addition to the hospital and large number of prison locks and				
49	the 1,300 door closing devices requiring servicing, make it impossible for a half time position to satisfac-				
50	torily carry on this work.				
51	1 Steamfitter foreman				4,296
52	This position is proposed for adequate servicing and maintenance by a free person of the very complex				
53	heating and steam system of the institution, including steam lines, radiators, heating units, and pumps.				
54	These facilities are located primarily in the main corridor where inmates are working who must be under				
55	constant supervision. In addition, the position will be responsible for steam facilities in barracks and farm				
56	unit.				

The decrease in estimated salary savings reflects the greatly improved employment situation.

**OPERATING EXPENSES:** The increase of \$44,370 is due to population increases.

**EQUIPMENT:** The total of \$14,970 is an increase of \$7,022 from the \$7,984 allowed in the 1952-53 budget. The major items of equipment are two replacement motor vehicles costing \$3,900 for institution use and one motor vehicle for camp use costing \$2,300.

## Department of Corrections

## DEUEL VOCATIONAL INSTITUTION

A medium security institution housing young adult male offenders committed both to the Youth Authority and the Department of Corrections. The new institution will also serve as a reception-guidance center for these offenders. The institution is temporarily located near Lancaster. The new permanent 1,200-capacity facilities will be completed and occupied in July, 1953.

Located at Tracy, San Joaquin County

<sup>d</sup> Excluding cost of operating reception-guidance center.

## Department of Corrections

## DEUEL VOCATIONAL INSTITUTION—Continued

LINE	EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54	CHANGE FROM 1952-53
1	<b>GENERAL ANALYSIS—Continued</b>				
2					
3	The proposed budget reflects the opening of the new institution at Tracy in July, 1953, with an eventual population of 1,150 on June 30,				
4	1954, compared to a 555 population at Lancaster, together with the necessary additional staff to operate the larger permanent facility.				
5					
6	<b>SALARIES AND WAGES:</b> The increase of \$492,204 is primarily accounted for by proposed new positions. The basic staff is scheduled to				
7	be effective July 1, 1953, unless otherwise noted. All positions in the Work Camp (Tracy) will be absorbed into the operation of the				
8	permanent institution at Tracy. Complement positions affecting several institutions are explained under "State Prisons and Institu-				
9	tions" following the departmental summary. The 80 miscellaneous positions are listed and individually explained below:				
10	1 Intermediate typist-clerk (accounting office) -----				\$2,706
11	This position is proposed to do general typing and assist the senior account clerk on inmate trust accounting				
12	and the cashiering operation. This position, together with the additional senior typist-clerk (second personnel				
13	clerk) recommended, will provide a total accounting staff of 11 positions, compared to 12 or more in the other				
14	larger institutions (excluding Corona and Medical Facility). This represents the minimum staff necessary,				
15	considering the fact that wards cannot be used in this office.				
16	1 Storekeeper I -----				3,456
17	This position, together with the two present storekeepers (one to be transferred from the Work Camp—Tracy)				
18	are proposed to operate the main inside warehouse and the outside receiving warehouse, including necessary				
19	relief.				
20	1 Correctional officer (household supply officer) -----				3,456
21	This position is to be in charge of distribution of inmate personal items, such as towels, razors, soaps, etc. One				
22	such position is necessary and included in the post assignment of most other large prisons.				
23	2 Intermediate typist-clerk (mail clerks, one effective July 1, 1953; one effective January 1, 1954) -----				4,026
24	It is estimated that 244,000 pieces of mail will be handled per year. On the basis of Soledad ratio of 100,000				
25	pieces per employee, these two positions, in addition to present correctional sergeant, are proposed.				
26					
27	Additional custodial positions are proposed to properly man the new institutions as follows:				
28	2 Correctional lieutenant -----				\$9,024
29					
30	<i>Posts *</i> <i>Coverage</i> <i>No. of</i> <i>Posts</i> <i>Coverage</i> <i>No. of</i>				
31	Training lieutenant ----- 2d shift 1 Relief -----				3
32	Outside and farm lieutenant ----- 2d shift 1				
33	(effective 10-1-53) ----- 2d shift 1				9
34	Charge of shift lieutenant ----- 1st and 3d shifts 2				—7
35	Quarters and yards lieutenant ----- 2d shift 1				
36	Work and shop lieutenant ----- 2d shift 1				2
37					
38	12 Correctional sergeant -----				\$47,952

## Department of Corrections

## DEUEL VOCATIONAL INSTITUTION—Continued

LINE	EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54	CHANGE FROM 1952-53
1	<b>GENERAL ANALYSIS—Continued</b>				
2	<b>SALARIES AND WAGES—Continued</b>				
3	2 Stationary fireman -----				\$6,912
4	These positions are to be in charge of the high pressure boiler operation and is similar staffing as in other				
5	prisons.				
6	1 Steamfitter foreman -----				4,296
7	This position is similar to one proposed at Soledad to provide proper maintenance of the expensive and				
8	complex steam and refrigeration installations by a skilled, technical position.				
9	1 Carpenter foreman -----				4,296
10	This position is to supervise an inmate work crew on repair and minor construction projects as part of the				
11	preventive maintenance program throughout the institution.				
12	1 Automotive mechanic foreman -----				4,296
13	This position, together with the present instructor, will supervise inmates in maintenance and repair of				
14	state automobiles, trucks, and other mechanized equipment. The institution will operate an inside garage				
15	and outside service station. Most large prisons have two positions on this operation.				
16	1 Locksmith -----				3,996
17	This position is to service and maintain all of the many locks and locking devices as well as armory equip-				
18	ment in this new institution. A similar position is established or proposed in the other large prisons.				
19	1 High school teacher (commercial) -----				4,512
20	This position will instruct a class in typing, bookkeeping, stenography and allied commercial subjects.				
21	1 Instructor in general shop -----				4,512
22	This position will conduct vocational orientation and small maintenance projects for 48 problem cases				
23	in the segregation unit.				
24	7 Vocational instructor (three effective July 1, 1953, two effective October 1, 1953, and two effective				24,816
25	January 1, 1954)				
26	These positions, in addition to the present 22 instructors, are a minimum staff, on a staggered basis, to serve				
27	the population increase to 1,150, until determination can be made as to the number and type of local school				
28	district instructors available in the Tracy area.				

OPERATING EXPENSES: The increase of \$242,470 is due to increased population and expanded facilities.

EQUIPMENT: The total of \$8,713 represents a decrease of \$8,109 from the current year. The larger items include replacement of office furniture, \$1,852; replacement of three barber chairs, \$675; replacement of textbooks, \$1,150.

REIMBURSEMENTS: The increase is due to increased employees and expanded correctional industries.

## Department of Corrections

## INSTITUTION FOR WOMEN

Receives and houses all female felons committed to prison. Academic and limited vocational training and a sewing industry are available. The institution was formerly located near Tehachapi, Kern County. The new institution was opened in August, 1952.

Located Near Corona, San Bernardino County

LINE	EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54	CHANGE FROM 1952-53
1	<b>SUMMARY AND</b>				
2	<b>RECONCILIATION WITH APPROPRIATIONS</b>				
3	<b>General Fund</b>				
4	<b>SUPPORT</b>				
5	Budget Act appropriation -----	\$401,702	\$463,244	\$625,197	
6	Allocations from Salary Increase Fund -----	24,220	14,375	--	
7	Allocations from Price Increase Fund -----	26,861	--	--	
8	Allocations from Emergency Fund -----	9,855	--	--	
9	Total Available -----	\$462,638	\$477,619	\$625,197	
10	Unexpended balance, estimated savings -----	14,235 <sup>a</sup>	16,464 <sup>b</sup>	--	
11	TOTAL EXPENDITURES FOR SUPPORT -----	\$448,403	\$461,155	\$625,197	\$164,042 (35.6%)
12	<b>OTHER CURRENT EXPENSES</b>				
13	Expense of Moving from Tehachapi to Corona:				
14	Budget Act appropriation -----	--	\$30,000	--	-\$30,000
15	TOTAL EXPENDITURES -----	\$448,403	\$491,155	\$625,197	\$134,042 (27.3%)
16	<b>GENERAL ANALYSIS</b>				
17	Number of positions -----	56.9	65	108	43
18	<b>POPULATION AND UNIT COSTS</b>				
19	Average inmate population				
20	(1952-53 Governor's Budget) -----	393	410	473	63
21		(374)	(386)	--	(15.4%)
22	Cost per inmate -----	\$1,141	\$1,125	\$1,322	\$197
23					(17.5%)
24	Inmate Movement:				
25	Received -----	205	180	195	--
26	Released -----	152	150	155	--
27	Total -----	357	330	350	20
28	The proposed budget reflects a full years operation of this institution on the new site at Corona. The increase in expenditures reflects				
29	occupancy of the new institution in a more favorable employment situation than at Tehachapi which precluded the employment of				
30	persons necessary to properly supervise and operate the institution. Additional positions are proposed to provide more adequate				
31	staffing for the new institution.				
32	<b>SALARIES AND WAGES: The increase of \$152,287 is accounted for as follows:</b>				
33	10½ new positions at a cost of \$40,426 are complement positions affecting several institutions and are explained under "State Prisons				
34	and Institutions," following the departmental summary. 24.5 miscellaneous positions are individually explained below:				
35	0.5 Accounting technician II (increase from half to full time) -----				\$1,647
36	A full-time property clerk is necessary to provide proper control of equipment in an institution of this				
37	size.				
38	1 Intermediate typist-clerk (switchboard and information) -----				2,706
39	The large number of visitors and telephone calls, together with the arrangement of the building at the Corona				
40	location makes this position mandatory if the control room post is to function adequately. Any free time				
41	will be used for miscellaneous clerical work.				
42	1 Supervisor-counselor III -----				4,512
43	This position will be responsible for direction of the custodial program and will be in charge of the institu-				
44	tion when both the superintendent and assistant superintendent are absent. The position will be comparable				
45	to the correctional captain in the men's institutions. It will permit the assistant superintendent to head up				
46	the educational program.				
47	4 Supervisor-counselor II -----				15,984
48	These positions are required as follows:				
49	Custodial charge on 2 p.m. to 10 p.m. shift—1 position.				
50	Custodial charge on 10 p.m. to 6 a.m. shift—1 position.				
51	Relief for above assignments and the supervisor-counselor III—2 positions.				
52	These positions are comparable to correctional lieutenant in the men's prisons.				
53	14 Supervisor-counselor -----				22,984
54	These positions are required as follows:				
55	Provide double coverage 8 a.m.-4 p.m. shift in existing 100-inmate cottages with two 50-inmate wings				
56	with separate dining rooms and day rooms—3 positions.				
57	Clothing distribution officer for a problem common to all prisons and located in new commitment wing				
58	—1 position.				
59	Provide 24-hour coverage with double coverage on first and second shifts in 100-inmate Cottage 4. This				
60	is a new unit—5 positions, effective June 1, 1954.				
61	Relief for above assignments—5 positions, 3 effective June 1, 1954.				
62	<sup>a</sup> Composed of savings in salaries and wages, \$4,958; operating expenses, \$7,154; equipment, \$2,508; and loss in reimbursements, \$385.				
63	<sup>b</sup> Composed of savings in salaries and wages, \$16,540; operating expenses, \$2,745; and loss in reimbursements, \$2,821.				

## Department of Corrections

## INSTITUTION FOR WOMEN—Continued

LINE	EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54	CHANGE FROM 1952-53
1	<b>GENERAL ANALYSIS—Continued</b>				
2					
3	<b>SALARIES AND WAGES—Continued</b>				
4	1 Chaplain (increase from half to full time)-----				\$4,980 <sup>6</sup>
5	The increase in time is necessary in order to provide an adequate religious program as a vital part of the				
6	rehabilitation program of this growing institution.				
7	1 Supervising groundsman-----				3,810
8	This position is required to plan landscaping maintenance and to supervise inmates engaged in handling				
9	lawns, plants, shrubs, and trees. Will also order supplies and keep records of production.				
10	1 Electrician-----				3,996
11	This position is necessary to properly service the many complex electrical systems and devices at this institu-				
12	tion.				
13	1 Plumber-----				3,996
14	This position will maintain the sewage disposal plant and all other fixtures requiring a plumber's attention.				
15					
16	The balance of the increase reflects an anticipated improvement in the employment situation, thus reducing salary savings.				
17					
18	<b>OPERATING EXPENSES:</b> The increase of \$11,290 reflects population increases offset in part by decreases in medical, dental, and				
19	psychiatric contractual services.				
20					
21	<b>EQUIPMENT:</b> The total of \$4,555 is a decrease of \$389 from the amount provided in the 1952-53 Fiscal Year. Replacement of four sewing				
22	machines, \$1,225, is the major item.				
23					
24	<b>OTHER CURRENT EXPENSES:</b> \$30,000 was provided in the 1952-53 Fiscal Year to move the institution from Tehachapi to Corona.

## Department of Corrections

## ADULT AUTHORITY

This is the paroling agency for adult male prisoners of the State. As such, it issues and revokes paroles, fixes and refixes terms of imprisonment, classifies and determines punishment of prisoners. The Bureau of Paroles supervises all adult male parolees within the State. In the 1953-54 Fiscal Year a new special intensive parole unit and a parole outpatient clinic are planned to permit early release of certain prisoners and to offer psychotherapy to certain parolees, respectively.

Main Office at Sacramento

27	Number of parolees supervised end of year .....	4,199	4,558	4,968	410
28					(9.9%)
29	Number of Parole Officers end of year .....	69	76	83	7
30					(9.2%)
31	Ratio of parolees to Parole Officers end of year .....	61	60	60	—
32	Average number of parolees supervised .....	3,988	4,436	4,777	341
33					(7.7%)
34	Cost per parolee .....	\$135	\$136	\$142	\$6
35					(4.4%)
36	<b>Analysis</b>				
37					
38	The increase is due to the continuing increase in total case load in the Bureau of Paroles, with an increase in number of parole officers and other expenses related thereto, the establishment of a Special Intensive Parole Unit to permit the early release of 800 additional prisoners or an average of 200 for a 90 day period, reduced from prison population, and placed under special parole, and the establishment of one parole outpatient clinic to offer group and individual psychotherapy to an average of 300 parole cases.				
39	<b>SALARIES AND WAGES:</b> The increase of \$169,085 is primarily due to proposed new positions for increased case load in the Bureau of Paroles, the new Special Intensive Parole Unit, and the new Parole Outpatient Clinic detailed as follows:				
40	Bureau of Paroles:				
41	1 Parole officer II (effective January 1, 1954) .....			\$2,256	
42	4 Parole officer I (one each effective September 1, 1953, April 1, 1954, May 1, 1954, and June 1, 1954) .....			5,456	
43	4 Educational interne (eight individuals—half time—effective August 1, 1953) .....			9,000	
44	2 Intermediate stenographer-clerk (one each effective August 1, 1953 and April 1, 1954) .....			3,294	
45	These positions will maintain a ratio of one parole officer to 60 parolees based on an increased parole population. The educational internes carry one-half of normal case load, thus offsetting two parole officers.				
46	1 Supervising clerk I .....			3,810	
47	This position is proposed to re-establish a position transferred to the Department of Corrections, Departmental Administration in the 1952-53 Budget. The duties of this position consist of maintaining administrative statistics and controls on operating expenditures in accordance with the policies of the Adult Authority, an independent administrative board.				
48	Special Intensive Parole Unit:				
49	3 Parole officer II .....			\$13,536	
50	14 Parole officer I .....			57,288	
51	5 Intermediate stenographer-clerk .....			14,220	
52	These positions will provide staff for a ratio of one parole officer I to each 15 parolees for a 90-day period for an average of 200 parolees. Necessary supervision and clerical staff are also provided.				
53	Outpatient Parole Clinic:				
54	1 Chief psychiatrist .....			9,852	
55	1 Senior clinical psychologist .....			5,496	
56	1 Senior sociologist .....			4,980	
57	1 Senior psychiatric social worker .....			4,512	
58	1 Senior stenographer-clerk .....			3,294	
59	Temporary help (clerical) .....			200	
60	These positions will provide a professional working head, clinical team, and clerical help to conduct group and individual psychotherapy to an average of 300 parole cases.				

<sup>a</sup> Composed of savings in salaries and wages, \$865; operating expenses, \$9,352; equipment, \$332; and excess reimbursements, \$84.

<sup>b</sup> Composed of savings in operating expenses, \$415.

LINE	EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54	CHANGE FROM 1952-53		
1							
2							
3	GENERAL ANALYSIS—Continued						
4	OPERATING EXPENSES: The increase of \$91,430 is due to increased case load in the Bureau of Paroles; the new Special Intensive						
5	Parole Unit, including \$30 per week for two weeks' assistance to special parolees partially offset by increased reimbursements; and						
6	the new Parole Outpatient Clinic.						
7							
8	EQUIPMENT: The increase of \$91,430 is chiefly due to additional automobiles and equipment in the Special Intensive Parole Unit and						
9	additional office equipment in the Parole Outpatient Clinic.						
10							
11	REIMBURSEMENTS: The increase of \$26,115 is primarily due to an estimated 50 percent recovery of advances to parolees in the new						
12	Special Intensive Parole Unit.

9	Unexpended balances, estimated savings	—3,819 <sup>a</sup>	-	-	
10	TOTAL EXPENDITURES FOR SUPPORT	\$57,767	\$70,954	\$72,862	\$1,908 (2.7%)
11	<b>GENERAL ANALYSIS</b>				
12	Number of positions	7.9	9	9	-
13	<b>PAROLE RATIOS</b>				
14	Average number of paroles supervised	221	268	296	28 (10.4%)
15	Average number of parole officers	3.9	4.5	5	0.5 (11.1%)
16	Average case load per parole officer	57	60	59	-1 (-1.7%)
17	In general, the increase in expenditures is due to the increase in parole population.				
18	SALARIES AND WAGES: The increase of \$3,205 is chiefly due the full-year cost of one additional parole officer established January 1, 1953, on the basis of increased work load.				
19	OPERATING EXPENSES: The increase of \$1,005 reflects increased expenditures of the additional parole officer and includes out-of-state travel for one board member to attend the American Prison Congress.				
20	EQUIPMENT: The total of \$732 includes three additional files for increased parole population.

## Department of Corrections

## YOUTH AUTHORITY

The Youth Authority has the responsibility for classification, segregation, and parole of all young offenders committed to it. It exercises over-all supervision of the various correctional facilities for young offenders including custody and rehabilitation. It also administers the parole program.

Consultant services are provided to judges, probation officers, juvenile halls, and law enforcement bureaus. Regular inspections of county-operated camps are made and standards set for payment of subsidies. Advisory services are rendered to community agencies interested in youth welfare and delinquency prevention.

## Department of Corrections—Youth Authority

## DEPARTMENTAL ADMINISTRATION

Departmental Administration includes a number of divisions supervising or exercising centralized control over all phases of the Youth Authority program. Included are Authority in which is budgeted the expenses of two members of the three-member board, the chairman being the director who is included in the Division of Administration. The Division of Administration provides central control and unified management of the several divisions and facilities, maintains central case files, and provides transportation of wards between the facilities and deportations. The Bureau of Delinquency Prevention functions in direct contact with community agencies interested in youth welfare and delinquency prevention and includes the expenses of the interstate probation compact. The Bureau of Paroles provides parole supervision of wards released on parole after a training period in the various schools and camps. The Division of Diagnosis and Classification is responsible for making a clinical study of each youth at the time of commitment to aid in the best possible assignment for training. The Division of Training and Treatment supervises the operation of the schools and camps and is responsible for the continuing re-evaluation and development of their programs.

19					
20	<b>GENERAL ANALYSIS</b>				
21					
22					
23	In general the support increases are based on increases in parole and institutional population and improvement in ratios of parolees to				
24	placement officers. The increase is partially offset by the transfer of positions in the Bureau of Paroles and the Division of Diag-				
25	nosis and Classification to other facilities.				
26					
27	Number of positions	178.5	195	205	10
28					
29	<b>PAROLE RATIOS AND UNIT COSTS</b>				
30	Number of Parolees Supervised End of Year:				
31	Boys case load	3,656	3,984	4,358	374
32	Girls case load	727	816	892	76
33					
34	Totals	4,383	4,800	5,250	450
35					(9.4%)
36	Number of Parole Officers End of Year:				
37	Boys	49	55	64	9
38	Girls	13	15	18	3
39					
40	Totals	62	70	82	12
41					(17.1%)
42	Ratio of Parolees to Parole Officers:				
43	Boys	75	72	68	—4
44	Girls	56	54	51	—3
45	Over-all ratio of parolees to parole officers	71	69	64	—5
46					
47	Average number of parolees supervised	4,188	4,610	5,044	434
48					(9.4%)
49	Cost per parolee	\$126	\$133	\$136	\$3
50					(2.3%)
51	<b>SALARIES AND WAGES:</b> The increase of \$40,018 is primarily due to the following:				
52	Proposed New Positions:				
53	1 Junior staff analyst				\$4,440
54	This position is to provide administrative assistance to the director and the administrative officer in making				
55	special investigations, analyses, and surveys caused by the continuing growth of the Youth Authority and				
56	its program.				
57	1 Intermediate typist-clerk				2,706
58	This position is required in the personnel section to handle increased work load resulting from the increased				
59	number of Youth Authority employees, especially at Paso Robles, Los Guilucos, and the new reception				
60	center at Sacramento.				
61	1 Field representative				4,980
62	1 Intermediate stenographer-clerk				2,844
63	These positions provide the necessary staff for the work of the interstate probation compact which has pre-				
64	viously been absorbed but has grown to the point where this is no longer possible.				
65	3 Supervising placement officer (two effective July 1, 1953, and one September 1, 1953)				14,824
66	3 Placement officer II (one effective July 1, 1953, one October 1, 1953, and one March 1, 1954)				9,400
67	6 Placement officer I (two effective July 1, 1953, one November 1, 1953, one January 1, 1954, one May 1,				
68	1954, and one June 1, 1954)				13,981
69	4 Intermediate stenographer-clerk (two effective July 1, 1953, one October 1, 1953, and one March 1, 1954)				8,727
70	These positions provide for the continued increase in parole population and include a new work load ratio				
71	of parolees to placement officers which is proposed in order to provide a case load per officer in actual contact				
72	with the parolees of 80 to 1 for boys and 60 to 1 for girls. A revision in ratio of supervising placement				
73	officers to placement officers II and I from 10 to 1 to 8 to 1 is also provided. In arriving at the over-all				
74	ratios used in computing placement officer requirements, the assistant chief, placement, two placement				
75	officers II (serving forestry camps and Department of Corrections facilities on parole work) and a				
76	placement officer II (assigned to deportations) are excluded and the two Youth Authority trainees are				
77	allowed on a half case load basis.				
78	The ratio of officers to boys is a continuation of the ratio originally authorized several years ago. The ratio				
79	as assigned by the Bureau of Paroles in carrying out its function has actually been higher than this because				
80	of the greater degree of parole supervision required for girl parolees. This increased supervision has				
81	resulted in a larger case load for the other placement officers. Staff is budgeted on the basis of a lower ratio				
82	for girl parolees, so that the original ratio of officers to boys may be restored.				
83	The ratio of supervising placement officers to other placement officers is being reduced to provide better				
84	supervision and training of the placement officers and better review of parolee case records. This is also				
85	necessitated, at least in part, by the girl parolee problem.				
86					

## Department of Corrections—Youth Authority

## DEPARTMENTAL ADMINISTRATION—Continued

LINE	EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54	CHANGE FROM 1952-53
1	<b>GENERAL ANALYSIS—Continued</b>				
2					
3					
4	<b>SALARIES AND WAGES—Continued</b>				
5	1 Supervisor of education				\$7,008
6	This position centralizes the supervision of the schools important educational programs in one position				
7	and relieves the chief of the division from over-emphasis in this one area.				
8	Positions Now Authorized:				
9	3 Placement officers II				—15,842
10	2.5 Senior clinical psychologist				—15,286
11	4 Intermediate stenographer-clerk				—12,680
12	These positions are being transferred to various institutions' classification and counseling units.				
13	1 Supervisor of clinical psychology				—2,704
14	2 Senior clinical psychologist				—3,566
15	2 Educational interne				—1,760
16	1 Senior clerk				—1,240
17	4 Intermediate stenographer-clerk				—2,602
18	These positions are being transferred to the Reception Center at Sacramento effective on various dates				
19	beginning March 1, 1954.				
20	Positions Being Abolished:				
21	1 Intermediate typist-clerk				—2,988
22	This position is abolished effective October 31, 1952 as the function previously performed is now being				
23	handled by the Department of Justice.				
24	1 Senior clinical psychologist				—
25	This position is being abolished effective June 30, 1954 as it will no longer be necessary with the opening				
26	of the Reception Center at Sacramento.				

OPERATING EXPENSES: The increase of \$23,627 is primarily due to the increased parole and institutional population.

EQUIPMENT: The total of \$37,004 represents an increase of \$4,911 over the current year. Major items include replacement of automobiles, \$5,750; additional automobiles for proposed new placement officers, \$9,600; four additional automobiles for low mileage placement officers on a pool basis, \$6,400.

## Department of Corrections—Youth Authority

## NORTHERN CALIFORNIA RECEPTION CENTER AND CLINIC

A reception center for boys received from Northern California and all girls from the entire State. The major purpose of this facility will be to centralize intake and to make diagnostic studies and training recommendations on each case. Intensive medical, dental, psychological, and psychiatric treatment will be given. Serious medical and psychiatric cases developing in the schools will also be treated. Approximately 1,350 boys and girls will be processed each year. The new institution will be completed in February, 1954, with a capacity of 150. The first wards will be received March 1, 1954. The ultimate planned capacity is 250.

Located Near Sacramento

LINE	EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54	CHANGE FROM 1952-53
1					
2	SUMMARY AND				
3	RECONCILIATION WITH APPROPRIATIONS				
4					
5	SUPPORT				
6	Budget Act appropriation	-	-	\$231,731	
7					
8	OTHER CURRENT EXPENSES				
9	Initial Inventory and Supplies and Employees' Moving Expenses:				
10	Budget Act appropriation	-	-	16,000	
11					
12	TOTAL EXPENDITURES	-	-	\$247,731	
13					
14	GENERAL ANALYSIS				
15					
16					
17	Number of positions	-	-	120.5	
18					
19	WARDS RECEIVED AND UNIT COSTS				
20	Total wards received	-	-	360	
21	Cost per ward received	-	-	\$644	
22	Per capita cost is based on the number of wards received rather than average population as this facility is primarily engaged in the				
23	reception process rather than domiciliary care and treatment. The cost per ward received is higher the first fiscal year because, of				
24	necessity, several positions are established prior to the actual opening of the institution and overhead costs are distributed to a				
25	lower number received.				
26					
27	SALARIES AND WAGES: The total of \$182,221 includes the following:				
28	Proposed New Positions:				
29	1 Superintendent (effective September 1, 1953)			\$7,820	
30	1 Senior stenographer-clerk (effective September 1, 1953)			2,732	
31	These positions provide over-all administrative supervision of the institution and provide necessary clerical				
32	assistance.				
33	2 Intermediate typist-clerk (information and switchboard) effective March 1, 1954			1,760	
34	These positions provide seven-day per week information and switchboard coverage.				
35	1 Business manager I (effective September 1, 1953)			4,580	
36	This position supervises the business activities of the institution.				
37	1 Storekeeper I (effective December 1, 1953)			1,981	
38	This position is in charge of receiving and issuing stores and maintaining an inventory and control of stock				
39	on hand.				
40	1 Intermediate stenographer-clerk (effective March 1, 1954)			924	
41	This provision provides clerical assistance to the business office.				
42	Temporary help			1,000	
43	This finances preparation of initial equipment records, installation of equipment, and other temporary help				
44	which may be required in the business office.				
45	1 Supervising cook I (effective February 1, 1954)			1,475	
46	4 Cook (two effective February 15, 1954, and two March 1, 1954)			4,556	
47	4 Kitchen helper (effective March 1, 1954)			3,200	
48	4 Dining room assistant (three effective February 15, 1954, and one March 1, 1954)			3,500	
49	Temporary help			6,000	
50	These positions together with temporary help staff the kitchen, mess halls, and hospital diet kitchen as				
51	required on a post assignment basis. Temporary help is equivalent to the salary costs of 4.5 kitchen helpers				
52	and 3 dining room assistants and is included in the event experience proves that inmate labor cannot be				
53	used in the culinary operations.				
54	1 Head janitor (effective February 15, 1954)			1,265	
55	5 Janitor (effective February 15, 1954)			4,950	
56	These positions provide janitor service on a 7-day per week basis in the hospital and recreation buildings				
57	and on a 5-day per week schedule in the administration and education buildings.				
58	1 Boys' group supervisor (effective February 1, 1954)			1,405	
59	This position will handle clothing and laundry distribution.				
60	1 Head boys' group supervisor (effective February 1, 1954)			1,975	
61	5 Assistant head boys' group supervisor (effective February 15, 1954)			7,673	
62	3 Assistant head girls' group supervisor (effective February 15, 1954)			4,605	
63	2 Senior boys' group supervisor (effective February 15, 1954)			2,790	
64	1 Senior girls' group supervisor (effective February 15, 1954)			1,395	
65	31 Boys' group supervisor (effective February 15, 1954)			39,215	
66	9 Girls' group supervisor (effective February 15, 1954)			11,385	
67	The above custodial positions are required on a post assignment basis to cover a minimum number of custo-				
68	dial posts.				
69	1 Intermediate stenographer-clerk (effective February 1, 1954)			1,155	
70	This position provides clerical coverage in the custodial section.				
71	1 Director of clinical services (effective September 1, 1953)			10,000	
72	1 Senior stenographer-clerk (effective December 1, 1953)			1,876	
73	These positions provide supervision of the clinical diagnosis and treatment activities of the institution to-				
74	gether with necessary clerical assistance.				
75	1 Physician and surgeon II			3,042	
76	0.5 Physician and surgeon II (half time)			1,521	
77

35	1 Electrician (effective March 1, 1954)				1,300
36	Institution firefighter (8 intermittent)				384
37	These positions provide necessary maintenance and fire protection staff.				
38	Temporary help				200
39	This provides assistance in installing the original landscaping.				
40	1 Automotive equipment operator (effective December 1, 1953)				1,876
41	This position will act as institution truck driver and will primarily deliver supplies and laundry.				
42	Positions Now Authorized:				
43	1 Supervisor of clinical psychology (effective March 1, 1954)				2,704
44	1 Senior clinical psychologist (one effective March 1, 1954, and one May 1, 1954)				3,566
45	2 Interns in clinical psychology (effective March 1, 1954)				1,760
46	1 Senior typist-clerk (effective March 1, 1954)				1,240
47	4 Intermediate typist-clerk (two effective March 1, 1954, one May 1, 1954, and one June 30, 1954)				2,602
48	These positions are transferred from the Division of Diagnosis and Classification and provide the psy-				
49	chology professional staff, in addition to the two senior psychiatric social workers, and the clerical case				
50	work section.				—15,000
51	Estimated salary savings				
52	Impossibility to fill positions as budgeted will result in substantial salary savings partially offset by transfers				
53	of positions from other facilities at higher than minimum salary levels as budgeted.				
54	OPERATING EXPENSES: The total of \$56,970 includes the expenses of operating the institution after March 1, 1954 and initial				
55	costs incurred by several key positions established in advance of the institutions' opening. The adequacy of the amount budgeted				
56	for laundry, \$3,500, on a contract basis, will be further reviewed to determine actual requirements.

Department of Corrections—Youth Authority

SOUTHERN CALIFORNIA RECEPTION CENTER AND CLINIC

A reception center for boys received from Southern California. The major purpose of this facility will be to centralize intake and to make diagnostic studies and training recommendations on each case. Intensive medical, dental, psychological, and psychiatric treatment will be given. Approximately 1,650 boys will be processed each year. The new facility will be completed in July, 1954, with a capacity of 250. The ultimate planned capacity is 350.

Located Near Norwalk

1	SUMMARY AND				
2	RECONCILIATION WITH APPROPRIATIONS				
3					
4					
5	SUPPORT				
6	Budget Act appropriation-----	-	-	\$21,767	
7					
8					
9	GENERAL ANALYSIS				
10					
11	Number of positions-----	-	-	6	-
12					
13	This budget includes establishment of certain key positions prior to the opening date of the institution in order to provide time to				
14	prepare the institution for opening, plan operating procedures, and recruiting.				
15					
16	SALARIES AND WAGES: The total of \$18,097 includes the following proposed new positions:				
17	1 Superintendent (effective January 1, 1954)-----			\$4,692	
18	1 Senior stenographer-clerk (effective January 1, 1954)-----			1,608	
19	These positions provide over-all administrative supervision and planning for the institution and necessary				
20	clerical assistance.				
21	1 Business manager I (effective January 1, 1954)-----			2,748	
22	This position will provide supervision of the business affairs of the institution.				
23	Temporary help-----			1,000	
24	This amount finances temporary help as required for installation of equipment, establishing initial equip-				
25	ment records, and other duties in the business office.				
26	1 Director of clinical services (effective January 1, 1954)-----			6,000	
27	1 Senior stenographer-clerk (effective April 1, 1954)-----			804	
28	These positions provide supervision of the clinical staff and necessary clerical assistance.				
29	1 Chief of institution maintenance I (effective April 1, 1954)-----			1,245	
30	This position provides supervision of the maintenance staff and will also perform some maintenance work.				
31					
32	OPERATING EXPENSES: The total of \$3,670 is entirely due to the costs incurred by the positions established				
33	in advance of opening.

Department of Corrections—Youth Authority

FORESTRY CAMPS FOR BOYS

These are correctional facilities for boys in the 17 to 21 age group. On-the-job training in fire prevention and suppression, and other work are carried on under the direction of the Division of Forestry. The Youth Authority also carries on a program of education, recreation, and religious training.

The Whitmore Camp was closed permanently in January, 1952. An additional spike camp was opened at Blaisingame and is operated out of Coarsegold.

Pine Grove Camp is located 10 miles north of Jackson, Amador County.  
Ben Lomond Camp is located 10 miles northeast of Santa Cruz, Santa Cruz County.  
Whitmore Camp was located 38 miles east of Redding, Shasta County.  
Coarsegold Camp is located 35 miles east of Fresno, Fresno County.

LINE	EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54	CHANGE FROM 1952-53
1	SUMMARY				
2	General Fund				
3	SUPPORT				
4	Camp Supervision -----	\$7,605	\$8,983	\$8,331	—\$652
5	Pine Grove -----	146,033	178,356	166,372	—11,984
6	Whitmore -----	66,394	—	—	—
7	Coarsegold -----	201,259	254,237	256,208	1,971
8	Ben Lomond -----	110,854	127,666	130,172	2,506
9	Totals, Camp Operations -----	\$532,145	\$569,242	\$561,083	—\$8,159
10	Payments from Division of Forestry -----	—532,145	—569,242	—561,083	8,159
11	NET TOTAL EXPENDITURES FOR SUPPORT -----	—	—	—	—

12	RECONCILIATION WITH APPROPRIATIONS				
13	General Fund				
14	SUPPORT				
15	Budget Act appropriation (advance from Division of Forestry) a	\$80,000	\$80,000	\$100,000	
16	Return of advance from Division of Forestry -----	—80,000	—80,000	—100,000	
17	NET TOTAL EXPENDITURES -----	—	—	—	

18	GENERAL ANALYSIS				
19	Number of positions -----	73.9	65.8	65.8	—
20	POPULATION AND UNIT COSTS				
21	Average Inmate Population:				
22	Pine Grove Camp -----	77	100	90	—10
23	Whitmore Camp -----	50	—	—	—
24	Coarsegold Camp -----	92	131	125	—6
25	Ben Lomond Camp -----	61	69	70	1
26	TOTALS, ALL CAMPS -----	280	300	285	—15
27	Average Cost per Inmate (Excluding Inmate Pay) -----	\$1,777	\$1,754	\$1,826	(5%) \$72 (4.1%)

The decrease in expenditures is due to returning to the normal population level of 285 in the budget year after a temporary increase in the budget year to relieve the county jails.

SALARIES AND WAGES: The increase of \$3,993 is partly due to the following:

Proposed New Positions (four spike camps):

Senior boys' group supervisor (replacing four boys' group supervisors) ----- \$816

These replacements are to provide better supervision and establish responsibility in each of the spike camps.

OPERATING EXPENSES: Decrease of \$8,400 is due to the decrease in population.

EQUIPMENT: The total of \$10,833 represents a decrease of \$1,612 from the current year. Major items include replacement of a refrigerator, \$2,000, at Pine Grove; replacement of an automobile, \$1,050, at Coarsegold; and replacement of feeding and house-keeping equipment, \$3,235.

INMATE PAY-WORK PROJECTS: The total of \$42,895 represents a decrease of \$2,140 from the current year. This decrease is due to the population decrease.

13	Unexpended balance, estimated savings-----	-1,100 <sup>a</sup>	-29 <sup>b</sup>	-	
14					
15	<b>TOTAL EXPENDITURES FOR SUPPORT</b> -----	<b>\$263,121</b>	<b>\$303,821</b>	<b>\$327,052</b>	<b>\$23,231</b>
16					<b>(7.6%)</b>

## GENERAL ANALYSIS

21	Number of positions-----	46	52.3	56.3	4
22					
23	<b>POPULATION AND UNIT COSTS</b>				
24	Average pupil population-----	140	140	140	-
25	Average cost per pupil-----	1,870	2,170	2,336	166
26					<b>(7.6%)</b>

In general the increase in per capita costs is due to occupancy of new facilities and additional positions.

**SALARIES AND WAGES:** The increase of \$22,021 is largely due to the following:

## Proposed New Positions:

31	1 Boys' group supervisor-----	\$3,456
32	This position is to provide for transportation of wards, emergency trips, and to provide necessary relief	
33	on a post assignment basis.	
34	Senior boys' group supervisors (replacing three boys' group supervisors)-----	612
35	These replacements are to provide better supervision and establish responsibility in each cottage.	
36	0.5 Senior clinical psychologist (increase to full time)-----	3,117
37	1 Placement officer II-----	4,512
38	1 Intermediate stenographer-clerk-----	2,844
39	These positions, together with a half-time senior clinical psychologist being transferred from the Div-	
40	ision of Diagnosis and Classification, form a classification and counseling unit which will provide	
41	professional guidance on an individual ward basis.	

## Positions Now Authorized:

43	0.5 Senior clinical psychologist-----	3,118
44	This position is being transferred from the Division of Diagnosis and Classification, Departmental Ad-	
45	ministration, as part of the classification and counseling unit.	

**OPERATING EXPENSES:** Increase of \$1,380 is due to price changes and the occupancy of additional buildings.

**EQUIPMENT:** The total of \$4,753 represents an increase of \$1,630 over the current year. The only major item included is the replacement of a truck, \$2,300.

16	Cost per pupil-----	\$2,294	\$2,456	\$2,540	\$84
17					<b>(3.3%)</b>

18	<b>SALARIES AND WAGES: The increase of \$16,232 results primarily from the following:</b>				
19	Proposed New Positions:				
20	1 Senior typist-clerk-----				\$3,138
21	This position will provide a personnel clerk, thus relieving the superintendent's secretary of these duties, and allowing time for typing discipline reports, minutes, and other material as recommended by the Board of Corrections and will also provide some vacation relief.				
22	Senior boys' group supervisors (replacing 10 boys' group supervisors)-----				2,040
23	These replacements are to provide better supervision and establish responsibility in each cottage.				
24	1 Placement officer II-----				4,512
25	0.5 Placement officer II (increase to full time)-----				2,256
26	1 Intermediate stenographer-clerk-----				2,844
27	These positions, together with existing positions and positions being transferred from the Bureau of Paroles, form a classification and counseling unit which will provide professional guidance on an individual ward basis.				
28	Positions Now Authorized:				
29	0.5 Placement officer II (half time)-----				2,256
30	0.5 Intermediate stenographer-clerk (half time)-----				1,679
31	These positions are being transferred from the Bureau of Paroles, Departmental Administration, as part of the proposed classification and counseling unit.				
32	Positions To Be Abolished:				
33	2 Telephone operators-----				—6,432
34	These positions are being abolished effective March 31, 1953 as a new automatic switchboard is being installed. The remaining two positions will provide 12-hour per day coverage.				

OPERATING EXPENSES: The increase of \$3,420 is primarily due to installation of automatic switchboard.

EQUIPMENT: The total of \$17,728 represents an increase of \$4,414. Major items include cottage furniture, \$1,950; motion picture amplifier, \$2,800; fuel oil pumps, \$1,250; motor vehicle equipment, \$1,775, and an additional draft gauge and oil meter, \$1,000.

## Department of Corrections—Youth Authority

## PASO ROBLES SCHOOL FOR BOYS

correctional school for boys in the 14 to 16 age group. The program is primarily prevocational and academic education. Limited agricultural instruction is also given. The new permanent facilities with 375 capacity will be completed in October, 1953.

Located near Paso Robles, San Luis Obispo County.

LINE	EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54	CHANGE FROM 1952-53
1	<b>SUMMARY AND RECONCILIATION WITH APPROPRIATIONS</b>				
2	<b>General Fund</b>				
3	<b>SUPPORT</b>				
4	Budget Act appropriation	\$281,573	\$307,114	\$509,057	
5	Allocations from Salary Increase Fund	20,618	14,308	-	
6	Allocations from Price Increase Fund	6,885	-	-	
7	Allocations from Emergency Fund	-	2,945	-	
8	Total Available	\$309,076	\$324,367	\$509,057	
9	Unexpended balance, estimated savings	-2,895 <sup>a</sup>	-45 <sup>b</sup>	-	
10	<b>TOTAL EXPENDITURES FOR SUPPORT</b>	<b>\$306,181</b>	<b>\$324,322</b>	<b>\$509,057</b>	<b>\$184,735</b> (57%)
11	<b>GENERAL ANALYSIS</b>				
12	Number of positions	54	55	112.3	57.3
13	<b>POPULATION AND UNIT COSTS</b>				
14	Average pupil population	137	135	210	75 (55.6%)
15	Cost per pupil	\$2,247	\$2,402	\$2,424	\$22 (0.9%)
16	The increase in per capita cost is due to proposed new positions and operation of the expanded plant. In the subsequent fiscal year the per capita cost should decrease as the full population of 335 will be maintained for a complete fiscal year.				
17	<b>SALARIES AND WAGES: The increase of \$121,942 is primarily due to staff for the new expanded school and includes the following:</b>				
18	<b>Proposed New Positions:</b>				
19	Assistant superintendent (replacing supervisor of academic instruction—effective October 1, 1953)				\$234
20	This position is to strengthen top level supervision with particular emphasis on the educational, counseling, and in-service training programs.				
21	1 Senior account clerk				3,138
22	This position will act as property clerk and will also assist on inmate trust accounts and other accounting work.				
23	1 Intermediate stenographer-clerk (effective October 1, 1953)				2,115
24	This position will provide clerical assistance to the business manager and storekeeper who are located in the commissary building.				
25	2 Intermediate typist-clerk (effective November 1, 1953)				3,564
26	These positions establish 11-hour per day telephone switchboard and receptionist coverage and will do miscellaneous typing as time permits.				
27	1 Supervising cook II (effective November 1, 1953)				2,728
28	1 Cook (effective November 1, 1953)				2,170
29	3 Dining room assistant (effective November 1, 1953)				4,860
30	1 Baker (effective November 1, 1953)				2,170
31	These positions, together with existing positions, will provide the following coverage:				
32	Supervising cook II—Eight hours per day, seven days per week.				
33	Kitchen—One cook on two shifts per day, seven days per week.				
34	Wards' and employees' dining room and scullery—12 hours per day, seven days per week.				
35	Baker—Five days per week.				
36	Meat cutting will also be done by the cooks.				
37	1 Seamstress (effective January 1, 1954)				1,608
38	1 Shoemaker (effective January 1, 1954)				1,950
39	These positions will provide shoe and clothing repairs and vocational training and some manufacture of clothing.				
40	- Janitor (replacing one housemother—effective November 1, 1953)				251
41	To provide janitor service in the school principal's office, library and workshop, and 12 classrooms.				
42	1 Laundry supervisor (effective November 1, 1953)				2,632
43	This position will supervise the operation of the new laundry.				
44	2 Assistant head boys' group supervisors (effective November 1, 1953)				5,264
45	Together with existing positions, these positions will provide 24-hour, seven day per week supervisory coverage.				
46	4 Senior boys' group supervisors (one effective July 1, 1953, one November 1, 1953, one April 1, 1954, and one June 1, 1954)				7,560
47	Senior boys' group supervisor (replacing three boys' group supervisors)				612
48	21 Boys' group supervisors (10 effective November 1, 1953, five April 1, 1954, and six June 1, 1954)				28,662
49	Together with existing positions to provide around-the-clock coverage at six new cottages, the segregation unit, and the receiving unit, with the senior positions providing an additional post to provide supervision and responsibility in each cottage and the detention unit.				
50	1 Barber (effective January 1, 1954)				1,458
51	This position is to provide barbering services for the increased population.				
52	0.7 Physician and surgeon II (increase to full time—effective November 1, 1953)				3,787
53	0.2 Senior dentist (increase to half time—effective November 1, 1953, expires June 30, 1954)				785
54	These positions will provide necessary medical and dental services for the increased population.				
55	1 Surgical nurse (effective October 1, 1953)				2,700
56	<sup>a</sup> Composed of savings in salaries and wages, \$1,138; operating expenses, \$1,093; equipment, \$2,132; and a loss in reimbursements, \$1,468.				
57	<sup>b</sup> Composed of savings in salaries and wages, \$45.

LINE	EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54	CHANGE FROM 1952-53
1					
2	SALARIES AND WAGES—Continued				
3	2 Graduate nurse (effective November 1, 1953)				\$4,552
4	Together with an existing position, these positions will provide 16-hour, seven-day per week graduate nurse coverage. The surgical nurse will assist in surgery and supervise the other nurses.				
5	4 Youth Authority teachers (one effective December 1, 1953, one March 1, 1954, one April 1, 1954, and one June 1, 1954)				5,640
6	1 Instructor in general shop (effective October 1, 1953)				3,384
7	1 Music teacher (effective November 1, 1953)				1,860
8	These positions, together with existing positions, will provide classroom instruction on a ratio of full time equivalent students to teachers of 15 to 1.				
9	1 Librarian (effective November 1, 1953)				2,066
10	This position will supervise the new library.				
11	0.7 Chaplain—Catholic (increase to full time—effective November 1, 1953)				2,213
12	0.7 Chaplain—Protestant (increase to full time—effective November 1, 1953)				2,089
13	These positions will provide full time chaplain service for the increased population.				
14	1 Intermediate stenographer-clerk (effective November 1, 1953)				1,872
15	To provide stenographic service for the school.				
16	0.1 Motion picture operator (overtime)				280
17	Required to operate the motion picture projector for inmate movies.				
18	1 Senior clinical psychologist				5,496
19	0.5 Placement officer II (increase to full time)				2,748
20	0.5 Intermediate stenographer-clerk (increase to full time)				1,686
21	Together with positions being transferred from Departmental Administration, these positions form the classification and counseling unit, which will provide professional guidance on an individual ward basis.				
22	1 Electrician (effective November 1, 1953)				3,282
23	1 Automobile mechanic (effective November 1, 1953)				2,634
24	1 Painter (effective April 1, 1954)				975
25	These positions provide necessary additional staff to maintain the expanded facilities and the automotive equipment.				
26	1 Stationary engineer (effective October 1, 1953)				2,973
27	2 Stationary firemen (effective October 1, 1953)				5,142
28	These positions provide 16-hour per day, seven day per week coverage on new high pressure boilers.				
29	Positions Now Authorized:				
30	0.5 Placement officer II (half time)				2,748
31	0.5 Intermediate stenographer-clerk (half time)				1,686
32	These positions are being transferred from the Bureau of Paroles, Departmental Administration, and with the proposed new positions form the classification and counseling unit.				

OPERATING EXPENSES: The increase of \$63,870 is due to increased population and expanded facilities.

EQUIPMENT: The total of \$9,560 represents an increase of \$3,473 over the current year. Major items include an additional truck \$1,525; a used bus, \$1,250; and band instruments, \$4,015, to organize a 35-boy school band.

## Department of Corrections—Youth Authority

## PRESTON SCHOOL OF INDUSTRY

A correctional school for boys in the 15 to 21 age group. The training program consists of classroom instruction, shop classes and apprenticeship training in more than 25 trades and occupations.

Located Near Ione, Amador County

LINE	EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54	CHANGE FROM 1952-53
1	<b>SUMMARY AND</b>				
2	<b>RECONCILIATION WITH APPROPRIATIONS</b>				
3	<b>General Fund</b>				
4	<b>SUPPORT</b>				
5	Budget Act appropriation-----	\$1,241,908	\$1,382,443	\$1,477,910	
6	Allocations from Salary Increase Fund-----	100,880	65,040	—	
7	Allocations from Price Increase Fund-----	25,380	—	—	
8	Allocations from Emergency Fund-----	15,479	15,600	—	
9	Transferred from another institution-----	5,600	—	—	
10	Total Available-----	\$1,389,247	\$1,463,083	\$1,477,910	
11	Unexpended balance, estimated savings-----	—1,552 <sup>a</sup>	—2,146 <sup>b</sup>	—	
12	TOTAL EXPENDITURES FOR SUPPORT-----	\$1,387,695	\$1,460,937	\$1,477,910	\$16,973 (1.2%)
13	<b>OTHER CURRENT EXPENSES</b>				
14	Replacement of Fire Loss—Laundry:				
15	Allocations from Emergency Fund-----	—	\$1,700	—	—\$1,700
16	TOTAL EXPENDITURES-----	\$1,387,695	\$1,462,637	\$1,477,910	\$15,273 (1%)
17	<b>GENERAL ANALYSIS</b>				
18	Number of positions-----	257.9	258.5	262.5	4
19	<b>POPULATION AND UNIT COSTS</b>				
20	Average Pupil Population:				
21	At school-----	525	525	556	
22	At diagnostic clinic <sup>c</sup> -----	125	125	94	
23	Total-----	650	650	650	
24	Average institutional cost per pupil <sup>d</sup> -----	\$2,134	\$2,248	\$2,274	\$26 (1.2%)
25	<b>SALARIES AND WAGES: The increase of \$20,698 is largely due to the following:</b>				
26	Proposed New Positions:				
27	1 Painter-----				\$3,996
28	1 Building maintenance man-----				3,294
29	These positions are required to properly maintain buildings and equipment added in recent years and to help keep maintenance on a current basis.				
30	Senior boys' group supervisor (replacing 15 boys' group supervisors)-----				3,060
31	These replacements are to provide better supervision and establish responsibility in each dormitory.				
32	Positions Now Authorized:				
33	1 Placement officer II-----				5,452
34	1 Intermediate stenographer-clerk-----				3,372
35	These positions are transferred from the Bureau of Paroles, Departmental Administration and together with positions already established at the institution form the classification and counseling unit.				
36	<b>OPERATING EXPENSES: The increase of \$9,045 is primarily due to increased farm activities and increased maintenance of structures.</b>				
37	<b>EQUIPMENT: The total of \$31,665 represents a decrease of \$1,945 from the current year. Major items include a replacement carry-all, \$1,700; a replacement truck, \$3,850; replacement laundry equipment, \$6,620; replacement poultry, \$1,100; and replacement cattle, \$4,000.</b>

## Department of Corrections—Youth Authority

## LOS GUILUCOS SCHOOL FOR GIRLS

A correctional school for girls in the 8 to 15 age group. The program consists of academic training, domestic arts, and a rounded recreation program. The new permanent facilities are scheduled for completion in October, 1953.

Located near Santa Rosa, Sonoma County

LINE	EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54	CHANGE FROM 1952-53
1	<b>SUMMARY AND RECONCILIATION WITH APPROPRIATIONS</b>				
2					
3					
4					
5	General Fund				
6	SUPPORT				
7	Budget Act appropriation	\$286,604	\$430,121	\$543,208	
8	Transferred from Budget Act Appropriation to other institutions	—18,600			
9	Allocations from Salary Increase Fund	20,358	19,067		
10	Allocations from Price Increase Fund	8,002			
11	Total Available	\$296,364	\$449,188	\$543,208	
12	Unexpended Balance, estimated savings	—12,739 a	—34,851 b		
13	TOTAL EXPENDITURES FOR SUPPORT	\$283,625	\$414,337	\$543,208	\$128,871 (31.1%)
14					
15					
16					
17					
18	<b>GENERAL ANALYSIS</b>				
19					
20					
21	Number of positions	52.9	72.6	104.3	31.7
22					
23	POPULATION AND UNIT COSTS				
24	Average pupil population	116	155	199	44 (28.4%)
25					\$57 (2.1%)
26	Average cost per pupil	\$2,396	\$2,673	\$2,730	
27					
28	The increase in per capita cost is due to the expanded plant and new positions. In the subsequent fiscal year per capita costs should				
29	decrease because the maximum population (240) will be maintained for the entire year.				
30					
31	SALARIES AND WAGES: The increase of \$97,582 is primarily due to the following:				
32	Proposed New Positions:				
33	1 Assistant superintendent (replacing supervisor of academic instruction—effective September 1, 1953)				\$260
34	This position is to strengthen top level supervision with particular emphasis on the educational, counsel-				
35	ing, and in-service training programs.				
36	1 Accounting officer I (effective January 1, 1954)				2,046
37	1 Senior account clerk (effective January 1, 1954)				1,608
38	1 Intermediate account clerk (effective January 1, 1954)				1,320
39	1 Bookkeeper machine operator (effective January 1, 1954)				1,386
40	These positions are to establish an accounting office at the institution rather than in Departmental				
41	Administration as at present.				
42	1 Senior typist-clerk				3,138
43	This position will provide a personnel clerk and will also do miscellaneous typing as time permits.				
44	1 Intermediate typist-clerk				2,706
45	This position will provide necessary switchboard and information desk relief and vacation relief for the				
46	stenographers.				
47	1 Supervising cook I				3,630
48	1 Dining room assistant				2,460
49	0.1 Butcher-meat cutter I (part time)				485
50	These positions are to provide necessary culinary relief on a post assignment basis and to provide meat				
51	cutting service.				
52	1 Housekeeper				2,706
53	In addition to the existing position this will provide seven-day per week coverage in the administration				
54	building and hospital and five-day coverage in the school.				
55	3 Assistant head girls' group supervisors (one effective July 1, 1953, and two effective October 1, 1953)				9,942
56	These positions are to provide 24-hour coverage, seven days per week.				
57	Senior girls' group supervisor (replacing five girls' group supervisors)				1,020
58	These replacements are to provide better supervision and establish responsibility in each cottage and the				
59	restricted unit.				
60	2 Senior girls' group supervisors (one effective December 1, 1953, and one January 1, 1954)				4,045
61	8 Girls' group supervisors (two effective December 1, 1953, and six effective January 1, 1954)				14,078
62	Together with existing positions, these positions will staff five new cottages, a restricted unit, and one old				
63	dormitory on a 24-hour basis and the admissions unit on a two-shift per day basis. One shift double coverage,				
64	provided by senior girls' group supervisors, is provided the five new cottages and the restricted unit.				
65	1 Youth Authority teacher (effective January 1, 1954)				2,148
66	1 Music teacher (effective January 1, 1954)				2,148
67	These positions, together with existing positions, will provide classroom instruction on a ratio of full				
68	time equivalent students to teachers of 15 to 1.				
69	0.3 Chaplain—Catholic (increase to half time)				1,755
70	0.3 Chaplain—Protestant (increase to half time)				1,755
71	These positions provide chaplain service for the increased population.				
72	1 Chief engineer I				4,296
73	This position is to supervise the increased maintenance program brought about by the expanded facilities				
74	1 Plumber				3,996
75	This position will operate the new sewage disposal plant and the expanded water system.				

a Composed of savings in salaries and wages, \$3,778; operating expenses, \$9,707; equipment, \$614; and a loss in reimbursements, \$1,360.

b Composed of savings in salaries and wages, \$19,323; and operating expenses, \$15,528.

3					
4	<b>SALARIES AND WAGES—Continued</b>				
5	Positions Now Authorized:				
6	1 Senior clinical psychologist (transferred from Division of Diagnosis and Classification)-----				\$6,672
7	1 Placement officer II (transferred from Bureau of Paroles)-----				5,386
8	1 Intermediate stenographer-clerk (transferred from Division of Diagnosis and Classification)-----				3,099
9	These positions form the classification and counseling unit which will provide professional guidance on an individual ward basis.				
10					
11					
12	OPERATING EXPENSES: The increase of \$32,625 is due to expanded plant and increased population.				
13					
14	EQUIPMENT: The total of \$8,735 represents a decrease of \$176 from the current year. The only major item is a used bus, \$1,250.

## VENTURA SCHOOL FOR GIRLS

A correctional school for girls in the 15 to 21 age group. The program centers around the homemaking skills, commercial training and academic instruction. The recreation program consists of sports, dancing, music and reading.

Located near Ventura

LINE	EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54	CHANGE FROM 1952-53
1	<b>SUMMARY AND</b>				
2	<b>RECONCILIATION WITH APPROPRIATIONS</b>				
3	<b>General Fund</b>				
4	<b>SUPPORT</b>				
5	Budget Act appropriation-----	\$452,092	\$508,752	\$545,148	
6	Transferred from another institution-----	11,500	—	—	
7	Allocations from Salary Increase Fund-----	36,804	24,150	—	
8	Allocations from Emergency Fund-----	74	—	—	
9	Allocations from Price Increase Fund-----	6,578	—	—	
10	Total Available-----	\$507,048	\$532,902	\$545,148	
11	Unexpended balance, estimated savings-----	—\$4,499 <sup>a</sup>	—\$4,274 <sup>b</sup>	—	
12	<b>TOTAL EXPENDITURES FOR SUPPORT</b> -----	<b>\$502,549</b>	<b>\$528,628</b>	<b>\$545,148</b>	<b>\$16,520</b> <b>(3.1%)</b>

13	<b>GENERAL ANALYSIS</b>				
14	<i>Number of positions</i> -----	97.3	95.5	97	1.5
15	<b>POPULATION AND UNIT COSTS</b>				
16	Average pupil population-----	179	180	180	—
17	Cost per pupil-----	\$2,855	\$2,937	\$3,029	\$92 (3.1%)

18	<b>SALARIES AND WAGES: The increase of \$12,101 is primarily accounted for by:</b>				
19	<b>Proposed New Positions:</b>				
20	Senior girls' group supervisors (replacing seven girls' group supervisors)-----				\$1,428
21	These replacements are to provide better supervision and establish responsibility in each cottage.				
22	Placement officer II (replacing junior psychiatric social worker)-----				\$532
23	To revise the position to a class more in accord with the duties of the proposed classification and counseling unit.				
24	Temporary help (transportation)-----				\$200
25	For transportation of wards to public transportation facilities who are being paroled and emergency trips to town.				
26	<b>Positions Now Authorized:</b>				
27	Senior clinical psychologist-----				\$5,496
28	Intermediate stenographer-clerk-----				2,844
29	These two positions are being transferred from the Division of Diagnosis and Classification, Departmental Administration, and will, together with the placement officer, form the classification and counseling unit to provide professional guidance on an individual ward basis.				

OPERATING EXPENSES: The increase of \$1,700 is primarily due to the cost of repairing inmate cottage furniture.

EQUIPMENT: The total of \$10,235 represents an increase of \$2,719. Major items include an additional used bus, \$1,250; replacement of household furniture, \$1,375; and replacement of a truck, \$1,250.

## DEPARTMENT OF EDUCATION

## General Activities

Performs administrative, supervisory, and advisory functions for the Public School System under the general direction of the State Board of Education. Also responsible for the administration of 10 state colleges, eight special schools for physically handicapped children, three workshops for the blind, and the state-federal program of vocational rehabilitation. These activities are carried on through the Division of Departmental Administration, School Administration, Instruction, State Colleges and Teachers Education, Special Schools and Services, and Library.

## GENERAL ANALYSIS

Number of positions-----	337.3	367.7	387.6	19.9
--------------------------	-------	-------	-------	------

The budget proposal reflects a growth in the Department of Education parallel to the growth of the Public School System and the State as a whole. Budgeted increases are mainly based on work load. In the Division of Public School Administration, the Bureau of School Accounts and Records and the School Lunch Program will require additional personnel to perform their functions effectively during the budget year. Particular attention is directed to strengthening the consultant and advisory services of the Division of Instruction. Addition of a personnel technician to the Division of State Colleges and Teachers Education is expected to lead to more uniformity in handling personnel matters in the state colleges, while new regulations in regard to issuance of child care permits require additional personnel in the Credentials Office. Completion of the three-year expansion of the Field Rehabilitation Services for the Blind is anticipated in this budget.

Provision for continuance of the Child Care Program is made, with the transfer of the apportionment function to the Bureau of School Accounts and Records and the dropping of the auditing of school districts.

a Composed of savings in salaries and wages, \$56,293; operating expenses, \$143,680; equipment, \$2,758; and loss of reimbursements, \$10,363.

b Nonscheduled appropriations. No reversion by categories.

30	Totals, Administrative Services, School Lunch Program .....				\$90,668	\$106,428	\$114,144
31	Administrative Services—School Accounts and Records						
32	Apportions the State School Fund, verifies reports of school districts and analyzes financial data for departmental and public school use.						
33	Analysis						
34	Complexity of changing apportionment laws and new legislation, both State and Federal, have placed such work load burdens on this						
35	bureau that it was found necessary to add three positions during the current year: a field representative, a senior account clerk,						
36	and an intermediate stenographer-clerk. Temporary help was also added, which the unit proposes to displace with one position of						
37	intermediate account clerk. With work load continuing, all current positions are included in the budget year, and, in addition, one						
38	senior typist-clerk is proposed, to complete proper staffing.

34							
35	<b>Administrative Unit</b>						
36							
37	Includes the office of the Associate Superintendent of Public Instruction responsible for state consultative and advisory services pro-						
38	vided to public schools in the field of instruction.						
39							
40	<b>Analysis</b>						
41							
42	The increase in expense for this unit is, in major part, attributable to the proposed publication of a bulletin on minimum standards						
43	for courses of study in grades 7-8, and other printing costs. Completion of the adult education survey has the effect of partially						
44	offsetting the increases due to the expanded printing program.

		51-52 (Filled)	52-53 (Auth.)	53-54 (Auth.)			
1							
2	<b>DIVISION OF STATE COLLEGES AND</b>						
3	<b>TEACHER EDUCATION—Continued</b>						
4							
5	<b>Credentials</b>						
6							
7	Evaluates transcripts and issues teacher credentials for certificated employees of the Public School System.						
8							
9	<b>Analysis</b>						
10							
11	Changes in requirements for child care permits and emergency credentials increase work load to such an extent as to require an additional assistant technician. An intermediate stenographer-clerk is proposed, for a two-year term, to assist in processing fingerprint records. During 1952-53, one field representative, with clerical assistance, was added to aid with the greatly increased investigative functions of this program.

65							
66							
67	<b>DIVISION OF SPECIAL SCHOOLS AND SERVICES</b>						
68							
69	<b>Administrative Unit</b>						
70							
71	Provides administrative control over the state special schools for the deaf, blind, and cerebral palsied children and blind adults; coordinates the operations of the three workshops for the adult blind; and administers the State-Federal Program for Vocational Rehabilitation.						
72							
73							
74							
75	<b>Analysis</b>						
76							
77	Activation of the new School for the Deaf at Riverside accounts partially for the increased expenditures of this unit. The expense of a more vigorous sales campaign for the products of the Workshops for the Blind is offset by increased reimbursements from the workshops.						
78							
79

## SUPERVISION OF CHILD CARE CENTER PROGRAM

Includes state-level supervision and advisory services on Child Care Centers.

## Analysis

Transfer of the apportionment function to school accounts and records and savings in rent because of moving the unit to Sacramento result in decreased costs of this unit. Additional savings are realized by discontinuance of the audit program.

## Department of Education

## VOCATIONAL EDUCATION

The state program for vocational education is based upon a cooperative plan between the Federal Government and the State Department of Education. Acceptance of the federal vocational education acts requires certain matching amounts of state or local funds to augment federal grants-in-aid in this field. These funds are expended for state level supervision and teacher training, with any remaining balances distributed to 300 public secondary schools as partial reimbursement for their participation in the program. The program is administered through the Bureaus of Agricultural Education, Business and Distributive Education, Guidance, Homemaking Education, and Industrial Education, under the Division of Instruction in the Department of Education.

<sup>a</sup> Does not include reimbursements to school districts maintaining approved vocational instruction. See Local Assistance Budget.

<sup>b</sup> Neither federal aid revenues, nor the expenditures therefrom, are included in the over-all budget totals.

<sup>c</sup> These state appropriations, together with all federal grants, are deposited in the Vocational Education Fund, from which expenditures are made.

## Department of Education

## VOCATIONAL EDUCATION—Continued

LINE	EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54	CHANGE FROM 1952-53
1	<b>GENERAL ANALYSIS</b>				
2					
3					
4	Number of positions-----	89.4	86	83	3
5					
6	Increase in federal grants of \$202,096 in the current year will permit higher payments to local school districts in support of vocational classes, and provide a slight expansion in peace officers training to meet growing demand. As no change is anticipated in the remainder of the program, a slight reduction in State General Fund support will be possible by shifting certain expenditures to the increased federal grant. Specialized activity in agricultural on-farm training and apprenticeship training will continue to be curtailed to conform to decreasing veteran enrollment and completion of original instructional manuals for apprentices in the major trades.				
7					
8					
9					
10					
11					
12					
13	SUPPORT EXPENDITURES DETAIL	NO. OF POSITIONS			
14		51-52 (Filled)	52-53 (Auth.)	53-54 (Auth.)	
15		ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54	
16					
17					
18	<b>SUPERVISION AND TEACHER TRAINING</b>				
19					
20	Provides state-level supervision of vocational education programs in the public schools. Adequate supervision of vocational courses, as well as teacher training programs, are required under the federal acts. Fifty percent of the costs of this state-level program are normally met from federal funds.				
21					
22					
23					
24	Analysis				
25					
26	Curtailement of specialized activities in agricultural and industrial education will permit a net decrease of \$6,864, or 1 percent over 1952-53 in this function. Increased federal grants of \$202,096 will permit a slight expansion of one traveling instructor for peace officers training, and provide sufficient funds to purchase teacher-training equipment for this program (formerly purchased from funds provided in Department of Education General Activities budget).				
27					
28					
29					
30	A reduction of \$9,121 in the General Fund appropriation for this function is also made possible by increased federal grants, as rental charges heretofore carried entirely by the General Fund will now be absorbed within the federal funds.				
31

## Department of Education

## VOCATIONAL REHABILITATION

The Bureau of Vocational Rehabilitation assists disabled persons to qualify for remunerative employment through a comprehensive program of counseling, physical restoration, psychiatric adjustment, vocational training, and other services.

34	<b>GENERAL ANALYSIS</b>				
35	Number of positions	177.7	173	194	21
36	From 1921 until 1943, state participation in the Vocational Rehabilitation program was on a dollar for dollar matching basis with federal appropriations. From 1943 to 1950, the State provided \$30 for every \$70 of federal funds. Since 1950, however, federal policy has shifted to require greater state support of the program, which in California may result in approximately 50 percent state support.				
37	As federal grants tend to carry a smaller portion of these costs, and state appropriations increase, the Bureau of Vocational Rehabilitation is shifting its basic services from the old policy of "take them as they come" to a new basis of case acceptance which creates priorities for those cases most clearly in need, most clearly representing an economic liability to the State, to the industrially injured, and to persons with dependents. Continuing this new policy, the 1953-54 Budget reflects a strengthening to allow a start for more adequate coverage in the following areas of operation:				
38	1. Cases referred from Aid to Needy Children rolls				
39	2. Cases referred by the Industrial Accident Commission				
40	3. Specialized assistance offered blinded persons				
41	4. Other cases on public assistance or relief, or persons who would be reduced to this category if not aided by vocational rehabilitation				
42	5. Person with dependents.				
43	In addition to these areas, a few specialized pilot studies and reimbursed services will be continued, principally with referrals from mental hospitals.				
44	To meet known work loads in the above areas, it will be necessary to restore the reductions in working staff made in 1951-52, and provide additional funds for medical care, training, and other purchased services, at an additional cost to the General Fund during 1953-54 of \$231,403, as follows:				
45	<b>ADMINISTRATION:</b> Includes administrative staff of central office and proportionate administrative costs of all district offices. An increase over 1952-53 of \$11,440 results mainly from addition of one associate statistician and necessary clerical assistance to establish and maintain significant and reliable cost and performance data to measure the value of specific rehabilitation areas to the State.				
46	<sup>a</sup> Federal aid receipts and the expenditures therefrom are not included in the over-all budget totals.				
47	<sup>b</sup> Expenditures for Administration of Vending Stands for the Blind are contained in the regular support appropriation for vocational rehabilitation in 1953-54.				
48	<sup>c</sup> Composed of savings in salaries and wages, \$3,448; operating expenses, \$59,306; equipment, \$546; and excess reimbursements, \$61.				
49	<sup>d</sup> Nonscheduled appropriations. No reversion by categories.

## Department of Education

## DIVISION OF LIBRARIES

Provides library facilities for state legislators, employees and agencies. Maintains state-wide library services for the blind, including loans of talking book machines. Assists in establishing public libraries in those parts of the State without such service. Lends books not available locally and does reference work requiring materials not in smaller libraries. Collects library statistics, acts as a clearing house for library information and supervises, inspects, and advises county libraries.

17	<b>GENERAL ANALYSIS</b>				
18	Number of positions -----	87.3	93	100	7
19	The State Library's field services to county free libraries to make optimum use of existing local financing, and to provide services in areas not now served by libraries, will continue to be emphasized in the budget year. To facilitate the discharge of these and other library functions in a most efficient and economical manner, modernization of the existing internal organization of the library will also be initiated. The additional staff and accompanying expenses necessary to augment these projects will result in an increase of \$36,387, or 7.8 percent over 1952-53 as follows:				
20	<b>SALARIES AND WAGES:</b> An increase of \$36,538, or 10.4 percent results from the addition of three professional librarians, five clerical positions, and three positions of temporary clerical help in the 1953-1954 Fiscal Year.				
21	One field representative and one intermediate stenographer-clerk are provided to intensify the program of rehabilitating and strengthening the county free library system. A principal librarian is required to provide an essential level of supervision which will permit needed reorganization along functional lines and assure a more workable span of control. A senior librarian and an intermediate file clerk are requested on a permanent basis, and three temporary clerical positions are proposed for one year only, to rehabilitate the Union Catalog, which is essential to the continuation of the Inter-Library Loan Service. Two intermediate clerks are also needed on a work load basis, one for the loan desk, the other to meet the sharp increase in circulation and borrowers in the books for the blind section. A storekeeper I is also added to handle the shipping load of blind books and record players.				
22	<b>OPERATING EXPENSES:</b> An increase of \$1,368 is mainly attributable to intensified activities of the library planned in the budget year. A decrease in printing, representing elimination of the handbook of information for the Legislature, partially offsets this increase.				
23	<b>EQUIPMENT:</b> A total of \$51,544, or \$1,519 under 1952-1953, consists primarily of library books (\$40,300). Furniture and office equipment are also included for new positions and renovation (\$10,325), and additional microfilm cabinets are provided for expansion of this new type of material (\$2,310).

<sup>a</sup> Student enrollments for colleges represent full time equivalent students, which are computed on the basis of 15 semester units of instruction representing one student equivalent.

Department of Education

STATE COLLEGES, TECHNICAL COLLEGES, SPECIAL SCHOOLS, AND BLIND CENTERS--Continued

STATE COLLEGES

The primary function of state colleges is the training of teachers. They may also offer courses appropriate for a general or liberal arts education; offer vocational training in such fields as business, industry, public service, homemaking, and social service; and offer the preprofessional courses needed by students who plan to transfer to universities for advanced professional study. The 1949 Legislature authorized the colleges to grant the master's degree. At present, such degrees are being limited to individuals who meet the State's requirement for one of the various teaching credentials, except for those students who are preparing to teach in a foreign country, those students who hold a license to teach in another state, or students preparing to teach in institutions not requiring teaching credentials.

Analysis

As a more drastic teacher shortage faces California's public schools in the next few years than has been previously experienced, the state colleges must continue to emphasize and encourage teacher training as their most important function. This renewed demand for teachers, plus the development of a few new curricular programs to meet regional needs, and the reshaping of course offerings to fit new instructional facilities and buildings, dictate the direction of the instructional program at the state colleges during the budget year. Major factors of change influencing most or all of the colleges during 1953-54 are:

1. Growth of regular session enrollment to an all-time peak of 25,050 full-time equivalent students represents an increase of 1,990 students over the 23,060 F. T. E. for 1952-53, predicated on actual fall semester experience. Continued recovery from the 1950-51 decline caused by the Korean situation can logically be anticipated for several years. As the three new state colleges attain permanent facilities and extend their curricular offerings, particularly into lower division courses, growth will be almost automatic from these newly tapped population centers. State-wide long range forecasts based on birth rate and immigration factors indicate an upswing in both high school graduates and attendance at higher education institutions starting with, or shortly after 1953-54. Over-all population in the rural areas, particularly in the valley region, are beginning to pick up after a two-year decline which saw most population increases confined to coastal defense areas. Draft deferment policies are not anticipated to change radically, and new R. O. T. C. units at four colleges indicate a strengthening of the deferment situation at these schools. In addition, the drop in World War II veteran enrollment is now being offset by Korean veterans attending school under Public Law 550, who will be influenced into enrolling at public colleges and universities because of the financial incentive of low tuition fees. For these reasons, enrollment increases are anticipated to be moderate at the colleges in rural areas, continued strong in metropolitan areas, and heavy at the three newer schools at Long Beach, Los Angeles, and Sacramento.
2. Teaching allowances, formerly determined by a given ratio of teachers to students, are provided for the first time by a new budgetary concept of a faculty staffing work-load formula. For 1953-54, this formula calls for 142.5 additional teachers, or 31.4 more than would have been provided under present student-teacher ratio as follows:

	Student- Teacher Ratios	Teachers Added Per Ratio	Teachers Added Per Formula	Increase Over Ratio
Chico State College-----	Minimum courses	3.2	11.3	8.1
Fresno State College-----	18-1	8.3	13.4	5.1
Humboldt State College-----	Minimum courses	3	10	7
Long Beach State College-----	15-1	10.4	15	4.6
Los Angeles State College-----	16-1	18.9	11	-7.9
Sacramento State College-----	15-1	15.2	15.1	-0.1
San Diego State College-----	19-1	18.7	14.1	-4.6
San Francisco State College-----	19-1	8.4	14.9	6.5
San Jose State College-----	19-1	25	37.7	12.7
Totals -----		111.1	142.5	31.4

The principle of the faculty staffing formula is simply a recognition of the amount of work which any one instructor should accomplish, equated to the total instructional and noninstructional work load at any college. Basic weighting of the work load of one instructor is derived from a 45-hour work week in which 36 hours are devoted to class teaching and nine hours are spent in noninstructional duties such as office hours for students, counseling, committee work, and special activities. As the formula application is primarily for budgetary purposes, uniform standards for equivalent courses, class sizes, and minimum number of students per class have been applied to all colleges equally, thereby tending to recognize a more even teaching load among all teachers at all colleges. Naturally, in colleges which have been given only enough instructors to provide minimum course offerings, the faculty work load formula yields more new teaching positions because noninstructional loads are recognized for the first time. Also in colleges with expanded enrollments and little curricular change, fewer teachers would be provided as the only extra positions would be for extra sections of the established classes. The two new colleges at Long Beach and Sacramento are exceptions to this application as new lower division curricular patterns are being added for the first time at each school. At San Jose, also, above-normal allowances are temporarily necessary to permit more orderly separation of the state college and junior college.

3. Additional facilities provided by the present college construction program will be occupied at practically all colleges during 1953-54. Sacramento moves to its new campus in the current year, anticipating full-year operation in the budget year. Fresno will occupy the first four buildings on its new campus, and San Francisco will be able to operate most of its new campus structures, creating additional costs of two-campus operation at both colleges. These facilities, together with additional buildings at Humboldt, San Diego, and San Jose, result in the provision for 58 additional maintenance positions, plus \$84,885 increased cost of operating these structures, primarily for utilities. Special additional plant maintenance items not carried in the support budgets of recent years account for an additional \$66,268 above normal maintenance costs.
4. State college libraries, like instructional positions, have not been budgeted in past years in accordance with any accepted work measurement. After thorough study, a library staffing formula has been adopted to permit measurement of work load in the staffing areas of administration, technical services, public services, clerical services, and student assistant coverage. In addition to this formula, an organizational pattern is recognized to permit subdivision of work into logical functions, patterned in part from the new organizational structure of the State Library. Application of this new staffing pattern results in the addition of 11 professional, 23.5 clerical, and five student assistant positions, caused almost entirely from opening of new library facilities at Humboldt, Los Angeles, Sacramento, and San Francisco, and recognition of overloads on existing personnel at Fresno and San Jose.
5. Augmentation of administrative staffing is confined largely to new and rapidly enlarging schools where growth demands the addition of 16.8 new personnel. These increased administrative and instructional supervision positions are all within the basic organizational framework for state colleges, and merely represent allowances for size and needs.

## Department of Education

## STATE COLLEGES, TECHNICAL COLLEGES, SPECIAL SCHOOLS, AND BLIND CENTERS—Continued

## STATE COLLEGES—Continued

## Analysis—Continued

6. Clerical and technical staffing is necessarily provided in conjunction with professional positions and new building operations, resulting in 48.5 new positions during 1953-54. Of these allowances, seven are in recognition of a new classification of evaluation technician, while the majority are provided for instructional assistance and student personnel needs. Several stock clerks have also been added for operation of new buildings.

In addition to the above factors, individual allowances in positions, specialized operations, and equipment needs are provided at each school to meet special problems and substandard conditions. Over-all expenditures also include programs for summer sessions and extension, which are wholly offset by student fees for such purposes.

Although not affecting over-all expenditures for the colleges, the continued decline in veteran enrollment will cause a sharp shift in financing from federal tuition payments to the State General Fund amounting to \$730,684 in 1953-54.

## TECHNICAL COLLEGES

Three technical schools are administered by the Department of Education: California State Polytechnic College, which offers occupational training in agriculture, engineering and industry, plus limited courses in the liberal arts; Fresno State College Division of Agriculture, patterned after the agricultural instruction program at California State Polytechnic College, but specializing in problems affecting the central valleys; and the California Maritime Academy, which trains officers for the Merchant Marine and the Naval Reserve. Because of their vocational nature, instructional costs and equipment allowances of these schools are normally greater than at the liberal arts type state colleges.

## Analysis

The only major change within the technical schools is anticipated at California State Polytechnic College, where additional housing facilities and heavy enrollments have boosted present student population almost to pre-Korean levels. A projected increase of 340 full time equivalent students to the college's present practical maximum of 3,713 F.T.E. results in seven additional teachers being added at Voorhis campus on the basis of the faculty staffing formula which was applied to the other state colleges (or a net increase of 3.1 teachers above the regular ratio as the allowance at San Luis Obispo campus decreased).

Allowances for other positions based upon staffing patterns at all State colleges also provide additional personnel in clerical, maintenance, library, and student health.

Enrollment at the Fresno Division of Agriculture is anticipated to increase 30 F. T. E. to 150 equated students (representing perhaps double that number of individuals majoring in agricultural subjects). As the instructional program is geared to a minimum number of teachers because of low enrollment, no additional faculty is required. Establishment of farming operations on the new 720-acre campus will permit expansion in basic field and orchard crops and herds. Maintenance costs will also rise due to operation of both the old Hammer Field campus and the new site.

Capacity enrollment of 200 midshipmen is contemplated at the California Maritime Academy during 1953-54 by extensive use of the training ship for living quarters. Provision for an annual cruise of 9,500 miles has been made, in keeping with the 3-year cruise cycle recommended by the Board of Governors of the Academy.

## SPECIAL SCHOOLS FOR PHYSICALLY HANDICAPPED CHILDREN

Five special schools for the education of blind, deaf, and cerebral palsied children will be in operation during 1953-54. Residential care and treatment needed for the proper training of these handicapped children is provided. The two schools for the deaf and the school for the blind provide educational facilities from the primary grades through high school. The schools for the deaf also give extensive vocational training. Education and medical treatment are provided for children afflicted with cerebral palsy. The average student is enrolled for a period of from 3 to 15 months and is then returned to the local district facilities for continued medical supervision and treatment and for special education in the local district schools. Outpatient clinics are also operated in conjunction with both the Northern and Southern California State Schools.

## Analysis

Principal change in the programs of the special schools is the completion of the first unit of the School for the Deaf at Riverside, with a resultant increase in enrollment from the initial 50 students of the current year to a plant capacity of 225 children in 1953-54. Addition of 80.7 new positions is necessary for comparable staffing with the northern school at this enrollment. Only children in the kindergarten and elementary grades will be accepted in this first unit.

At the School for the Deaf in Berkeley, enrollment is expected to fall slightly below capacity because approximately 60 students now in residence will transfer to the new Riverside school. The only significant increase in this school is the strengthening of the maintenance function by three tradesmen to enable the agency to do its own maintenance work.

The School for the Blind, with capacity enrollments, is shifting a great many of its high school students into the regular public schools, thus freeing more residence space for younger blind children. As younger children require more care, additional counselor and teacher assistance is provided. Two additional teachers for preschool blind children are also needed to handle increased cases in the Southern California area.

No change in program is anticipated at the two schools for cerebral palsied children in Northern and Southern California. Rented facilities prevent the addition of more children than are presently in residence at these schools.

## ORIENTATION CENTER FOR THE ADULT BLIND

The Oakland Orientation Center admits blind persons as residents and trainees in an intensive orientation program whose aim is maximum vocational and personal rehabilitation of blind persons in preparation for useful and remunerative employment. The program of the orientation center is closely coordinated with the services of the Bureau of Vocational Rehabilitation, with the home teacher and field service programs, and with programs for training teachers and other personnel directed toward serving the blind.

## Analysis

Legislation effective September 22, 1951, converted the Training Center for the Adult Blind to the Oakland Center, California Industries for the Blind, and transferred the residential facilities to the Oakland Orientation Center. Residential facilities (now occupied by approximately 80 residents) vacated hereafter will be devoted to the use of the training program of the Orientation Center. During 1953-54, it is anticipated that room for 20 students will be available. An additional four teachers will be necessary to permit the very intensive training program required to meet the highly individualized needs of these handicapped students.

Department of Education

STATE COLLEGES, TECHNICAL COLLEGES, SPECIAL SCHOOLS, AND BLIND CENTERS—Continued

CALIFORNIA INDUSTRIES FOR THE BLIND

The California Industries for the Blind consist of three production centers, located at Los Angeles, Oakland, and San Diego. These centers, previously known as workshops, supply sheltered factory employment to blind and partially sighted persons who are unable to obtain or retain jobs in private industry. Activities in the production centers are many and varied, and include such items as manufacture of brooms, mops, pillowcases, surgical drapes and wrappers, aprons, rugs, brushes, rubber mats, and leather goods, in addition to fabrication and assembly of many products on a subcontract basis. This program provides some training and work experience for persons who are placed in gainful employment outside the production centers, with particular coordination in this respect with the Bureau of Vocational Rehabilitation. The production center program is not to be considered, however, as one of the sequential steps for the placement of blind persons in industry.

The educational and training activities of the centers are a direct charge against the General Fund. The manufacturing activities are financed from working capital supplied by the Workshops for the Blind Manufacturing Fund into which the proceeds of sales of products are deposited.

Analysis

No major program change is anticipated for these industrial workshops during the 1953-54 Fiscal Year, although a slight cutback in production due to lessening Federal Government orders will necessitate curtailment of at least one position in the San Diego shop, and commercial sales will have to be intensified to maintain factory employment. At the Oakland Center, completion of the new factory trades building will permit modernization of production methods, and provide needed expansion at both this center and the adjacent Orientation Center by freeing the old sewing building for the latter agency. The Los Angeles Center is budgeted at a continuation of the 1952-53 level of activities.

## Department of Education

## CHICO STATE COLLEGE

A four-year liberal arts college specializing in teacher training curricula. This college serves the northeastern section of the State, and provides some courses of a terminal nature to meet the junior college needs of the Chico area.

Located at Chico, California

37	Cost per unit -----	\$5	\$6	\$6	—

Continuance of the present upward trend of enrollment to 1,300 full time equivalent students in the budget year will return this college to the level existing prior to the Korean enrollment slump. More adequate faculty staffing at this enrollment, operation of the campus laboratory elementary school completely at state expense, and the provision for additional maintenance items are the principal factors creating an increase in operating costs of \$166,723, or 15.9% over 1952-53 as follows:

**SALARIES AND WAGES:** An increase of \$72,143, or 10.1% over 1952-53, is caused principally by inclusion of 11.3 additional teaching positions in recognition of faculty overload and increased enrollments. Additional clerical coverage is provided for faculty assistance, one maintenance position is added for care of newly-developed grounds, and an Evaluations Technician and a quarter time Coordinator of Graduate Studies are included in recognition of problems common to all state colleges.

**OPERATING EXPENSES:** An increase of \$26,121, or 22.2% over 1952-53 primarily reflects the provisions for special maintenance items (\$11,300). Other costs of operating the college plant (\$4,570), installation of a dial telephone system (\$3,600), and instructional expenses for additional enrollment (\$4,150) are other factors of increase over the current fiscal year.

a Composed of savings in salaries and wages, \$207; operating expenses, \$8,239; equipment, \$2,175; and excess in reimbursements, \$582.

b Composed of savings in salaries and wages, \$3,209; and excess in reimbursements, \$445.

c Special additional plant maintenance items account for \$9 of this per student cost increase.

## Department of Education

## FRESNO STATE COLLEGE

A four-year liberal arts college with a primary function of teacher training. In addition, a department of agriculture is operated at this school under authority of Chapters 1477 and 1490, Statutes of 1947, supported by Horse Racing Board breakage revenues deposited in the State College Fund.

Located at Fresno

31	<b>General and Professional Divisions</b>				

This unit of Fresno State College corresponds with the other liberal arts type State Colleges, as compared with the function of the Division of Agriculture which more nearly resembles the instructional methods of California State Polytechnic College. Steady enrollment increases, plus the necessity of operating at both old and new campus sites, result in an increase of \$207,146, or 11.1 percent over 1952-53, as follows:

**SALARIES AND WAGES:** An increase of \$142,136, or 8.8 percent is caused by the addition of 13.4 teachers to meet faculty requirements and increased enrollments, and four technical and clerical positions to conform to growth patterns coincident with enrollment and faculty expansion. Five clerical positions are also included for proper library staffing to meet personnel standards at State Colleges, and two maintenance positions are added for basic upkeep of grounds and structures. Student assistant funds equivalent to seven student firemen are also included to man the new fire house at the new campus.

**OPERATING EXPENSES:** An increase of \$57,959 or 31 percent is accounted for principally by added costs of new campus operation for telephones (\$3,500), moving expense (\$8,000), bus rental (\$9,020), and maintenance charges (\$24,355). Remaining increases are for instructional supplies (\$7,800), and other teaching and library services.

**EQUIPMENT:** A total of \$87,591, or a decrease of \$11,935 under 1952-53 is composed of teaching equipment for classrooms and laboratories (\$49,466), library books (\$23,000), automotive and maintenance equipment for the new campus (\$8,965), and furniture and office equipment for new positions.

**REIMBURSEMENTS:** A decrease of \$19,014 represents termination of the Fresno School District's participation in expenses of the campus elementary laboratory school, in conjunction with full state operation of this school. A one-year recovery of state apportionments for public school support from the Fresno School District is anticipated for the 1952-53 year. For the 1953-54 and subsequent years, offsetting costs will be reflected in less subventions for ADA to the school district.

## Division of Agriculture

Expenditures for the agricultural unit are budgeted at the same level of instructional program as the current year, but farm operations have been established as a separate function to include student projects and basic field and orchard crops and herds. Approximately one-half of the \$47,821 increase in the Division of Agriculture is contained in this new function, where planting of new fruit trees and field crops, and equipment for farming operations is expanded \$23,478. Remaining expenditure increases are contained in maintenance costs for upkeep of the new 720-acre farm.

57					
58	Enrollment deficiencies created by the Korean situation have been especially severe at Humboldt State College, where a drop below				
59	500 full-time equivalent students in 1951-52 has made necessary the establishment of a basic faculty allowance to permit minimum				
60	course offerings regardless of enrollment size. Although this teacher allowance has been sufficient to meet bare standards for degree				
61	and teacher credential requirements, overloads of administrative and supervisory assignments have been inevitable with such a				
62	minimum teaching staff. As a gradual upswing in enrollment will not alleviate this situation sufficiently in the budget year, more				
63	adequate faculty staffing is provided to equate the teaching load more nearly to that of other State colleges. This factor, together				
64	with operation and maintenance of three new buildings (library, science, and corporation yard), and assumption of full cost of				
65	the campus elementary school will provide an increase in operating costs of the college for 1953-54 of \$169,719, or 25 percent				
66	above the current year, as follows:				
67					
68	<b>SALARIES AND WAGES:</b> An increase of \$114,777, or 20.5 percent is caused primarily by the inclusion of 10 teachers in recognition				
69	of faculty overload and increased enrollment, and the addition of nine maintenance positions to properly operate and keep up				
70	new buildings and surrounding areas. One librarian and two clerks are also included for proper library staffing to meet accredita-				
71	tion requirements, and two part time laboratory school positions provide a full-time principal and a half-time nurse which were				
72	erroneously omitted from the 1952-53 budget. Three clerical and 1.4 administrative positions complement the faculty increase				
73	and alleviate overloads in placement and evaluation work.				
74					
75	<b>OPERATING EXPENSES:</b> An increase of \$23,455, or 29.2 percent is accounted for primarily by inclusion of certain maintenance				
76	items formerly carried under Capital Outlay (\$7,850), regular utility and maintenance costs of operating new facilities (\$7,820),				
77	and teaching supplies and services (\$5,530). The cost of moving to new quarters (\$1,000) is added for one year only, and price				
78	adjustments for administrative supplies (\$1,500) are also provided.				
79					
80	a Composed of savings in salaries and wages, \$1,608; operating expenses, \$5,539; equipment, \$3,954; and excess reimbursements, \$4,294.				
81	b Special additional plant, maintenance items account for \$13 of this per student cost increase.				
82					
83					
84					
85					
86					

**Department of Education**

**HUMBOLDT STATE COLLEGE—Continued**

LINE	EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54	CHANGE FROM 1952-53		
1	GENERAL ANALYSIS—Continued						
2							
3							
4	EQUIPMENT: A total of \$71,454, or \$3,240 over 1952-53, includes instructional equipment for classrooms and laboratory facilities						
5	(\$34,638), library books (\$16,000), teaching equipment and furniture for the campus elementary school (\$4,225), automotive and						
6	maintenance equipment necessary for proper care of additional grounds and structures (\$8,833), and office furniture and machines						
7	for the student personnel and business offices (\$6,868).						
8							
9	REIMBURSEMENTS: A decrease of \$28,247 represents termination of the Arcata School District's participation in expenses of the						
10	campus elementary school, in conjunction with full state operation of the laboratory school. A one-year recovery of state apportion-						
11	ments for public school support from the Arcata School District for students enrolled in the laboratory school is anticipated for						
12	the 1952-53 year. For the 1953-54 and subsequent years, offsetting costs will be reflected in less subventions for ADA to the school						
13	district.

## Department of Education

## LONG BEACH STATE COLLEGE

four-year liberal arts college with a primary function of teacher training. This school was established in the fall of 1949 in temporary quarters near the City of Long Beach, and was temporarily designated the Los Angeles-Orange County State College. On June 7, 1950, the Director of Education officially named the school the Long Beach State College, and accepted a gift of 316 acres of land from the City of Long Beach for a permanent campus site. The college is now being operated at that new location in temporary facilities, pending completion of its first permanent buildings.

Located at Long Beach

36					(25.9%)
37	Cost per student -----	\$40	\$47	\$45	—\$2
38					(—4.3%)
39	Occupancy of temporary facilities at its new campus will permit Long Beach State College to initiate a lower division program for				
40	150 students in 1953-54 which will integrate with the present two-year upper division curricular offerings. Expansion of upper				
41	division and graduate enrollment to 1,650 full time equivalent students in 1953-54, together with new lower division enrollment,				
42	will result in an increase over the current year of \$312,212, or 29.7%, as follows:				
43					
44	<b>SALARIES AND WAGES:</b> An increase of \$192,294, or 20.7% over 1952-53 is caused by the addition of 15 teachers to meet faculty				
45	requirements of increased enrollments, and 2.8 administrative and four clerical positions to conform to growth patterns coincident				
46	with enrollment and faculty expansion. Two clerical positions are also included for proper library staffing to meet accreditation				
47	requirements, and six watchmen and other maintenance jobs are added for basic upkeep of grounds and structures.				
48					
49	<b>OPERATING EXPENSES:</b> An increase of \$18,250, or 15.3% over 1952-53 results entirely from additional instructional expense of				
50	increased enrollments (\$16,200), and normal maintenance costs of temporary structures (\$2,400).				
51					
52	<b>EQUIPMENT:</b> A total of \$104,168 is requested to supplement initial complements of equipment formerly provided in capital outlay				
53	appropriations. As occupancy of the new campus buildings now provides a basic equipment structure in several divisions, augmen-				
54	tations for growth and teaching needs, as well as library book accessions, will be provided in the support budget of this college.				
55	The budget year request consists principally of class teaching items (\$47,709) and library book purchases (\$35,000). Provision				
56	is also made for necessary automotive and maintenance equipment for the new campus (\$15,924), and furniture and office equip-				
57	ment for new positions.				
58					
59	<sup>a</sup> Composed of savings in salaries and wages, \$18,201; operating expenses, \$11,130; and excess reimbursements, \$1,536.				
60	<sup>b</sup> Composed of deficit in salaries and wages, \$32,886; and savings in operating expenses, \$20,700.				
61	<sup>c</sup> Includes \$58 per student cost for regular equipment needs. The initial complements for equipping this new college have been budgeted				
62	as part of the Capital Outlay program.

## Department of Education

## LOS ANGELES STATE COLLEGE OF APPLIED ARTS AND SCIENCES

A two-year upper division college with two primary functions: First, the training of students for gainful occupations in arts and sciences as related to business and industry; and second, the training of students for teaching in the public schools. Courses appropriate for a liberal arts education are also offered in fields normally given at other state colleges. The college is at present temporarily located on the campus of the Los Angeles City College under rental agreement with the Los Angeles City School District, but a new 145-acre campus has been selected in the Baldwin Hills area and preliminary plans are now being formulated for construction of permanent facilities at the new site.

57					
58	Despite overcrowded conditions in temporary rented quarters, enrollments at Los Angeles State College of Applied Arts and Sciences				
59	continue to rise rapidly, with a predicted increase to 3,000 full-time equivalent students in 1953-54. Complementing student popu-				
60	lation growth, the college will offer a graduate program of study, and will intensify courses in the applied arts and sciences at a				
61	new downtown campus building. These factors, together with purchase of equipment as a normal operating cost rather than as				
62	initial complements from capital outlay appropriations, result in an increase over the 1952-53 Fiscal Year of \$323,749, or 19.3 per-				
63	cent, as follows:				
64					
65	<b>SALARIES AND WAGES:</b> An increase of \$176,667, or 13.5 percent provides 11 new teachers to meet faculty requirements for in-				
66	creased enrollments, and 3.3 division chairmen and instructional supervisors in keeping with faculty staffing needs. In recognition of				
67	one primary purpose of this college, a dean of applied arts and sciences is added to the instructional function, responsible for the				
68	development of applied science curricula and the present work-study program. Four librarian and two clerical positions are re-				
69	quired for expansion of library facilities to meet enrollment needs, and particularly to meet accreditation requirements. An addi-				
70	tional two administrative and 6.5 clerical positions are also proposed for assistance to faculty members, and for student activities				
71	and evaluation work.				
72					
73	a Composed of savings in salaries and wages, \$61,413; operating expenses, \$34,930; and loss of reimbursements, \$3,090.				
74	b Composed of savings in salaries and wages, \$25,574; and excess reimbursements, \$176.				
75	c Includes \$35 per student cost for regular equipment needs. The initial complements for equipping this new college have been budgeted				
76	as part of the capital outlay program.				
77					
78

LINE	EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54	CHANGE FROM 1952-53		
1							
2							
3	GENERAL ANALYSIS—Continued						
4	OPERATING EXPENSES: An increase of \$43,708, or 11.2 percent is accounted for primarily by \$22,500 increased rental costs for						
5	plant facilities at the Los Angeles City College, and \$14,350 additional cost of instructional supplies and services, both factors						
6	directly related to increased enrollment needs. Minor increases of \$4,640 for junior college instructors, \$2,000 for physicians'						
7	services for health examinations, and \$2,000 for additional administrative costs make up the balance of this increase.						
8							
9	EQUIPMENT: A total of \$103,561 is requested to supplement initial complements of equipment formerly provided through capital						
10	outlay appropriations. Until new and expanded facilities are provided at a permanent campus, equipment needs for enrollment						
11	growth and curricular expansion will be provided in the support budget of this college. The 1953-54 request consists principally						
12	of teaching items for classrooms and laboratories (\$55,791), and library books (\$40,000). Additional automotive equipment needs						
13	for the college (\$2,600), and office furniture and equipment for administrative needs and new positions (\$5,170), are also included.

## Department of Education

## SACRAMENTO STATE COLLEGE

liberal arts college with the primary function of teacher training. It is contemplated that Sacramento State College will move to its permanent campus early in 1953. Facilities available will include an administration building, a library (partial), a classroom building (partial), science buildings (partial), a cafeteria, and 13 temporary structures for classroom use.

Located at Sacramento

55					

In conjunction with its move to new campus facilities, Sacramento State College will initiate a lower division program of course offerings for approximately 200 full time equivalent students in the 1953-54 Fiscal Year. This development will aid in a rounded program of undergraduate instruction, in keeping with patterns at other four-year state colleges. Operation of the new campus on a full-year basis, plus an increase of 400 F. T. E. students in the budget year, results in an increase of \$236,545, or 24.1 percent over 1952-53, as follows:

**SALARIES AND WAGES:** An increase of \$190,802, or 23.8 percent over 1952-53 is composed principally of 15 teachers added to meet lower division needs and expanded enrollments, and seven maintenance positions to permit proper upkeep and repair of new campus facilities. In addition, two library positions complement the basic organizational structure of the new college library. Eight other administrative and clerical positions are also included to meet normal staffing and work load requirements caused by growth.

**OPERATING EXPENSES:** A decrease of \$46,650, or 26 percent under 1952-53, is accounted for by drop in rental charges of \$58,250 occasioned by moving to the new campus, and savings in moving expenses of \$15,000 and in lower division tuition charges of \$3,500. New campus added costs for telephone service (\$3,600) and maintenance charges (\$14,000), and increased costs of instructional supplies for expanded enrollments offset this decrease to some extent.

**EQUIPMENT:** A total of \$92,393 is requested to augment initial complements of equipment formerly provided in capital outlay appropriations. As many new buildings will be furnished and occupied by 1953-54, augmentations for normal growth and teaching needs, as well as library book accessions are now to be furnished in the support budget of this college. This request consists principally of class teaching items (\$46,312) and library book purchases (\$32,500). Provision is also made for necessary automotive and maintenance equipment for the new campus (\$7,450), and furniture and office machines for new positions.

a Composed of savings in salaries and wages, \$27,827; operating expenses, \$22,723; equipment, \$794; and loss in reimbursements, \$6,435.

b Composed of savings in salaries and wages, \$15,971; operating expenses, \$5,550; and loss in reimbursements, \$19,350.

c Includes \$66 per student cost for regular equipment needs. The initial complements for equipping this new college have been budgeted as part of the Capital Outlay program.

**Department of Education**  
**SAN DIEGO STATE COLLEGE**

A four-year liberal arts college with a primary purpose of teacher training. Preparation of students for community occupational pursuits is especially important in an area particularly affected by defense industry and military expansion.

Located at San Diego

50	Enrollment (units) -----	1,960	2,717	3,000	283
51					(10.4%)
52	Cost per unit -----	\$6	\$7.50	\$7.50	-
53					
54	Expansion of instructional facilities, stabilization of the defense industry labor market, and growth of the newly-established R. O. T. C. unit have contributed to a sharp upswing in enrollments in the current year, reversing the post-Korean drop off. Continuation of this trend to an estimated 3,750 full time equivalent students in the budget year, plus fuller use of new buildings, will result in an increase of \$216,220, or 9.6 percent over 1952-53, as follows:				
55	<b>SALARIES AND WAGES:</b> An increase of \$164,126, or 8.6 percent over 1952-53 is caused primarily by the inclusion of 14 teachers in recognition of faculty overload and increasing enrollments, and six clerical positions required for administrative and instructional workload needs related to this enrollment and faculty expansion. Five additional maintenance positions are provided for operation of new facilities and normal recurring maintenance work. One librarian and two clerks are also added to provide proper library staffing to meet accreditation requirements.				
56	<b>OPERATING EXPENSES:</b> An increase of \$49,730, or 20.8 percent over 1952-53 is accounted for by inclusion of certain maintenance items formerly carried under capital outlay (\$24,390), regular utility and maintenance costs of operating new facilities (\$8,000), and instructional supplies and services (\$12,200). Minor price adjustments compose the balance.				
57	<b>EQUIPMENT:</b> A total of \$107,883, or \$2,364 over 1952-53, consists principally of class teaching items needed for classrooms and laboratory facilities (\$68,608), and library book accessions (\$25,000). Other items include maintenance equipment for plant upkeep (\$5,595), campus laboratory school needs (\$2,138), and furniture and office needs for new positions.				
58	a Composed of savings in salaries and wages, \$14,433; operating expenses, \$35,479; equipment, \$3,254; and excess reimbursements, \$1,217.				
59	b Composed of savings in salaries and wages, \$14,776; operating expenses, \$1,874; and equipment, \$1,000.				
60	c Special additional plant maintenance items account for \$7 of this per student cost increase.

66	Cost per student unit -----	\$6	\$7.50	\$7.50	-

Student population at San Francisco State College continues to exceed previous estimates for growth, with over 4,250 full time equivalent students enrolled during the current year, and 4,400 full time equivalent students anticipated in 1953-54. With five new buildings to be ready for occupancy at the new campus, highest costs of two-campus operation will be reached during the budget year, after which rented facilities and portions of the old campus will be abandoned in keeping with eventual disposition of the old property. These two factors of enrollment growth and costs of operating both the old and new campuses create an increase in total college operating costs of \$254,779, or 9.3 percent over 1952-53, as follows:

a Composed of savings in salaries and wages, \$53,271; operating expense, \$26,500; equipment, \$6,439; and loss of reimbursements, \$54,846.

b Composed of savings in salaries and wages, \$39,212.

c Nonscheduled appropriation. No reversion by category.

## SAN FRANCISCO STATE COLLEGE—Continued

LINE	EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54	CHANGE FROM 1952-53	
1	GENERAL ANALYSIS—Continued					
2						
3						
4	SALARIES AND WAGES: An increase of \$214,382, or 9.6 percent results primarily from 15 teachers to meet faculty work load					
5	requirements based upon increased enrollments, and eight maintenance positions for upkeep of new campus buildings and grounds					
6	areas. Additional instructional supervisors (2.4 man years) are included in keeping with faculty and enrollment increases, and					
7	one librarian and three clerks are added to staff the new library building. An evaluations technician is added in recognition of the					
8	evaluations load in student personnel work, and two clerical positions are provided for one year to facilitate occupancy of new					
9	buildings.					
10						
11	OPERATING EXPENSES: An increase of \$40,636, or 11.5 percent is occasioned entirely by increased teaching supplies due to					
12	enrollment growth (\$11,600), and additional costs of operating and maintaining the new campus buildings and telephones (\$31,282).					
13						
14	EQUIPMENT: A total of \$119,144, or \$293 less than 1952-53 allowances, is composed principally of teaching equipment for classrooms					
15	and laboratories (\$72,850), and library book accessions (\$30,000). Remaining amounts are for automotive and maintenance					
16	equipment needed for two-campus upkeep, teaching items for campus elementary school operation (\$2,575), furniture and office					
17	equipment for new positions, and a few items for the temporary health office.

## Department of Education

## SAN JOSE STATE COLLEGE

A four-year liberal arts college with a primary function of teacher training. The state college is presently operated in conjunction with the San Jose Junior College on the state college campus, but separation of the two schools in the budget year is contemplated. At present, practice teaching is conducted entirely in the public schools, as the state college does not operate a campus elementary school for teacher training purposes.

47					(53.5%)
48	Cost per unit -----	\$3.79	\$4.80	\$4.71	—\$0.09
49					(—1.9%)
50	Separation of the San Jose Junior College and the state college is contemplated in 1953-1954, necessitating quite severe adjustments				
51	in both curricular offerings and staffing patterns. Although enrollments have been set at 6,000 full-time equivalent students in				
52	the 1953-1954 Fiscal Year course offerings must necessarily permit absorption of 1952-1953 students, thereby requiring a tempo-				
53	rary total allowance of 315 teachers during 1953-54, and until assimilation and adjustment of curricula will permit reductions				
54	more in keeping with enrollment size. Additional positions are also included to absorb a number of existing junior college employees				
55	working in clerical, library, and maintenance jobs which would normally be carried as state positions at other state colleges.				
56	Costs incident to the above separation of junior college functions, and the opening of new building facilities during the 1953-1954 Fiscal				
57	Year, result in an increase over 1952-53 of \$468,919, or 15 percent, as follows:				
58	<b>SALARIES AND WAGES:</b> An increase of \$414,189, or 15.7 percent, is caused primarily by 37.7 additional teachers required by				
59	increased enrollments and temporary coverage of existing curricular patterns during the period of separation from the junior				
60	college. Another major factor of increase is the necessary addition of 20 custodial and other maintenance jobs for upkeep of new				
61	buildings and for replacement of regular maintenance positions presently carried on the junior college pay roll. Three librarians				
62	and six clerks are also provided for library growth and absorption of junior college positions, an additional 10.5 clerical and tech-				
63	nical positions are included for work load coverage in keeping with faculty expansion and enrollment increases, and one graduate				
64	nurse and one counselor are added to replace current junior college positions.				
65	<sup>a</sup> Composed of savings in salaries and wages, \$14,822; operating expenses, \$37,793; equipment, \$3,604; and loss in reimbursements,				
66	\$6,298.				
67	<sup>b</sup> Composed of savings in salaries and wages, \$32,668.				
68	<sup>c</sup> Special additional plant maintenance items account for \$3 of this per student cost increase.

2										
3										
4	OPERATING EXPENSES: An increase of \$53,104, or 14.8 percent, results from costs of instructional supplies and services to meet									
5	enrollment growth (\$24,998), special repair and maintenance items (\$15,968), and other maintenance costs necessary to operate									
6	new buildings and meet regular upkeep expenses now paid from Junior College funds.									
7										
8	EQUIPMENT: A total allowance of \$127,586, or \$1,626 over 1952-1953 expenditures, consists of teaching equipment for classrooms									
9	and laboratories (\$78,556), library books (\$37,400), automotive and maintenance equipment necessary to operate and maintain									
10	expanded facilities (\$6,428), and furniture and office equipment for new positions and to meet requirements of additional students.

## Department of Education

## CALIFORNIA STATE POLYTECHNIC COLLEGE

A technical college providing occupational training in agriculture, engineering and industry, and in selected liberal arts fields. The college grants a Bachelor of Science degree in agriculture, engineering, and liberal arts; and has been accredited for granting a general secondary credential, a special secondary credential in vocational agriculture, a special secondary credential in physical education, and the special secondary limited credential in agriculture. In addition a program for graduate study leading to a Master of Arts degree is provided. Two-year vocational and three-year technical curricula are offered in all agricultural and engineering majors.<sup>a</sup>

The college maintains two branches in Southern California—the Voorhis Campus located at San Dimas, and the nearby Kellogg Campus located at Pomona. The Voorhis Campus offers programs in agricultural inspection, citrus fruit production, and ornamental horticulture. The Kellogg Campus, consisting of 812 acres acquired by gift in 1949, is for the expansion of instructional facilities at this branch.

Located at San Luis Obispo

LINE	EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54	CHANGE FROM 1952-53
1	<b>GENERAL ANALYSIS—Continued</b>				
2					
3					
4	Additional housing facilities on or adjacent to the San Luis Obispo Campus combined with the largest freshman enrollment in the				
5	history of the college result in a sharp upswing in enrollment during the current year, which should culminate in a return to				
6	pre-Korean student population figures in 1953-54. This factor, plus the shifting of some maintenance expenditures to this budget				
7	from the Capital Outlay section, result in an increase of \$221,202, or 8.9 percent over 1952-53, as follows:				
8					
9	<b>SALARIES AND WAGES:</b> An increase of \$161,122 or 7.6 percent over 1952-53 is caused by the addition of seven teachers at the				
10	Voorhis unit to recognize overload on existing faculty; a one-quarter time coordinator of graduate studies to cope with growing				
11	graduate enrollments; seven clerical positions required in the instructional pool, the library, and the maintenance section for work				
12	load coverage; a physician at San Luis Obispo to handle larger resident student loads in the infirmary; and a supervising grounds-				
13	man at San Luis Obispo for direction of student crews working on instructional projects in ornamental horticulture. Remaining				
14	increases result from faculty upgrading and normal salary adjustments.				
15					
16	<b>OPERATING EXPENSES:</b> An increase of \$58,932, or 15.3 percent over 1952-53, results from additional instructional expense of in-				
17	creased enrollments (\$9,264), and the addition of special maintenance items (\$42,715).				
18					
19	<b>EQUIPMENT:</b> A total of \$128,286, or \$3,504 over 1952-53, is composed of instructional items to properly operate classrooms and				
20	laboratories (\$54,891), books and other library equipment (\$36,053), maintenance equipment (\$20,423), farm implements (\$11,-				
21	600), and administrative equipment for new positions and services (\$5,319).

## Department of Education

## CALIFORNIA MARITIME ACADEMY

The academy educates and trains young men who are mentally, morally and physically qualified for entrance, to become licensed officers in the Merchant Marine. The course is three years and leads to the Bachelor of Science Degree in Nautical Science, specifying Navigation and Seamanship for those in the deck course, marine steam, diesel and electrical engineering for those in the engineering course. Prior to graduation, candidates for the degree take the U. S. Coast Guard examinations for licenses as third mates or third assistant engineers. In addition to the degree and licenses, graduates are appointed ensigns in the U. S. Maritime Service by the Federal Maritime Administration. By virtue of the technical training received, graduates are also issued appointments as ensign in the U. S. Naval Reserve, similar to those received by graduates who have taken Naval ROTC training in the 52 leading universities of the Country. The academic course leading to the above attainments is supported by training at sea approximately three months each year on the training ship Golden Bear, which is on loan to the State from the Federal Maritime Administration.

The State receives for the academy an annual subsidy (currently \$25,000) for general overhead from the Federal Government, which also pays the State 68 7/10 cents per diem for subsistence of qualified Naval Reserve students, and pays up to \$50,000 annually for the overhaul and drydocking of the training ship. The States of Maine, Massachusetts, and New York have similar maritime academies, similarly subsidized by the Federal Government.

## GENERAL ANALYSIS

25	Number of positions-----	63.2	63.2	62.2	—1
26	<b>ENROLLMENT AND UNIT COSTS</b>				
27	Average enrollment-----	185	198	200	2
28	Cost per student-----	\$1,927	\$1,957	\$2,005 <sup>d</sup>	\$48 <sup>d</sup> (2.5%)
29	The academy's enrollment is planned at an average 200 for the budget year, which is the maximum number that can be billeted with existing accommodations.				
30	<b>SALARIES AND WAGES:</b> Student assistance, at a cost of \$850, is allowed to provide needed help for the library. Deletion of the ship's carpenter position at an annual saving of \$4,740 is due to a change in the work load of this position aboard the ship.				
31	<b>OPERATING EXPENSES:</b> A net increase of \$11,337 over that allowed in the current year is due primarily to the inclusion of \$8,163 for special repairs that previously have been financed under Capital Outlay. Of this amount, \$6,163 is for needed repairs to the wharf. There is an increase of \$3,000 for fuel oil to allow a 9,500 mile training cruise.				
32	<b>EQUIPMENT:</b> Amount requested of \$2,774 represents an increase of \$27 over the current year. This includes \$1,150 for instructional equipment and the balance for various small items needed for operation of the academy.

## Department of Education

## CALIFORNIA SCHOOL FOR THE BLIND

A residential school for general education of blind, partially blind, and deaf-blind children through the elementary and secondary school levels. The education of the blind requires special equipment, particularly library and writing facilities, models for tactual study, and apparatus for corrective physical education. Guidance service is rendered to graduates and ex-pupils by the school's field service. The deaf-blind unit is the only one in the western part of the United States where these doubly handicapped children may be educated.

36					(5.7%)
37	<b>Analysis</b>				
38					
39	The enrollment of this school for the budget year is planned at a total of 172 students which is the capacity of the school. This enrollment				
40	is composed of 160 blind students and 12 deaf-blind students. A shift in the age distribution of the children downward will establish an				
41	enrollment of 80 instead of 62 students in the age group of 6 to 10 years in the current year. This factor, plus increased services to				
42	the School for the Deaf and increased case load among preschool blind children in the Southern California area are reflected in the				
43	following proposed changes in the agency's budget:				
44					
45	<b>SALARIES AND WAGES:</b> The budget provides for 7.6 additional positions at a total cost of \$22,296, as follows:				
46	2 Kitchen helper (10 month positions costing \$4,000) in order to give more assistance in necessary table service thus				
47	allowing the counselors time to supervise and correct the children's eating habits.				
48	2 Counselor at a cost of \$5,360 to provide needed coverage on a post assignment basis.				
49	1 Teacher costing \$3,760 in order to meet the teaching problems involved due to the increased enrollment among the				
50	younger children.				
51	0.1 Senior physician and surgeon—increasing the position from 0.5 to 0.6, at a cost of \$710, to meet work load increase				
52	at the hospital due to the increased enrollment at the School for the Deaf.				
53	2 Teacher at a cost of \$7,080 in order to handle the increased case load among the preschool blind children in the				
54	Southern California area.				
55	0.5 Intermediate stenographer-clerk to provide secretarial assistance for the five preschool teachers working out of Los				
56	Angeles.				
57					
58	<b>OPERATING EXPENSES:</b> Total increase of \$7,013 is due in part to price increase in light, heat, and power, and other minor operating				
59	adjustments, but is due primarily to the inclusion of \$5,000 for special repairs and maintenance that formerly were financed under				
60	Capital Outlay.				
61					
62	<b>EQUIPMENT:</b> The request of \$11,078 represents an increase of \$4,923 over that allowed in the current year. Of this total amount, \$5,180				
63	is to provide two automobiles and necessary office equipment for the two new teachers for Field Service—Preschool Children. The				
64	balance is allowed in order to meet the operating needs of the school.				
65

## Department of Education

## CALIFORNIA SCHOOL FOR THE DEAF, BERKELEY

A residential school admitting mentally normal deaf children 5½ to 21 years of age. Students are given elementary and high school education, training in speech development and lip reading, and an opportunity to learn the fundamentals of a trade.

LINE	EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54	CHANGE FROM 1952-53
1	<b>SUMMARY AND</b>				
2	<b>RECONCILIATION WITH APPROPRIATIONS</b>				
3	<b>General Fund</b>				
4	<b>SUPPORT</b>				
5	Budget Act appropriation	\$767,206	\$860,731	\$999,498 a	
6	Allocations from Salary Increase Fund	9,163	66,499	-	
7	Allocations from Emergency Fund	-	12,868	-	
8	Special appropriation for expenses of deaf graduates attending				
9	Gallaudet College	7,446	7,446	-	
10	Total Available	\$783,815	\$947,544	\$999,498	
11	Unexpended balance, estimated savings	-89,625 b	-18,169 c	-	
12	<b>TOTAL EXPENDITURES FOR SUPPORT</b>	<b>\$694,190</b>	<b>\$929,375</b>	<b>\$999,498</b>	<b>\$70,123</b>
13					<b>(7.5%)</b>
14	<b>GENERAL ANALYSIS</b>				
15	Number of positions	146.9	186.9	192.1	5.2
16	<b>ENROLLMENT AND UNIT COSTS</b>				
17	Average Student Enrollment:				
18	Resident	398	445	440	-5
19	Nonresident	11	10	10	-
20	Cost per student	\$1,684	\$2,027	\$2,202 d	\$175 d
21					<b>(8.6%)</b>
22	Students attending Gallaudet College	14	15	20	5
23	Cost per Gallaudet student	377	467	438	-29
24	It is estimated that there will be 440 resident students and 10 nonresident students in the budget year. The school is not expected to reach its maximum enrollment of 492 students due to the fact that approximately 60 students will be transferred to the new deaf school in Riverside in the budget year. In addition the school is lacking in classroom space, and it has been difficult to obtain teachers.				
25	<b>SALARIES AND WAGES: The budget provides for five additional positions at a total cost of \$21,288, as follows:</b>				
26	1 Accounting officer I costing \$4,092 to provide needed assistance for the business manager.				
27	1 Senior clinical psychologist at a cost of \$5,496 to recognize the necessary psychological and audiometric testing which the school has found necessary to provide as enrollments increase.				
28	3 Maintenance positions—a carpenter, a plumber, and a painter, at a total cost of \$11,700 are provided in order that the agency may effect savings by doing much of its own maintenance work.				
29	<b>OPERATING EXPENSES: Total increase of \$22,650 over the current year is due primarily to the inclusion of special repair and maintenance items that formerly have been financed under Capital Outlay, in addition to other minor operating adjustments.</b>				
30	<b>EQUIPMENT: The request of \$17,002 which is a decrease of \$12,590 over that allowed in the current year, provides \$3,525 for an accounting machine which will receive additional study before purchase, \$4,616 for additional teaching and recreation equipment, \$1,496 for maintenance and operation equipment, plus other miscellaneous equipment needed to operate the school.</b>

a The appropriation for deaf graduates attending Gallaudet College is now included in the support appropriation for this agency.

b Composed of savings: Salaries and wages, \$56,893; operating expenses, \$37,422; equipment, \$755; and loss in reimbursements, \$5,445.

c Composed of savings in salaries and wages, \$18,169.

d Special additional plant maintenance items account for \$37 of this per student cost increase.

## GENERAL ANALYSIS

Number of positions ----- 1.5 40 118.5 78.5

## ENROLLMENT AND UNIT COSTS

Average student enrollment ----- - 50 225 175  
 Cost per student ----- - \$2,650 \$2,215 —\$435  
 (—16.4%)

Completion of initial facilities in the current year will allow a beginning enrollment of 50 students, with an expansion in the budget year to a total enrollment of 225 students. Staffing incident to this increased enrollment, and problems of operating the newly-completed plant, will cause an increase of \$365,858, as follows:

**SALARIES AND WAGES:** The budget provides for 80.7 additional positions at a total cost of \$246,651. There are 14 new positions allowed to give proper staffing for feeding operations, 24 additional teachers are included based on the ratio allowed at the northern school, and 19 additional counselors are provided on a post assignment basis. The other new positions included in the budget are allowed on the basis of similar coverage at the Berkeley school or to provide the minimum needed coverage to operate a particular function.

**OPERATING EXPENSES:** A total increase of \$67,244 over the current year is due to the operation of the school on a full year basis for the first time, and to the expansion of enrollment by 175 students. This has brought about an increase of \$41,950 in feeding costs alone.

**EQUIPMENT:** The total request of \$2,500 is a decrease of \$2,564 over the current year. Of this amount, \$1,500 is for feeding equipment that will be purchased using funds provided by the school lunch program. The balance of the request is for miscellaneous items needed to operate the school.

## Department of Education

## SCHOOL FOR CEREBRAL PALSIED CHILDREN, NORTHERN CALIFORNIA

A residential school for the education and treatment of children afflicted with cerebral palsy, temporarily located at Redwood City. Students are enrolled from 3 to 12 months and are then returned to their local district facilities for continued medical supervision and treatment by the State Department of Public Health, and for special education in the local district schools. A diagnosis and treatment center is maintained through cooperation with the University of California School of Medicine, which provides diagnoses and clinical treatment for all children with cerebral palsy who are referred to the center.

LINE	EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54	CHANGE FROM 1952-53
1	<b>SUMMARY AND</b>				
2	<b>RECONCILIATION WITH APPROPRIATIONS</b>				
3					
4	<b>General Fund</b>				
5					
6	<b>SUPPORT</b>				
7	Budget Act appropriation-----	\$272,042	\$283,410	\$295,205	
8	Allocations from Salary Increase Fund-----	13,037	11,791	-

## SCHOOL FOR CEREBRAL PALSID CHILDREN, SOUTHERN CALIFORNIA

Residential school for the education and treatment of children afflicted with cerebral palsy, temporarily located at Altadena. Students are enrolled 3 to 12 months and are then returned to their local district facilities for continued medical supervision and treatment by the State Department of Public Health, and for special education in local district schools. A diagnostic treatment center is maintained under contract with the Children's Hospital and the Orthopedic Hospital in Los Angeles, which provides diagnosis and clinical treatment for all children with cerebral palsy who are referred to the center.

## GENERAL ANALYSIS

16					
17					
18					
19					
20	Number of positions	53.7	55.1	55.1	-
21					
22	<b>ENROLLMENT AND UNIT COSTS</b>				
23	Average student enrollment—resident students	28	29	30	-
24	Average cost per student (excluding diagnostic and treatment costs				
25	for nonresident children)	\$7,878	\$8,841	\$8,344	—\$497
26					(—5.6%)
27	The budget proposes a continuation of the 1952-53 level of activities. The increase of \$8,973 in Salaries and Wages represents increased				
28	cost of existing positions. There are minor adjustments in operating expenses and equipment expenditures represent a decrease of				
29	\$7,808 over that allowed in the current year in which a school bus is being purchased.

## OAKLAND ORIENTATION CENTER

The Oakland Orientation Center was established September 22, 1951, by Chapter 1144 of Statutes of 1951. The orientation center shall admit blind persons as residents and trainees in an intensive program designed for the preparation of blind persons for useful and remunerative work in trades, professions, private business, private industry or public service.

## GENERAL ANALYSIS

Number of positions-----	35.1	49.5	54	4.5 (9.1%)
<b>POPULATION AND UNIT COSTS</b>				
Average resident population-----	86	89	89	-
Cost per resident member-----	\$1,843 (9 Mo.)	\$2,527	\$2,785	\$258 (10.2%)

The orientation phase of this agency's program as outlined by Chapter 1144, Statutes of 1951 began in the current year with 10 resident students. This enrollment will increase to approximately 20 students in the budget year. This increase in the agency's program is reflected in the following changes in this budget:

**SALARIES AND WAGES:** Provides for four additional teachers at a cost of \$14,880 to train the students in a very intensive program that has to be highly individualized due to their handicap.

**OPERATING EXPENSES:** A net increase of \$11,917 due primarily to maintenance functions that have been transferred from the Oakland Center, California Industries for the Blind to this agency, which will be reimbursable, and to other minor operating adjustments.

**EQUIPMENT:** Amount requested (\$2,595) is a decrease of \$1,457 over 1952-53. The request includes \$955 for feeding equipment, and the balance for various small items required to operate the agency.

**REIMBURSEMENTS:** Of the \$7,369 increase, \$6,274 is for new plant maintenance and \$1,095 for additional services to employees for new services to the Oakland Center, California Industries for the Blind.

## Department of Education

## LOS ANGELES CENTER, CALIFORNIA INDUSTRIES FOR THE BLIND

Provides sheltered factory employment to blind and partially blind persons who are not able to obtain or retain jobs in private industry. Industrial training and vocational guidance is also given to enable blind persons to contribute to their own support. The educational and training activities are a direct charge against the support budget. Manufacturing activities are financed from working capital supplied by the Manufacturing Revolving Fund, as shown in the Appendix.

49					
50	The new factory trades building now under construction will be completed by the first part of the budget year. The budget provides the following changes:				
51					
52	SALARIES AND WAGES: The addition of one intermediate account clerk at a cost of \$2,640 is allowed in order to handle the work load of the accounting office. One 0.3 position of intermediate clerk and one 0.3 position of janitor is provided for the Opportunity Work Center in San Jose to give needed assistance, at a cost of \$1,584.				
53					
54					
55					
56					
57	OPERATING EXPENSES: An increase of \$11,222 over the current year is due primarily to increased costs in connection with the new Factory Trades building, and to maintenance repair items that formerly have been financed through capital outlay.				
58					
59					
60	EQUIPMENT: The allowance of \$5,815 is an increase of \$2,476 over the current year. Of this amount \$4,036 is allowed for the purchase of a replacement bookkeeping machine. Further review of this item will be given before final approval.

## SAN DIEGO CENTER, CALIFORNIA INDUSTRIES FOR THE BLIND

Provides sheltered factory employment to blind and partially blind persons who are not able to obtain or retain jobs in private industry. Industrial training and vocational guidance is also given to enable blind persons to contribute to their own support. The educational and training activities are a direct charge against the support budget. Manufacturing activities are financed from working capital supplied by the Manufacturing Revolving Fund as shown in the appendix.

35					<b>(—28.5%)</b>
36	Cost per Opportunity Work Center worker -----	—	434	434	—
37					
38	This budget provides a decrease of \$8,517 in cost of operations over the 1952-53 Fiscal Year. The reduction of one intermediate stenographer-clerk in the budget year is due to reduced work load resulting from curtailed manufacturing operations. Also, a reduction of \$6,600 is due to replacement of fire loss in current year.

## TEACHERS' RETIREMENT SYSTEM

Administers through the State Teachers' Retirement Board, the Teachers' Retirement Act. Computes, collects, records, invests, and refunds contributions, and computes and pays retirement benefits. Members of the system consist of certificated employees of the Public School System and employees of state departments holding valid teaching credentials who have elected to join the State Teachers' Retirement System.

## GENERAL ANALYSIS

Number of positions ..... 30.4 32 33 1

The Teachers' Retirement System will continue its steady growth into the budget year, with an increase of active and retired accounts of 13,500 or 9 percent over 1952-53. It is estimated that 163,500 teachers will be covered by this system by June 30, 1954.

**SALARIES AND WAGES:** The increase of \$4,249 is occasioned primarily by salary increases and the assumption that all positions presently authorized will be completely filled in 1953-54 because of enlarged working area.

**OPERATING EXPENSES:** The decrease of \$6,770 results from anticipated elimination of expenditures for utilities, rent, and moving expense, all due to moving of this office to the new Education Building.

**EQUIPMENT:** A total of \$3,529 is proposed, a decrease of \$2,911 from 1952-53. This amount provides normal filing and handling equipment for increased membership in the retirement system.

26					
27	The operating program of the University of California for 1953-54 involves total budgetary provisions in the amount of \$67,051,437 from regular state and university sources of support other than trust and contract funds. The total budget requested represents an increase of \$5,130,902 over authorized expenditures for the current year, more than half of which, \$2,719,195, represents a 66.1 percent increase in "new and extended" programs, and the balance of \$2,411,707 constitutes a 4.2 percent larger provision for maintenance of "regular and continuing" activities.				
28	Budget proposals for significant new activities or extensions of existing activities in 1953-54 and provisions required for recently inaugurated departments or other units whose initial development is not substantially complete are summarized in the table below; also included are provisions for special research projects undertaken by the university as a result of specific legislation.

69					
70					
71	<sup>b</sup> Represents three graduate students full year plus 625 undergraduates in College of Letters and Science, Spring Semester only.				
72	<sup>c</sup> Excludes expenditures and enrollment, if any, for the following activities and functions: (1) Summer Sessions, Extension Divisions, Vocational Education, College of Letters and Science at Riverside, School of Medicine at Los Angeles and new hospitals at Los Angeles and San Francisco; (2) Organized Research Activities—such as the Scripps Institute of Oceanography at La Jolla, the Citrus Experiment Station at Riverside, Lick Observatory at Mt. Hamilton, the Institute of Experimental Biology, etc. (however, unit costs include expenditures for research and investigation carried on by academic personnel under departmental or Agricultural Experiment Station auspices. These are particularly significant in the College of Agriculture at Davis, Berkeley, and Los Angeles, and in the Medical Center at San Francisco); (3) Auxiliary Enterprises, such as dormitories and dining halls (however, unit costs include expenditures for student health service); and (4) Organized activities of educational departments such as the University Creamery at Davis, and the Optometry Clinic at Berkeley, which are supported out of their own income (however, unit costs include expenditures for the University Hospital at San Francisco in excess of its income).

39					
40	The overwhelming proportion of the increases for these new and extended activities are required by commitments already undertaken				
41	by the university to meet its responsibilities in the growing State of California, notably for establishment of schools of law, nurs-				
42	ing and medicine on the Los Angeles campus, for expansion of the Medical Center at San Francisco and for development of new				
43	colleges of letters and science at the Davis and Riverside campuses. Four new agricultural research projects of greatest need,				
44	out of many well-supported demands for special research urged upon the university by responsible members of the industry, are				
45	recommended at a cost of some \$104,000 in 1953-54. Only two new activities of a continuing nature—an Institute of Near and				
46	Middle Eastern Studies at Los Angeles and an Institute of Marine Resources at La Jolla—are proposed at a cost of \$94,996 in				
47	the coming year.				
48	The departmental budgets for salaries in 1953-54 include provisions for regular merit increases due under established academic and				
49	nonacademic salary schedules and for academic promotions normally to be expected under existing university academic personnel				
50	policies. These provisions, together with other minor adjustments for returns from leave, changes in percentage of time, etc.,				
51	aggregate \$1,358,000 for the budget as a whole. They constitute a virtually fixed requirement accounting for \$1,193,000, or 54%,				
52	of the increase in "regular and continuing" activities budgets. The remaining \$1,218,707 of increase in "regular and continuing"				
53	activities represents a 2.1% augmentation of budgeted expenditures for 1952-53 and is required for a wide variety of needs on the eight				
54	campuses of the university.				
55					
56					
57	<b>ENROLLMENT</b>				
58					
59	Widespread increases in 1952 fall semester registrations support estimates of the registrars on the various campuses that enrollments in				
60	1953-54 will equal or exceed those for the present year. Following two years of sharp decline from the postwar peak, registrations for				
61	the current year have leveled off only moderately below the number for 1951-52. The 32,669 registrations now estimated for 1952-53 are				
62	more than 1,500 above the registrars' estimates for the year made last spring. The new level of enrollment is a decrease of only 2.8				
63	percent below the number for 1951-52, instead of an expected drop of 6.9 percent.				
64	Barring unforeseen changes in military manpower requirements, enrollment for 1953-54 is currently estimated at an average of 33,049				
65	students. This would represent an increase of 380 students, the first gain in over-all university enrollment since 1947-48. The increase				
66	also would mark the second year of gain in the number of lower division students and, with a slight increase, an upward reversal of				
67	trend for upper division students. However, a further minor decline is expected in the total number of graduate students. With con-				
68	tinuation of the decline in the number of veteran students, the estimates reflect an extension of the steady increase in nonveterans.				
69	Except at Los Angeles, the estimates do not anticipate a material effect on registrations from returning Korean veterans. On that				
70	campus this factor is expected to become increasingly important, registration of 1,000 Korean veterans being forecast for the fall				
71	semester 1953 and 1,200 in the spring semester 1954. Should this factor become equally important elsewhere, general enrollment may				
72	prove even larger than now forecast.				
73	The prospect of a leveling off and a turning point in registration trends occurring this year and next, barring increases in military man-				
74	power requirements, is in accordance with fundamental long-range factors. Outstanding among these are the gradually increasing birth				
75	rates of the late 1930's which in turn have resulted in moderate increases in the new crop of college students coming up through the				
76	high schools.				
77	Enrollment estimates for 1953-54 show increases on all campuses except Berkeley and Santa Barbara, where the recent declines are				
78	expected to carry over into 1953-54, but at a reduced rate. At Berkeley a decrease of 4.5 percent is expected compared with 5.9 percent				
79	this year (measured from the previous year in each case). At Santa Barbara a decline of 3.3 percent for 1953-54 is forecast compared				
80	with a decrease of 4.4 percent for 1952-53. In both instances the decline in registrations this fall was sharply smaller than earlier				
81	forecasts had indicated, at Berkeley being less than half the estimated reduction and at Santa Barbara less than two-thirds. At				
82	Riverside an initial enrollment of 625 is estimated for the new College of Letters and Science which is scheduled to open in the spring				
83	semester of 1954. Similarly at Davis, further expansion of enrollment in Letters and Science, which opened in the fall of 1951, is				
84	reflected in the projected increases.				
85					
86					

## UNIVERSITY OF CALIFORNIA—Continued

LINE	EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54	CHANGE FROM 1952-53
1					
2	<b>INCOME AND AVAILABLE FUNDS</b>				
3					
4	Total current income of the university from sources other than state support, gifts, endowments and payments under contracts is				
5	estimated at \$13,549,487 in 1953-54, a net decline of only \$8,999 from the current year's total of \$13,558,486. Changes in estimated				
6	receipts from principal sources for the two years are described below.				
7					
8	<b>Veterans' Tuition:</b> The estimated decrease of \$247,397 in revenues from veterans' tuition reflects the continued decline of veterans'				
9	entitlements under Public Laws 16 and 346. The anticipated increase of \$281,697 in revenues from regular session fees is due to				
10	the expected increase in student enrollment.				
11					
12	<b>Summer Sessions:</b> Fee income from summer sessions shows a decrease of \$110,742 due to an estimated decrease in enrollment from				
13	16,232 in 1952 to 13,861 in 1953. The budgeted expenditures have been reduced accordingly, so as to keep the 1953 summer session				
14	on a self-supporting basis.				
15					
16	<b>Extension:</b> The decrease of \$50,000 in fee income of the university extension anticipates a decline in enrollment in the Far East				
17	Command Program with a corresponding reduction in proposed expenditures. The estimated income from regular activities of				
18	university extension remains unchanged from the \$1,700,000 budgeted for 1952-53, but the general fund subsidy for 1953-54 has				
19	been increased slightly from \$512,794 to \$537,931 to meet merit salary increases and a modest strengthening of administration.				
20					
21	<b>Hospitals and Infirmaries:</b> The increase of \$133,913 in the income of hospitals and infirmaries in 1953-54 is accounted for mainly				
22	by anticipated new income of \$75,000 from the department of radiology and \$30,000 from the dietary kitchen of the new teaching				
23	hospital at Los Angeles. An additional \$10,000 is expected to be earned by the dietary kitchen of the Herbert C. Moffitt Teaching				
24	Hospital at San Francisco.				
25					
26	<b>Residence and Dining Halls:</b> Revenues from operations of residence and dining halls show a decrease of \$64,302. This is due chiefly				
27	to the discontinuation of university-operated meal service at the men's faculty club, Berkeley, \$60,000, and minor decreases in the				
28	other units. Expenditures of residence and dining halls on all campuses are budgeted entirely from income of these operations.				
29					
30	<b>Departmental Sales and Miscellaneous:</b> The largest single item accounting for the increase of \$82,806 in anticipated income under the				
31	heading of departmental sales and miscellaneous is the estimated earnings of \$30,270 by the new college bookstore at Riverside.				
32	After an initial proposed subsidy of \$2,275 from general university funds in 1953-54, the bookstore is expected to be entirely self-				
33	sustaining. Of the balance of the increase, \$21,960 is attributable to expected additional interest on current fund investments and				
34	the remainder to increased sales returns on a variety of items.				
35					
36	<b>Special State Funds:</b> The decrease in special fund income from the State of California of \$36,724 pertains entirely to funds for				
37	vocational education, as a result of the transfer of activities in connection with preparation of text materials for apprenticeship				
38	training from the university to the State Department of Education.				
39					
40	<b>Federal Funds:</b> The increase of \$1,750 in receipts anticipated from the federal appropriations is applicable mainly to activities				
41	in the College of Agriculture. Allocation for current purposes out of receipts from overhead on federal contracts is expected to				
42	continue at the current year's level of \$600,000.				
43					
44	<b>Adjustments:</b> In addition to current income of \$13,549,487 the funds available for 1953-54 reflect the inclusion of \$628,537 carried				
45	forward out of 1951-52 general university fund income, and \$250,000 representing excess savings in budgeted salary provisions for				
46	1952-53, over and above the \$950,000 anticipated by the university in its budget for that year.				
47					
48	<b>General Fund:</b> For this reason, although current income for university funds is estimated to decline only \$8,999 in 1953-54, it is				
49	necessary to request an increase of \$4,514,302 or 9.4 percent in the state appropriation for support to meet the proposed increase				
50	in total expenditures of \$5,130,902, or 8.3 percent.				
51					

## PRINCIPAL ELEMENTS OF INCREASE

The principal elements of the budget increases proposed for 1953-54 are in the following areas:

- Medical sciences expansion,
- Development of Colleges of Letters and Science at Davis and Riverside,
- Agricultural sciences,
- Business office operations,
- Libraries,
- Development of Los Angeles campus.

## MEDICAL SCIENCES EXPANSION

University programs in the fields of medical sciences and allied activities will assume even greater proportions in 1953-54. With budgets totalling nearly 10 million dollars, planned operations in these fields will take nearly 15 percent of the total university operating budget, compared with 13 percent during the current year. Recommended increases, even after deletion of more than one-third of amounts requested, will make up 36.6 percent of the increases asked for the whole university.

The coming year will see the breaking in of the two new teaching hospitals in Los Angeles and San Francisco and near-completion of the build-up of the university's second medical school at Los Angeles which is scheduled to move into its new quarters late in the year and, with but few exceptions, to round out its professional staffing. These new activities, together with a continuation of the building up of the Los Angeles School of Nursing, will require increases of \$1,369,301, up 86.8 percent from 1952-53.

Activities in the other medical sciences units require an increase of \$506,523, or 7.8 percent, to a total of \$7,015,263.

Provisions for the various units are tabulated below followed by a brief description of the more important developments.

	ESTIMATED EXPENDITURES 1952-53	PROPOSED EXPENDITURES 1953-54	CHANGE FROM 1952-53 AMOUNT	%

24	TOTAL -----	\$8,084,804	\$9,960,628	\$1,875,824	23.2
25					
26	College of Dentistry, San Francisco -----				Increase \$28,204
27					
28	No significant change is planned in the dentistry program for 1953-54. Classes admitted will still remain at 60 dental students and 15				
29	dental hygiene students. However, in 1954-55, when space in the new Medical Sciences Building becomes available, expansion of				
30	the size of the classes is planned.				
31	Of the increase, \$16,482 is for merit salary increases and promotions, and \$1,544 will provide for an assistant dean of the college.				
32	Modest increases in operating expenses and equipment are also provided.				
33					
34	School of Medicine, San Francisco -----				Increase \$187,814
35					
36	No major changes are planned for 1953-54; the increase will provide \$63,318 for normal merit increases and promotions, as well as				
37	the rounding out of personnel, supplies and expense, and equipment in areas not up to desirable standards. The budget includes				
38	14.2 (FTE) academic and two (FTE) nonacademic new positions.				
39					
40	School of Nursing, San Francisco -----				Increase \$35,883
41					
42	The increase in this budget is designed primarily to provide staff more nearly commensurate with the existing student load and its				
43	planned expansion. The beginning class was increased 30 students this fall, and it is planned to increase the size of the spring				
44	1953 class by 20 additional students. Four additional instructors at \$18,960 and \$7,940 for additional lecturers in 1953-54 will				
45	make possible the instruction of this increased enrollment.				
46					
47	College of Pharmacy, San Francisco -----				Increase \$21,604
48					
49	The College of Pharmacy plans no major change in program, nor increase of student load. The increases cover \$11,844 for merit salary				
50	increases and promotions, a secretary-stenographer at \$2,772 in the dean's office, and a laboratory helper at \$2,400.				
51					
52	Medical Center Library, San Francisco -----				Increase \$22,650
53					
54	This budget reflects a consolidation of the limited library facilities of the pharmacy, dentistry and nursing schools with the School of				
55	Medicine library to form a single Medical Center library with more adequate staff and facilities. Necessary provisions in the				
56	1953-54 Budget include an additional typist-clerk, a secretary-stenographer and approximately \$32,000, an increase of \$12,000, for				
57	books and binding. The Medical Center Library, apart from the Stanford-Lane Library, is the only existing major collection on				
58	medical sciences on the Pacific slope.				
59					
60	School of Medicine, Los Angeles -----				Increase \$475,016
61					
62	The budget for 1953-54 carries forward the plan of progressive build-up of this new school and contemplates admission of a third entering				
63	class of 36, continuation of instruction of the 60 students in the first and second year classes and the training of some 30 to 50 grad-				
64	uate students. Upon full occupancy of the new hospital and medical sciences units in 1954-55, expansion of the size of entering classes				
65	to 50 per year is planned, with a resultant attainment of a full load of 200 medical students by 1956-57. At the same time it is antici-				
66	pated that graduate students will increase to approximately 150.				
67	The budget is based on the expectation of occupying part of the Medical School building by late spring of 1954 and is closely correlated				
68	also with the opening and operation of the new Teaching Hospital for patient care in July, 1954.				
69	Provisions for 35.1 additional academic positions will allow most of the major departments to round out their key personnel roster in				
70	1953-54. However, need will remain for some additional expansion in 1954-55 to complete the roster for fourth year class instruction.				
71	Once this senior faculty has been acquired, however, subject to limitation of physical facilities, the number of students can be				
72	increased greatly, with only a relatively small cost in additional low-rank faculty and nonacademic assistants. In the 1953-54 Budget				
73	28.5 new nonacademic positions are also requested at a cost of \$90,490, together with increases of \$42,547 in General Assistance and				
74	\$10,700 in Supplies and Expense. The Biomedical Library is expanded by \$19,100 to provide an additional \$14,000 in books and				
75	\$5,000 in binding.				
76					
77	School of Nursing, Los Angeles -----				Increase \$14,918
78					
79	During 1953-54 the School of Nursing at Los Angeles will also continue the build-up program of recent years. Of the increase, \$13,470				
80	will provide two full-time-equivalent new academic positions and one new nonacademic position to meet further needs for putting				
81	the planned program into operation.				
82					
83					
84					
85					
86					

## UNIVERSITY OF CALIFORNIA—Continued

LINE	EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54	CHANGE FROM 1952-53
<b>PRINCIPAL ELEMENTS OF INCREASE—Continued</b>					
1					
2					
3					
4	<b>Teaching Hospital, Los Angeles</b>				Increase \$480,018
5					
6	The 1953-54 Budget for the Teaching Hospital, Los Angeles, is based on an expected occupancy of the new building during the January-March quarter of 1954, followed by a period of staff build-up and trial operation of approximately three months' duration. Actual operation of the 324-bed Teaching Hospital will follow immediately upon completion of the trial run, beginning July 1, 1954, so that the first provision for reasonably full operation of the facility will fall in the budget for the subsequent year, 1954-55.				
7	New positions, which are planned to be added progressively as break in operations get under way, will cost \$107,699. These will be equivalent to 25.2 man-years of service. Increase of \$278,170 in General Assistance are also required to provide operating staff.				
8	It is estimated that the hospital will produce income of approximately \$105,000 during 1953-54, \$75,000 from the operation of the hospital radiology department temporarily established in the Weyburn Building and \$30,000 from meal service by the hospital dietary department.				
9					
10					
11					
12					
13					
14					
15					
16	<b>Moffitt Teaching Hospital, San Francisco</b>				Increase \$399,349
17					
18	Occupancy of the new Moffitt Teaching Hospital is planned on approximately March 1, 1954, followed by a period of some four months during which furniture and equipment will be moved in, staff will be recruited, trained, and indoctrinated and equipment and procedures tested. Opening of the hospital for patient care is anticipated for July 1, 1954. Initial occupancy of 165 is planned with progressive buildup to the total capacity of 483 adult beds, and 50 bassinets.				
19	For the preparatory and breaking-in activities falling in 1953-54, the budget proposes 77.4 full-time equivalent new positions which will cost \$123,671. This will provide the balance of the key staff who will form the nucleus of experienced personnel to direct the additional staff to be added during the first four months of initial operation. In addition there are increases of \$129,772 for general assistance operating personnel, and \$145,549 for supplies and expense.				
20					
21					
22					
23					
24					
25					
26					
27					
28	<b>DEVELOPMENT OF COLLEGES OF LETTERS AND SCIENCE AT RIVERSIDE AND DAVIS</b>				
29					
30	Increased expenditures for development of the new College of Letters and Science at Riverside, which is scheduled to open in the spring semester of 1954, and for further development of the college at Davis amount to \$571,026 or 11.1 percent of the increase for the entire budget. Total provisions for these new colleges and their related library, administration and service units in 1953-54 are set at \$1,622,267, as described below.				
31					
32					
33					
34					
35	<b>Davis</b>				Increase \$158,255
36					
37	Of the increase, \$84,545 is recommended for the second year's operation of the College of Letters and Science at Davis, including 14.2 (FTE) new positions (12.2 academic and 2 nonacademic) with aggregate salaries of \$53,298 to provide essential teaching staffs for departments inaugurated in 1952-53 and to expand curricula offerings in other departments transferred from the College of Agriculture. By 1953-54, third and fourth year courses will be needed in all departments offering majors, and a solid core of service courses will be needed in the nonmajor departments. This represents a final step in filling the necessary posts to complete what was considered to be the minimal staff with which the beginning of a letters and science college could be operated. It is anticipated that much of the 11.4 percent enrollment increase predicted for 1953-54 at Davis will occur in letters and science and home economics.				
38	Further, an increase of \$73,710 is recommended for library and research expense, of which \$10,000 is for faculty research and research travel which is essential for recruitment and retention of an able academic staff and \$57,390 is necessary to make reasonable progress toward building a first-class library commensurate with the needs of the College and the Davis campus. In addition \$6,320 is provided for a special research project on weed control.				
39					
40					
41					
42					
43					
44					
45					
46					
47					
48					
49	<b>Riverside</b>				Increase \$412,771
50					
51	With opening of the new College of Letters and Science at Riverside scheduled for the spring semester of 1953-54, the proposed budget of \$283,185, an increase of \$242,250 over the 1952-53 budget, provides for a half year of instructional activity. The budget is planned to inaugurate a well-integrated liberal arts college with five major instructional divisions: Humanities, Physical Education, Life Sciences, Physical Sciences, and Social Sciences, each headed by a divisional chairman, offering instruction in 28 subject-matter fields. Emphasis is placed on recruiting a young staff; of the 60 additional academic positions provided (on a half-year basis), aside from the dean and five divisional chairmen, 10 are at the associate professor level, 29 at assistant professor, and 21 at instructor rank or lower. The registrar has estimated a student enrollment of 625 for the spring semester. A schedule of course offerings preparatory to publishing a campus announcement is now being formulated.				
52	In addition, development of the college requires an increase of \$84,664 for necessary expansion of the Letters and Science Library to provide the nucleus for work in the liberal arts and \$5,000 for faculty research assistance and travel.				
53	The seven campus-wide administrative and service departments under the provost will require increases aggregating \$80,857 to provide for new offices of dean of men, dean of women, public information and student health service, as well as augmented provisions for the office of the provost and the registrar-admissions office.				
54

57					
58					
59					
60					
61					
62					
63					
64					
65					
66	<b>DIVISION OF AGRICULTURAL SCIENCES</b>				
67					
68	The proposed 1953-54 Budget provides a total of \$11,810,605 for the Division of Agricultural Sciences, which includes the colleges of agriculture at Davis, Berkeley, and Los Angeles, the citrus experiment station at Riverside, and the state-wide agricultural extension service, agricultural experiment station, and Giannini Foundation for agricultural economics. As summarized below these provisions represent an increase of \$837,994, or 7.1 percent over the 1952-53 budget. \$163,518 of the requested increase is for new and extended activities, involving development of five departments recently established or provided with new facilities and support of special research projects inaugurated at the request of the Legislature or to meet other urgent needs. For regular and continuing operations of the division the increase aggregates \$674,476 or 6.1 percent.

13	Riverside-----	1,282,332	1,458,046	175,714	12
14					
15	Totals, Agricultural Sciences:				
16	New and Extended Activities (Schedule A)-----	627,175	790,693	163,518	20.7
17	Regular and Continuing Activities-----	10,345,436	11,019,912	674,476	6.1
18	Total-----	\$10,972,611	\$11,810,605	\$837,994	7.1
19					
20					
21	Under Regular and Continuing Activities the largest increase is \$232,160, to enable the Agricultural Extension Service to meet the				
22	more urgent requests of farm people for additional farm and home advisers and subject matter specialists. All lines of extension				
23	activity have mounted steadily since the war and more and more farmers are coming to the Agricultural Extension Service for				
24	technical advice and assistance. During 1951, the county staffs were called upon to make 106,632 farm and home visits and pro-				
25	vided technical advice to 451,749 people who called on them at their offices. They presented information to the people of the State				
26	in 19,748 news stories and 6,964 radio talks, and distributed 803,777 bulletins. In 1951 the staff conducted 21,767 educational				
27	meetings attended by 778,699 people, as contrasted with 19,806 meetings attended by 664,589 people in 1947. Enrollment in 4-H				
28	Clubs was 56 percent higher in 1952 than in 1948. For 1953-54 five counties have already appropriated funds for the expenses of				
29	additional farm and home advisers, and four other counties have given assurance that such appropriations will be made as soon as				
30	Extension personnel can be supplied.				
31	The increases proposed for regular and continuing departments of instruction and research on the Berkeley, Davis, Los Angeles, and				
32	Riverside campuses are almost entirely for expanded research, mainly to provide technical assistance and necessary equipment for				
33	the present staff. At Berkeley there is need to expand work on strawberry mites, control of diseases affecting flowers and orna-				
34	mentals grown in the north, and basic research in the field of photosynthesis. At Davis, the proposal includes expansion of research				
35	on walnut diseases, irrigation studies on cotton and turf, and vegetable experiments at the field station recently provided by the				
36	growers of the Salinas Valley. The largest increases at Los Angeles are for maintenance and equipment of new facilities, mainly				
37	greenhouses, and for expansion in research on avocado root-rot disease and on the relation of harvest and storage practices to				
38	quality of fruit. Over half of the increase for Riverside is for maintenance of orchards. Because of lack of maintenance funds in				
39	the past, university orchards have become heavily infected with red scale and much of the equipment is old and obsolete.				
40	New and extended activities of the division include the Forest Products Laboratory at Berkeley, whose development is at an early stage				
41	since its facilities at the Richmond Field Station will probably not be completed before mid-1954. The proposed increase of \$14,060				
42	will enable the appointment in 1953-54 of the technical director for preparatory work and developing support of the industry prior				
43	to actual research operations in 1954-55. At Davis, proper development of the departments of Food Technology for which \$17,052				
44	additional is now proposed, Home Economics with \$19,060 proposed, and Poultry Husbandry with increases of \$20,544, has been				
45	prevented, until recently, by lack of adequate facilities. With the availability of new buildings, the additional funds requested will				
46	make it possible to staff these departments more adequately and to provide facilities necessary for more effective operation. The				
47	Department of Floriculture and Ornamental Horticulture at Los Angeles has made marked progress since its establishment in 1946,				
48	but is still seriously handicapped by lack of necessary equipment and assistance. The increase of \$16,576 will meet the more urgent				
49	needs for 1953-54.				
50					
51	Net increases of \$76,226 for 10 special research projects are proposed, including four new research projects budgeted at \$104,815				
52	initiated to meet urgent demands:				
53					
54	Citrus Grove Rejuvenation, Riverside-----				\$70,044
55					
56	The valuable citrus industry of California is experiencing progressively declining yields per acre and reduction in size of fruit. Unless				
57	these downward trends are checked, citrus production in this state will largely disappear, with consequent loss to growers and				
58	jeopardy to the tax base of numerous communities. To meet this urgent problem a substantial part of the resources of the Citrus				
59	Experiment Station will be mobilized for immediate expansion of specific research, but to do so will require additional funds for				
60	technical and field assistants and related expense and equipment.				
61					
62	Small-seeded Legume Harvest-----				\$8,070
63					
64	Improvement in methods of threshing crops such as alfalfa and clover are urgently needed. Under present methods up to one third of				
65	the seed produced is lost in threshing—a loss of around five million dollars a year. Additional research on the mechanical factors				
66	of harvesting will be undertaken to obtain larger yield of seed and prevent damaging of seed in the harvesting process.				
67					
68	Use of Aircraft in Agriculture-----				\$5,100
69					
70	This provision is made for the design and testing of special aircraft equipment to improve the efficiency of seeding and dusting by air.				
71					
72	Poultry Diseases Research-----				\$21,601
73					
74	In order to cope with an apparently new respiratory disease which is threatening the poultry industry of the State, the above sum is				
75	being proposed for necessary nonacademic assistance to the professional staffs of the Departments of Veterinary Science and				
76	Poultry Husbandry who will cooperate in combating the disease.				
77					
78	A decrease of \$23,355 for Oriental Fruit Fly Investigations on three campuses is possible because of the successful completion of major				
79	phases of this research, while acquisition of important units of nonrecurrent equipment in 1952-53 enables a reduction in the				
80	amount needed for Southern California Berry Investigations in the coming year.				
81					
82

## UNIVERSITY OF CALIFORNIA—Continued

LINE	EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54	CHANGE FROM 1952-53
1	<b>BUSINESS OFFICE OPERATIONS</b>				
2					
3					
4	Business operations for all campuses of the university, carried on through the local business offices under the state-wide coordination of the				
5	vice president-business affairs, account for \$8,277,622, or 12.4 percent of the total university budget for 1953-54. These operations				
6	include maintenance and operation of physical plant facilities and planning their construction; operation of such auxiliary enterprises				
7	as residence and dining halls, etc., and central service facilities, such as purchasing, cashiering, pooled automobile and mailing				
8	services, etc.; and the general management of business affairs. The increases in the budgets for the business office for the coming year,				
9	as summarized by campus below, total \$676,036 or 8.9 percent, of which approximately \$87,000 is to meet the cost of normal merit				
10	salary increases, and some \$150,000 is to cover wage increases granted to general assistance personnel, in line with prevailing union				
11	wages and State pay rates for corresponding crafts.				
12					
13					
14					
15	State-wide -----	\$568,773	\$625,246	\$56,473	9.9
16	Berkeley -----	3,098,608	3,113,263	14,655	0.5
17	Davis -----	1,358,733	1,459,673	100,940	7.4
18	La Jolla -----	171,669	183,306	11,637	6.8
19	Los Angeles -----	1,518,132	1,607,255	89,123	5.9
20	Riverside -----	155,732	341,235	185,503	219.1
21	San Francisco -----	279,914	495,203	215,289	76.9
22	Santa Barbara -----	450,025	452,441	2,416	0.5
23	Totals, Business Office:				
24	New and extended activities (see schedule A) -----	435,646	836,438	400,792	92
25	Regular and continuing activities -----	7,165,940	7,441,184	275,244	3.8
26					
27	Totals -----	\$7,601,586	\$8,277,622	\$676,036	8.9
28					
29	Substantial additions and extensions of business office activities at Riverside and San Francisco required to serve the new developments				
30	there make up \$400,792 of the increase. Almost all of the increase for "regular and continuing" activities, likewise, reflects services				
31	required for new buildings and facilities on other campuses to be brought into use during 1953-54, or for which the cost of a full				
32	year's operation will be included in the budget for the first time.				
33	At Riverside an increase of \$152,958 is primarily due to the additional service load for the five new letters and science buildings and				
34	the 53 acres of ground to be occupied by them; the weighted area of buildings to be maintained will be increased by 192,593 square				
35	feet, or 180 percent. The new college bookstore adds \$32,545 to the budget total, but is covered, except for an initial subsidy of				
36	\$2,275 for equipment, by estimated income from sales. Future operations will be maintained on a self-supporting basis.				
37	At San Francisco, the increase of \$215,289, likewise, is almost wholly due to the scheduled completion of new facilities—the Medical				
38	Sciences Increment No. 1, Incinerator and A.C.T.H. Laboratory buildings. These will add 168,833 square feet, or 57 percent, to				
39	the weighted building area requiring maintenance and service. In addition, the 372,600 square-foot Moffitt Hospital is scheduled				
40	for occupancy late in the year, but its maintenance will be provided in the budget for the hospital.				
41	On the other campuses the major items of increase, aside from wage rate adjustments, are:				
42	In the state-wide account four new positions are provided, three for purchasing and inventory work at Berkeley and Los Angeles,				
43	and one, a secretary, for the hospital director's office.				
44	At Berkeley increases reflect higher rates for prevailing wage employees and requirements for servicing the new home economics building.				
45	At Davis 14 new positions and related provisions are required for servicing the expanded ground areas and physical plant and a \$20,000				
46	augmentation of provision for maintenance and repair is made to meet current needs.				
47	At La Jolla the increases are needed for janitorial and repair service for the new wing of Ritter Hall and maintenance of the recently				
48	acquired Mission Beach property.				
49	At Los Angeles an additional policeman and increased provisions are required for enlarged areas to be served, and higher rates for				
50	prevailing wage personnel must be covered.				
51	At Santa Barbara, the only sizable increase is for standby upkeep and maintenance of Goleta Campus buildings and facilities. The budget				
52	is presented on the basis of continued occupancy of the present Rivera and Mesa campuses during 1953-54, since completion of the				
53	new buildings at Goleta in time for the fall term 1953-54 now seems improbable. When the move to the new campus is made,				
54	additional business office budget requirements for a full year's operations on the Goleta campus are estimated at \$175,000.				
55					
56					
57	<b>LIBRARIES</b>				
58					
59	Library needs for 1953-54 require a \$504,561 increase in support to a total of \$3,447,572 for the University as a whole, up 17.1 percent				
60	over 1952-53. Very large increases are required at Riverside and Davis for the building up of libraries for the new Colleges of Let-				
61	ters and Sciences and at San Francisco for the development of the newly consolidated Medical Center library. At Los Angeles sig-				
62	nificant expansion of facilities is also covered, while at all campuses additional support is required to offset substantially increased				
63	prices for books, serials and binding. Library provisions for the various campuses are summarized and explained for Berkeley and				
64	Los Angeles below.				
65					
66	State-wide -----	\$8,760	\$9,058	\$298	3.4
67	Berkeley -----	1,568,849	1,717,949	149,100	9.5
68	Davis -----	152,760	210,150	57,390	37.6
69	La Jolla -----	23,548	31,980	8,432	35.8
70	Los Angeles -----	933,733	1,110,215	176,482	18.9
71	Riverside -----	70,066	156,735	86,669	123.7
72	San Francisco -----	68,143	90,793	22,650	33.2
73	Santa Barbara -----	117,152	120,692	3,540	3.0
74					
75	Totals -----	\$2,943,011	\$3,447,572	\$504,561	17.1
76

86					

## UNIVERSITY OF CALIFORNIA—Continued

LINE	EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54	CHANGE FROM 1952-53
1					
2	<b>LIBRARIES—Continued</b>				
3					
4	<b>Berkeley</b>				
5					
6	The \$149,100 increase for the libraries at Berkeley is principally needed to offset increased costs and normal salary and wage adjust-				
7	ments. Only one and one-half full-time-equivalent new positions are provided. For the University Library an increase of \$65,100				
8	for books and binding must be given high priority in order that an adequate collection of books and serials may be maintained in				
9	the face of severe pressures on the book budget from (1) an average 10 percent increase in book prices and a 35 percent increase				
10	in the price of serial publications over 1951-52; (2) an average annual increase of 8 percent in the number of new titles pub-				
11	lished in the United States since 1946 and a somewhat greater increase of scholarly publications abroad in fields which are of				
12	interest to the university; (3) the university's expanded areas of research and scholarship. The budget request would provide				
13	an increase of \$40,100, or 26.7 percent, over the 1952-53 book appropriation which totaled \$150,000 and an increase of \$25,000 in				
14	binding over the 1952-53 allowance of \$60,000 which has proved to be inadequate in the face of the rising proportion of serials				
15	and other unbound materials purchased, and because of the increased unit costs for binding.				
16	The balance of the increase of \$32,998 required for the University Library would provide an additional librarian and a half-time				
17	library assistant, \$11,818 for general assistance merit and rate increases, \$5,369 for increased supplies and expense costs, and				
18	\$11,083 for highest priority equipment needs such as card files, book ends, cabinets, etc., many of which have been repeatedly				
19	deferred.				
20	For the Bancroft Library an increase of \$10,946, exclusive of merit increases and promotions, is required, largely for replacement				
21	of endowment funds used temporarily to finance a librarian III position to head up the newly organized Manuscript Division.				
22					
23	<b>Los Angeles</b>				
24					
25	An increase of \$176,482 is required at Los Angeles campus to keep pace with the expanding needs of that campus, including 14				
26	new positions, costing \$41,592, to strengthen the central library services in keeping with mounting work loads and to staff branch				
27	libraries in engineering, medicine, geology, chemistry and other departments which have occupied new quarters. The librarian				
28	reports a 28.4 percent increase in book circulation in 1951-52 over the previous year, reflecting, in part, new schools and depart-				
29	ments, increased graduate enrollments, and expanded research activities. An increase of \$20,650 in general assistance will cover				
30	\$9,520 in merit and rate increases and will permit some extension of week-end service, while \$15,681 more in supplies, expense				
31	and equipment is needed in 1953-54 to meet the more urgent operational needs of the main library and the new branches.				
32					
33	An increase of \$51,250 in the book and binding budgets to a total of \$225,000 is requested to maintain the program of book purchases				
34	in the face of rising costs and to permit a modest advance to be made in building up the book and serials collections at Los Angeles. In				
35	addition, a \$19,000 increase is proposed in the special provisions for Biomedical Library acquisitions and binding to meet the needs				
36	of the Medical School.				
37					
38					
39	<b>GROWTH AND DEVELOPMENT OF THE LOS ANGELES CAMPUS</b>				
40					
41	The 1953-54 State Budget requests for Los Angeles total \$14,677,705, an increase of \$2,100,889 or 16.7% above the 1952-53 Budget. This				
42	increase, nearly twice that for any other campus, reflects the costly developments in the Medical Center already described, which				
43	aggregate \$969,952; however, even excluding the Medical Sciences and Hospital, the campus budget represents a 10.2% increase				
44	over the current year. The increase recommended is designed to carry forward the expanded graduate and professional programs				
45	at satisfactory levels and to make modest headway in meeting the educational deficiencies accumulated during the crowded postwar				
46	years from 1947 through 1950.				
47	The declines in enrollment at Los Angeles since the postwar peak of three years ago have been relatively more moderate than elsewhere				
48	in the university. Overall campus enrollment is expected to average 13,200 this year, only 11% below the high point of 14,818 stu-				
49	dents reached in 1949-50. An estimated increase of 4.5% to an average of 13,800 is predicted for next year.				
50					
51	<b>New and Extended Activities</b> .....				Increase \$1,101,048 (58.9%)
52					
53	In addition to the Medical Sciences program and the expansion of Floriculture and Ornamental Horticulture already described, the				
54	budget provides for two other new and extended activities on the campus which are discussed briefly below.				
55	For the School of Law, the budget provides an increase of \$63,760. This school, which for the second year is offering instruction in all				
56	three years of professional classes, is expected to substantially reach its full state of initial development in 1953-54. The addition				
57	of two new Associate Professors will round out the staff and will permit advanced degree work. Four new nonacademic positions are				
58	needed to complete the staffing of the Law Library and to give additional secretarial assistance to staff members. The budget also pro-				
59	vides for a new item of \$10,000 to initially subsidize the publication of a Law Review, considered by every first class law school to be				
60	an indispensable tool in a law training program. Development of the new Law Library to proper standards will require a \$15,000				
61	augmentation in the \$45,000 appropriation made for books this year.				
62					
63	A new Institute of Near and Middle Eastern Studies, with a budget of \$50,760, is proposed in 1953-54 to initiate a new program of				
64	studies in a hitherto neglected field of scholarship in which there is now great interest and real need for adequate training. Only				
65	Princeton and Columbia now have institutes in this field and it is expected that financial support will be received from foundations				
66	interested in the project, once a start is made. Over half of the budget, \$31,340, is for building up necessary library research mate-				
67	rials; the remainder will provide for a director, and a small amount of secretarial and research assistance, together with miscellaneous				
68	operating expenses for initiating the program.				
69					
70	<b>Regular and Continuing Activities</b> .....				Increase \$999,841 (9.3%)
71					
72	Requirements of the business office for maintenance and operation of the enlarged campus plant and provision of service to the instruc-				
73	tional and research activities, discussed earlier, account for \$89,123 of this increase; an additional \$39,387 is for agricultural				
74	science activities on the Los Angeles campus as listed in the discussion of that program. The other regular and continuing programs				
75	on the campus need increases of \$871,331, a gain of 10.1 percent. These increases are proposed to meet the more urgent needs in				
76	areas of deficiency and to strengthen course offerings and facilities to meet growing demands, especially at the upper division and				
77	graduate levels.				
78	In the College of Applied Arts increases of \$91,062 or 7.6 percent will add 3½ new full-time-equivalent positions in the Department of				
79	Art, two each in Home Economics and Music, and 2½ in Theatre Arts. Addition of \$56,452, a gain of 20.6 percent, for the School				
80	of Business Administration, where classes have been of excessive size, will permit some improvement in the quality of offerings				
81	and strengthen course work for the M.B.A. and Ph.D. degrees. Three new staff members are included for the fields of Insurance				
82	and Statistics, Production Management, and Transportation and Traffic. An increase of \$53,092 or 10.7 percent is required for the				
83	School of Education, where alleviation of overcrowded classes is planned through the occupancy of expanded quarters and addition				
84	of 3½ faculty members.				
85					
86					

## UNIVERSITY OF CALIFORNIA—Continued

LINE	EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54	CHANGE FROM 1952-53
1	<b>GROWTH AND DEVELOPMENT OF THE LOS ANGELES CAMPUS—Continued</b>				
2					
3					
4	Increases of \$83,693 or 9.4 percent are proposed for the College of Engineering to meet urgent needs in this school which is experienc-				
5	ing an expanded enrollment load, especially at the lower division level, and still requires further strengthening of its facilities. The				
6	increases would provide 3½ new faculty members, 3 nonacademic employees and a \$20,000 addition in the funds for equipment.				
7	The College of Letters and Science is allocated an increase of \$347,974 or 10.7 percent in the proposed budget. The increases are needed				
8	to improve general teaching standards and correct critical deficiencies in the 28 departments of the college, which last year carried				
9	58 percent of the student-hour load on the Los Angeles campus. Increases in academic staff are asked in the Departments of Anthro-				
10	pology and Sociology, Bacteriology, Chemistry, English, Geology, History, Italian, Mathematics, Meteorology, Philosophy, Physics,				
11	Political Science, Slavic Languages, and Zoology.				
12	Increases of \$176,482 are provided for the libraries at Los Angeles to keep pace with campus developments and to meet higher costs.				
13					
14					
15	<b>ANALYSIS OF EXPENDITURES BY FUNCTION</b>				
16					
17	In all budgets involving salaries the increases include provision for normal salary adjustments and promotions which in the aggregate				
18	account for \$1,358,000 of the over-all increase of \$5,130,902 requested in the new budget.				
19					
20	<b>General Administration</b> ----- Increase \$357,249				
21					
22	Additional expenditures reflect the establishment of more fully functioning offices for chancellors and provosts, and the necessary strength-				
23	ening of accounting, personnel, business and student services to meet the impact of new activities whose work load in the early				
24	period of staffing and organization is out of all proportion to their operating expenditures.				
25	Budgeted increases of \$86,918 are required for the offices of chief campus administrators, almost all for the three recently established				
26	offices, with \$32,332 for the chancellor at Berkeley, and \$27,101 and \$25,681 for the provosts at Davis and Riverside, respectively.				
27	In partial offset, there is a reduction of \$21,797 in the President's Office budget, largely because of personnel transferred to the				
28	Berkeley Chancellor's Office.				
29	Increased requirements for officers and departments of the regents total \$60,728, the major portion of which is for normal salary in-				
30	creases. In the Controller's Office the addition of four new positions totalling \$14,964 is provided to meet increased work load.				
31	A technical increase, completely offset elsewhere, occurs in the budget of the Statewide Office of Architects and Engineers (Berkeley),				
32	to which the positions of university engineer and chief architect totalling \$25,200 per year, are transferred for more appropriate				
33	budgeting. At Riverside, \$17,726 is provided to set up purchasing and cashier's offices to serve the new College of Letters and Sci-				
34	ence. The various personnel offices require increases aggregating \$39,808, the largest increase, \$16,448, being required at Los Angeles				
35	for recruitment and other personnel services to the Medical School and other developing units on that campus; at Berkeley, two				
36	new clerical positions are added for central processing of personnel forms to eliminate errors and expedite salary payments.				
37	Increases proposed for offices concerned with academic administration and services to students include \$44,775 for Deans of Students				
38	Offices, the largest increase being \$23,296 for Deans of Men and Women at Riverside; \$25,471 for Registrars' Offices, largely to				
39	meet merit salary adjustments; and \$12,684 for the graduate deans to cope with the larger activity in connection with research				
40	and graduate instruction.				
41					
42	<b>General Expense</b> ----- Increase \$132,277				
43					
44	Increases in general expense are predominantly in state-wide accounts for which increases of \$81,179 are requested. The bulk of this is				
45	for the sanitation and safety program administered by the university physician. The three divisions of this program and their pro-				
46	posed budgets are summarized below.				
47		ESTIMATED	PROPOSED		
48		EXPENDITURES	EXPENDITURES	CHANGE FROM	
49		1952-53	1953-54	1952-53	
50	Occupational health -----	\$31,544	\$60,416	\$28,872	
51	Sanitation -----	45,401	65,511	20,110	
52	Radiological safety -----	60,516	71,276	10,760	
53					
54	Total Sanitation and Safety -----	\$137,461	\$197,203	\$59,742	
55					
56	The occupational health program is a new activity, established in January, 1952, to determine and to prevent occupational health haz-				
57	ards in university laboratories and facilities due to exposure to toxic substances. The increase is largely a continuation of a supple-				
58	mentary appropriation of \$28,672 made from the emergency fund this year for adequate staff and equipment. The increases in the				
59	other two budgets for the expanded activities and facilities requiring sanitary inspection on the southern campuses and the				
60	increased usage of radioactive substances requiring monitoring.				
61	Other increases in state-wide general expense include \$12,939 for the offices of teacher placement of which \$9,857 is a transfer of the				
62	Santa Barbara office from the local campus budget to the state-wide budget. On the Los Angeles campus \$20,556 additional is re-				
63	quired, the largest items being \$8,718 for the Bureau of Occupations, largely for a typist-clerk and additional general assistance, and				
64	\$4,032 for mail and messenger requirements. At Berkeley the \$18,566 increase is scattered, the most significant being a \$5,400 aug-				
65	mentation in the public ceremonies budget for additional costs of holding commencement ceremonies in Memorial Stadium. At River-				
66	side, the increase of \$11,757 is largely to establish a central stenographic bureau, and to set up a mail and messenger service for the				
67	expanded campus. At San Francisco the expansion of mail and messenger and receiving department activities incident to develop-				
68	ment of the Medical Center requires an increase of \$5,374. Increases on other campuses are nominal and at Santa Barbara a decrease				
69	of \$7,177 is budgeted.				
70					
71	<b>General Maintenance and Operation of Plant</b> ----- Increase \$588,462				
72					
73	The increases are required for expansion of activity and facilities to serve the enlarged plant of the university. As discussed in the pre-				
74	ceding section on Business Office operations, nearly 2,000,000 square feet of building space will be added during 1953-54 or will				
75	require service for an entire year for the first time.				
76					
77					
78					
79					
80

## UNIVERSITY OF CALIFORNIA—Continued

LINE	EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54	CHANGE FROM 1952-53
1	<b>ANALYSIS OF EXPENDITURES BY FUNCTION—Continued</b>				
2					
3					
4	Departments of Instruction and Research-----				Increase \$2,878,371
5					
6	Aside from the general factor of normal merit increases and academic promotions, the 9.8 percent increase in this key group of budgets				
7	for the teaching departments of the university represents largely additional requirements needed for the developing campuses at				
8	Los Angeles, \$1,259,837, up 14.8 percent; Riverside, \$415,959, up 31.9 percent; San Francisco, \$242,470, up 11 percent; and				
9	Davis, \$330,164, up 7.6 percent. Together, these campuses account for 78 percent of the increase. At Berkeley the 5.3 percent in-				
10	crease of \$580,783 covers increases of \$186,456 for the College of Letters and Science, almost entirely due to requirements for nor-				
11	mal merit increases and routine salary adjustments and \$105,832 for the College of Agriculture, whose program has been discussed				
12	earlier. Increases of \$149,373 are provided for in the College of Engineering, one-third of which is for augmenting equipment				
13	provisions to more adequately cover urgent needs for replacement and new equipment; also covered are 7.2 new academic positions to				
14	cover deficiencies in civil engineering, mechanical engineering and mineral technology. An increase of \$26,559 is planned for the				
15	School of Business Administration to provide two new assistant professors to reduce overload on teaching staff and to meet require-				
16	ments for routine salary adjustments. Similarly, the School of Education budget is up \$32,943, of which \$7,410 is to provide coun-				
17	seling services to Education students comparable to that now provided at Los Angeles and \$23,294 is required for salary adjust-				
18	ments. In the Law School increased enrollment has reached the point where it is necessary to sectionalize the first-year courses;				
19	for this purpose the budget provides two new associate professors and a secretary-stenographer. Also added is a special item of				
20	\$7,000 to increase the number of issues of the California Law Review and to make more secure its financing.				
21					
22	Summer Sessions-----				Decrease \$141,967
23					
24	Reduction in Summer Session provisions results from adjustment to a somewhat lower level of enrollment expected next summer in				
25	order to maintain these sessions on a self-supporting basis.				
26					
27	Organized Research-----				Increase \$311,166
28					
29	Increases proposed for organized research agencies reflect addition of important new programs and needs for offsetting higher costs				
30	in carrying forward existing programs.				
31	At La Jolla, provision for a new Institute of Marine Resources is requested to undertake a broad program of research in marine fisheries				
32	and other resources of the sea, as urged by the Marine Research Committee of the State of California and other representatives				
33	of the fishing industry. This institute would complement the more limited objectives of the Scripps Institution of Oceanography				
34	and the Marine Life Research Program, and would give special guidance to the latter program which was authorized by the Legis-				
35	lature in 1947, primarily to forecast the size and location of the catch of sardines and other pelagic fishes. It is contemplated that				
36	this institute will be administered at La Jolla, but will operate on a state-wide basis, with its research projects involving such				
37	other campus departments as engineering at Berkeley and Los Angeles and food technology at Davis. For full operation, an annual				
38	budget of about \$120,000 will be required; for the initial year of organization \$44,236 is requested to include a director, a staff of				
39	two academic and two nonacademic employees, and \$10,700 in supplies and expenses and equipment.				
40	At Los Angeles, increases of \$69,077 are proposed, of which \$50,760 is for the new Institute of Near and Middle Eastern Studies dis-				
41	cussed earlier and \$10,000 additional for research grants and research travel to cover higher costs and demand. At Berkeley, increases				
42	of \$72,006 are provided, a major portion of which is required for normal merit increases and salary adjustments. However, the				
43	\$34,195 for engineering, the largest allocation, includes \$20,620 for expanded personnel and expenses at the new Richmond Field				
44	Station and \$6,310 for moderately increased assistance and expense for the Sanitary Engineering Research project. Addition of				
45	\$30,037 for organized research activities in the College of Letters and Science is predominantly for salary adjustment costs. A				
46	reduction of \$9,000 in university funds for the radiation laboratory is included in the Berkeley provisions while increase of \$8,000				
47	for the research committee and \$3,000 for research travel are proposed. Provision for research and research travel at Davis and				
48	Riverside incident to the new Colleges of Letters and Science are made for the first time, with \$10,000 at Davis and \$5,000 at				
49	Riverside. The Davis provision also includes \$6,320 for a special study of weed control.				
50					
51	Extension Divisions-----				Increase \$219,097
52					
53	Increases for extension activities are centered in agricultural extension for which \$232,160 additional is proposed, as discussed in the				
54	section on agricultural sciences. The university extension budgets show a net decline of \$14,263 due primarily to a \$50,000 reduction				
55	in the self-supporting Far East Command program. The regular budget for university extension is increased by \$35,068, of which				
56	\$23,368 is for normal salary increases and \$11,700 provides for an assistant business manager to relieve overload on the present				
57	staff and an additional extension representative for better coverage of the expanding extension work in Business Administration.				
58	A special legislative appropriation made in the Budget Act of 1950 has provided annually \$50,000 from the State Real Estate Fund				
59	for the past three years, of which \$25,000 has been allocated to off-campus extension work in real estate and \$12,500 has been				
60	allocated for training and research in the field of real estate on each of the two larger campuses. Although the appropriation expires				
61	at the end of the current year, the program has been successful and its continuation at the present level is provided for in this				
62	budget request.				
63					
64	Libraries-----				Increase \$504,561
65					
66	Establishment of new library facilities at Riverside, Davis, and San Francisco, strengthening of the libraries at Los Angeles in line				
67	with campus development and provisions to meet higher costs, particularly at Berkeley and Los Angeles, necessitate the 17.1 percent				
68	increase in proposed library expenditures.				
69					
70	Organized Activities, Educational Departments-----				Increase \$1,073,233
71					
72	Expansion in this group is almost wholly a result of the buildup of the new hospitals at San Francisco and Los Angeles, with only				
73	minor changes on the other campuses.				
74					
75	Pensions and Retiring Annuities-----				Increase \$63,500
76					
77	The addition represents the estimated contributions applicable to the higher total of university academic salary expenditures.

LINE	EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54	CHANGE FROM 1952-53
------	--------------	-------------------	----------------------	---------------------	------------------------

## ANALYSIS OF EXPENDITURES BY FUNCTION—Continued

## Auxiliary Enterprises

Decrease \$4,314

With the exception of student health services, the budgets of these enterprises are largely self-supporting. Although the net change in budgeted provisions is nominal, notable changes occur on the various campuses. At Berkeley a reduction of \$42,168 represents the deletion of the \$60,000 item for the Men's Faculty Club, henceforth to be operated under its own management, offset by scattered increases. At Riverside a new item of \$32,545 for a college bookstore is offset by income except as to \$2,275 for initial equipment. At Santa Barbara a reduction of \$11,948 reflects expected lower levels of activity in the college cafeteria and bookstore.

Provisions for Student Health Services are increased by \$33,577, or 2.3 percent, largely because of the new service to be started at Riverside coincident with opening of the new college and \$8,000 additional at San Francisco to meet increased costs of hospitalization and service in accordance with actual experience. Other increases are largely to meet routine salary adjustments.

## Noneducational Expense

Increase \$10,902

Changes in this group represent minor increases and adjustments in provisions for scholarships and student aid.

## Miscellaneous

Decrease \$861,635

The budget for 1953-54 provides a total of \$829,765 for emergency funds to meet unforeseen contingencies, of which \$137,300 is provided to local campus and college administrators, \$94,000 to the vice-presidents of Agricultural Sciences and Business Affairs and \$335,000 to the president, all at one-half of 1 percent of the total budgets they support; \$85,465 is for summer sessions emergency funds on the several campuses; and the sum of \$200,000 is reserved as a Regents' Emergency Fund. In the aggregate, these emergency funds represent 1.2 percent of the total budget, the same level provided in recent state budgets. The amount is \$234,610 less than the total of the current year's internal budget provisions, which reflected unallocated income from the increased student enrollment and savings made through deferral of budget requests for further study or demonstration of need. Some restorations of these items have proven to be necessary to meet enrollment increases and other substantiated needs.

The current year's budget also included a lump sum provision of \$500,000 for unforeseen price rises. However, no such provision is made for 1953-54, with consequent decrease of \$500,000 in the budget, in accordance the general assumption that no general price rise is likely in the period ahead.

A "Provision for 1952-53 Salary Range Increases" in the amount of \$325,000 is included in the budget for the ensuing year to cover the cost of continuing in 1953-54 the salary and wage rate increases granted since the departmental budget requests were prepared. The amount is \$197,025 less than the corresponding amount included in estimated expenditures in the current year because the business office and certain other departments anticipated a number of the increased rates and provided for them in their detailed budget requests.

The lump sum deduction for "estimated salary savings," to take account of lapses in salary provisions which will occur because of turnover and temporary vacancies in budgeted positions, has been computed at \$1,100,000, approximately 2 percent of the total budget for salaries and general assistance.

HASTINGS COLLEGE OF LAW

The Hastings College of Law was founded in 1878 by S. C. Hastings with the grant of \$100,000 to the State through the Regents of the University of California. By stipulation in the original agreement the State must pay the sum of 7 percent interest on the grant or repay the \$100,000 in full to a Hastings heir. According to the act creating the college, it is affiliated with the University of the State "and is the law department thereof."

The college offers facilities for the acquisition of learning in all branches of the law, and to this end it has established a complete curriculum of studies, and matriculates students who are granted the degree of "Bachelor of Laws" by the University of California.

Located in San Francisco

The enrollment at the Hastings College of Law shows a continuing decline to an estimated enrollment of 241 in 1953-54, a decrease of 90 from the enrollment of the 1952-53 Fiscal Year. For the second consecutive year revenues are estimated at less than the cost of operation, reflecting the decrease in veteran entitlements. The surplus accumulated during the postwar years will be used to cover the deficit of \$112,615. If this trend continues in subsequent years other sources of financing will be necessary.

EXPENDITURES: The estimated expenditures show an increase of \$18,829, attributable mainly to a full year's occupancy of the new Hastings Law College building. A decrease in equipment purchases is offset by salary adjustments.

REVENUE: Estimated revenues show a decrease of \$25,491, due to the termination of veterans' entitlements and a decrease in enrollments.

<sup>a</sup> Constitutes the annual appropriation of \$7,000 for interest on the original endowment which the State is required to make to the college under the provisions of Section 20152, Education Code.

<sup>b</sup> Funds of the college are not maintained in the treasury. Neither the revenues nor the expenditure of these funds are included in the over-all budget totals.

BOARD OF CONTROL

The board makes rules and regulations governing the presentation and audit of claims; relating to the amount and methods of traveling on official business of the State, and relating to the making of merit awards. Other functions include considering, auditing, and recommending to the Legislature claims against the State for which no appropriation has been made.

## STATE CONTROLLER

The State Controller is the accounting and disbursing officer for the State and is responsible for legality of all payments and for the receipt of moneys due the State. He supervises the assessment and collection of state inheritance and gift taxes, collects the motor vehicle fuel tax, petroleum and gasoline assessments and motor transportation license taxes, assists county and city officials in maintaining required accounting and budgetary records and prepares reports of their financial transactions, makes refunds of motor vehicle fuel taxes, leases lands deeded to the State for nonpayment of taxes, and audits expenditures made by local governments under the Local Postwar Public Works, Plans and Sites Law, Local Postwar Construction Law, State School Building Loan Act, and the Collier-Burns Act.

## GENERAL ANALYSIS

Number of positions----- 470.3 491.6 506.5 14.9

The State Controller's total program for 1953-54 shows an increase of \$77,435 or 2.8% over 1952-53. This increase includes the following major changes in programs and work loads:

## PROGRAM CHANGES

	NUMBER OF POSITIONS	COSTS
(1) Expediting Controller's Annual Report-----	1	\$4,740
(2) Publishing of Financial Transactions of All Local Districts, Chapter 1521, Statutes of 1949-----	2	7,990
(3) Improvement in Office Audit and Procedure, Motor Vehicle Fuel Tax Refund Division-----	2	6,540
(4) Improve Coordination Between Field and Office, Motor Vehicle Fuel Tax Refund Division---	1	3,900

## WORK LOAD CHANGES

	NUMBER OF POSITIONS	COSTS
(1) Staff Assistance to Accounting Division-----	1	5,772
(2) Inheritance and Gift Tax-----	2	7,308
(3) Motor Vehicle Transportation Tax Collection-----	1	2,640

The breakdown by category of the total proposed increase may be found by reference to the analysis under each division.

<sup>a</sup> Composed of savings in salaries and wages, \$1,302; operating expenses, \$1; equipment, \$100; and excess reimbursements, \$2,601.

2	ACCOUNTING DIVISION						
3							
4	Analysis						
5							
6	The principal functions of this division are to maintain the central control accounts covering the receipts, disbursements and balances						
7	of all state funds, the preparation of the various financial statements covering the State's condition and operations, the making of						
8	various apportionments of revenues to local government, and the control and administration of unclaimed bank deposits, estates						
9	of deceased persons, and other classes of unclaimed or abandoned property.						
10	The total increase for the division over 1952-53 is \$17,657 categorically as follows:						
11							
12	SALARIES AND WAGES: The increase of \$17,009 is due to the addition of one senior accountant to June 30, 1954, as a technical						
13	staff assistant, one semisenior accountant to assist in the preparation of the State Controller's Annual Report, and an estimated						
14	decrease of 1.5 man years in vacant positions.						
15							
16	EQUIPMENT: The amount of \$3,142, an increase of \$848, consists of replacement of old equipment, \$1,314; equipment for two new						
17	positions, \$717; a photocopying machine, \$400; and miscellaneous items.						
18

16							
17	Analysis						
18							
19							
20	This division reviews and determines legality of all claims submitted for payment by state and local government agencies. The total						
21	increase in this function over 1952-53 is \$563.						
22							
23	SALARIES AND WAGES: The increase of \$11,171 represents an estimated decrease of 2.5 man-years in vacant positions.						
24							
25	OPERATING EXPENSES: The increase of \$1,452 is based primarily upon an increase of \$1,552 in traveling expense.						
26							
27	EQUIPMENT: The total of \$7,057, a decrease of \$12,060, includes replacement of six automobiles at a cost of \$6,300 and miscel-						
28	laneous items.

31							
32	DISBURSEMENTS DIVISION						
33							
34	Analysis						
35							
36							
37	This division performs the State Controller's duties in regard to the disbursements of state funds.						
38	The one-time expenditure in 1952-53 for equipment partially offset by a decrease in vacant positions, results in an over-all decrease of						
39	\$6,692.						
40	During the 1952-53 Fiscal Year the installation of an improved method of preparing general disbursement warrants resulted in the						
41	elimination of six clerical positions. Approximately \$500,000 is budgeted for the Central Payroll System, which represents no sig-						
42	nificant increase despite the fact that there will be 29,000 more employees under the system in 1953-54 than during 1951-52. All						
43	departments authorized under the law will have been brought into the system by June 30, 1953.

51	INHERITANCE AND GIFT TAX DIVISION						
52							
53	Analysis						
54							
55	This division administers the state inheritance and gift tax laws.						
56	The total increase for the division over 1952-53 is \$18,198, categorically as follows:						
57							
58	SALARIES AND WAGES: The additional \$15,909 represents an estimated decrease of two vacant positions; \$7,308 for one junior						
59	counsel for the San Francisco office and one senior legal stenographer for the Los Angeles office; partially offset by a reduction						
60	in temporary help. The additional positions are required by work load.						
61							
62	OPERATING EXPENSES: The net increase of \$1,332 is attributable to printing forms.						
63							
64	EQUIPMENT: The total of \$8,601 is an increase of \$957 over the 1952-53 Fiscal Year and includes \$3,187 for files, \$600 for steel						
65	shelving, \$2,500 for books, and \$661 for the two proposed new positions.						
66

1	COUNTY BUDGETS AND REPORTS DIVISION						
2	Analysis						
3	This division administers the law relating to county budgets and to the reporting of county, city, and district financial transactions. This includes the review of county budgets and reports of tax levies and the preparation for publication of data on property evaluation, tax levies, etc.						
4	The proposed net increase of \$11,193 is attributable to the functions imposed upon the State Controller, under Chapter 1521, Statutes of 1949. The State Controller, under this program, is to compile and publish the financial reports of Special Districts. The cost of this program consists of two accountant-auditor positions, \$7,240, and office, traveling, and automobile operating expenses, \$4,633.

## Audit of Special Appropriations for Aid to Local Government

LINE	SUPPORT EXPENDITURES DETAIL	NO. OF POSITIONS			ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54
		51-52 (Filled)	52-53 (Auth.)	53-54 (Auth.)			
1							
2	Public School Building Loan Fund						
3							
4	SCHOOL BUILDING AID PROGRAM						
5	(Chapter 1389, Statutes of 1949)						
6							
7	Analysis						
8							
9	The accounting and auditing of school building aid to impoverished school districts are performed by the Controller's General Activities						
10	Divisions. The increase results from a shift in emphasis from the School Building Aid program of Chapter 1575, Statutes of 1947 and						
11	the Local Postwar Public Works program to this function.

1	<b>MOTOR VEHICLE TRANSPORTATION TAX FUND</b>						
2							
3							
4	<b>Analysis</b>						
5							
6	The principal function of this division is to administer the collection provisions of the Motor Vehicle Transportation License Tax Act, the						
7	Motor Vehicle Fuel License Tax Act, the tax on insurance companies, and the assessments on oil and gas operators.						
8	The total increase over 1952-53 is \$6,404, categorically as follows:						
9							
10	<b>SALARIES AND WAGES:</b> The net increase of \$5,320 is composed of one additional intermediate account clerk, to June 30, 1954, to						
11	assist in the maintenance of a delinquent control file and related clerical duties, and an estimated decrease of one man year in vacant						
12	positions partially offset by a decrease of 1,920 in temporary help.						
13							
14	<b>EQUIPMENT:</b> The total of \$5,119 is a net increase of \$747 over 1952-53. The major item for 1953-54 is the replacement of four automo-						
15	biles totaling \$4,200.						
16

**Motor Vehicle Fuel Tax Refund Division**

LINE	SUPPORT EXPENDITURES DETAIL	NO. OF POSITIONS			ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54
		51-52 (Filed)	52-53 (Auth.)	53-54 (Auth.)			
1	MOTOR VEHICLE FUEL FUND						
2	Analysis						
3	The Motor Vehicle Fuel Tax Refund Division refunds motor vehicle fuel taxes after auditing and investigating refund claims.						
4	The total increase over 1952-53 is \$12,208. Categorically as follows:						
5	SALARIES AND WAGES: The increase of \$10,440 is to provide for two accountant-auditor positions and one intermediate typist-clerk,						
6	to improve the quality of auditing of tax refund claims, raise the standard of correspondence with claimants, and free the time of						
7	the supervising investigator for closer supervision of field representatives.						
8	EQUIPMENT: The total of \$5,718 is an increase of \$1,768 over 1952-53. This amount includes \$1,347 to equip the proposed new posi-						
9	tions; \$921 for three adding machines for field representatives; \$3,150 for replacement of three automobiles, and \$300 for addi-						
10	tional miscellaneous.

2	<b>REDEMPTION TAX FUND</b>						
3							
4	Analysis						
5							
6	The Tax-deeded Lands Division administers the general procedures for tax sales, tax deeds, and redemptions of lands deeded to the						
7	State for nonpayment of taxes; enters into leases for the rental of tax-deeded property; advises county officials regarding the						
8	levying and collection of taxes on real property; and renders service to the counties by setting up an abstract and index of						
9	tax-deeded lands.						
10	There is no major change anticipated in the program for 1953-54.

## General Activities

LINE	SUPPORT EXPENDITURES DETAIL	NO. OF POSITIONS			ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54	CHANGE FROM 1952-53
		51-52 (Filled)	52-53 (Auth.)	53-54 (Auth.)				
1	GENERAL ANALYSIS							
2								
3								
4	Number of positions—General Fund activities-----				2,372.9	2,373.2	2,376.2	3
5	Number of positions—Special Fund activities-----				202.9	204.5	205.5	1
6								
7	Total number of positions-----				2,575.8	2,577.7	2,581.7	4
8								
9	This budget provides generally for continuation of the existing level of service. The additional \$158,060 for 1953-54 represents a \$39,352							
10	increase in salaries and wages for eight new positions, and a seven man-year decrease in vacant positions, offset by the elimination of							
11	11 existing positions; a \$94,499 increase in operating expenses, principally for printing and rental of office space; and a \$11,307							
12	increase for equipment. A detailed explanation of these increases may be found by reference to the analysis under each division.							
13								
14								
15	GENERAL FUND							
16								
17	GENERAL ADMINISTRATION							
18								
19	Analysis							
20								
21	This division consists of the general administration, departmental accounting, and personnel administration functions of the Board of							
22	Equalization.							
23	The total net increase over 1952-53 is \$8,763, which provides for an additional \$12,952 for the biennial printing of the 1953 Revenue Laws							
24	of California, and for minor reductions in the salaries and wages and equipment categories.							
25	The \$7,341 for equipment is a decrease of \$2,551 below 1952-53, and consists of \$3,850 for the replacement of three automobiles; \$1,636							
26	for the replacement of worn out and obsolete office equipment; \$855 for a microfilm reader and file cabinet; and \$1,000 for miscella-							
27	neous items.							
28								
29	SALARIES AND WAGES							
30	Executive:				SALARY RANGE

34	DIVISION OF RESEARCH AND STATISTICS						
35							
36	Analysis						
37							
38	This division performs the research and statistical functions for the board.						
39	The total increase over 1952-53 is \$1,411. Other than a small increase in the line item for printing and the extension of one junior						
40	research technician to June 30, 1954, for the purpose of completing the property tax assessment surveys required by Sections 1564						
41	to 15645 of the Government Code, no significant change in program is anticipated in 1953-54.

1	<b>SERVICE DIVISION</b>						
2							
3							
4	<b>Analysis</b>						
5							
6	The division, established July 1, 1951, consolidated the service functions of the board in order that economies due to centralized opera-						
7	tions could be realized. The division has the responsibility for cashiering, mailing, addressograph, supply, tabulating, and other gen-						
8	eral services.						
9	The increase over 1952-53 is \$16,153, categorically as follows:						
10							
11	<b>SALARIES AND WAGES:</b> The total decrease in this category is \$24,616, representing the elimination of nine positions in 1953-54.						
12	Six are a result of new addressing, folding, stuffing, and photographic reproduction machines installed during the 1951-52, 1952-53						
13	and 1953-54 Fiscal Years. Three are a result of centralization of the tabulating operation and the use of the tabulating machines for						
14	certain operations performed manually prior to the centralization.						
15							
16	<b>OPERATING EXPENSES:</b> The increase is \$54,092, consisting of an increase in rent of \$64,999 offset by decreases in printing and						
17	other line items. Of the increase in rent, \$31,178 is for expansion and relocation of the Los Angeles district office, \$12,000 is for						
18	a new branch office in Van Nuys, \$1,800 is for a new branch office in Monterey, \$600 is for a new out-of-state office in Seattle, and the						
19	balance is for rate increases and extensions of space increases granted in 1952-53.						
20							
21	<b>EQUIPMENT:</b> The \$19,029 provided is a decrease of \$13,323 under 1952-53. The major items are \$2,794 for replacement of worn-out						
22	and obsolete equipment, \$5,820 for an air-conditioner for the centralized tabulating operation, \$6,000 for an envelope-inserting						
23	machine which will contribute to the six position saving discussed above, \$2,000 for attachments to the board's new photostat						
24	machine that will cause savings in chemical expenses, and the balance in additional miscellaneous items.

40	DIVISION OF ASSESSMENT STANDARDS						
41	Analysis						
44	This division has the administrative responsibility of equalizing the assessment of local property between counties. To fulfill this responsibility the division is required to issue cost and other appraisal data to the county assessors, to prepare maps for county use, and in general to assist the county assessors in the performance of their duties.						
47	The total increase over 1952-53 of \$11,616 consists of two proposed new positions of associate estimator of building construction and associate auditor-appraiser. The first position will, under Section 401.5 of the Revenue and Taxation Code, compile and issue to county assessors data relating to the basic costs of various classes and kinds of property in order to promote uniformity in appraisal practices and in assessed values throughout the State. The associate auditor-appraiser is required under Section 254.5 of the Revenue and Taxation Code to review claims for property tax exemption on the ground that the claimant was operating on a nonprofit basis. The term "nonprofit" was construed broadly in the past, but in May, 1952, the State Supreme Court defined the term so as to require a much more thorough examination of such claims.

12	RETAIL SALES TAX DIVISION						
13	Analysis						
14	This division assesses and collects the retail sales and use taxes. No significant change in program is planned in 1953-54.						
15	The increase for the entire division over 1952-53 is \$73,828 of which \$30,000 in salaries and wages and \$9,359 in traveling and auto-						
16	mobile mileage expenses are related to a decrease in the estimated number of vacant positions. Partly offsetting this increase						
17	is the elimination of two clerical positions on January 1, 1953, as a result of savings effected by the installation of a mechanized						
18	system of preparing audit working papers. The remainder of the total increase is caused by an amount of \$90,318 in equipment						
19	proposed for 1953-54, an increase of \$32,474 over 1952-53.						
20	1. Replacement of worn-out and obsolete equipment .....						\$24,774
21	2. Replacement of 20 automobiles exceeding 100,000 miles .....						18,950
22	3. Additional miscellaneous equipment for work load and necessary improvements in service .....						28,594
23	4. Revision of the alphabetical file section's procedures at a total equipment cost of \$30,000, to be partially						
24	funded by the abolishment of five intermediate clerk positions effective September 1, 1953 .....						18,000

14	ALCOHOLIC BEVERAGE CONTROL DIVISION						
15	Analysis						
16	The division administers and enforces the Alcoholic Beverage Control Act, and assesses and collects the alcoholic beverage taxes.						
17	The program for 1953-54 is based upon an 18 percent increase in number of liquor licensees since 1946, the increase being centered to a						
18	great extent in the Fresno, San Bernardino, and Vallejo areas. The six proposed additional liquor control officers are for these						
19	areas.

1	MOTOR VEHICLE TRANSPORTATION TAX FUND						
2	Analysis						
3	This division administers the Motor Transportation License Tax Act and the Itinerant Merchants Act.						
4	There is no significant change in program anticipated in 1953-54. The total increase above 1952-53 is \$11,158, composed of an increase of						
5	\$5,000 in salaries and wages due to an estimated decrease in number of vacant positions; an increase of \$4,425 in operating expenses						
6	due to an increase in pro rata overhead charges by the General Fund activities of the board, and an increase of \$1,733 in equipment						
7	to the amount of \$5,190.

1							
2	MOTOR VEHICLE FUEL FUND						
3							
4	Analysis						
5							
6	This division assesses the motor vehicle fuel tax and the liquefied petroleum gas taxes and assesses and collects the use fuel tax. This						
7	program shows no change for 1953-54. The total increase above 1952-53 is \$7,069 composed of an increase of \$2,949 in operating						
8	expenses and \$4,120 in equipment. The \$6,639 in equipment for 1953-54 includes \$5,250 for replacement of five automobiles expected						
9	to reach 100,000 in mileage in that year.

<sup>a</sup> In accordance with the provisions of Sections 13163, and 13164, and 13165 of the Government Code, all expenditures of the Buildings and Grounds Division are paid from the Service Revolving Fund. Collections from special fund agencies for janitor and maintenance service, and from agencies requesting other special services, are deposited in the Service Revolving Fund. After the cost of services rendered and charged to other agencies has been deducted, the remaining expenditures are charged to the support appropriation of the Buildings and Grounds Division. The "Net Total Expenditures for Support" represent such remaining expenditures.

## General Activities

LINE	SUPPORT EXPENDITURES DETAIL	NO. OF POSITIONS			ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54	CHANGE FROM 1952-53
		51-52 (Filled)	52-53 (Auth.)	53-54 (Auth.)				
1	GENERAL ANALYSIS							
2								
3								
4	Number of positions				407.5	440.5	453.5	13
5								
6								
7	ADMINISTRATION DIVISION							
8								
9	Analysis							
10								
11	General supervision of the department, supervision of leases and contracts of the State, investment of surplus funds, review of the agricultural policies of state agencies, fidelity bonds and insurance, construction activities, review of use of state-owned automotive equipment, and the operation of traffic management are the principal functions of this division.							
12								
13								
14								
15	SALARIES AND WAGES: The increase provides for five new positions as follows:							
16	1 Assistant director							\$12,000
17	1 Junior typist-clerk							2,400
18	1 Personnel officer I							6,060
19	1 Inspector of automotive equipment							5,232
20	1 Card punch operator (to June 30, 1953)							2,772
21	The assistant director will relieve the director of some of the executive work particularly in connection							
22	with the Capital Outlay Program. The position replaces the operating expense item of Services of Special							
23	Consultants—\$12,000 in the 1952-53 Fiscal Year.							
24	The junior typist-clerk will provide clerical assistance for work load increase resulting from approval of							
25	preliminary plans required under Section 7.5, Chapter 3, Statutes of 1952.							
26	The personnel officer I is to provide staff assistance in the personnel administration of the department.							
27	The inspector of automotive management is to provide automobile inspection service to state agencies operating in the San Francisco Bay area.							
28	The card punch operator is provided for one year to record statistical information extracted from all							
29	freight and transportation bills.							
30								
31								
32	OPERATING EXPENSES: The decrease of \$34,161 consists primarily of the elimination of \$25,000 for services of special consultant							
33	—utilities study and \$12,000 for services of special consultant—construction, offset by increases related to the new positions.							
34								
35	EQUIPMENT: The amount requested provides \$3,570 for additional office furniture and equipment; \$360 for replacement of worn out							
36	office equipment and furniture and \$170 for additional drafting equipment.							
37								
38	SALARIES AND WAGES							
39	Executive:				SALARY RANGE			
40	Director	1	1	1	\$1,458	\$17,500	\$17,500

65	ACCOUNTS AND DISBURSEMENTS DIVISION						
66							
67	Analysis						
68							
69	This division maintains the accounting, personnel, and property records of the department.						
70							
71	SALARIES AND WAGES: The decrease of \$14,586 results primarily from elimination of six positions resulting from the mechanization of the accounting and billing operations.						
72							
73	EQUIPMENT: The amount budgeted consists primarily of \$7,497 for the second annual payment on purchase of the tabulating installation plus an additional \$1,000 for special tabulating equipment.						
74

1							
2	<b>DIVISION OF BUDGETS AND ACCOUNTS</b>						
3							
4	<b>Analysis</b>						
5							
6	This division prepares and presents the Governor's Budget; reviews and approves fiscal year working budgets for each state agency;						
7	administers budgetary control, allocates the Emergency Fund and other lump sum appropriations; does research and analysis of						
8	economic conditions, revenue yields; expenditure trends and other developments affecting over-all state financial affairs and fiscal						
9	policies; designs, installs and supervises accounting systems of all state agencies; and surveys, analyzes and recommends improve-						
10	ments of the administrative structure and procedures of state agencies.						
11							
12	<b>SALARIES AND WAGES:</b> The following new positions are provided:						
13	Budget Analysis Section:						
14	3 Administrative trainee-junior staff analyst						\$10,116
15	Management Analysis Section:						
16	1 Assistant secretary, Merit Award Board						4,470
17	1 Intermediate typist-clerk						2,640
18	The three administrative trainee-junior staff analyst positions will be assigned, one to the fiscal control						
19	group, one to the corrections-mental hygiene group and one to the education-welfare group. In addition						
20	to obtaining a better work flow in the budget section these positions will permit the budget staff to						
21	spend more time in the field with the result that more realistic analysis of budget requests will be						
22	accomplished.						
23	The assistant secretary, and the intermediate typist-clerk are provided for the Merit Award Board in						
24	order to handle more promptly the acceptance or rejection of suggestions received. An average of 132						
25	suggestions per month has been received since the board's inception. To date \$6,500 has been granted						
26	in awards and savings of \$200,000, most of it recurring, has resulted.						
27							
28	<b>OPERATING EXPENSES:</b> The increase is related to the new position budgeted and the need for additional field work by staff members.						
29							
30	<b>EQUIPMENT:</b> \$1,067 is provided for replacement of worn out office machines; \$1,122 for office equipment for new positions; and \$740						
31	for the purchase and binding of books for the library.						
32

54	DIVISION OF COMMUNICATIONS						
55							
56	Analysis						
57							
58	This division has the responsibility for improving and coordinating the use of radio and other communication facilities owned or operated						
59	by the State, cities, counties, and other political subdivisions. The division also acts as liaison and representative of the State before						
60	the Federal Communications Commission.						
61	Expenditures for this division are proposed at the same level as in the current year. The increase in the budget is made up principally of						
62	\$4,425 for replacement of motor vehicles.						
63

31	<b>PURCHASING DIVISION</b>						
32							
33	<b>Analysis</b>						
34							
35	The division acts as the central purchasing agent for the State. In addition the division maintains storerooms in Sacramento, San Fran-						
36	cisco, and Los Angeles, the expenditures for which are not included in the budget of this division.						
37	The increase of \$15,267 consists of the following:						
38							
39	<b>SALARIES AND WAGES:</b>						
40	1 Administrative trainee						\$3,456
41	1 Junior buyer						4,512
42	The administrative trainee will provide preliminary work and exploration of facts regarding expansion of						
43	the State's contract program of volume purchasing.						
44	The junior buyer will provide assistance to the deputy purchasing agent in Los Angeles for work load in-						
45	crease resulting from decentralization of some purchasing operations from Sacramento to Los Angeles.						
46							
47	<b>OPERATING EXPENDITURES:</b> Increase of \$1,549 results principally from a \$1,500 increase in laboratory services.						
48							
49	<b>EQUIPMENT:</b> \$3,263 is provided to replace worn out office equipment and machines; and \$2,669 is provided for furniture for new						
50	positions, three calculating machines and a ditto machine.						
51

## DEPARTMENT OF FINANCE

## Buildings and Grounds Division

This division maintains state-owned and leased buildings and grounds in Sacramento, San Francisco, and Los Angeles. Its staff reviews for approval all leases of real property for use by state agencies.

LINE	EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54	CHANGE FROM 1952-53
1	<b>GENERAL ANALYSIS</b>				
2					
3					
4	Number of positions .....	710.3	929.1	945.6	16.5
5					
6	The increase of \$467,098 results primarily from full year maintenance and custodial costs for the new Public Works Annex, Motor				
7	Vehicle, Education, Highway Patrol, Highway Patrol Academy and Civil Defense buildings which are scheduled for completion				
8	between January 1, and May 1, 1954.				
9					
10	<b>SALARIES AND WAGES: \$81,947 for the following new positions:</b>				
11	Administration:				
12	1 Intermediate typist-clerk .....				\$2,640
13	This position will assist in handling increased work load resulting from completion of new buildings. An				
14	offsetting reduction in temporary help has been made for the position.				
15	Sacramento Buildings:				
16	1 Plumber .....				6,240
17	1 Electrician foreman .....				6,760
18	The plumber is required to meet demands for emergency repairs and preventive maintenance due to com-				
19	pletion of new buildings.				
20	The electrician foreman is to provide better supervision of the journeymen working on maintenance work of				
21	the division. This position will assist in the assignment and direction of 19 electricians.				
22	San Francisco Buildings:				
23	1 Painter foreman .....				5,678
24	1 Painter .....				5,408
25	1 Electrician .....				6,240
26	1 Assistant supervising telephone operator .....				2,916
27	The painter foreman and painter will offset a reduction in temporary help from which the positions are				
28	presently being funded.				
29	The electrician is for added work load resulting from the acquisition of the California building and				
30	replacement of most of the electrical conduit and fixtures in the San Francisco State Building. An				
31	offsetting reduction in temporary help has also been made for this position.				
32	The assistant supervising telephone operator will provide additional supervision plus vacation and sick				
33	leave relief to the present supervisor and telephone operators.				
34	Los Angeles Buildings:				
35	3 Stationary engineer .....				11,700
36	1 Laborer .....				2,772
37	1 Storekeeper I .....				3,372
38	1 Building maintenance man .....				3,216
39	1 Electrician .....				6,240
40	1 Carpenter .....				5,345
41	2 Painter .....				10,648
42	1 Groundsman and flower gardener .....				2,772
43	The stationary engineers will provide 24-hour coverage of the air conditioning, heating and plumbing				
44	duties in the State Building plus assistance to the Highway Patrol, Civil Defense, and Fashion League				
45	buildings.				
46	The storekeeper I will provide physical control over maintenance materials, supplies, and tools.				
47	The laborer, building maintenance man, electrician, carpenter, and painters are required to meet the				
48	demands for emergency repairs, minor alterations and preventive maintenance required for the Motor				
49	Vehicle Building, Compensation Insurance Fund Building, and 11th and Grand Building as well as				
50	increased demands from existing buildings.				
51	The groundsman and flower gardener will maintain the grounds at the new Compensation Insurance				
52	Building. The cost of this position will be recovered through reimbursement from the Compensation				
53	Insurance Fund.				
54					
55	<b>OPERATING EXPENSES: The increase of \$138,407 is related directly to the full year operation of new buildings.</b>				
56					
57	<b>EQUIPMENT: The amount of \$43,989 includes the following major classes of equipment:</b>				
58	Replacement Equipment:				
59	Office furniture and equipment in poor condition .....				\$1,320
60	Tools, vacuum cleaners, and equipment for maintenance purposes .....				6,445
61	Two drinking water cooling units for state office buildings in Sacramento, and one gas and oil burner for Los				
62	Angeles State Building .....				8,400
63	One light automobile for administration, one $\frac{1}{2}$ -ton truck for craftsman pool, and two light passenger auto-				
64	mobiles for building maintenance operations .....				5,025
65	Additional Equipment:				
66	Office equipment for new employees .....				367
67	Office equipment required by increased work .....				1,977
68	Engineer, carpenter, electrician, plumber, locksmith tools and janitor carts and vacuum cleaners, etc., for main-				
69	tenance of buildings and grounds .....				12,770
70	One $\frac{1}{2}$ -ton truck in Sacramento and one $1\frac{1}{2}$ -ton truck, plus one carryall in Los Angeles for building maintenance				
71	purposes .....				6,345
72	Office equipment for new hearing room, State Building, Los Angeles .....				1,340

## DEPARTMENT OF FINANCE

## Local Allocations Division

This division is responsible for the administration of programs involving the allocation of funds to local agencies. These include allocations from the General Fund, the Postwar Unemployment and Construction Fund, and the Public School Building Loan Fund. In addition, the division is responsible for the supervision of the management phase of the Emergency Veterans' Housing Program.

LINE	EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54	CHANGE FROM 1952-53
------	--------------	-------------------	----------------------	---------------------	------------------------

## GENERAL ANALYSIS

Number of positions----- 68.5 75 79 4

The budget reflects the increased costs connected with the adoption and administration of the State School Building Aid Law of 1952. Work load related to the various programs administered by the division will change substantially during the 1953-54 Fiscal Year. The following tabulation shows the estimated percent of work load time which will be devoted to programs supported by the following funds:

	ESTIMATED 1952-53	ESTIMATED 1953-54
General Fund .....	14.2	11.8
Postwar Unemployment and Construction Fund .....	6.2	6.1
School Building Loan Fund .....	65.4	46.5
School Building Aid Fund .....	14.2	35.6

Principal changes in expenditures program are as follows:

**SALARIES AND WAGES:** The increase of \$20,305 consists of \$19,236 for two assistant civil engineers, one accountant auditor I, one senior account clerk and one intermediate account clerk required for administration of the State School Building Aid Law of 1952, \$22,020 for three auditor II and two accountant-auditor I positions to reduce the accumulated work load in the Emergency School Building Aid Act of 1947, the Veterans' Temporary Emergency Housing Act of 1946, and the School Building Aid Act of 1949. These increases are offset by a reduction of \$14,085 for positions allowed for earthquake relief in connection with Chapter 21, Statutes of 1952 (Second Extraordinary Session) and not continued in 1953-54.

**OPERATING EXPENSES:** The increase of \$2,229 is to provide related expense items for administration of the State School Building Aid Law of 1952.

**EQUIPMENT:** The \$5,903 provides for the following: \$2,956 for office equipment for new positions; \$327 for new files; \$320 for replacement of office furniture and \$2,100 for replacement of two automobiles.

## GENERAL ANALYSIS

29	Number of positions-----	12.3	12.8	12.8	-
30	<b>WORK LOAD</b>				
31	Fairs Held:				
32	District-----	49	50	50	
33	County-----	24	24	24	
34	Citrus-----	2	2	2	
35	Totals-----	75	76	76	

The decrease of \$28,971 results primarily from completion of the Customer Surveys and Research project in the 1952-53 Fiscal Year. Consequently expenditures for the total program will decrease by \$30,000. This decrease is offset by an increase of \$1,029 made up principally of a \$652 increase in the equipment category to provide permanent and temporary personnel with proper office furniture.

## GENERAL ANALYSIS

Number of positions ..... 74.9 76.3 78.3 2

The budget provides for maintaining California State Fair activities at the 1952-53 Fiscal Year level. The increase of \$18,181 is due principally to premium increases resulting from continual increases and other adjustments where required to maintain the attendance and revenue. The expenditures for 1953-54 will exceed the estimated revenue by \$637,894. It is proposed that this deficiency be financed from: available surplus in the amount of \$1,524; transfers from the Fair and Exposition Fund under provisions of existing law amounting to \$140,000; and an additional transfer of \$510,000 from the Fair and Exposition Fund.

**SALARIES AND WAGES:** Two positions are provided in commercial exhibits in order to provide required staff to operate this function on a year around basis. This is necessary due to construction of two new exhibit buildings. These positions were formerly hired and paid from temporary help for eight months during the year and an offsetting reduction in temporary help has been made.

**OPERATING EXPENSES:** The increase of \$26,221 is made up principally as follows: \$11,940 is for premiums in the General and Junior Division resulting from a continual increasing number of exhibitors, \$10,735 is for Race Purses, and \$1,399 for increased Pro rata Administrative Costs.

**EQUIPMENT:** The amount of \$38,636 provides \$1,184 for replacement of office furniture and equipment, and \$9,343 for replacement of tools, canvas, exhibit furniture, and water pumps; \$14,500 provides for replacement of one loader and finger lift, one 1½-ton truck, one 1½-ton dump truck, and two ¾-ton pickup trucks; \$13,450 provides for additional electric water coolers, canvas, pumps, street sweeper, and horizontal truck platform lift and dump body.

## GENERAL ANALYSIS

Number of positions..... 22.7 24.3 26.3 2

The increase of \$7,965 in support expenditures provides \$5,412 for one janitor and one watchman required in connection with reopening of approximately 11,000 square feet of floor space which was formerly unused; an increase of \$1,010 for publicity and public relations items and \$400 for increased building maintenance costs.

## Department of Finance

## DIVISION OF STATE LANDS

Administers the public lands belonging to the State, consisting of school land, swamp, overflowed, salt marsh, tide, submerged and other sovereign lands. Principal revenue-producing function is the leasing of the public lands for the extraction of oil and minerals.

Office at Los Angeles

## GENERAL ANALYSIS

## Support

Number of positions -----	61.8	67.5	67.5	-
The increase of \$36,711 consists primarily of a new item of \$10,000 for geophysical exploration of possibilities of oil and gas production of state lands proposed for lease and the shifting of two items from other current expenses consisting of \$15,000 for defense of quiet title actions and \$5,000 for establishment of index of state lands under jurisdiction of the United States. The last two items of expenditure have been shifted to the support portion of this budget since they are continuing expenditures rather than special projects.				
EQUIPMENT: Consists primarily of \$1,725 for office engineering equipment; \$1,300 for an automobile replacement; \$706 for replacement of worn out and loaned office equipment, and \$380 for field engineering equipment.				
OTHER CURRENT EXPENSES: A decrease of \$30,000 for Defense of Title to Tide and Submerged Lands is anticipated. It is expected that the judicial phase of the case will be concluded during the current year.				
A new project is added—Arizona-California Colorado River Boundary Determination, \$10,000. Recently the State was asked to join in a program developed by several federal agencies relating to the use of federal and state lands as a game refuge. The amount requested is for legal expenses and technical assistance in defending the state interest in property along the Colorado River boundary.				
Funds for defense of quiet title actions and establishment of index of state lands under jurisdiction of the United States have been shifted to the support portion of the Budget for the 1953-54 Fiscal Year.				

<sup>a</sup> Composed of savings in salaries and wages, \$14,473; operating expenses, \$22,273; equipment, \$1,813; and excess reimbursements, \$5,129.

<sup>b</sup> Composed of savings in operating expenses, \$22,333; and loss in reimbursements, \$10,000.

<sup>c</sup> Transferred to support portion of budget.

## Department of Finance

## NAPA STATE FARM

The farm is under the control of the Department of Finance. Through cooperation with the state institution, it may be utilized for agricultural or horticultural purposes or as a stock or dairy farm and may distribute to state institutions the products of the farm or the livestock. The Rector Canyon Dam is located on the farm and is the water supply for the Veterans Home of California.

## GENERAL ANALYSIS

Number of positions ..... 624.6      683      747      64

The total budget increase for 1953-54 over 1952-53 is \$388,414, analyzed as follows:

**SALARIES AND WAGES:** The \$324,024 increase in this category includes the following changes in work load and program:

	NUMBER OF POSITIONS	AMOUNT
1. Work Load Increase:		
(a) Permanent positions added .....	40	\$127,776
(b) Temporary help increased .....	(22.4)	50,877
2. Special Investigation Program .....	1	5,232
3. Exempt Corporation Program:		
(a) Permanent positions added .....	1	4,740
(b) Temporary positions extended .....	(2)	-
4. Search for Corporations Failing to File Under the Bank and Corporation Tax Law:		
(a) Permanent positions added .....	2	6,540
(b) Temporary help increased .....	(1)	3,441
5. Rearrange Bank and Corporation Tax Files .....	5	12,000

**OPERATING EXPENSES:** The additional \$46,245 provides for work load and cost increases throughout the agency.

**EQUIPMENT:** A total of \$60,061 is proposed, which is an increase of \$18,145 over 1952-53. Of the total required for 1953-54, \$11,422 is related to the proposed new positions; \$13,986 is for the replacement of worn out and obsolete items; and \$34,653 is for work load increases and necessary improvements in service.

## ADMINISTRATION

## Analysis

In addition to the general administration of the state income and franchise tax programs, this division includes the agency's accounting, statistical, collection, legal, and special investigative functions.

The program reflects a continuance of the annual heavy increase in volume of personal income tax returns, as follows:

1. Personnel Unit—One intermediate typist-clerk to handle the work arising as a result of the increasing number of agency personnel shown as follows:

	ACTUAL		ESTIMATED		PROPOSED
	1946-47	1947-48	1951-52	1952-53	1953-54
Number of agency employees .....	426	495	790	970	1,070
Personnel unit positions .....	1.8	1.8	2.8	2.8	3.8
Load per clerk .....	237	275	282	346	282

2. Accounting Section—One bookkeeping machine operator, three junior clerks, and 6.8 man-years temporary help are justified by relating the staff to its work load.

<sup>a</sup> Composed of savings in salaries and wages, \$38,436; operating expenses, \$2,947; and equipment, \$1,623.

<sup>b</sup> Composed of savings in equipment, \$1,762.

1							
2	ADMINISTRATION—Continued						
3							
4	A. 6.8 Man-Years Temporary Help for Personal Income Tax Return Filing Period.						
5							
6		ACTUAL				ESTIMATED	PROPOSED
7		1948-49	1949-50	1950-51	1951-52	1952-53	1953-54
8	Personal income tax returns-----	972,784	1,543,548	1,813,603	2,225,000	2,600,000	2,850,000
9	Temporary help man-years-----	5	10.3	16.4	26.7	29.2	36
10	Permanent positions devoted to						
11	Personal Income Tax accounting	37	38	42	42	52*	52
12							
13	Total -----	42	48.3	58.4	68.7	81.2	88
14	Load per clerk-----	23,161	31,957	31,055	32,387	32,020	32,387
15	* This includes 40 man-months of temporary help used because the 10 additional permanent positions were not established						
16	until November, 1952.						
17	B. Four Permanent Positions for Year-Round Bookkeeping and Mailing Operations.						
18							
19				ACTUAL		ESTIMATED	
20			1949	1950	1951	1952	1953
21	No payment returns-----		6,420	15,943	19,035	37,500	44,000
22	Partly-paid returns-----		20,606	33,996	40,509	59,000	70,000
23	Delinquent returns-----		14,882	16,604	53,707	70,000	82,000
24	To handle these large increases required the addition of 6.7 man-years of temporary help in 1952-53 which will be continued						
25	in 1953-54 together with the four proposed new positions.						
26	3. Appeals and Review—One junior counsel to assist in the processing of protests filed by income and franchise taxpayers. Despite						
27	an increase in protests decided by each reviewer, the backlog is continuing to rise as a result of the growth in the number of						
28	protests received.						
29	4. Special Investigation Section—One investigator-reporter to record formal statements in question and answer form from one or						
30	more persons and to testify in court in connection with these statements. This procedure is followed in the case of tax prosecu-						
31	tions in the Federal Government and criminal cases in district attorneys' offices.

## FRANCHISE TAX BOARD—Continued

LINE	SUPPORT EXPENDITURES DETAIL	NO. OF POSITIONS			ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54
		51-52 (Filled)	52-53 (Auth.)	53-54 (Auth.)			
1	FRANCHISE TAX DIVISION						
2							
3							
4	Analysis						
5							
6	This division administers the Bank and Corporation Tax Law.						
7	The following changes in program are proposed for the 1953-54 Fiscal Year:						
8	1. Two temporary clerks are extended to June 30, 1954 and one permanent Income and Franchise Tax Examiner II is added for						
9	processing and reviewing an estimated 26,000 exempt corporation returns, as provided by Chapter 344, Statutes of 1951.						
10	2. One accountant-auditor I and one intermediate typist-clerk for checking sources of information for locating taxpayers. An						
11	average of \$105,000 in revenue has been obtained annually over the last 3½ years from intermittent searches of trade journals,						
12	periodicals, etc. A permanent program is expected to realize a considerable amount of additional revenue.						
13	3. Five junior clerk, for 1953-54 only, to rearrange tax returns and related material in bank and corporation file folders so as to						
14	reduce the time consumed by audit and administrative personnel, and facilitate the transfer of inactive material to storage.						
15	4. One and one-half man years of temporary auditor and clerical help at a cost of \$5,300 for an investigation of suspended						
16	corporations.						
17

21	PERSONAL INCOME TAX DIVISION						
22	Analysis						
23	This division administers the Personal Income Tax Act.						
24	Changes in the division's program for 1953-54 are based upon a continuing growth in the volume of personal income tax returns and						
25	information at source reports, as follows:						
26	1. An additional 16 permanent positions and 18 temporary man-years of clerical help are required in headquarters to process the						
27	following estimated increase in tax returns:						
28					ACTUAL	ESTIMATED	
29					1949-50	1950-51	1951-52
30	Total personal income tax returns -----	972,784	1,543,548	1,813,603	2,225,000	2,600,000	
31	Clerical man-years, headquarters -----	149.6	185.7	222.4	278.6	312.5	
32	Load per clerk -----	6,503	8,312	8,155	7,986	8,320	
33	2. The two additional accountant-auditors are needed in the headquarters office to maintain a 50 percent audit of "small" returns,						
34	which was started in 1951-52 when 944,803 such returns were received. The estimate for 1953-54 is approximately 1,750,000 of						
35	these returns.						
36	3. The one income and franchise tax examiner II for headquarters will process an increasing number of claims for refund. The						
37	seven examiners for the Los Angeles area and branch offices would reduce a growing backlog of field audit and residence cases,						
38	and would continue to increase the amount of proposed assessments which were \$1,440,452 in the calendar year 1949 and						
39	\$2,665,419 in 1951.						
40	4. Two junior accountant-auditors and six clerks are needed in the Los Angeles and San Francisco offices for processing informa-						
41	tion at source reports. For the 1948 calendar year 2,295,903 reports were filed, 27,482 reports were investigated in the field,						
42	and \$60,409 in tax and penalties was assessed. For the 1950 calendar year, 2,778,479 reports were received; 158,467 will have						
43	been investigated in 1951-52 and 1952-53, and assessments will exceed half a million dollars. For 1951, 3,542,995 reports have						
44	already been received, which will further increase the work load volume in the field offices during 1953-54.

## GENERAL ANALYSIS

Number of positions----- 42.7 41 41 -

The State Treasurer's program for 1953-54 will be substantially the same as that provided for in the prior year.

The total budgeted increase for 1953-54 over 1952-53 is \$8,505, consisting of small increases in operating expenses and equipment and a \$6,500 increase in the printing of school building bonds due to the issuance of an additional \$25,000,000 in bonds over the \$75,000,000 issued in 1952-53.

<sup>a</sup> Composed of savings in salaries and wages, \$4,269; operating expenses, \$20,421; and equipment, \$1,395.

<sup>b</sup> Composed of savings in operating expenses, \$4,057; partly offset by deficit in reimbursements, \$2,000.

<sup>c</sup> Trust and agency funds are not included in the over-all budget totals. See Schedule 3 for statement of balances in other treasury funds.

ADMINISTRATION

Analysis

This function includes the office of the commissioner and the following staff sections: general administration, accounting, personnel, office services, shops and stores, and mechanical analysis.

Five additional positions are proposed to meet increased work load.

Two additional clerical positions are required to continue producing by punched card method certain statistical information as provided by Chapter 3, Item 154.5, Statutes of 1952.

Increases in operating expenses are based on work load with the exception of the provision for payment of teletype services provided by the Department of Justice.

57	SALARIES AND WAGES				SALARY RANGE		
58	Executive:						
59	Commissioner -----	1	1	1	\$1,000	\$12,000	\$12,000

36	ENFORCEMENT						
37							
38	Analysis						
39							
40	This function includes all field personnel, field office operations, and the Los Angeles headquarters.						
41	To achieve more adequate policing of the highways 17 additional traffic sergeants and 163 additional traffic officer positions are proposed.						
42	The number of uniformed personnel proposed is based on the capacity of the Training Academy.						
43	The other additional positions proposed are: Three clerks for field offices based on work load; 15 dispatcher-clerks required to provide						
44	radio coverage in seven locations; one photographer to centralize all photographic work in Los Angeles County; two telephone						
45	operators to answer night phone calls in Los Angeles County; seven part-time janitor positions for new offices; and increased						
46	time for six janitors now authorized for expanded offices.						
47	The remainder of the increase is attributable to operating expenses and equipment incidental to the augmented uniformed staff.						
48

28	TECHNICAL SERVICES						
29							
30	Analysis						
31							
32	This function includes the planning section, traffic safety education, preparation of statistics and reports, and specialized law enforce-						
33	ment applicable to commercial vehicles.						
34	Two additional positions are proposed; one supervising inspector to head up the division and one clerk based on work load.						
35	Operating expenses and equipment reflect work load increases with the exception of an increase in the traffic safety program.						
36

73	<b>TRAINING ACADEMY</b>						
74							
75	Analysis						
76							
77	The academy trains all new traffic officers and gives refresher training to all uniformed members of the Highway Patrol. Established						
78	as a separate division effective July 1, 1952. Increased expenditures are due to providing for full operation of the new facilities in						
79	the 1953-54 Fiscal Year.

## DEPARTMENT OF INDUSTRIAL RELATIONS

The department administers the state laws relative to labor through its nine divisions. In general, it is the duty of the department "to foster, promote, and develop the welfare of the wage earners of California; to improve their work conditions; and to advance their opportunities for profitable employment."

71					
72	<b>GENERAL ANALYSIS</b>				
73		766.9	789.5	837.6	48.1
74	Number of positions-----				
75					
76	This budget proposes increases due to program and work load changes and in some cases a combination of these factors. The increases				
77	are necessitated by the increasing industrialization of the State and the growing population and labor force. Changes are discussed				
78	in the budgets of the divisions where they occur.				
79					
80	a Federal aid receipts and the expenditures therefrom are not included in the over-all budget total.				
81	b Composed of savings in salaries and wages, \$11,761; operating expenses, \$7,405; equipment, \$1,115; and excess reimbursements of				
82	\$9,111.				
83	c Composed of savings in salaries and wages, \$1,654; operating expenses, \$15,675; and excess reimbursements of \$4,005.				
84	d Appropriation not segregated by category.

		51-52 (Filled)	52-53 (Auth.)	53-54 (Auth.)			
1	DIVISION OF ADMINISTRATION						
2	Analysis						
3							
4	The Division of Administration is composed of the director's office, the Supervisor of Industrial Accident Self-Insurance Plans, and the						
5	accounting office. The functions also include all general housekeeping services and fiscal management.						
6	This budget proposes a business service officer and a clerk to centralize the business service functions for all divisions in the Los Angeles						
7	area. One clerk and one half time telephone operator have been budgeted for the central services staff at San Francisco. An expansion						
8	of the program for enforcement of the workmen's compensation by two investigators is proposed. Pending possible law changes these						
9	positions are budgeted in the Division of Administration.
